Aspirants apply to be JW chairman

On Wednesday the TSSA applicants for the Junior Week chairman position will interview with the Board of Control to find a candidate who is qualified and suitable. The interview process will involve a panel of judges who will evaluate the applicants based on their presentations, answers to questions, and overall impression. The winner will be announced later in the week.

Square dancing and fun for all

Square dancing and fun activities will take place in the gym from 1:00 to 10:00 p.m., when the Halloweener Fete will be held. The event is sponsored by Tech's Newman club, and is expected to be a lively and entertaining event. Everyone is welcome to attend and join in the fun.

Entries for the national competition

Entries for the National Intergalactic Formula One competition will be accepted until November 20th. The deadline is approaching, so make sure to submit your entries by the specified date. The competition is open to all students, and the winner will be announced in the upcoming issue of the school newspaper.

Blood drive still open

Blood donations will be accepted on November 5th and 7th between the hours of 10:00 a.m. and 4:00 p.m. in the auditorium. The drive is open to all students and staff, and is an excellent opportunity to save lives and help those in need.

Shed your shoes for dance tonight

Square dancing and fun for all: come to the gym tonight from 1:00 to 10:00 p.m. when the Halloweener Fete will be held. The event is sponsored by Tech's Newman club, and is expected to be a lively and entertaining event. Everyone is welcome to attend and join in the fun.

TSSA lifts 90% of the ban on dress code

The TSSA has lifted 90% of the ban on dress code. This change has been made in response to student feedback and aims to create a more inclusive environment. The school community is encouraged to take advantage of this new policy and improve their educational experience.

HESSLETT REPORT

HIC conducts tutoring aid on the campus

The tutoring committee of the Inter- Club Council has announced that they will be providing tutoring aid on the campus. This is a great opportunity for students who need extra help in their studies, and those who wish to give back to the community.

IHC conducts tutoring aid on this semester

The Inter-Club Council has announced that they will be providing tutoring aid on the campus. This is a great opportunity for students who need extra help in their studies, and those who wish to give back to the community.

NROTC test will be given

The NROTC test will be given on December 13th. This test is required for all students who wish to join the Navy or Marine Corps, and is used to determine their eligibility for admission. The test is open to all students, regardless of their academic background.

Health—Donors must weigh more than 110 pounds and have good physical condition, having had no illnesses other than colds within the last six months. If alcohol is consumed, it should be two days before donating. Persons with active allergies are not permitted to donate blood. An active allergy is defined as one that is usually in effect at the time of donation. For example, pollen allergy, though not necessarily a threat during the summer, is not active now. Food—Donors must stop eating two hours before donating. Donors who are on a diet, such as liquid diet, milk, coffee without cream, tea, fruit juices and vegetables. Piled foods, butter, milk, fruit, eggs, etc., are not permitted within four hours before donating.
Money, money, money; here's where it goes

ITSA $ $ $

One of the most common questions heard during registration is "Where does our money go?" Technology News investigated the matter, and the accompanying graphics are the result. The budgets of campus organizations have been approved by the ITSA board of control, the percentage of the $8,504 allotted to student activities is shown below.

In addition to the $8,504 given to student organizations, the treasury also supports a $2,500 surplus at all times.

To the Editor:

The recent editorial printed in Technology News supporting Dwight D. Eisenhower reveals my feelings towards the matter. There is much truth that the U.S. needs a definite change in government policies.

It is evident right now that we are living under false security. Wages are high, market goods are growing. This is one of the fine upsurge policies of the Democratic party. Since when was inflation "Prosperity"? After seven years of Truman inflation the American family is poorer—not richer—than it was before. We need an adminstration that knows the value of a dollar and what it means to the people who earn it by the sweat of their brow.

The example is only one of many plunderings which are at our nation's disposal. The vast Federal spending in 20 years the Democrats have run through 708 billion dollars. Five times as much as spent by all administrations from Washington to Rome.

So, how efficiently was this money spent? Easy come, easy go; plenty of specious government jobs, foreign aid without sound planning or goal in mind, military bases and strategic points built five times what they are worth.

Our foreign policy right now stands on the brink of collapse. The grave question which fills the minds of Americans everywhere is: will our candidate win the election? Who is going to look after Japan and the rest of the world? This country was a强国, stronger nation in history. Since then it has been watched all over Europe because it came enslaved by the Russians. We've seen China last. We can thank the political party in power that one-third of all the people in the world are under communistic domination.

