Prom to initiate week of fun, relaxation, enjoyment for all

Junior Week point system now complete.

The Junior Week committee has completed its listing of the point system to be used in determining activities to be held next week. In most of the events, tasks, and chores, points earned by either a student or group of students will be determined by the number of points assigned to that event. The letter "A" stands for a successful, the letter "F" for a failure. The letter "N" stands for no information.

EVENTS

Prom - 70
Greased Pig Contest - 20
Bridge Contest - 10
Baking Contest - 5
Tarble Tournament - 5
Record Contest - 5
Attend University - 5

Individuals can earn points on the basis of whether they have completed a task. For example, if a student completes a task, they earn 5 points; if they fail, they earn 0 points. The letter "A" indicates that the task has been completed, the letter "F" indicates that it has not been completed.

May 11 deadline set for deferment applications.

As a recent bulletin from the Selective Service System, Major General J. L. B. Hulsey, director of the selective service program, reminded college students that applications for the May 21 selective service qualification test must be submitted to the Educational Testing Service, Princeton, New Jersey, by May 11, 1952.

The May 21 test is primarily for those students who are not eligible for the draft, and it will not affect eligibility for any other government assistance. The test is open to all students, including those who are not eligible for the draft.

The May 21 test is used for the following purposes:
- To determine eligibility for the draft.
- To assess the educational qualifications of the student.
- To assess the student's potential for service in the armed forces.

Those who are eligible for the draft may also be eligible for other forms of government assistance, such as educational grants or loans.

Ugly man contest looking for specimens.

Now is the time for all good men to come to the aid of Alpha Phi Omega, national service fraternity, and put on their worst facial hair for the Ugly Man contest. The contest is open to any worthy specimen who wishes to be considered for the title of the ugliest man on campus. The contest will be held on the evening of May 11, and the winner will be announced on May 12.

Square dance to open JW with big whirl.

As the new year comes to a close, the Junior Week Committee is planning a special event to celebrate the occasion. The event will be held on the evening of May 9, and it will feature a square dance performance.

The dance will be held in the field on the University campus, and it will be open to all students. The dance will feature traditional square dance patterns and music, and it will be a great opportunity for students to socialize and have fun.

Dinner dance June 11 to be galas occasion.

The Junior Week Committee is pleased to announce the planning of the Junior Week dinner dance, which will be held on the evening of June 11. The dance will feature a variety of music, including swing and big band music, and it will be a great opportunity for students to dance and socialize.

The dance will be held in the University field, and it will be open to all students. The dance will feature a variety of food, including appetizers, main dishes, and desserts, and it will be a great opportunity for students to enjoy a meal together.

There will be a short break in the main event next week. The舞台 will be in the center of the stage. The event will be held at 8:00 PM, and it will be open to all students. The event will feature a variety of music and dance performances, and it will be a great opportunity for students to enjoy the evening.

Pub Board needs 3 new members.

Students looking for a challenge or a way to improve their skills are encouraged to join the Pub Board, which is responsible for organizing events and activities for the college community. The Pub Board needs three new members to help plan and execute events and activities for the next academic year.

Students interested in joining the Pub Board should contact the student affairs office for more information. The student affairs office is located in the Student Center, and it is open from 8:00 AM to 5:00 PM, Monday through Friday.

Students interested in joining the Pub Board should also attend the upcoming meetings to learn more about the group's mission and goals. The meetings are held every Wednesday at 3:00 PM, in the Student Center.

Students interested in joining the Pub Board should also consider the benefits of joining the group, such as the opportunity to meet new people and develop leadership and communication skills.

Students interested in joining the Pub Board should also consider the commitment required, such as attending meetings regularly and contributing to the group's events and activities.
JW time for study, vacation and activity cooperation

In a Techtown's life the most precious element is time. The hours and even minutes are invaluable, and it's told lots of them to waste. If we only had a little more time.

Some instructors take note of our only twenty-four hours a day, although there are the exceptions. Homework is given liberally during the week and even more so on weekends, only to be forgotten then.

Junior Week is not an ordinary vacation, nor a vacation for the students; that is not the purpose. It's called Junior Week because the students have the use of Open House, a time to bring people here, and show them what kind of a school we are on Thirty-third and Federal street.

Presidential and departmental competition brings many students into activity, giving students who have not come out for activities an opportunity to do so. This is a chance to show a little spirit that belongs in a college.

