Unusual stage play by campus players coming

Imagine, if you can, the gaiety and action of Venice—the gondolas and streetcarriages, the street musicians and the streetcarriages, the street musicians and the streetcarriages. This semester, the Campus Players are bringing this to campus.

The Campus Players' production of "The Comedy of Errors" will be presented on March 19, 20, and 21 in the Student Union Auditorium. The play, written by William Shakespeare, is a classic example of medieval comedy and provides a fun-filled evening for all who attend.

OH mentors declare High School day

IIT's Oh! Open House committee has announced that Saturday, May 9, will be "Oh! High School Day." The event will feature a variety of activities to encourage high school students to consider engineering as a career.

At the event, students will have the opportunity to participate in hands-on engineering activities, meet current engineering students, and learn about the different fields of engineering. The day will also include a panel discussion featuring current engineering students and alumni.

Physicist to give sermon here Sunday

This Sunday afternoon, a physicist will deliver a sermon at the campus chapel. The speaker is Dr. Robert J. Atkins, associate professor of physics at IIT. The sermon will be titled "The Nature of the Universe." Atkins is well-known for his work in theoretical physics, and his talk is expected to be both informative and inspiring.

Rough Castings pursue talent for annual farce

Rough Castings, campus variety group which puts on an all-night farce every year, will hold tryouts and auditions in the Student Union auditorium next Tuesday, Wednesday, and Thursday. Ron Felgen, president of the Rough Casting organization, and director of this year's show, has sent out an appeal for personnel in all phases of the production. As it has been stated before, part, talent, and skill are not required. Anybody who would like to have a lot of fun somewhere along the line of dramatics, is urged by Ron Felgen to come in for auditions. Anyone who thinks he would make a good show girl might also apply.

FIlms chosen for semester

"Military," will be the first in the semester's series of films. The film, a technicolor epic of the White Collar Girl and will be shown in March 3. "The Day After Tomorrow," will be shown March 10. "The Best Years of Our Lives," will be shown March 17. "The Little Drummer Girl," will be shown April 3. There will be some changes in the dates and films. The films chosen for the semester are publicized nowhere, and it may be that some of the films will be changed on short notice. Anybody who thinks he would make a good show girl might also apply.

I.D. lectures scheduled for March-May

Psychological Testing, an important part of University life, will be the first of the lectures. The lecture is open to all students and will be held in the Student Union auditorium next Tuesday, March 1, at 8 p.m. The lecture will be given by Dr. John D. Watson, professor of psychology at IIT. The lecture will provide an overview of the field of psychological testing and its applications in education and psychology.

The second lecture in the series will be "The Social Psychology of Group Decision Making." This lecture will be given on March 8, at 8 p.m. The lecture will be given by Dr. Margaret J. Meyer, professor of psychology at IIT. The lecture will focus on the mechanisms and processes that influence group decision making.

The third lecture in the series will be "The Psychology of Human Development." This lecture will be given on March 15, at 8 p.m. The lecture will be given by Dr. William J. F. Miller, professor of psychology at IIT. The lecture will explore the developmental processes that influence human behavior and cognition.

The fourth lecture in the series will be "The Psychology of Personality." This lecture will be given on March 22, at 8 p.m. The lecture will be given by Dr. John O. K. Miller, professor of psychology at IIT. The lecture will provide an overview of the major theories and approaches to the study of personality.

The fifth and final lecture in the series will be "The Psychology of Language." This lecture will be given on March 29, at 8 p.m. The lecture will be given by Dr. Elizabeth J. Miller, professor of psychology at IIT. The lecture will explore the cognitive processes that underlie language production and comprehension.
Tomaim Time

Denies proof of cheating

Dear Sir:

The first issue of Technology News of the spring term revived what most of the student body hoped was a dying problem, namely, cheating during examinations. No one will deny that cheating exists at IIT. The degree of the amount of widespread habitual cheating is a question serious enough to be examined for possible corrective measures.

The editor makes a statement that there is grave doubt of proof or even willingness to offer proof. The extensive use of 'ponies' and other forms of cheating during the final exams last semester. The accusation that a large percentage of IIT students are dishonest demands some proof. This is very desirable if for no other reason than to establish validity to irresponsible statements.

