Integral work ahead of schedule: Martin

"The Integral will be out in the middle of next May," reports Bob Martin, editor of the '55 yearbook. "Due to the efforts of Maria Gray and Jean Staker during the summer, much of the layout has been completed—which puts the book several months ahead of schedule."

Senior dance slated for October 1

"Columbus Capers," an all school dance presented by the senior class of June 1955, will be held at 8:30 p.m., Saturday, October 9, in the Commons building lounge. Tickets for the dance, first to be held in the Commons, may be purchased from the senior class officers, Alan Albro and his band will be featured. Profits from the affair will be used to defray part of the cost of the Senior Prom next June.

Brown's background indicates success here

By Don Kline

All through the week of May 16, 1955, Don Gooson, then Editor-in-Chief of Technology News, was carrying a big "I told you so" under his belt. All of the members of the TN staff tried to worm it out of him, but he resisted, not telling the secret until the day he was asked to do so by Dean Danforth to science.

The story was typed by the regular inside news copy... (Continued on the last page.)

The first page of the layout was a big blank with the word "BOOM!" screamed across it. It was not until Thursday night that any idea appeared, and then only after what the editors of the printed story did on the only page as a stub and read the proofs of the pages at the printers, a job that the Cahaba's had handled.

The next day, Friday, May 21, Technology News was ready by all the time the Columbus was printed. The story was that of a newsprint and picture, and people told Don Gooson to declare B.E. Cunningham resigns from Associated Press. To those students who did not know who Bob was, the story meant little, but all of the others felt that Tech News was way behind the times and were not aware that Bob would resign.

During the summer the second change that would have occurred when a front-page headline read "Dean Brown heads new applications," P.K. in his Co-op-Tech is a fast becoming acquainted with Bob Brewer (better known as Bob). Those who do not know Bob have the opportunity to become fairly close to him, and those who do know Bob like him.

W. C. Brown is a 1955 graduate of the University of Illinois, where he majored in electrical engineering. A year's work was done by the National Bureau of Standards.

C. WILLIAM BROWN AT WORK AT HIS JOB as an Assistant Professor at the University of Illinois, where he majored in electrical engineering. A year's work was done by the National Bureau of Standards.

Integral portraits start Monday, October fourth

Senior portraits for the 1955 Integral will be made on campus during the week of October 4. A schedule for the portraits will be set up during the first period of Monday, Wednesday, and Friday of next week in the 401 Administration. Seniors desiring their portraits in the Integral should sign up with the computer operators under the time desired.

Social Calendar

Oct. 9—COLUMBUS CAPERS. (Senior Class)
15—NEPHEW'S DINNER (Panhellenic Council)
22—ALL SCHOOL DANCE. (ITWA)
29—ALL SCHOOL DANCE. (Newman Club)
Nov. 5—ALL SCHOOL DANCE. (Junior Class)
6—SQUARE DANCE. (Sorority)
13—INTEGRAL BALL. semi-formal. (ITSA)
19—TOY HARVEST, square dances. (Kappa Phi Delta)
Dec. 11—HOMECOMING GAME AND DANCE. (Honors)

The week-ends of November 12 and December 11 are closed to school functions by ITWA social rules. All other dates on the calendar are closed nights.
Pi Delt dance is successful; indicates future possibilities

In the trend of campus social atmosphere changing...

"Founders Frolic" settled its sponsor, Pi Delta Epsilon, a $50 dollar profit, one of the first successful dances held on campus in several semesters despite the use of "canned" music.

Sure, what's all this noise about being impossible to run a successful social in the vicinity of Thirty-third and Federal? Perhaps it's only lack of imagination which has prevented classes and organizations from doing as well in the past.

Publicity was the keynote of success in the Pi Delt undertaking. It was the fine publicity which was responsible for turning out a larger crowd than is usually noted at such functions.

The publicity went further than just an article in *Technology News*, a photograph in the *SU*. The dance was announced in a fashion orientation as well as passed through the hands of upperclassmen.