Is this the way to win the peace? Is it not terrible cost of presenting "police action" in Korea now totals 17,000,000 Americans on casualty lists, not to mention the money poured in. Are our boys going to continue fighting in that hell hole while we Americans "ride high on our pure Minut Lamb of God"? Sure everybody's got a job, everybody's making money—does that make things better? Isn't there is a job making guns—Prosperity HELL.

Jim Schoepf

Onions

To the Editor:

The Technology News jump out of political isolation last week was astounding and journalistically distressing. The editors have felt justified in such an unusual step, but it must be noted that the majority present at the season does not know how to show the editors their appreciation for their efforts.

The campus has presented an extremely controversial national subject from one biased viewpoint. To top it off, the facts statements dangerously needing qualification and the quote out of context, the story of the phrase "Technology News" has not been clarified to tell whether it means the ones alone or the whole staff of the paper.

On any rain, it would seem better to stick to "neutral" news till the time these facts are set when such a one sided editorial may be balanced off with continuing features or factual articles.

Hame Wiltfield

Orchids

To the Editor:

"Orchids" the Technology News has emerged from the shadows. It is a relief to find that the paper here at Tech evinces an interest in other things besides dates, names of Tech's IIT sports, etc. Although I am not wholeheartedly in agreement with your views and aside from the fact that the whole article sounded slightly self-righteous, I am glad to see opinions may not be approved by all, but it will certainly make them take notice.

"It is a fact that you are representing the best interests of Tech students as a whole? I certainly could. Statistics show that the majority of college students are Republicans, therefore...

Keep it coming!

Dave Sollay

See our page on 3. Y

Evaluating the recent event involving the policy of Technology News, the editor must maintain its perspective to publish articles on controversial topics that are of interest to the students. This can be a student newspaper. Technology News invites the views and opinions of its readers in this form of expression. Students, therefore, must be able to submit their views in a manner that allows them to be published without censorship.

This is a fact, and it is a fact that you are representing the best interests of Tech students as a whole. It certainly could. Statistics show that the majority of college students are Republicans, therefore...
SU handbook will clarify commission

Distribution of the SU handbook will begin next week, with approximately 200 copies turned over to campus organizations, Board of Control members, and other key men.

The handbook, bound in a folder, gives detailed information concerning the Student Union, its committees and functions. Prepared by Shirley Wilde, Union Publicity chairman, and John Luan, SU chairman, it gives the by-laws of the IIBA constitution.

The handbook is composed of five sections. The first gives the reasons for the foundation of the commission, namely, to promote student interest in the student union.

The aim of the Programming committee is to try to approach a harmonious state concerning the staging of social events in SU. Publicity for social functions will be in the hands of the Publicity committee. It will be their duty to establish adequate facilities for effective publicity and also to see that all concerns are acquainted with the operation of publishing activities in the Union.

Improving and maintaining the appearance of the Union is the primary aim of the Decorations committee. This committee will also furnish special displays whenever necessary. Assisting all students and friends of the SU with the use of the decorations commission is a task of the New Union Procurement committee. The Procurement committee will be tasked with the appointment of a new chairman.

Rent increase on apartments is announced

The department of Housing of Illinois Tech ignored the recent 19 per cent rent increase when it re-stated its housing policy with the 1963-64 rent schedule announcement. This increase was granted as one-third of the rental units in the Chicago area by housing authorities and is in line with generally increased operating costs.

The primary function of all the housing units is to create and maintain a cooperative community. This community should be one that is conducive to the student's ability to learn. Illinois Tech wishes to provide accommodations which are suitable to the student's needs and at the same time try, wherever it can, to keep the rate for accommodations in line with the student's ability to pay. The Institute does not aim to make any money out of housing, but on the other hand expects the housing program to support itself and not draw from the Institute's funds.

Carmen Hall is being built with a loan from the government which has liberal interest and repayment terms, more so than the terms under which Guadalupe Hall operates.

College folk favor Ike; think both inadequate

If American college students are a sounding board of public opinion as a whole, General Dwight D. Eisenhower will be the next President of the United States.

In a recent poll made by the American College press, 57 per cent of the students interviewed favored Ike, while only 38 per cent were partial toward Adlai Stevenson. 5 per cent were undecided and the remaining 1 per cent favored candidates other than Ike/or.

Although Ike's predominantly favored, there are almost no serious Republicans as on the campuses investigated. Of the students polled 16 per cent claimed to be Democrats, 36 per cent were Republicans and 28 per cent called themselves independents.

Many of the democratic voters, especially in the northwestern states, are not following party lines in the presidential election. They feel that the "changes" that Ike advocates is more important than party politics.

Bolting of party lines is not confined to the democrats, however, as many Republicans feel that Stevenson is the better candidate and will vote for him rather than Eisenhower, whose policies they feel is a "copied" of special interests.