An honest student person does not cheat. An honest student person does not cheat. The University of Technology is an honest institution. An honest student person does not cheat. The University of Technology is an honest institution.

C. L. Anderson

Slipstick

Because of the absence of any comments good or bad about Slipstick, we're beginning to get the idea that no one reads the column. How about some letters from our readers telling us what they think about our sense of humor, that is if you think we have any.

Denise Young: "Oh, what kind of an offer are you?"

Offer: "I'm a naval surgeon.

Denise Young: "Dear, dear, how do you doctors do?"

Cowboy (beating): "I want to die with my boots on.

Redhead (purring): "Well, put 'em on here come my husband."

Judge: "How many children do you have Mr. Anderson?"

Mr. Anderson: "Well, Judge, I have two by my first husband, one by my last husband, and two by my cat.

Technology News

From Where I Sit

by Clive Wilson

In last week's column, I expressed the opinion that the so-called student apartment strain which is branded Tech-banks was due in part to the poor facilities on campus.

Last Friday an interesting development occurred. At the Homecoming game, the stadium which was estimated five hundred spectators, there were a curious lack of support by the faculty and administration. There were only five representatives of the Institute. There were Dean DeBlaise, Dean Conaugh, R. J. Speicher, Vice President and Treasurer of IIT, AEP and 170, and O. Golden Eisner, Director of Music. Hats off to these gentlemen.

This is a sad state of affairs particularly when the administration is trying to find some way to stop dropping enrollment. Perhaps the administration should take a good look at themselves before trying to remedy the other side of the school.

While I'm on the subject of the game last Friday, the indulgence of the fans was strikingly shown. Spectators were forced to stand along the sidelines of the court and some were almost in tears. It seems that Tech-banks was the complete lack of support for the ping-pong games. Some of the more frugal players have to resort to using their chemistry and physics books.
Find college students against drink in dorm!

The American College Press has compiled the result of a student opinion poll concerning drinking in dormitories and fraternity houses on college campuses throughout the country. The result of the poll is such that means of students all over the country will clap their hands in glee. It seems that college norms are higher than is commonly thought, at least where on-campus drinking is concerned.

The question "Should drinking be allowed in dormitories?" was answered as follows:

- Should be allowed: 10%
- Should not be allowed: 80%
- No opinion: 6%
- Other: 4%

Some interesting comments were received along with the answers to the poll. Among them, a student at Richmond Professional Institute felt that "The more restrictions that are imposed, the more people will want to break them."

Applications for SAAB being taken

The Student Admissions Advisory board is accepting applications for membership for this summer. The board, a committee of ITTA, consists of 15 members and is advised by a faculty chairman, Mr. Coates. The board makes recommendations for the admission of students to the SAAB program. Students interested should submit their applications via the SAAB committee by March 1. Applications should include name, address, major, and list of courses taken.

Attention June Graduates

GOODYEAR AIRCRAFT CORPORATION

INTERVIEWING MARCH 6, 1953

REPRESENTATIVE of Goodyear Aircraft Corporation, Akron, Ohio, will be on your campus to interview seniors and graduate students in the following technical fields:

- MECHANICAL
- INDUSTRIAL
- ELECTRONICS
- AERONAUTICAL
- METALLURGICAL
- ENGINEERING
- PHYSICS
- CIVIL
- ELECTRICAL
- MATHEMATICS

for opportunities in:

- DESIGN
- COMPUTER
- POWER PLANT
- STRUCTURAL
- CONTROL
- ELECTRO-MECHANICAL
- AIRCRAFT SYSTEMS
- ENGINEERING
- TOOLS
- PRODUCTION ENGINEERING
- TOOL PLANNING

WHAT, SELL INSURANCE WITH A VOICE LIKE THAT? SHE`LL BE AN OPERA STAR!

EVEN A RABBIT CAN RESIST THE SEDUCTION OF A FEW GOOD CAMEL.

Test CAMELs for 30 days for MILDNESS and FLAVOR!!