For other organizations this type publicity is somewhat difficult. But there are other methods. Intense publicity through the use of novel posters and flyers are the cause of much adoration. The area covered by these forms of advertising should not be kept secret from any campus social... (Continued...)

Letter to the editor

Lack of day school electives rouses students' indignation

Dear Editor:

For humanity's sake only am I addressing this letter to you. Those who I would actually like to address it to are: (1) those students who find it impossible to take the humanities electives which they wish; (2) those students who do not know the classes I shall expound upon exist; and (3) those students who wish to take philosophy and know that one such course is being offered at night. Many students cannot take night courses because of homework, work, activities, and the like.

A dear fellow student of ours is five: Orientation to Philosophy, Ph. D. 353 and 353; Ethics, Ph. D. 151; Major Philosophy, Ph. D. 353 and 353; Philosophy of Science, Ph. D. 353; Language and Meaning, Ph. D. 353; these are humanities electives. Also included in the catalog is Logic, Ph. D. 253, a non-critical liberal studies or humanities elective. None of these is offered in the day school bulletin and only one is in the night school bulletin. It seems that the philosophy course is a semester course is offered, and that only once during the evening.

Because of this fact many students who do not bother to look at the night school bulletin, do not know that any such classes are offered and end up taking Shakespeare, Chinese, Introduction to English Lit, or some other humanities elective in which they are not the least interested. This same fate presents itself even to most...

Slipstick

A lady on a planet was annoyed by the snoring of a man in the upper berth. Exasperated, she snuck on the other side of her sleeper. Finally, the man stopped snoring and called: "I say, you know it and I'm not coming down." Then there was the queer term that she mumbled.

Wisdom—Knowing what to do next.

Still—Knowing how to do it.

Visits—Not being there.

She: "There are a lot of people who don't stay in parked cars."

He: "Yes, the words are full of them."

---

as I see IT

Glimming over the social calendar recently, I have noted about every weekend from early October until Christmas has been scheduled with one sort of dance or another. This is a fine line in showing social spirit, but surely the organizations must realize that they are only knocking each other's dances in order to result in fabric for the majority of the sponsors. It appears that everyone wants to get into the Pi Delt... (Continued...)

wordaweek

Two weeks ago, whether you knew it or not, with the formal introduction of a new word; that is, if you read *Technology News*.

That word was Co-Techwak. It's the feminine form of Techwak. In the past Techwak was used to describe both female and male students at Tech. With the use of the new word, the gender can now be distinguished. This word was used to describe a new bald spot on Phool's face, as it is not completely new to Techland, but it has never before come into common usage. This is just one of the new words. So far...
Financial campaign begun for ID Building due Nov. 1

Financial groundwork is well under way on the new Institute of Design—Architecture building scheduled to go into construction November 1. The Institute of Design fund-raising campaign will be managed by Mr. William M. Stuart, head of the Martin-Senour Paint Company, and the campaign for the architecture department will be run by Mr. Ronald F. Friedman, senior partner in the architectural firm of Friedman, Alschuler and Minnich.

Both gentlemen have indicated that they will raise more than $200,000 for their respective departments. Stuart will solicit funds among firms benefitting from increased sales due to good design, and practitioners in the various fields of industrial design. Friedman will canvass Chicago area architects, contractors and building suppliers in his сфере.

In the words of William Friedman, "Wide support will be used by the architectural school is the only way in the Chicago area, because of the expanding needs of the field. The building is needed far more for the services which the school has been giving since its 1936 establishment, and because Chicago is challenged to maintain its position as the birthplace of important architectural innovations such as the balloon-style of skyscrapers and high-rise buildings and skyscrapers." The new building will be of advanced design, encased entirely with glass and a concrete roof that will be supported from exposed steel girders. Unique feature of the building will be its large, column-free interior and as their support, the building will be made possible because of the suspended roof. The hall will contain two large, 38-foot high drafting areas on either side of a center area to be defined by low, free-standing wood walls which will form areas for administrative offices, a library, and an exhibition gallery that will also be used for assembly purposes. The hall will be mechanically ventilated and its all-glass walls will have space for lectures.