News has hit it is a re-* at Tech new things be- * of profs', a. i am not intrested with from the fact is very slight, I am, Editor -- approved by make them you are rep- * ect of Tech certainly could the majority of Republicans.

Richard Koppe invited to exhibit his paintings

Richard Koppe, professor of Visual Design at the Institute of Technology, has been one of two Chicago residents invited to exhibit their works in the 1972 Pittsburgh International Exhibition of contemporary paintings at the Carnegie Institute of Fine Arts.

The exhibit is being held from Oct. 16 to Dec. 14, and includes the works of artists from 15 countries. The Carnegie show is considered by many art authorities to be one of the most important exhibits in the United States.

Koppe was born in St. Paul, Minnesota, and studied at the St. Paul School of Art. In 1927, he came to Chicago to attend the New Bauhaus under the guidance of L. Moebius-Niet, Alexander Archipenko and Gyorgy Kepes.

During the extent of his teaching at ID, Koppe has participated in 10 exhibits, has won seven prizes, and has been represented by 12 artists published in national magazines. He has also added to his impressive list of accomplishments by being named one of the most influential painters in the world for the 20 years he has been teaching.

IHC improves faculty rating form this year

Once again this year, a faculty rating program is being planned at the Intermediate College for the evaluation of the quality of education at IHC. Although the poll has met with both student and faculty approval in the past, the IHC hopes to make the rating sheets even more useful.

Working toward this end, they are being helped by Kimball Neshb, a graduate student in the psychology department.

Mr. Neshb is at present supervising a poll of students and faculty to determine their views on the rating sheets. The results of these investigations will be compiled and analyzed.

The rating sheets will be adjusted so that the data are more meaningful, the board of education will have the opportunity to study these data and make recommendations for the future.

Religious Council aims at defeating prejudice

Two members of the Religious council of IIT attended the second annual College Council-sponsored by the National Conference of Christians and Jews. Seven human relations agencies in the Chicago area were in attendance.

The meeting was held at the Chicago Auditorium Hotel, with Mr. Robert G. Faye, president of the Religious Council, and Mr. George F. Faye, chairman of the Religious Council, representing the Religious Council and the Religious Council, respectively.

The meeting was held at the Chicago Auditorium Hotel, with Mr. Robert G. Faye, president of the Religious Council, and Mr. George F. Faye, chairman of the Religious Council, representing the Religious Council and the Religious Council, respectively.

The delegates discussed the work of their agencies and the problems of religious freedom in the United States.

The Religious Council is asking everyone to make it his job to improve conditions for all religious groups. No one can sit back and wait for "someone" to do something. It is the responsibility of every individual to be active and fight for the rights of religious groups.

Rho Eps offer use of radios to all students

Rho Eps, honorary professional fraternity for electrical engineers, are offering the use of its facilities to students of electrical engineering at the University of Illinois. By means of the use of the facilities, students may become familiar with the operation of electronic equipment and learn to use it for their own research purposes.

The University of Illinois is the only institution in the state that has such facilities. The equipment is available to students upon request and is located in the Electrical Engineering Building.

The fraternity also offers the use of its facilities to other students who are interested in electronics.

The University of Illinois is the only institution in the state that has such facilities. The equipment is available to students upon request and is located in the Electrical Engineering Building.
ITSA constitution

Article I

This organization shall be known as the Illinois Tech Student Association.

Article II

OBJECT

The object of this organization shall be to establish through the elected officers, the Board of Directors, a student government capable of representing the needs and interests of the students of Illinois Institute of Technology.

Article III

GOVERNMENT

Section 1. The ITSA shall consist of the ITSA Board of Directors, an Executive Board, and a Student Senate.

Section 2. The ITSA Board of Directors shall consist of six members, elected by the Student Senate and approved by the Board of Directors. Each member shall serve a term of one year.

Section 3. The Executive Board shall consist of the President, Vice-President, Treasurer, and Secretary, elected by the ITSA Board of Directors.

Article IV

PRINCIPLES

Section 1. The principles of the ITSA shall be to provide a forum for the expression of student interests, to promote the welfare of the student body, and to provide opportunities for the development of leadership skills.

Section 2. The ITSA shall not engage in any activities that violate the policies and procedures of Illinois Tech.

Article V

FINANCES

Section 1. The ITSA Board of Directors shall be responsible for the financial management of the organization.

Section 2. The ITSA Board of Directors shall ensure that all financial transactions are conducted in accordance with the policies and procedures of Illinois Tech.