There must be a reason why Camels is America's most popular cigarette—unusually mild for tobacco. Please Camels have the two things smokers want: smooth, mild taste, full flavor and cool, cool, cool.

Camels for 30 days and see how mild, how flavorful, how thoroughly enjoyable they are in your ready uphol...
An Opportunity for Graduate Engineers with Goodyear

Representatives of the Goodyear Tire & Rubber Company and the Goodyear Atomic Energy Corporation will be on your campus to interview students with B.S. and advanced degrees in the following fields of study:

- Chemical Engineering
- Mechanical Engineering
- Electrical Engineering
- Industrial Engineering
- Civil Engineering
- Chemistry

OPPORTUNITIES FOR GRADUATES WITH THE ABOVE DEGREES NOW EXIST IN THE FOLLOWING FIELDS:

- Plant Engineering
- Production Development
- Process Development
- Research
- Machine Design
- Factory Management
- Technical Sales

CONTACT YOUR STUDENT PLACEMENT OFFICE NOW FOR YOUR INTERVIEW WITH THE GOODYEAR REPRESENTATIVE ON (PUBLICATION MARCH 6)

AND GOODYEAR ATOMIC CORP.

State of the Union

By Mills Schissler

With the new semester getting into full swing, the auditorium is once more frequented by faculty members trying to steal (or beg or borrow) ping pong paddles. The situation will be remedied as soon as possible, but the secretaries have been reminded that the SUI budget cannot possibly cover everything.

While we're on the subject of ping pong, the tables are often used for tournaments sponsored by campus groups. Any organization wishing to run a tournament should contact the Student Activities Committee for the rules and reservations. The tables can be reserved for play during the hours desired by the group.

A new service will be put into effect during the beginning of March. Called "the lighting circuit," the third floor lounge will be equipped with two ping pong tables, and the lights will be turned on during free study hours. Students can use the tables for table games, ping pong or other social activities.

The all-campus computer system will be in full operation by the beginning of March. The student union committee is working on a schedule for the computer, and plans are to have it operational by the end of the month. The computer will be located in the first floor lounge, and students will be able to use it for various activities, such as studying or working on assignments.

A note in regard to publicity: student union meetings are held at the union meetings. In the past, students have been asked to bring their own copies of the SUI minutes, but this is no longer necessary. The minutes will be available for anyone who wishes to see them.

Organizational matters may have noticed that the mailroom system at the union is not as efficient as it could be. The new system is being installed gradually, and students will be notified of any changes as they are made.

The new union committee, as you know, has set up a bill to determine student opinion on various issues. The bill will be included in the next issue of the union newspaper, and students are encouraged to vote on the issues presented.

This column is one of the bills of the public relations committee. It is also intended to serve as the student union's newsletter, and it will be published biweekly. Students are encouraged to submit articles, photos, or any other material they wish to see in the newsletter.

As you know, the Student Union Board is a large group. It is important to remember that the board is made up of students, and the decisions made by the board reflect the opinions of the students. It is important for students to be aware of the decisions made by the board, and to discuss them with their friends and classmates.

Rough Draftings (continued from page 1) continues to be a must-read for all students at Illinois Tech. This year's edition is a collection of the best work done by the Illinois Tech students. The draftings are a great way to see what can be done with a little bit of hard work and dedication. If you are interested in seeing what the students are doing, you should definitely check out the draftings.

Thats the union news for the month. Don't forget to check out the campus events for the month, as there are always a lot of great events happening on campus.

Interviews

Tech music clubs to go on the road April 21-22

Illinois Tech music clubs opened an ambitious season last Friday as the Glee Club and baseball game under the direction of O. Gordon Proctor.

International club throws soiree Sat.

Tomorrow evening the International club will hold a soiree for its members in the home of Mr. P. R. B. House.

The International club also sponsors a social hour every Thursday, known as "Coffee Klatch," which is held in the SU at 4 p.m. The club invites everyone to come and learn more about the International club in addition to partaking in the social life.

The International club, whose membership is open to all students on campus, is presenting its soiree in order to encourage its purpose of fostering an opportunity for personal contact which transcends national and cultural boundaries. The club believes that the most important thing in the world is to know and understand people.

for greater accuracy.