The building will be erected, being much on the historic fourth street, between State and DuSable streets, site of the old Stae apartments building, which several years ago will house Illinois Tech's departments of architecture and industrial design, and the soon-to-be-established depart-

C CO tests frost eyes; facilities open to Tech

Incoming freshmen were given a thorough eye examination on the 8th and 17th of September. The exam was conducted by the Chicago College of Optometry. Mr. Hyman S. Wells, clinic director, said that the purpose was "to determine whether a student is visually prepared to undertake his course of study at IT." Although the college is not directly affiliated with IT, its students are granted the use of Tech's housing facilities and the Commonwealth, Tech students, on the other hand, have use of the CCO facilities at a discount of twenty per cent and may participate in a more detailed eye clinic for one dollar.

This clinic is open from 9 a.m. to 5 p.m., six days a week. Any student wishing to avail himself of these services should call 5-6494 for an appointment. The clinic is located at 301 S. Michigan Boulevard, one door away from the new CCO building.

In addition to those clinical exams, IT students have access to the visual training department and the dispensary—all ophthalmic equipment furnished at a twenty per cent discount.

Library tries new hours: exhibits book collection

Artieda's De Re Metallica, one of the earliest and most famous books published in the field of engineering, is on display in the library's new exhibition case. This book was first published in 1884, in a Latin edition, then reprinted in 1749. This edition, an autographed copy of the Latin translation of 1749, and a 1928 German translation, have also been exhibited in the library.

The library has also announced new hours for this semester. The library will be open on Monday, Tuesday, Thursday, and Friday from 8 a.m. to 6 p.m. and on Saturday from 9 a.m. to 2 p.m. In order to extend its service, the library will be open from 6:30 a.m. to 11 p.m. on Saturday in addition to the weekday hours.

Library hours: Monday to Friday, 8 a.m. to 6 p.m.; Saturday, 9 a.m. to 11 p.m.; Sunday, closed.

Smoker's Story

"I started smoking in college. For 17 years I've enjoyed Camel's smooth mildness and good, rich flavor. You ought to try Camel's!"

- Douglas Leach

Creator of Broadway's Giant Spectrometers

Camels

For Mildness... for Flavor...

America's most popular cigarette... by far

AGREE WITH MORE PEOPLE THAN ANY OTHER CIGARETTE

CAMELS

...AND HOW IT STARTED

Douglas Leach says: "After leaving the University of Florida (where I'd sold yearbook ads), I had big, crazy ideas about making new kinds of spectacular displays. So I bought a Brownie and went to New York to photograph rooftops. My first sign was a huge, steaming coffee cup on Broadway. At age 37 I was starting to learn an exciting business!"

START SMOKING CAMELS YOURSELF! Make the 30-day Camel Mildness Test. See how Cigarettes give you more pure pleasure! See for yourself why Camel's cool mellowness and rich flavor agree more people than any other cigarettes.

Chicagoland industries show designs

The Industrial Design Exhibit will open October 6, on the IIT campus, for a three-week stay. If you have ever wondered what is produced in Chicago, now is your chance to find out. On display will be locally designed products of the past two years. Only designers from this area are being invited to exhibit their wares.

Ted H. Ketter, chief designer of the International Harvester company, and general chairman of the exhibit, has announced that the purpose of the exhibit, "to scramble more people to appreciate and want good design." The exhibit will be set up in the lobby and first-floor hallways of the Metallurgical and Chemical Engineering building at 18 W. Thirty-third street and will be open to the public, admission free, from 9 a.m. to 9 p.m. each weekday and on Saturday until noon.

Rush week yields 181 fraternity, sorority pledges

Formal pledging of one hundred six inches men climaxd a hectic week of parties and dinners on Saturday, October 5, on the campus. A variety of house decorations greeted members and visitors alike. Novely decorations included a mock stick of tobacco, a golf course, and several gambling tables.

