Ben Kartman joins pub. relations staff

As an editor last year on the Illinois Tech News, Ben Kartman is now joining the department of Public Relations. This information was released by Wesley C. Hoge, director of Public Relations here at Tech.

Free Hours to be 12-1 Mon., Wed. and Fri.

Beginning February 13, the Free Hours will be from 12 to 1 p.m. on Monday, Wednesday and Friday. The Free Hours will be from 12 to 1 p.m. on Tuesday and Thursday as they have been.

The advisory committee on student affairs has recommended that some of the recommendations to ITSA given at the last meeting be considered by the committee. The Free Hours to be held on the campus will take place at the time when the Free Hours are held.

WCG dance features Mad-Tie winner

The White Cat Ladies are sponsoring a Mad-Tie Contest and inviting all students to come to the contest and participate. The contest will be held at the White Cat ladies' office on the third floor of the Administration Building. The contest will be open to all students and members of the White Cat ladies.

Mr. W. A. Spencer

Mr. W. A. Spencer is a fellow student of Mr. W. A. Spencer, who has just returned from a trip to the United States. He is planning to make another trip to the States and is looking forward to it.

Emergency medical aid lacking here

A recent incident in the main building brought to light a seldom considered situation, but one which could have serious consequences if not attended to. As one of the coeds was leaving the building after class at 3 p.m. she suffered a fainting spell and passed out, hitting the floor. The medical officer was not available, and the student was left lying on the floor for at least 20 minutes before someone noticed her and called for help.

Fortunately, the nurse was able to administer the necessary first aid and the student was eventually able to recover. However, this incident raises serious questions about the adequacy of emergency medical services on campus.

It is clear that more needs to be done to ensure that students and faculty are protected in case of emergencies. The university should consider increasing the number of medical personnel on campus and providing better training for those already present.

The safety of students and faculty is an important concern and should be prioritized. The university must take action to address this issue and ensure that all students and faculty feel safe on campus.

As for the fainting spell incident, it is unclear what caused the student to faint. The university should investigate the incident in order to determine what steps can be taken to prevent similar incidents in the future.

SLIPSTICK

E.M.E. "How about having breakfast with me tomorrow?"
C.O.D. "Sure."
E.M.E. "Shall I phone or we meet?
S.O. "You had a date with someone?"
J.O. "No, I tore my dress on a nail."
E.M.E. "How did the team do in the game with North Central the other night?"
J.O. "Oh, we made $50 apiece."

Then there was the country girl who went to college and only went out with city fellows. She said farm hands were too rough.

One in a million: The absent-minded professor who forgot to write a 5 dollar textbook to add to his class.

"What was the explosion on Sixth Farm?"
"He fed a chick some 'Lay or Runt' chicken feed; and the darned thing turned out to be a rooster."

WANTED: Guaranteed silver medicine. Call Tech News office.

Frosh: "What's Doc talking about?"
Engineer: "Integration, you fool."
Frosh: "Is he for or against it?"

NEW WAC: "Where do I eat?"
Capt: "You mess with the WAC, you mess with the WAC."
NEW WAC: "I know, but where do I eat?"

Then there was the out of town student who got thrown out of his apartment when the landlord heard him typing shoes on the floor twice.

A squirrel was shocked at the language used by workmen repairing a telephone near her house, so she wrote the company.

The foreman was requested to make a report. The report read as follows: "Me and Spike were on this job. I was up on the pole and I accidentally let the hot lead fall on Spike—right do this week. Then Spike looked up at me and said, 'Harry, you should be more careful.'"

The court later held that Spike suddenly received a pardon as he was about to be hanged for making too many puns. "No sooner good enough."

This report on campus hazards by John Henry was slightly altered by the Tech, who is often found sitting at home alone and eating his alone.

Technology News

Published every Friday during the academic year by the students of Illinois Institute of Technology. Issued without subscription. Offices: 2010 S. Michigan Ave. Chicago 16, Ill. Classified and display advertising accepted. Rates on application. Subscription rates: Domestic $6.00 a year; all others $7.50 a year. Entered as second-class matter October 12, 1953, at the post office at Chicago, Ill., under the Act of March 3, 1879. Printed and published at the University of Illinois Press, 1400 S. Morgan St., Chicago 8, Ill. Telephone Smiley 7-5100.

SAFE-KEEPER

At the Technological Institute, a barter system is used to trade student skills for food. This system has been under consideration by the campus safety committee for some time. The system is a success in reducing the number of thefts and elevating the quality of life on campus. The barter system is a way for students to use their skills to obtain food and other necessities.

One student, for example, exchanges his carpentry skills for groceries. Another student exchanges his music skills for food. This system is a great way for students to help each other and it is a good way to promote community involvement.

