Faculty promotions announced

The following members of the faculty received academic promotions from the Institute effective July 1: Prof. L. F. Copeland, chairman of the department of physics; H. F. Kiessling, associate professor of electrical engineering; J. B. N. Barlow, associate professor of chemistry; R. E. Dawson, assistant professor of chemical engineering; J. C. J. Shin, associate professor of civil engineering; and M. D. Kimmel, associate professor of electrical engineering. Professor Robert M. Leiser, assistant professor of electrical engineering; L. F. Kiessling, assistant professor of chemical engineering; and R. E. Sevi, assistant professor of chem- istry, were named to associate professorships in technical sciences. Benjamin A. Weis, assistant professor of civil engineering; Robert J. Fussani, administrative assistant in the dean of engineering; Morton H. Greene, assistant dean of the school of engineering; and John A. Buentello, instructor in mechanical engineering, were named to assistant professorships in technical sciences.

SS form request, new deferral rules

All those IIT students who did not fill in an SS-19 or SS-872 (selective service form) during the registration period must initiate the consideration of one's draft deferment status. Two changes have been made in the student deferment law rules which will affect students. The two requirements for student deferment have been changed to the use of either SS-19 or SS-872 (Selective Service Form). Under the new law all students have to fill in forms to determine their eligibility for deferment. The two requirements for student deferment have been changed to the use of either SS-19 or SS-872 (Selective Service Form). Under the new law all students have to fill in forms to determine their eligibility for deferment.

Reveal day enrollment drop of 216

Figures obtained from the president's office reveal a drop in the enrollment over the last semester. The total enrollment for the fall semester, as of last week, was 8,854 students. This is a drop of 216 students over the fall semester of 5,832 students enrolled in the fall semester of 1954. This drop is attributed to the increased costs and the increased competition among the various educational institutions.

Folk dance to be held in SU tomorrow eve

A Choral, Watusi Polka and Square dance, sponsored by the Women's Club of Illinois Tech, will be held on Saturday at 3:30 P.M. in the SU auditorium.

Call for the square dance at 7:30 P.M. will be given by Mrs. Helen A. Stiles, chairman of the SU auditorium committee. The program will include music by the St. James Quartet, and the square dance will be followed by a square dance. The dance will be held in the SU auditorium, and all are invited to attend.

IIT radio and TV has new supervisor

The appointment of Richard D. Johnson as supervisor of radio and television at IIT was recently announced by Stewart H. K. Johnson, vice-president of the university.

Johnson is a graduate of Northwestern University, where he received his B.S. degree in 1940 and his M.S. degree in 1941. He is also the recipient of the National Broadcasting Company's certificate in radio and television. He has been associated with the National Broadcasting Company for the past five years and is currently the program director of the company's radio and television division.

Eligible voters register; “Get Out the Vote”

During the first part of October, Technology Center will participate in a national “Get Out the Vote Campaign” for the coming presidential election in November. The following information on registration is published in a service to our readers.

You may register to vote if:

You are an American citizen.

You will be 21 years of age on or before election day.

You live in the state of Illinois (excluding county residents). You may register in Room 308 of the Cook County Building.

For all other areas, contact the Local Clerk for information.

Arrangements for absentee voting may be made by contacting the Board of Ward Commissioners or the Clerk of the county’s designated mail address. The address of the Board of Commissioners is Room 308, City Hall, Chicago, Ill.

Notice of change of address should be sent to the Board of Ward Commissioners at Room 308, City Hall, Chicago, Ill.

The deadline for registration is October 8.

Cigarettes for Best Letters

In line with its policy of presenting the reader’s views on school affairs, Technology News will award a carton of Chesterfield cigarettes to the best letters-to-editor every issue. All persons, whether students, faculty members, or employees of the Institute, are eligible for the award.

Rules are as follows:

1. Letters must be 250 words or less.

2. Letters must be signed, although the name will be withheld on request.

3. Commits para to any subject the editor desires — not only para- graph of Technology News articles and columns, but also advertisements, articles, or requests for information on campus issues, political or current affairs, etc. Letters will be judged on the basis of constructiveness and general interest.

Deadline for any issue’s award will be 12 noon of the Tuesday preceding the date of publication. Letters should be deposited in the Technology News mail box in the Student Union or in the office in the southeast corner of the MC building.