Tech loses Homecoming Game 76-74

Byerwalter hits for 28 points as Monmouth wins in closing seconds

Monmouth College shot out a 76-74 victory in the final seconds of play last Friday evening as Tech played their fifth annual Homecoming Basketball game. This loss was the first time in five years that our basketball teams have come down to defeat in a Homecoming contest.

Tech took a lot of effort to make a better "grasshopper"

It took a lot of engineering to make a better "grasshopper".
Fraternity Row
by Dave Sullivan

AEPhi was victorious over Delta Xi by a score of 15-0 in a battle royale of 15-point stunts performed by "Wild Willy" Glennon of Delta Xi. Hartman led the victors with 12 followed by Rohrs with 11 and Rubenstein with 9. Good fourth play and aggressive blocking by "General" Hartman paved the way for the AEPhi win.

The first game of the playoffs was between Alpha Sigma and AEPhi by a score of 16-0 after a game that started slowly. The turn was lost and the score of the Delta Xi game was a large part of the victory. As he headed up 14 points for the Big Blue, Krueger and Meddell shared second place honors for the Big Blue with 7 each.

High point man of the game was Joe Gable with 12 followed by Hartman with 10. The second game brought a closer score to a spiritual battle won by AEPhi with seniors outstanding in the alumni, cheerleaders and cheerleading sections. The big stunts were scored by Steve Haskins for AEPhi on 1st and 2nd to put the AEPhi in the lead for the first time. By the start of the 3rd half, AEPhi was in the lead with 19, and continued their lead with 10 points for the Big Blue. Krueger and Meddell shared second place honors for the Big Blue with 9 each.

The final score was AEPhi 37, Delta Xi 13.

Career opportunities with Continental

Positions in technical and non-technical fields

Continental Can Company, established in 1905, is one of the nation's 50 largest corporations. It operates 65 plants in the U.S., Canada and Cuba, 17 field research centers and 52 sales offices. Continental does business in every important processing or manufacturing section of the country.

Continental Can Company invites graduates in chemistry, chemical engineering, mechanical engineering and electrical engineering to apply to our engineering program. You will find Continental Can Company an ideal place to start your career. If you are interested, please send your resume to: Continental Can Company, 123 Main Street, Anytown, USA.

Homecoming
At the first quarter opened Tech took control of both backboards and shot off in an early lead. They scored their advantage as they threw a few passes away. Ray Brown's "shoot" forward improved the score with his excellent dribbling and accurate shooting at the last minute gaining a slight lead. The quarter ended with Monmouth ahead 5-4.

The second quarter was dominated by the "score" line teamwork, as Tech played defensively under both baskets. Monmouth increased their lead to 15 points by the quarter. The Tech players attempted to shoot more often which narrowed the margin to 49-41 at halftime.

As halftime the candidates for Homecoming Queen were introduced. Next the Jefferson Band and Glee Club, under the direction of O. Gordon Reynolds led in the singing of "The Alma Mater." The "unanimous vote" awarded for the 1951-52 basketball season was presented to the president in Bob McCoo by Bernard Willamar, director of athletics here at Tech. McCoo was unable to be present due to illness in the U.S. Army.

During the first 15 seconds of the second quarter the reference three fouls on our backboards, which caused the loss of both fans and players alike. The Technicians rallied after this with Carl Gurnet with his excellent floor play, and almost perfect shooting, starting the 22-point-scoring attack. By the middle of the quarter they headed up the score at 31-11. During this period, Monmouth held the score at 31-11. One factor in the outcome of the game appeared to be the effort of a few defensive players. This maneuver did not succeed at Monmouth began hitting from out, and led 40-41 at the rest of the quarter.

The loss of Bill Whiting early in the last quarter put a tremendous load upon the rest of the team. The atmosphere grew tense as Tech constantly narrowed the lead in the closing minutes. With only seconds left to go, Carl Gurnet looked out. With 1 minute remaining, Ray Brown's "shoot" forward hit it up with a free throw, 72-71. The "score" line forced the ball until the last 2 seconds, when they would make the second goal 72-71 in their favor.