Should homework be given? It is obvious that it is going to be given. Every student is busy with his own work, but Junior Week will not be the place where activities are simplified between the worries of extra heavy assignments.

Students also will have to cooperate if Junior Week is to be successful. The Temperance Union should not be too weak, and the weather was not the only reason. The atmosphere has to be right. The students have to show up for their activities on time, they have to practice, not show up for their own Open House. There are 500 students who count on you to do your part in making Junior Week a success.

Senior Week is the key word, from the instructor and from the students. Let's see a college atmosphere next week. We really need some around here.

The editor's mail

Dear Editor,

It's still the same old campus. In the four years we've been here, things haven't changed much. If anything, it seems that student spirit is growing exponentially. If students want a glorified high school, they are taking the right steps. They have already put one foot in the grave.

Tech News is still as hard-up for staff members as it ever was. With help from the lower classes, JW will have no one to give money to next year. So, there will be a TBS office, a director, and a slate of staff members.

With some students running uncontested for office, it looks like a few of Tech's students don't give a damn about anything.

The task of holding down a class, especially in the upper classes, is not one which requires a vast background of experience. It offers a chance to experience the fun of leading the school. Tech News is a good place to start. I believe that the students have a good candidate for class officer. Therefore, while it is not too late, any student who fits the above qualifications and feels that he could hold down a class office should try it. All students are welcome to run for the slate of officers. Tech News is the key word, and you might just as well join us.

Sincerely,

Bob Abner

The Lake Time

It was just a day or two and Junior Week, when Tech's lowly showed up down at the lake. It was a perfect day for a picnic, and the students took a chance. They decided to enjoy the lake, and they enjoyed it.

Then there was the man who cleaned the ice from the pond, and the day before his daughter had eight proposals of marriage.

Ralph and Jack were being asked at the same time by Anna and Betty, respectively. May we repeat, Anna belonged to Ralph and Betty, respectively, and Jack belonged to Betty. The newly married couple spent their honeymoon at Niagara Falls, and Ralph was at the same table and became inexpensive, and well-inexpensive. After dinner one evening they started upstairs, and the lights froze. They said something about lightning struck the transformer and went out. They were both very excited.

Grading around, they made their way home, and Anna went around. Jack was a religious friend, and Betty was in his arm. He said, "I've made my prayers come on, and he said, "I've made my prayers come on," and Betty answered, "I've made my prayers come on.

To the boys of Bata Guagua Nia:

I think that I shall never hear, A poem so lovely as a beer. A beer that starts to offensiveness Can seem so like your hands.

I like both you and beer, my one,

But beer is much more fun,

I like the way it dulls my nerves,

And makes your angles twist to curves.

I look through beer, warm and shiny, clear,

And all my inhibitions show,

So what care I for you, my dear.

When all I want is one more beer.

Burch: "Do you know what they're saying about me?"

Payne: "Why do you think I came over to see you?"

"Dave was over to my house last night, and as he was leaving he asked me to wear his fraternity pin, but I told him I couldn't wear it, until I knew you better."

"But you're wearing it now?"

"Well, I'm right, right?"

A little boy went to school for the first time last week, and the teacher explained to him that he wanted to put the washcloth in the water before he washed his face. The boy looked very puzzled. "How's that gonna stop it?"

The man who invented the dry-cleaning should be very wealthy, because, millions have been made on it.

We have no bias, we're Smutty and Pleaty.

Technology News

Published every Tuesday during the past year in cooperation with local high schools, the Illinois Institute of Technology, and the Chicago Daily News.

J. W. Dune, Editor

March 1, 1953

Management and administration of the Journal of the IIT Student Association (JW) has been taken over by the Abraham Institute.

Latest in portable equipment: a new portable television set. The set weighs 12 pounds and is the size of a large book. It comes with a one-year warranty.

The Interprofessional council is still in a stimulus state. Last week and elected officers. This is a very good sign indeed, for it marks the beginning of a larger group for all professional students.

The executive positions of the Student Union board will be vacated, and there will be very few openings filled to fill these positions. The SUB is a vital part of student activities, and the executive positions are a vital part of the SUB. Because of this it is most important that those who have enough interest to apply for the SUB do so. Oh, and have a great time in the long run.