As I see it

First thing first, I send help. Our staff this semester is shortened; there are vacancies in almost every position. If anyone is interested in working on this publication, come on down to the office in the northeast corner of the MC building. It seems as if our troubles are shared by other groups, also. If social work in your line, the Ada S. McCollin Community needs volunteer workers.

Even the politicians are looking for help. Mr. Frank Herry is looking for college students to work on the Citizens Campaign Committee. He can be reached at 230 Wabash Ave.

With the current emphasis on dusting off the financial records, I wonder what some of the bigwigs would do to the campaign. Some of the bigwigs would be the new Caddie that the school picked up. The word is that the school budget is $100,000. With it, we can hire a staff of five. Most of the work is still done by the students.

Fortunately, the people in charge have a good idea about the needs of the student body. The Grand Old Man, Joe Wessman, starts his 25th year at Illi.

We might have to call in Uncle Sam from now on.

Diligent research finally uncovered the fate of my lost dog. Of course, it was the FPE’s, Seema, as if their favorite day came round the corner during the summer.

Radio to our competition. Our little campus radio station, 5.NZ, is going to start hitting the newstands. This publication is only in the hands of the White Collar Girls. More power to you.

The dream of a new Student Union building will be a reality. That is, it’s two and a half million dollar plan can ever agree with Shaffer General’s million dollar budget. Maybe some architect could do a job.

Here is a box. Scotch, a watch for a new girl, and a 5.NZ for the hams. Be sure to check your copy of the pages of Technology News. It is, at least, a reminder of the editorial, our paper is service to the student body. We will publish any articles of interest to all or a group of students. We only ask that all submissions be turned in to the office by Tuesday of the week prior to publication. No late stories will be accepted. The information must be clear and complete.

TN says “Welcome” as the beginning ends

So begins another semester at Illinois Tech. The memories of registration lines, bookstore lines, the maze of forms, the rush and the stress are already fading. In their place, new books, new courses, new instructors, and new freshmen replace the graduating crop of seniors. Students come back to the campus another year nearer their des-
Seniors! Here's the time and the place, so don your gladdest rags and be prompt

The first portion of pictures of 1951 June and January graduates for the Intergen are scheduled for Monday through Thursday in the third floor Sailboating. In order to ensure that the picture will be taken, all students are urged to be on hand at the exact time shown on the schedule below.

Monday, Oct. 13, 11:00 A.M. - 11:50 A.M. - Auditorium, 2nd Floor, South Wing
- 11:55 A.M. - 12:00 P.M. - Mezzanine, 3rd Floor
- 12:05 P.M. - 12:10 P.M. - Class, 1st Floor
- 12:15 P.M. - 12:20 P.M. - Class, 2nd Floor
- 12:25 P.M. - 12:30 P.M. - Class, 3rd Floor
- 12:35 P.M. - 12:40 P.M. - Class, 4th Floor
- 12:45 P.M. - 12:50 P.M. - Class, 5th Floor
- 12:55 P.M. - 1:00 P.M. - Class, 6th Floor

Tuesday, Oct. 14, 11:00 A.M. - 11:50 A.M. - Auditorium, 2nd Floor, South Wing
- 11:55 A.M. - 12:00 P.M. - Mezzanine, 3rd Floor
- 12:05 P.M. - 12:10 P.M. - Class, 1st Floor
- 12:15 P.M. - 12:20 P.M. - Class, 2nd Floor
- 12:25 P.M. - 12:30 P.M. - Class, 3rd Floor
- 12:35 P.M. - 12:40 P.M. - Class, 4th Floor
- 12:45 P.M. - 12:50 P.M. - Class, 5th Floor
- 12:55 P.M. - 1:00 P.M. - Class, 6th Floor

Wednesday, Oct. 15, 11:00 A.M. - 11:50 A.M. - Auditorium, 2nd Floor, South Wing
- 11:55 A.M. - 12:00 P.M. - Mezzanine, 3rd Floor

Seniors don their best camera does the rest

Monday is the start of the sittings for the senior portraits. Those concerned are all 7th and 8th term seniors.

The photographer, Stephen LeVayley, will be on campus from 9:00 A.M. until 3:30 P.M. in the 3rd floor lounge of the Student Union to take the pictures of seniors for the 1955 INTEGRAL.

The schedule on this page is a reminder for all those who signed up during registration. Because some of the appointments have had to be changed, all concerned should be sure to check on day and time.