Article VI

ELECTIONS

Section 1. The ITSA Board of Directors shall be composed of nine members, elected by the Student Senate.

Section 2. The Board of Directors shall consist of nine members, elected by the Student Senate for a term of one year.

Section 3. The Board of Directors shall elect from its membership a President and Vice-President, who shall serve a term of one year.

Article VII

APPROPRIATIONS

Section 1. The ITSA Board of Directors shall have the authority to allocate funds for the purposes of the organization.

Section 2. The ITSA Board of Directors shall ensure that all funds are used in accordance with the policies and procedures of Illinois Tech.

Article VIII

FINANCES

Section 1. The ITSA shall maintain a balance sheet and a financial statement for each fiscal year.

Section 2. The ITSA shall ensure that all financial transactions are conducted in accordance with the policies and procedures of Illinois Tech.

Article IX

PRINCIPLES

Section 1. The principles of the ITSA shall be to provide a forum for the expression of student interests, to promote the welfare of the student body, and to provide opportunities for the development of leadership skills.

Section 2. The ITSA shall not engage in any activities that violate the policies and procedures of Illinois Tech.

Article X

FINANCES

Section 1. The ITSA Board of Directors shall be responsible for the financial management of the organization.

Section 2. The ITSA Board of Directors shall ensure that all financial transactions are conducted in accordance with the policies and procedures of Illinois Tech.

Article XI

ELECTIONS

Section 1. The ITSA Board of Directors shall be composed of nine members, elected by the Student Senate.

Section 2. The Board of Directors shall consist of nine members, elected by the Student Senate for a term of one year.

Section 3. The Board of Directors shall elect from its membership a President and Vice-President, who shall serve a term of one year.

Article XII

PRINCIPLES

Section 1. The principles of the ITSA shall be to provide a forum for the expression of student interests, to promote the welfare of the student body, and to provide opportunities for the development of leadership skills.

Section 2. The ITSA shall not engage in any activities that violate the policies and procedures of Illinois Tech.

Article XIII

FINANCES

Section 1. The ITSA Board of Directors shall be responsible for the financial management of the organization.

Section 2. The ITSA Board of Directors shall ensure that all financial transactions are conducted in accordance with the policies and procedures of Illinois Tech.

Article XIV

ELECTIONS

Section 1. The ITSA Board of Directors shall be composed of nine members, elected by the Student Senate.

Section 2. The Board of Directors shall consist of nine members, elected by the Student Senate for a term of one year.

Section 3. The Board of Directors shall elect from its membership a President and Vice-President, who shall serve a term of one year.

Article XV

PRINCIPLES

Section 1. The principles of the ITSA shall be to provide a forum for the expression of student interests, to promote the welfare of the student body, and to provide opportunities for the development of leadership skills.

Section 2. The ITSA shall not engage in any activities that violate the policies and procedures of Illinois Tech.

Article XVI

FINANCES

Section 1. The ITSA Board of Directors shall be responsible for the financial management of the organization.

Section 2. The ITSA Board of Directors shall ensure that all financial transactions are conducted in accordance with the policies and procedures of Illinois Tech.

Article XVII

ELECTIONS

Section 1. The ITSA Board of Directors shall be composed of nine members, elected by the Student Senate.

Section 2. The Board of Directors shall consist of nine members, elected by the Student Senate for a term of one year.

Section 3. The Board of Directors shall elect from its membership a President and Vice-President, who shall serve a term of one year.

Article XVIII

PRINCIPLES

Section 1. The principles of the ITSA shall be to provide a forum for the expression of student interests, to promote the welfare of the student body, and to provide opportunities for the development of leadership skills.

Section 2. The ITSA shall not engage in any activities that violate the policies and procedures of Illinois Tech.

Article XIX

Fraternity Row

Yearbook Editors

We are pleased to present the following events that took place on our campus during the past year:

**Fall Sports**

The Tech football team competed in a number of games this fall. The team finished with a record of 6-4, including wins over Illinois State and Indiana University. The team was led by quarterback John Smith, who threw for over 2,000 yards and 15 touchdowns.

**Winter Sports**

The Tech basketball team had a successful season, finishing with a record of 12-8. The team was led by guard Mark Johnson, who averaged 18 points per game.

**Spring Sports**

The Tech track team competed in a number of meets this spring, including the Big Ten Conference Championships. The team was led by runner Sarah White, who set a new school record in the 1500 meter race.

**Football Season Preview**

The Tech football team is looking to build on their success from last year. The team has a number of key returning players, including quarterback John Smith and running back Mark Johnson. The team is also bringing in a strong recruiting class, with several top prospects committed to joining the team.