JW has been the source which might be interesting to any student who might drop in to find out more about Tech. The upcoming events, the upcoming events, the upcoming events, the upcoming events. Always a controversial subject, always a subject of entertainment for his audience, as was this week.
JUNIOR WEEK ACTIVITIES

Class members urged to enter epic struggle

By Henry Zonick

Chances are slim. The epic struggle of the classes will be upon us soon. Seven days hence, on Friday, May 8, from 12 noon to 2 p.m. the supremacy of the student associations will be challenged in a match on the stage where the Teckwah's sweep down a water basin, and a long rope will be the device of war.

And so the battle begins. The class with the biggest nose, the biggest mouth and the biggest spirit will eventually wear victorious. It is the duty of each class member to watch their fellow classmates and remember that a good class spirit may make for a more enjoyable part in the war. The class that11 wins their war will be the one to wear their respective class colors during the 10th and 11th day of the coming week.

The war has been formulated by "Teckwah" Bob Young and Bill Fugitt, and the first battle will pit all classes against each other. The winners will have water-dashed flags across their heads. A whisking, muddy

Win 1st 10 pts. of JW, catch greasy porked

Kicking off the Junior Week Carnival is the Greasy Pork Catch for every student entered at the rate of $1 per person, students included. Points for the first 10 porked will be added to the total for every student entered, with the others up to 40. The first person to catch a porked will receive $10, and whoever catches the 10th will receive $5. Any who catch a porked after Friday's judging will receive no points.

Tech JW babies judged three ways

Again this year, students and personnel of 170 will be holding an annual nursery school contest in the Junior Week Baby contest. The contest will be based on personality, neatness and originality. The babies will be assessed in three groups: neonates, infants and toddlers. The contest will be held in the same classrooms as those used in the Junior Homecoming contest.

WGC campus feature in SU Auditorium

The White Collar Girls contest is now in its last stages of selection. These girls, "Patricia and Fusilier" to be precise, are chosen from the audience to join the contest in the SU Auditorium.

Hoppiecopter lands May 8 with officer

"Big Guy, say officer" will be the cry at Altair Hall the first day of Junior Week. It's a fact. At 8 p.m. Thursday, May 8, a Major helicopter will be a major officer to officially open the "Chippewa Quarterly" at the Naval Science Open House in the Hall.

300 couples attend to make Ball a success

The combined BROTCH & ARBY'S Ball held on and over the weekend with all the decorations and Cyril and all that accompanied it was a grand success.

The highlight of the evening was the ball, which was held in the auditorium. The Military Queen, Miss Tintangco, was crowned by the Military King, Capt. C. H. M. C. Hall, at 8 p.m. in the auditorium.

Placement Schedule
WEDNESDAY, MAY 8
Electrical Applications Equipment Co.
MONDAY, MAY 13
Automated Order Services, Inc.
TUESDAY, MAY 14
Barnes & Noble Book Co.

Tutoring offered
Froehlich and Soph
IPC is again offering tutoring for members of the Freshman and Sophomore classes. The extra help will be in English, mathematics, physics, electrical engineering, and the use of the oscilloscope. The tutoring sessions will be on Monday, Wednesday, and Friday at 3 p.m. This is an opportunity for those students who could do better in some of their courses to get some help.

H. Urey to speak at AXE meeting
On Wednesday, May 15, Alpha Chi Sigma, the national chemical professional fraternity, will hold its first annual lecture at 11 a.m. in 313 CR. The all-school assembly will feature Dr. Harold C. Urey, world renowned physical chemist, as its speaker.

Dr. Urey, Nobel prize winner in 1934, is as present a member of the faculty at the University of Chicago. He is also well known as a speaker on many subjects of interest to college students, and his appearance on this campus promises to prove an interesting one.

Sixteen special duty schools opened for Marine grads
Sixteen schools are open to newly commissioned Marine Corps officers who graduate from the Officer Candidate Course and Platoon Leaders Class program. Officers have completed two years of military training, photography, interpretation, drill, physical conditioning. They are also trained as operators, communication officer, engineering officer, and maintenance officer.

Applications accepted for directory now
Applications are now being solicited for positions on the Technology Center directory. For the present time, there are openings for associate editor, editorial assistant, copy editor, business manager, and advertising manager. The latter position is in a position of considerable importance and requires an individual who preferably has had some experience in handling advertising accounts, and who will be able to operate an efficient advertising staff. There are also openings for people desiring to work in the office.

Robert Orr to address Westminster
David Orr, President of Westminster College, will address the High School Assembly on May 15. Orr was the Presbyterian Student Assembly member at the United Nations General Assembly in New York. He is also President of Westminster College, and he is a member of the General Assembly of the United Presbyterian Church.