By seeing the success of the barter system, the campus safety committee is encouraging its use on campus.

Sandy Peterson, alias

As for the safety of students and faculty, the university must continue to take action to ensure that all students and faculty feel safe on campus.

Relief at last: The heat is off at the Three Deuces, Tech's favorite. No can go back to holding their meetings there, and the cold weather is once more feel relaxation near at hand.

SAE will feature Barton at meeting

At the Tuesday meeting of the Student chapter of the SAE, Mr. H. Rawe Barton of ARP will discuss the laboratory methods used to study problems arising in automotive field service.

Among the items under discussion will be engine laboratory testing equipment, test procedures and their development, and the cooperative research programs being carried out by industry to improve automobile performance and durability.

At supervisor of the Railway Oil and Gas Lubrication section at ARP, Mr. Barton has had the opportunity to cooperate in programs sponsored by the major automotive, diesel engine, heavy road building equipment and oil companies. Such mechanisms as automatic transmissions, spray and valve lifters, gasoline and diesel engine lubrication systems, automatic valve rotators and automotive hydrotreated fuels have been studied by his section. With this background in mind, Mr. Barton's talk will be of considerable interest to all those concerned with service, protection and safety engineering. Members of Peterson's safety staff will be present to answer questions submitted.

Safety first: cash awards again offered

Again this semester two $5 monthly cash awards will be given to students who submit safety suggestions. The prize-winning ideas will be selected on the basis of the hazard identified, the danger involved, and the letter offered.

The following information should be included: A description of the unsafe condition or practice; suggestions, if any, for correcting; exact location; department under whose jurisdiction the condition prevails; name, address and department of the student submitting the suggestion.

The program is under the direction of Raymond J. Spach, vice-president of IIT, and Robert Peterson, associate professor of

Alpha Sigs honor Sonny's 25 years

On November 17, the Alpha Sigma Phi fraternity house was turned into a banquet hall as all the Alpha Sigs turned out to honor Bernard "Sonny" Weissman, 25 years at Tech. Sonny, a well known figure on campus, is athletic director at IIT.

Those present included: Sam Bibb, associate professor of Mathematics and coach; Ed Glynn, basketball and baseball coach; Grant Stenberg, 23rd inductee; Tom Barlow, wrestling and track coach; Jim Shawne, swimming coach; Joe Anderson, assistant professor of Technical drawing; and many alumni representatives.

After dinner everyone sat back and enjoyed an introductory speech by Sam Bibb, who for many years has been a friend of the students on campus. He told some of the pre-war activities at Tech. Don Norris, house president, then presented Sonny with a pair of silver cufflinks and a radio as mementos of the occasion. Later Sonny told of some of the experiences he has encountered while associated with Tech.

The event was covered by Frank Thomas, and his "Forcing Tech" radio show and was heard over WBBN at 9:00 p.m., the following Wednesday.

CONFERENCE IN THE CLOUDES

Among the undergraduates on any college campus, you'll find the talk reaching up to the clouds. And once in a while - in a classroom, around a study table, or even in a ball session - a really big idea is born.

Big ideas come, too, from the men and women in laboratories, business offices, shops. But often these professionals are exploring a path first glimpsed in college.

How do we know? Because of the many college people who have come into the Bell System, where big ideas and a lot of dreams have taken place in progress. The human voice, carried along a wire, first across a town, then a state, a nation, and now the world. Music and pictures and things happening delivered into cities and homes all across the land by radio and television networks.

We're always looking for the men and women who get big ideas - whether they're about people, or machines, or ways of doing things. Your Placement Officer can give you details about opportunities for employment in the Bell System.

MAKE IT A MERRY AND PRACTICAL CHRISTMAS WITH ARROW GIFT FAVORITES

Something for everyone on your list in our big Arrow selection. A tie or handkerchief, ... or a half-dozzen shirts, ... the right gift carries the Arrow label.

Arrow Shirts: Whites, stripes, solid colors, "tagless" fabrics. Wide selection of collar styles. $3.75 up

Arrow Apartments: Wash, never, cream, bluffs, Chevrons, pistols, solid colors, all washable. $1.98 up

Arrow Ties: Saved styles and patterns. $1.50 up

Arrow Handkerchiefs: All-white and handsome colored borders. Give them by the dozen. 60c up each

Arrow Undershirts: Choice of cotton, modal, or silk. Sizes to fit any man. $1.00 up

Arrow Athletic Shirts, $1.25

Arrow T-Shirts $1.60

Wheels roll again: SAAB gets busy

The Student Admission Advisory board, under the leadership of Warren Beardsley, is again busily engaged in setting up the SAA program. Composed of 15 members, recommended by the board itself and appointed by ITA, its main responsibilities are orientation, entertainment, and public relations. The students involved are from the Open House program.