The fee of two dollars per sitting is to be paid at the time of the sitting. This basic two dollar fee, one dollar will be credited to the student toward any portrait purchase. The second half of the fee goes toward the price of the photo for the senior portraits. The portrait prices are as follows:

- $2.00 for 2x3 inch
- $4.00 for 2x3 inch
- $6.00 for 2x3 inch

A signed order for a senior portrait must be handed to a staff member or mailed to the Student Union.

For example, if you sign up for a 2x3 inch portrait, the fee will be $2.00 and the price of the photo will be $1.00.
Newman club seminar

This week it was announced by the Newman club that a seminar on "The Philosophy of God" will be conducted twice weekly at 117.

Father Thomas McDonnell, chaplain of the Newman club will conduct the seminar every Monday and Wednesday at 11:15 to 11:40 at HILSHE. Everybody on campus, student and non-student is invited to attend. No credit will be awarded for this series of lectures.

It was also announced by Ben Harrison that the first meeting of the Newman club was very interesting and that membership has jumped 100%. The Newman club is now the largest organization on campus.

An entire program of lectures by guest speakers has been arranged by Mary Jane. The lectures and the club meetings take place every Wednesday at 3 p.m. in LLSC.

The Officers of the club are: pre: Ben Harrison, vice-president; Bill McFarland, Mary Jane; Phil Robinson and Tom Parent, sec., Louis Foyen and treasurer, Helen Dever.

FPEs close

The Fire Protection Engineering Society will hold its first meeting of the year tomorrow, October 6 at noon in room 100 MCC. All Fire Protection, Freshman, Senior, are invited to attend and vote on the election of new officers.

Invite former Scouts to APO smoker

Alphonso P. O'Keefe, national fraternity, will have a charity smoker at 8 p.m., Wednes-

day, in the Student Union lounge. All undergraduate students in ROTC are invited to attend and vote on the election of new officers.

Alphonso P. O'Keefe is dedicated to serve the students and staff of IIT, as well as the community, and country. While serving as a student officer, APO was one of the few known for its record of achievement at Illinois Tech.

Some of the many activities APO has handled in the past year are the non-profit book ex-

change, guide service during registration and Junior Week, assisting at all-school functions, com-

municating the blood drive, and originating the student directory. It is attached to Chi Sigma Chi, a co-educational organization, which, like APO, is destined to service the school, community, and country.

The regular period of pledgeship to Alpha Phi Omega will begin two weeks after the smoker. Any student interested in further information may obtain it at the smoker or by stopping at the APO office in the Student Union auditorium.

From 40 to 49—Like Australia—Everyone knows where it is but nobody goes there anymore.

A Message to Engineers

From Walter Tydor*

A secure future, continued opportunities for advancement, and a high starting salary with a view of Franklin Delano Roosevelt's concern for the future of the nation are the factors which encourage many of the younger engineers to enter the field.

A change in the status of engineers and a change in the attitude of the management makes it necessary for engineers to have the proper qualifications and the necessary training to function as engineers.

There are 1000+', engineers in the world today, but only a small part of the engineers are being trained for the position they are in.

The education in the schools has been carefully chosen to produce engineers of high quality. Engineers and students are urged to talk to the upperclassmen about the future of the engineering profession and to plan for the best that the future may bring.

Seniors offered inquiry of Navy OCS program

Lieutenant Commander Lester Ward of the Chicago Office of Naval Officers (OCS) will here on campus October 13 to interview senior men interested in the Navy's Officer Candidate Program. Lieutenant Commander Ward will be in the interviewing room on the MC building from 1 p.m. to 3:30 p.m. to interview interested seniors.

ITA holds first meeting; money short

On October 1, 1932, the ITSA Finance Committee held its first meeting of the fall semester. At that time the committee went over the budget request forms that the various student organizations on campus were requested to turn in.

Each organization was required to list their expected expenditures for the coming semester and a report of their past activities. Such information would give the committee some idea as to that organization's need for an ITSA appropriation. Because of the short time in which to turn in this annual, ITSA has not been able to supply most of the information to the student organizations.

A two politics economy, financial support to organization and set up last year which the Finance Committee would like to be able to do.

No money will be appropriated to professional societies for their own personal operation. It was the Board's feeling that they should support themselves, unless they plan to supplement their own complete function.

1. No money will be appropriated to any group in the business, technical, literary or social categories.

Test CAMEL; for 30 days

CAMEL is America's best pop-

ular cigarette. To find out why, just test them as your steady smoke.

Smoke only CAMELS for thirty days. See how rich and flavorful they are—pack after pack. See how mild CAMELS are—week after week.