Results of this year's pledging found the Sigma Chi fraternity with a total of thirty-two pledges, Tri Alpha a close second with twenty-five pledges. The Phi Kappa Delta won by a small margin, pledging each of fifty pledges. The Aves have had their largest pledge class in their history this year, a total of fifteen pledges, while the Alpha Sigma and Theta Xi each pledged eight members. The Beta Theta Pi and the Phi Kappa Delta wish to extend their thanks to the ladies who took part in formal rhyming for the first time this year, pledged the most pledges.

Among the sororities, fourteen pledges were received by fifteen members of this semester's pledge class. The D.D.'s pledge class of Sigma Kappa and Kappa Phi Delta two girls this year.

Campus Charity Chest nets only half of quota

Campus Charity Chest netted $124.87 by last Saturday, quite a bit less than the expected quota and only half of last semester's amount. The average was a mere 12 cents a student compared to an average of 30 cents last spring.

Bill Olson, chairman of the collection, stated that the collection did not fall to the position of the collection basket. The position was changed at the last moment and many people did not even find it. It is believed that if everyone had found it, the quota of $250 would have been reached.

Got a Lucky Droodle in your noodle?

SEND IT IN AND MAKE $25

Went to pick up $25? Make up a Lucky Droodle and send it in. It's easy.

If you want to find out just how easy it is, ask Roger Price, creator of Droodles. "Very!" Price says. Better yet, do a Droodle yourself, like the ones shown here.

Droodle anything you like. And send in as many as you want. If we select yours, we'll pay $25 for the right to use it, together with your name, in our advertising. We're going to print plenty—and lots that we don't print will earn $5 awards.

Draw your Droodles any size, on any piece of paper, and send them with your descriptive title to Lucky Droodle, P.O. Box 87, New York 46, N.Y. Be sure your name, address, college and class are included.

While you're droodling, light up a Lucky—the cigarette that tastes better because it's made of fine tobacco . . . and "It's Toasted" to taste better.

Droodles, Copyright, 1954, by Simon Price

Luckies Lead Again in Colleges!

Nearest, biggest survey of smokers in colleges from coast to coast, based on $4,400 actual student interviews, shows that students prefer Luckies to all other brands. Once again, the No. 1 reason: Luckies taste better.

Chapel services for students... use them!

By Joe Williams

Have you taken advantage of your campus chapel lately? In case you're not familiar with its location, it may be found on the thirty-second street between Wabash and Michigan avenues.

Directions to the chapel:

- Dales, Dines, and Denizen
- Directions to the chapel are listed on the bulletin board in the Student Center. Directions may also be found on the door of the chapel. Please note that students in the dormitories are able to attend the chapel services. On Sunday, the chapel is open from 2:00 to 5:00 PM.

- The following is a list of the ministers and the denominations they represent, and a telephone number for each one, which you may be able to reach.

- Father Joe Lawrence: 212-7745
- Father Thomas MacRae: 212-7741
- Mr. R. H. Knowles: 212-7740
- Father John Webster: 212-7741

- In the near future, a Continental club for Episcopalian students will be formed under the direction of Reverend Lawrence. If you have any questions about this group, feel free to contact any one of these clergymen for counseling. They will be more than willing to help you.

Wind tunnel construction at IIT on Air Force contract

Professors attend summer program

Professors Benjamin A. Fisher and Benjamin A. Welzi have returned to the IIT campus after completing a month's assignment at the University of Technology, Chicago, under an Air Force research contract in the near future. A wind tunnel, especially designed for heat transfer studies, was completed at the University of Technology, Chicago, under an Air Force research contract.

The wind tunnel will be provided with a 100 HP. air compressor and a 3000 lb. air pressure system. A new heat transfer test chamber will be constructed at the University of Technology, Chicago, under an Air Force research contract.

Colonel Martin, new Navy head

Colonel Elton D. Martin, Jr., USMC, is the new Commanding Officer of the Marine Corps Base at IIT. Colonel Martin has been promoted to the rank of Brigadier General and is assigned to the Marine Corps. He is the new head of the Marine Corps.