Music clubs’ concert tours start Sunday

This Sunday a group consisting of the 10th floor and men’s glee club will start their first of a series of concerts.

Their first presentation will be a one-hour concert at St. John’s Methodist church at 7:30 p.m., and the second will be at Dauphin Hall, 11:30 a.m. The group will perform on the second floor of the auditorium. The last performance of the trip will be at the Rotary Club. The two-hour concert will also be held at the second floor of the auditorium.

News

On Monday at noon the Dramatics commission of the STC will hold a stunt-dub party in the ISU library. The occasion is the third of the three events for the STC and the library at the same time.

Petitions for class officers may be had by the Dean of Students office.

"Making Christmas Decorations for Mother, True and Dote" will be the title of a talk given by Mrs. Edith Washhine, when the ITT Woman's Club meets on Dec. 18 at 12:35 in the ISU Auditorium.

The deadline for applications for the position of Editor-in-Chief of the student newspaper is Dec. 15. All applications should be put in the box located in the ISU library.

Chapel services

Services of the Student Chaplain will be held at 12:30 in the ISU Auditorium, Dec. 18.

December 11

9:15 a.m.—The Holy Eucharist and matins, the Rev. Roland D. Driscoll, vicar of the Westminster church, in the ISU Auditorium.

Stone is new camera club

The alumni of the IIT Camera club has been reconstructed and a new group formed. The meetings are held on Tuesday at 8:00 in the ISU Library.

The Camera club provides its members with darkroom facilities for the photography of all types of subjects. All photography is done in the studio of the ISU library.

Events of the future include a student gallery scheduled for Dec. 10, at 7:30 in the ISU Auditorium, and a photography class on Dec. 12, at 3:30 in the ISU Auditorium.

Chapel services

Services of the Student Chaplain will be held at 12:30 in the ISU Auditorium, Dec. 18.

December 11

9:15 a.m.—The Holy Eucharist and matins, the Rev. Roland D. Driscoll, vicar of the Westminster church, in the ISU Auditorium.

Plant and Equipment Design and the Engineer

At DuPont, man with many years of training translates into large-scale production

Among the most interesting fields for engineers at DuPont is the design of plants and equipment.

It takes ingenuity of a high order to translate a small-scale laboratory operation into a large-scale commercial operation. It is a scale-up problem that has always been a problem in chemistry. Engineers cannot always use purchased equipment and must rely on their own research findings, even when they are the result of a small-scale laboratory operation. The design engineer must be able to work with the chemical engineer, who is the specialist in the field of chemical engineering.

Among the many factors that an engineer must consider in designing a plant or process, the first is the selection of the proper equipment. The engineer must be familiar with the various types of equipment used in the industry and the advantages and disadvantages of each. He must also be familiar with the various types of materials that can be used in the construction of the equipment.

In addition, the engineer must consider the economic factors involved in the design of the plant. The cost of the equipment, the cost of the labor, and the cost of the materials must all be considered. The engineer must also consider the safety of the operation, the ease of maintenance, and the ease of operation.

In this section, we will discuss the following topics:

1. The design of the chemical process
2. The design of the chemical plant
3. The selection of equipment
4. The economic analysis
5. The safety considerations

This section will provide a basic understanding of the design of chemical processes and plants. It will also provide an introduction to the economic and safety considerations that must be made in the design of chemical processes and plants.

event reference
From Where I Sit
by Bob Abrams

Basketball at Tech has come closer than any other athletic activity to the big time. Radio broadcasts of both home games were made from the Tech gym; the Lewis game by WFNL, and the North Central game Wednesday night by WNCC, the North Central radio station.

As for the other sports around here, the wrestling squad had its first meet against Nobby Popp this Wednesday afternoon. Coach Barrovia got a glimpse of his squad, which has a long winning streak to keep alive, under outside competition.

Three teams did not fall up, much to the relief of many people interested in the continuance of the various athletics here at Tech. The season is opening next Friday with a meet against Loyola at their pool.

The alumni will return to Campus on Tuesday, Dec. 16 to view the Alumni basketball team in a tremendous struggle with the present varsity squad. Such all-time greats from the Tech Scene such as Bob McCue, George Sealsner, and Bob Linder may return to the hardwood to match skills with the present stars. This should really be a game to watch, so don't make any plans for that night. This is the second such affair, and as last year there will be no admission charge.

The Tech Tourney is well on its way to its sixth year as entries are now coming into Sunny's office. As of Monday, 17 teams comprising a full slate. Any excess will be matched down with preliminary games to be played.