CAMEL leads all brands by billions of cigarettes per year!
Show cafeteria standards better than general opinion

By Jim Spinner

After hearing many comments and jokes, all of which were derogatory, about the Student Union cafeteria, and Food Services in general, the Technology News decided to investigate the matter. The results of the investigation, surprisingly enough, were predominantly favorable toward the cafeteria.

Under the supervision of Frank C. Henshaw, director of Food Services, the Student Union cafeteria produces meals which are both filling and comparatively low in cost. The table below is a comparison of prices in the Tech cafeteria with prices of other cafeteria located in the city of Chicago.

Applying now for Fulbright Scholarships

Applications for Fulbright scholarships for the 1953-54 academic year must be made before October 15, 1953. Forms are available in the office of the Dean of Students.

Awarded under the Fulbright act are made to students for better understanding of the United States abroad, and to increase mutual understanding between the people of the United States and foreign countries.

There are no limitations on what may be studied, although the country for which an application is made must have proved that there is a need for research and study facilities available.

Scholarships are available for graduate or post graduate study. Tuition, books, maintenance, and transportation are covered by the award which has a duration of one year.

To be eligible one must be a citizen of the United States, possess a college degree, or its equivalent, have sufficient proficiency in the language of the proposed country to carry out the study, and must be in good health.

Further information may be obtained at Dean Daskaloff's office.

Fellowship is established by Sinclair

A. C. Spooner, president of the Sinclair Refining Company, announced that a fellowship in catalytic research has been established at Illinois Tech. Through these fellowships, Sinclair helps carry on the company policy of adding and encouraging graduate research in the physical sciences.

The fellowship is in addition to the fellowship in catalysis research at the University of Illinois. Each fellowship is equivalent to the cost of two graduate students.

The recipients have been selected on the basis of academic training and research activity in the field.

MODERN TRIANGLE
A BOY...A GIRL...TV

Let's face it. Living rooms are still in style. But a third party is itching to try in to form a crowd.

And wonder. Few can resist that miracle that has brought the world and set it down in front of you. Living history, flowing past your eyes. Politics. U. N. sessions. Sports. Spot news. Personality.

We in the Bell System our feelings toward the digital display systems. New radio, radio systems, and written cables carry the images between cities and across the country.

Our part in TV transmission is one among dozens of activities that keep us abreast of the fast line of modern communications. We are all relieved, we believe, why college students should find out what the Bell System has to offer in the way of opportunities.

Why don't you ask your college placement office about it?
Tech Sports

Nineteen game schedule conferronts basketball team. Spirit runs high

A rigorous 19 game basketball schedule is what faces Ed Glancy in his sixth year as coach. Touching off this year's schedule will be a rough opener against Lewis college of the Midwest conference. Games against Wayne, Knox, Carrol and Wheaton also look tough.

Pastime rivals Milwaukee State Vincents and Navey Pier who dropped two spaces in us last year are also included among this year's opponents.

Glancy runs the Wayne five, with a 21 and 5 record last year, as the team to beat this year. Wheaton and Carrel, with 17 and 24-3-5 holdovers are also expected to be ficted hard to overcome.

New opponents for Tech this year will be the rugged Lewis college squad from Lockport and Illinois college from Jolietville, one of three state programs.

With 8 letterman returning from last year's squad which won eleven and lost seven, prospects for the '52-'53 look very promising. Led by Captain Bob Peterson, this could well be the tallest team In Tech history. Joe Butterworth, junior pivot man and leading scorer of the '51-'52 aggregation, tops the poll at 6'-11" followed closely by 6'-9" John DeJohn and 6'-8" Ed Thullen, former Tillson and Wilson Jr. College star. Bill Neiswanger, Sophomore and John Rossoy, 6'-4" sophomore, will add height to the lineup. The return of Harry Houetta, 6'-1" center, also two years ago, should fill the big hole caused by the graduation of top three Tech's all time greats, Bob McGinn.

Players prominently in Coach Glancy's plans are Junior Carl Grant, a 6'-6" sophomore and excellent ball handler, Bob Swoet and Fred Fosco. Three

Baseball team gathers to hold autumn tryouts

Eight lettermen returned from last year's Chicago Collegiate championship baseball team to start full practice last week. Fred Fosco, who was re-elected captain, will again be holding down first base next year. Last year he was one of the mainstays as an surprisingly. Like Tech's Roundballers, Tech's Spiritians springboard on pitching.

Though he was full of the left side of the infield.