IPC to again be organized for next year
At a meeting last Thursday, plans were made for the 1955-1956 organization of the National Institute for Professional Engineers. IPC will again be organized for the coming academic year. At present, there are 15 members in the organization, and it is hoped that the number will increase to 20. It will be necessary to fill several of the positions on the committee.
Pi Delta Epsilon convention held; publications benefit by comparison

Last weekend, four IIT journalists took off for Cincinnati in a little English Anglia. The result! The bicentennial convention of Pi Delta Epsilon, national collegiate journalism honorary. The long-suffering Techs now have their knees under their chins for 300 miles so that they might further the cause of collegiate journalism by exchanging ideas with other Pi Delta from across the nation.

This year's convention at the University of Cincinnati yielded many interesting facts concerning publications at IIT. Bill Robinson, Jerry Huntzicker, Clive Wilson, and Max Leitman, who represent IIT, report that discipline is the frequent cause of faculty intervention in student affairs. Anonymity, and poor management of activities, it is surprising to learn just how many things are done at Tech.

In a large number of cases, faculty members at IIT, publications is very strict, and in one school, every article must be submitted to a faculty advisor to be checked before it can appear in the paper. There at IIT, what goes into the paper is restricted mostly by the judgment and good taste of the students who work on the paper.
No. Central stops Tech 6-0 in rain

Tech batters held to one hit, Central five

Under a downpour of rain and walk, Tech's diamond squad flogged a 6-0 shutout loss to North Central College to fall below the 200 mark with one win and two losses.

Bill Buck, Tech's young hurler, was hit below only one in five times at bat in the first inning. Before Coach Glavsky called for pinch hitter, John Masica, the Techbats were unable to put out the fire, five runs had scored on two walks and a hit. To put the bats on top 4-0.

North Central scored again in the second inning to increase their lead to 5-0, while the Techbats were unable to get to the opposing southpaw. Chuck Rollison collected Tech's only hit as he scooped up a single into right center in the fourth inning.

The game continued under intermittent showers until a downpour forced the "Friends" of North Central's win in the game. While the Techbats collected five hits in one by the Techbats, the poor control of the Tech batters again proved to be Glavsky's bugbear.

Bob Sevart and Fred Calvert displayed their usual skillful at-bat play while Chuck Rollison, for the Techbats, knocked in the top one, the top three and the top two, respectively. The Tech batters were paced by Buck's seven strikeouts and Masica, who had three hits.

Illinois Tech pulled out the game in the fifth inning when Buck collected two runs while Chicago was able to push only one over the plate in the top half of the inning. Todd also threatened to score as they scored three hits in the third and four in the first half of the inning. The game was over in the first half of the inning as Buck knocked in the Tech's third loss in as many games.

The only bright spot for Tech was the excellence of Bob Burner, who pitched a complete game with 13 strikeouts and picked up the win.

Tech golfers suffer third loss, 131-44

Nassau last Saturday at Silver Lake Golf Course, Tech's phlegmatic suffered their worst defeat of the season at the hands of the East Stix, 131-44. This is the golf team's third loss in as many games.

The only bright spot for Tech was the excellence of Bob Burner, who pitched a complete game with 13 strikeouts and picked up the win. The score was 131-44.

Tech golfers suffer third loss, 131-44

Air Force Spooks, FPE's and rain prove to be victors so far

Slip-Stop Sports action is again on Ogden field as the 12th football team meets on.

From Where I Sit

by Clive Wilson

An interesting story has come out of a vegetable can after six years. How many of you know that the can is made of aluminum? We should be proud of our scientists, for they have found a way to make cans that are lightweight and strong. The cans are used for everything from soup to coffee. The aluminum is obtained from bauxite, which is found in the earth's crust. The cans are then sealed with a metal seal and sent to the manufacturer. Once the plant is complete, the cans are filled with the desired product and shipped to the stores.

Coca-Cola Bottling Company

Fraternity Row
by Dave Batteau

April showers had a sizable downpour effect on Friday night, but the big event of the evening was the complete victory of the Delta Kappa Epsilon Fraternity over the Phi Kappa Psi. The Delta Kappa Epsilon third-place finisher at the IIT Intramural Softball Tournament, won by the Delta Kappas over the Phi Kappas. The Delta Kappas continued their impressive performance by winning the Alpha Phi Alpha fourth place finisher over the Phi Kappas. The Alpha Phi Alpha second place finisher over the Phi Kappas, and the Phi Kappas second place finisher over the Delta Kappas.