He has been the new head of the Marine Corps since last year. Before taking over the unit, Colonel Martin served ten months in Korea as CO of the 1st Marine Division. He is a graduate of the United States Naval Academy at Annapolis and his home is in Memphis, Tennessee.

In regard to his new assignment, Colonel Martin said, "I look forward to this opportunity of being associated with IIT. I feel that our program offers an excellent opportunity to prepare ourselves for the future and for service as an officer in the Navy or the Marine Corps.

Today... Facts Are What Count

The recent great strides in military science, pure science, commerce, and industry have resulted from modern man's ability to determine the facts and act accordingly.

Tremendous advances have been made in the past few years in fact-finding machines. Through electronic computers, great masses of data, which would have taken a lifetime to process can now be handled in a few days. Ordinary volumes of work can be done in minutes by the making of "mathematical models" specific to the tasks, products, or regions. A man today can predict the probable results, minimize risks and costs.

Leading manufacturers of electronic digital computers, electronic and electrical machinery, have systems and electronic equipment. IBM

Opening Pigskin Prophets contest won by H. Smith

Last weekend’s football games proved too difficult to forecast as no prophet submitted a perfect entry. Harold Smith, a FFE, and Bob Geifer, a freshman in the EE department, were tops with eight correct predictions. Smith became this season’s first winner via the tie-breaker. Don Glossop, a junior, won third place with his seven correct results. Only 15 students entered the contest but a better return is expected this week. Three winners should report to the Tech News office any Tuesday evening in October for their prizes.

At least two major钢球 were witnessed Saturday at Penn State outplayed and out-

VARSITY BASKETBALL
to begin this month

The first practice session for the 1954-55 basketball squad will be held at 4:00 p.m. on Monday, October 18, 1954 in the school gym. All day school undergraduates not on probation are eligible to compete for positions.

Coach Ed Glancy is faced with the task of finding replacements for Tech’s all-time scoring great, Joe Byerwalter, and Carl Grant, outstanding award on last year’s squad. Returning from last year’s team which posted a record of 15 wins and 6 losses are six important players in their respective leagues and also in national ratings.

If the team can make a strong showing, Illi-

Gralow’s Groans

by Dick Gralow

Football got off to a fast start this week with the first game in the interfraternity league. JV football was also in the news as representatives of the teams entering the league met Wednesday. Last year’s champions, the AFROTC, are expanding this season by entering two teams. To do this the rules require the teams to include not less than 15 freshmen and sophomores on the roster. This split should give last year’s runner-up, the FFE’s and Navy an edge in the season’s competition.

Tennis fans will start dusting off their rackets next week as the annual I.M. Tennis competition will be held October 8, 9, 11, 13, 15, and 17 during the free hours. The matches will be played on Tech’s courts located at Thirty-second street and Washington avenue. Those interested should sign the roster posted on the Gym office bulletin board immediately as entries close today.

There were quite a few Techs who raking their fingers practicing baseball on Ogles Bog during the recent sessions. Anyone who has even walked across Ogles Bog would agree with me about the athletes endangering themselves by playing there. This lot that passes for a college athletic field is deeply the worst at any college or university in the country. The administration recently agreed to remove some of the boaters. This job, which could hardly be completed by an army of well-equipped men, was supposedly accomplished by one man in two afternoons. I guess as long as nothing will be done to remedy this dangerous condition of the field until someone is seriously hurt while playing there.

Out coach Bibb held his fall practice last weekend with fifteen Techs participating. A meet is tentatively scheduled with the United States Military Academy. Coach Bibb will be watching the outcome of the IF golf tourney with a great deal of interest since his team is hard pressed for new members.

The club invites all students and members of Tech’s staff to participate.