Interscholastic tennis was completed in a very quiet manner, no one knowing what happened. The truth has finally leaked out, but it just is amazed that highly favored Wally Schneidemaelch was beaten in the finals by Tibor Halasz. In the way of records, Wally was displayed as a 4 inch bruise on his shin that he claimed to be the result of the ghastly sport of football.

I think it was his little woman!
Fraternity Row

by RAY SULLIVAN

Tennis came to an ignominious end due to inclement weather, and to maintain various private interests, with the Debutante, Delta Alpha Sig, Theta Pi and the Phi Eta Kappa in the third of the race. Oddly enough the team that caused the turnabout is the one who played the first day to drop out of the race. Tennis play will resume in the spring as soon as our environment permits completion.

Basketball set up a winning string Monday night as Theta Pi 33 and the Alpha Sig joined into the lead in their league with wins over Delta Kappa and Tri-angle respectively. All play the first night was usually ضد and this was no exception as no team scored below the mark of eleven.

T.K. noted a 21-36 victory over Delta Kappa on the backs of Bill Kramer and Coma Alexander who scored 22 and 19 points respectively. Bill Glennen and George Hines carried the load for the losers with 16 and 10 points.

The Alpha Sig showed the most promise as the scoring was spread over the whole team on a 36-29 win over Triangle. Owe "we should see his team" Kruger was high point man for the Sigma's and the game with 13, "Blood and Gold" Pat上下游 was the big gun for Triangle with 11 followed by Neilsen with 8.

Basketball will be played in IFC under the same rules and conditions as last year with no changes or additions except for the fact that failure to turn in the score card to Coach Green by a circle of the day following the game will result in forfeiting the game. Also along this line if winning team fails to get a write-up of their game to me they certainly have no right to expect a good write-up. The loss of the 57m and the 27m equipment will result in the loss of the use of the gym.

A word to the wise: You're selling your own waste when you burn garbage property.

Fraternities throw party for 500 kids
As a result of the combined efforts of the fraternity and sorority houses, 300 children from Ada A. McKinley Community House will enjoy a Christmas party for the second consecutive year. The party will take place on December 12 at 3 p.m. in the Community house.

The entertainment planned will include movies, group singing, and a magic show. Santa Claus will be a special feature of the afternoon. There is a need for any well-mannered man to take the role. Also, any who has or knows of children who has magic talents is wanted. In all cases contact the chairman, Bill Delaney, at Triangles Fraternity.

The Inter-Fraternity and Pan-Hellenic councils are donating money, in addition to giving toys and other donations from business organizations. People who know where donations can be obtained should contact Nick Tisch of the Delta Chi.

Monday-Friday 9:00-12:00 Saturday
3:00-6:00

Three Barbers Wed. — Thurs. — Fr. Ernest Pirlofino, B.S.C.

Sales Management Trainee's
National Metal Mfg. Co. requires several high caliber men to train for sales management. Your opportunity to earn real money and learn practical sales management while investing your spare time. Car necessary. Two month trial ITT students, working part time, earned the following last month.

T. R. $466.10
R. P. $277.13

Can you beat these figures? FOR PART TIME WORK?
Both of these men are full time, top students in their classes.

We have openings for men throughout Chicago and in local territory. For appointment for interview please phone WA 8-9874.

Friday or Saturday only 10 a.m. to Noon, and 1:00 p.m. to 5:00 p.m.

As a result of the combined efforts of the fraternity and sorority houses, 300 children from Ada A. McKinley Community House will enjoy a Christmas party for the second consecutive year. The party will take place on December 12 at 3 p.m. in the Community house.

The entertainment planned will include movies, group singing, and a magic show. Santa Claus will be a special feature of the afternoon. There is a need for any well-mannered man to take the role. Also, any who has or knows of children who has magic talents is wanted. In all cases contact the chairman, Bill Delaney, at Triangles Fraternity.

The Inter-Fraternity and Pan-Hellenic councils are donating money, in addition to giving toys and other donations from business organizations. People who know where donations can be obtained should contact Nick Tisch of the Delta Chi.

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes.

A group of people from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields — 10 to 10 a day. 45% of the group have smoked Chesterfields continuously from one to thirty years for an average of 10 years.

At the beginning and at the end of the six months period each smoker was given a thorough examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears, and throat.

The medical specialist, after a thorough examination of every member of the group, stated: "It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined were not adversely affected in the six months period by smoking the cigarettes provided."

First such report ever published about any cigarette

FIRST SUCH REPORT EVER PUBLISHED ABOUT ANY CIGARETTE