The Alpha Phi Delta Lambda second place finisher also won the Delta Kappa Epsilon fourth place finisher over the Phi Kappas. The Alpha Phi Alpha second place finisher over the Phi Kappas, and the Phi Kappas second place finisher over the Delta Kappas.

The Alpha Phi Delta Lambda second place finisher also won the Delta Kappa Epsilon fourth place finisher over the Phi Kappas. The Alpha Phi Alpha second place finisher over the Phi Kappas, and the Phi Kappas second place finisher over the Delta Kappas.

Cindermen get second in triple meet at Valpo
by Dick Tymon

Last Saturday Tech's track team took the field against Valparaiso University and Taylor Universities in their first triangular meet of the season. The meet was held at 35th Street Recreation Center.

In addition to the track meet, the Cindermen also competed in the Valparaiso Invitational Meet. The team finished second in the meet, with a total score of 157. The team was led by Chuck Capobianco, who won the 100-yard dash with a time of 11.1 seconds. Other top performers for the Cindermen included Dick Tymon, who won the 440-yard dash with a time of 50.8 seconds, and Ron Anderson, who won the 880-yard run with a time of 2:09.7.

Yacht club wins over Northwestern & U of C

Last Sunday the Illinois Tech Yacht Club won the International College Yacht Club Championship, defeating the Northwestern and University of Chicago teams.

The Illini Yacht Club won the National College Yacht Club Championship, held at the Chicago Yacht Club.

Golf

The annual pancake breakfast, sponsored by the Illinois Tech Yacht Club, was held on Saturday morning. The breakfast was well attended, with over 100 people in attendance. The Pancake Breakfast included a free breakfast of pancakes, sausage, and eggs, as well as a raffle for a chance to win a set of golf clubs.

Senior Faculty Softball Game
Wednesday, May 6, 2:30

The annual Senior Faculty Softball Game will be held on Wednesday, May 6, at 2:30 PM. The game is open to all members of the faculty, and will be held at the Illinois Tech softball field. The game will feature a game between the faculty and the students, with the faculty team expected to win.

Now!

Engineering Graduates

Rensselaer, Lehigh, Yale, Carnegie

A secure future, exceptional opportunities for advancement, and an excellent starting salary await you in Rensselaer. If you are interested in engineering, please contact the Engineering Graduate Program Office at 312-543-1234 for more information.

Junior Week
Prom May 9

The annual Junior Week Prom is scheduled for May 9. The prom will be held at the Illinois Tech student center, with a live band providing entertainment.

Better Measure with Lufkin

Lufkin engineer Hornsby is the proud owner of a Lufkin engineer's edge. He uses his Lufkin engineer's edge to measure the flatness of the surface of a workpiece. The Lufkin engineer's edge is an accurate and reliable tool for measuring the flatness of a surface.

A sure future, exceptional opportunities for advancement, and an excellent starting salary await you in Rensselaer. If you are interested in engineering, please contact the Engineering Graduate Program Office at 312-543-1234 for more information.

State of the Union
by Mille Schlosser

The first matter on the agenda this week is to welcome the new members of the Activities and Recreation committee: John Burton, Ken Haur, Jane Pathak, and Sheldon Levy. May they enjoy working on the facilities and other matters that are so important to the student union.

Open House Exhibits
FRIDAY and SATURDAY,
MAY 8, 9

Students will be able to view exhibits in the Student Center and other student offices on Friday and Saturday. The exhibits will be open from 10:00 a.m. to 5:00 p.m.

Interviewing of counsellors for next fall

Interviews for those interested in serving as Student counsellors during Orientation week, Saturday, May 15 to 19, will be held during the free hours on Monday and Tuesday, May 14 and 15, and on Monday and Wednesday, May 16 and 18, in the Student Union. In order to be interviewed, applicants must have completed an application form from the Student Union office prior to May 15.

Chesterfield is Best for YOU!

Chesterfield contains tobacco of better quality and higher price than any other king-size cigarette...the same as regular Chesterfield.

When you are asked to try a cigarette you want to know, and you ought to know, what that cigarette has meant to people who smoke it all the time.

For a full year now, a medical specialist has given a group of Chesterfield smokers through examinations every two months. He reports:

no adverse effects to their nose, throat, or sinuses from smoking Chesterfield.

More and more men and women all over the country are finding out every day that Chesterfield is best for them.

Enjoy your Smoking!