Jim Neiswanger and Bill Clemens returned to the field after two years absence. Clemens, who is exceedingly fast, will probably handle our defense in the outfield and Clemens who was an outstanding pitcher and batter will be a very welcome addition to the team. There should be quite a battle for the batting positions between Clemens and Varnon Luna, who was last year's catcher.

Religion founds and theCompose will supply veterans experiences in the outfield and in the pitcher. There will be a big hole open on the pitching in Dick Fosco and Mike Nalwot are the only pitchers to return this year. Ed Glancy didn't have too much to say about our year's freshman crop because freshman tryouts were cut down on attendance. He expressed the need for a second baseman as being most critical but he pointed to several others who could fill the role.

On the whole prospects look for next season and Glancy hopes to take a third straight championship.

Next spring, baseball practice will resume and the coach wants a lot of new men this year. Clemens is an outstanding coach and out a half who is interested in baseball and has a little natural talent, so they will soon come up and make a place for yourselves on Illinois Tech's championship team.

Athletic awards given for five spring sports by Chuck Ovam

At the end of the spring semester the Illinois Tech Athletic Department announced the presentation of 55 awards in five sports. The baseball team accumulated 14 of the major awards. The Illinois Tech baseball team was named in the top three in the major awards and three minor with the men's varsity seven minor. The fill-in, two-time Chicago Collegiate Championship, were awarded three majors and three minors. The track team handed out five awards.

The winners of major awards in baseball included on-coaches Fred, Fosco and Bob Fosco, who have been mainstays for the past three years. Along with Fosco and Swoet, John Ender, Jim Lane, Paul Langer, Bob Fosco, Ed Ostrander, Dick Fosco, Jerry Hensley, Bob McGinn, Ted Webel, Vern Bruck, Chuck Adair, Jim Zajacik and Bob Fosco, manager, received honors.

The track team led by co-coaches Jerry Hensley and Jerry Hensley experienced only a fill-in season. Along with the fill-ins, Matt McRill, Ed Schupmann, Chuck Ovam, Merle Blinn, Ray Johnson, Bob Ovam, Gus Wiegand, and Hal Homan, named eight major letters. Schupmann and Homan, consistent winners in the

There's something magnetic about men who wear Arrow White Shirts

Get those good looks...
From Where I Sit

by Bob Abrams

Well, the fall semester has begun, and to the sports minded Tech fan, the end of endless boring paper reports and physics problems, football, basketball, tennis, boxing and wrestling will now come with the falling leaves. True, intramural, intercollegiate and intercollegiate athletic programs are still under way.

The boys from Michigan Ave. have been bombing 'the lot' with the pigeon since last Monday. IM director Glancy has at least 22 teams signed up for the touchball tournament, and Illinois Tech is still maintaining its undefeated record in college football competition.

Basketball and football are racing each other for the next slot at headlamps. Entries for IM terrams are still open, so you boys who are interested in your year's Malta over to the gym and sign up. The IT net extravaganza is scheduled to take place this Wednesday, S.W. (That means signing up, not permitting, naturally.)

A basketball meeting for varsity and freshmen fellas has been called for next week. It doesn't seem strange to hear Ed Glancy in an optimistic mood about his team, as he usually comes up with a pretty fine conformation. The records don't show a tremendous powerhouse from IIT because of the type of opposition we face. Such as the team that beat the champions of the Big Ten.

The boys from the main yard of art defense, boxing, wrestling and the gymnastics, have not gotten up much steam. As soon as their schedules are completed, however, we'll be hearing plenty of them from the fans. The players will have lost only one man from last year's unbeaten crew, and the other schools are really going to have to improve if they expect to take any meets from our boys.

About the TV smarter have probably noticed TECHNOLOGY NEWS as a frequent opiniator in the annual IIT football contest. The only change from last year's contest is that entries are due at 5 p.m. on the Friday before the date of the game instead of the Tuesday of the week of the game. Two entries will be accepted at a later date, and will follow the trend of last year's awards. (If you're very good about this, but what can you do with a perpetual cup in the 1946?)

Oh, by the way, those of you who have signed up for the intramural tennis tournament, there will be a meeting for you next Tuesday during the free period in the gym.