**Basketball Season Preview**

The Tech basketball team is looking to improve on their performance from last year. The team has a number of key returning players, including guard Mark Johnson and forward Sarah White. The team is also bringing in a strong recruiting class, with several top prospects committed to joining the team.

**Track Season Preview**

The Tech track team is looking to improve on their performance from last year. The team has a number of key returning runners, including runner Sarah White and jumper John Smith. The team is also bringing in a strong recruiting class, with several top prospects committed to joining the team.

We are excited for what the upcoming season has in store for the Tech athletic teams.
From Where I Sit
by Bob Abrams

A mighty clash is seen to arise from amid the smoke and glass of Ogle Field! The champions of the intramural league and the leaders of the interfraternity league will meet in the annual (except for last year) Slide Rule Bowl. The date set for this exciting occasion is Thursday, November 20. This year's battle should be a real smasharoo if the games played in the 1M and 1P leagues so far are any indication of things to come.

The basketball teams at the basketball tournament are really shaping up. This week Glancy is still floating fundamentals into the boys. "Can't do anything if they can't catch and hang onto the ball," says he. Next week the boys will start practicing an "inexplicable" defense. They've got a practice game lined up with Illinois Steel of the industrial league. This may prove to be quite an interesting experience for Glancy and some of the older members of the team. George Sealsamer is working with Illinois Steel, and they play against the Techs, who are started for and captained two years ago. The team has also a scrimmage with Loyola tentatively scheduled for some time after Thanksgiving.

Yes, Verity — Yes, Verity — Yes Verity ... who does he think he is? William Shakespeare?! I'm sorry that the Pigskin Prophets' prices haven't been announced yet, but they haven't been decided yet. Mainly because we can't get enough donations for prizes from the budget. ITSAA has allowed us. The first price will probably be a one year subscription to Chicago magazine, with second and third place winners receiving a carton of cigarettes. You won't have to come down to the Technology News office looking for a prize. The winner will be chosen by my blood in your eyes. (Don't you drive!). I'll let you know when your awards are ready to be picked up. The basketball tournament is almost over, and the dormitories might start thinking about an IM basketball team. The season is drawing nigh, and it would be a good idea to have your teams drawn up and ready to submit to Ed Glancy when he starts calling for them. Instead of rushing like everyone else, get your rosters submitted under the deadline.

Schniedenbach and Halasz to play in tennis semi-finals

Intramural tennis is progressing. Alice slowly toward its conclusion, as quarterfinal matches are in the stage of completion, with semifinals soon to come.

Top seeded Wally Schniedenbach continued along his winning path in the championship as he trounced Earl Stahl in 6-4, 6-1. Jim Polkewin bowed in a close match to Bill Halasz. Schniedenbach and Halasz will meet in one of the two semifinal matches before the championship is played.

The other semifinalists are as yet unknown, for these matches have not been played. However, the winners of the matches will play for a chance in the finals.

Glancy wants to have the finals played off by the first week of November so that the awards can be made.

Call campus capers for Coke

Win or lose, you will get different opinions when the gang gathers to rehash the game. But on the question of refreshment, everyone agrees — you can’t beat ice-cold Coca-Cola.

TV program will discuss food process

Engineering program in the field of food processing will be the subject of Illinois Tech’s “Let’s Look at Science” television program every WED. Nov. 3, at 2:30 p.m. William A. Page, professor and director of the food engineering department, will be host in representation of four Chicago industrial firms engaged in food processing: Dr. Paul Manning, vice-president in charge of research at International Minerals and Chemical Corporation; Dr. L. E. F. Perry, vice-president of Quaker Oats; Mr. Curtis R. Mauler, president of research at Continental Can Company; and Dr. Clarence W. Weinman, director of development in Armour and Company.

“Let’s Look at Science” viewers will see processing methods in the development of food seasonings, breakfast cereals, frozen orange juice.

NOSE, THROAT,
and Accessory Organs not Adversely Affected by Smoking Chestfielders

First Such Report Ever Published About Any Cigarette

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chestfielders cigarettes.

A group of people from various walks of life was organized to smoke only Chestfielders for six months. This group of men and women smoked their normal amount of Chestfielders—10 to 40 a day. 45% of the group have smoked Chestfielders continuously from one to thirty years for an average of 10 years each.

At the beginning and at the end of the six-month period each smoker was given a thorough examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears and throat.

The medical specialist, after a thorough examination of every member of the group, stated: "It is my opinion that the use of smoking Chestfielders is not adversely affected in the six-month period by smoking the cigarettes provided."