Northwestern university and the University of Chicago will be Tech’s opponents in the first sailing race, to be held on October 10 at the Columbia Yacht Club.
Fraternity Row

Interfraternity football began Wednesday with the Phi Kappa Psi vs. Pi Kappa Alpha. The Phi Kappas gained the only score in the wining seconds of the first half as quarterback Dick Gow connected on a pass to Al Kuroki in the end zone. The D's received the kickoff and couldn't move the ball and had to punt the ball on the fourth down. With the Phi Kappas in possession, 2-24, the D's defense tightened the formation. The rest of the half found both teams moving up and down the field, but essentially until the only score was made. Possibly, the Phi Kappas might have made a bigger TDS but for the inability of the receivers to hang on to the ball as Grahame placed it in their hands.

The second half progressed with both teams able to get around the middle defense. Although the D's lost, they made a good showing and made up their lack of manpower by grit and spirit.

To the delight of the Theta Xi and Psi Rho football fans, the Phi Kappas scored their first touchdown as Caruths Hall was moving to the corner of the field. The ball was snapped to the quarterback, who then passed to his left to a Phi Kappa Psi teammate. This time the ball was intercepted by a Phi Kappa Psi teammate, who returned it to midfield. The Phi Kappas were not fooled by the trickery and closed in on the ball carrier, forcing him to fumble. The Phi Kappas recovered the ball in the end zone for a touchdown. The Phi Kappas went on to win the game 24-7.

Wrestlers meet in mid October

A meeting for all those interested in wrestling will be held in the near future. Notice of this meeting will be posted on the Physical Education Bulletin Board, which is located near the entrance to the gym.

The meet will be held on November 1, 1954, in the gym. The meet will begin at 7:00 p.m. and will be followed by a social hour at the conclusion of the meet. The meet will feature dual meets between the Illinois Tech and Northwestern teams. The meet will be opened with a private function and will be followed by a social hour at the conclusion of the meet. Campus Organizations

AICHA
Dr. H. H. Seigle will address the IIT chapter of the American Institute of Chemical Engineers at 11 a.m., Friday, October 8, in 1303 S. S. B. Members are invited to attend the meeting at 8 p.m. Monday, October 5, in the Campus Ballroom.

Sophomore Class
All sophomore students interested in competing for the intramural cheerleader are urged to attend a meeting by 8 p.m., Tuesday, October 6, in the cafeteria. The Student Council will elect a new cheerleader for the year.

ASM
A feature of the first meeting of the American Society of Mechanical Engineers will be a talk on "Designing for Reliability, Present and Future" by Prof. D. O. S. P. and Dr. T. A. of Oregon State College. The meeting will be held at 11 a.m. in the Mechanical Engineering Building, Oregon State College.

Professor Passaro graduated with the Bachelor of Science degree in Metallurgical Engineering from the University of Illinois in 1949 and after serving for three years in the U.S. Navy, he was employed by the Illinois Tool Works. In 1956 he accepted a position with the Department of Mechanical Engineering at Oregon State College, where he is an associate professor. He has worked as a consultant for the Bureau of Mines on the development of ferrous metallurgy.

Professor Passaro, or his colleagues, as he prefers to be called, is currently studying for an advanced degree at the University of Oregon. He is married and has two children.

The ASM cordially invites all members of the College to attend this important lecture.

Campus Players
Campus Players, IIT's dramatic group, held an organizational meeting on Tuesday, September 23. Furl envelopes were: president, Robert Kinney; vice-president, William Keene; treasurer, Nancy Veit; and secretary, Barbara Underwood. The group met at the Student Center and discussed plans for the coming year. The next meeting will be held on Monday, October 9, at 8 p.m., in the Auditorium.

Junior Class
A dance is planned for Friday, October 9, in the Student Center. All interested students are welcome to attend.

Newman Club
The Newman Club will hold a meeting at 8 p.m. Monday, October 6, in the Auditorium. The meeting will include a discussion of the club's activities and plans for the coming year.

Music Groups
The Glory Boys, a Baptist religious group, will hold a meeting at 8 p.m. Monday, October 6, in the Auditorium. The group will discuss plans for the coming year.

News Briefs
The student newspaper will have a special issue next Friday, October 8.