Sunny Weiseman celebrated his silver anniversary at Illinois Tech last September 17. Twenty-five years is plenty of time in which to establish a man among the fellows here at Tech, and Sunny has done plenty of establishing, all good, by the way. His position as athletics director puts him in the natural class with the real male athletes of this school, but that isn't lacking in some detail, either of Sunny's. He has never grown less than 5'6" he weighs 170 pounds and the statistics and biographical data written about him in the yearbook seem to weigh more than 22 feeder cats and sweatshirts turning the fresh to get out for the teams or to participate in the IM program. (We're still at the stage where or not or is eligible to play in the IIT football league.

Sunny is the man responsible for the IIT Tech Theater, perhaps the best, and certainly the most realistic student production of this college. The smooth efficiency with which this has been run off is directly attributable to Sunny's method.

The box-office has the distinction of having the Athletic Director as their boss. They could hardly have a more qualified subject. Sunny was born for Lake Tech and De Paul University. He has played football and basketball from De Paul, and the last time we heard about him he was playing for his team at De Paul in 1946.

Sunny is a man of much experience and he has been an official in the Chicago football league since 1927. He has had experience as an referee since 1945 and is now active in the boxing commission. He was a member of the Chicago Police Department from 1918.

Personally, I'd like to thank Sunny for his great co-operation with us on the sports staff, and congratulate him for the whole support of this endeavor.

Golf tourney plans open for new members

The Golf Tourney, too, will be open to new members and new players, and will be open to all who wish to enter. The tourney will be held at the Oak Park Country Club, and will be open to all who wish to enter. The tourney will be held at the Oak Park Country Club, and will be open to all who wish to enter. The tourney will be held on Sunday afternoon, and will be open to all who wish to enter. The tourney will be held on Sunday afternoon, and will be open to all who wish to enter. Campus capers call for Coke

Everyone enjoys the break between classes. The lid’s off for a time and relaxation’s the mandate. What better fits the moment than ice-cold Coke?

Radio

Continued from page 11 September 22 with a show on applied psychology. Last Monday a show on atomic fireplaces appeared, with Lawrence Hollis, supervisor of Physics, at ARB and Richard Humphrey, chairman of Physics Research at ARB. In the future John Ahern, director of Fire Prevention and Safety Engineering will be on a talent list on Fire Prevention in line with Fire Prevention week. Also planned is a program on rockets, jet propulsion and guided missiles with Kenneth Jacobs in Mechanical and Proppulsion at ARB.

A completely new series of programs for radio and television is being planned for the future. The radio programs such as “Futuristic Foods” and a series of weekly broadcasts on guided missile may be included. Illinois Tech may also produce a series of TV programs in the future. These new shows on radio will present opportunities for students to actively participate. Anyone who is interested is invited to participate by either calling extension 690 or dropping in person in the radio office located in the Engineering Building. This is an excellent opportunity for students!

The radio department should become one of the most popular student activities on campus.

CHESTERFIELD
FIRST PREMIUM QUALITY CIGARETTE

TO OFFER BOTH REGULAR & KING-SIZE

BOTH regular and king-size Chesterfields are premium quality cigarettes and come in the smart white pack.

BOTH contain only those proven ingredients that make Chesterfields the best possible smoke: the world’s best tobaccos, pure, more costly moistening agents (to keep them tasty and fresh), the best cigarette paper that money can buy—nothing else.

BOTH are much milder with an extraordinarily good taste and, from the report of a well-known research organization—no unpleasant after-taste.

BOTH are exactly the same in all respects. There is absolutely no difference except that king-size Chesterfield is larger—contains considerably more of the same tobaccos—enough more to give you a 21% longer smoke, yet costs little more.

CONTAINS TOBACCOES OF BETTER QUALITY AND HIGHER PRICE THAN ANY OTHER KING-SIZE CIGARETTE

ASK YOUR DEALER FOR CHESTERFIELD—EITHER WAY YOU LIKE 'EM

LARGEST SELLING CIGARETTE AT AMERICA'S COLLEGES

SU club new

Finding no number of past student activities of the SAJAC inactive, the Student Association has taken steps to restyle the group and set up a new student organization that will be called “the SAJAC.” As an aid to the student body, the SAJAC will be glad to publish the new club to the fullest extent.

Gross, vice president of the SAJAC, spoke on the future of the organization in two meetings at 3:00 and 3:30 on the first day of the new school year.

Dr. Gross, formerly professor of chemistry, is a member of the executive committee of the SAJAC and is in charge of the new group.

Dr. Gross, who was graduated from the Illinois Institute of Technology in 1922, is a well-known scholar in the field of chemistry and has been a member of the faculty of the institute since 1922.
