A group of students and administration members have been discussing the security problem.

Two new policemen aid in solving security problem

Last Monday at the special security council meeting it was stated that "The special policemen who are employed to guard the personnel and property of IIT are doing a fine job."

Although the policemen were not being questioned in their efficiency, Mr. Walter J. Pardis, adjutant of buildings and grounds, expressed concern that the attitude of the student body toward them was not sufficiently friendly. He mentioned that the men had reported incidents where Tompkins had derided them, and in general showed disregard.

Raymond G. Spacht, vice-president of IIT, held the majority of the new arrivals and the time they spend in service each week-keeping the officials picked up on the campus. He was generous in his praise of the police, and observed that only a handful of them were guarding a comparatively large area, and doing the job as well as it could under the present circumstances.

Mr. Spacht also announced the placement of two new policemen on the security force, and told of his intention to establish the academic center for the city of Chicago. "The arrangement is well aware of the situation at IIT, and has appointed Capt. Relly of the Security Company to be assisted in the duties of the area. In addition, the city has put a task force of its own at the police station, and the field of finding and apprehending trouble-makers has been widened by the trouble in the situation," said Mr. Relly.

The meeting ended with an agreement that the next meeting would be held next Monday during fire hour, in the MC conference room.

Present at the meeting were: Raymond G. Spacht, Walter Pardis, Dean Jenkins, Dean Brown, John W. Mather, Robert F. Miller, William Linneman, and Richard Mossy.

Adams, Lebedow, Rosenberg, McNair appointed to SAB

SAB has announced its appointment of the 21 that applied, those appointed to the board are: Doug, Adams, Ted Yung, Robbin, Lebedow, Tom; Robert Rosenberg, Triangle and Robert Martin; Delta Tau Delta.

Critics on which appointees are based are: Benton, 80% of the board; Lebedow, 80% of the board; Robert Rosenberg, 80% of the board; and Robert Martin, 80% of the board. In addition to flexibility as to the type of jobs they can handle, the critics are based on the following criteria: the number of years they have been members of the organization, the number of years they have served as a member, and the number of years they have served as a board member. New members will be added to the organization at the present membership (as of October 1).

Dad, Peter, Mass. (CCM)

Dad, Peter, Mass. (CCM)

Dr. J. C. Boyce appointed vice-president and dean

Illinois Institute of Technology has named Dr. Joseph C. Boyce, associate director of Argonne National Laboratory, to become its vice-president and dean of its graduate school. It was announced today by President John T. R. Hatzenbiller. Boyce will assume his new position on December 1, and fill a vice-presidential post at Argonne which has been vacant since 1960. Boyce will bring to the position a background in nuclear engineering, a field in which he has been active for over twenty years.

The Ball, to be held in the Ballroom of the Chicago Hotel and Country Club on November 12, will have music by Ernie Denison and his rock and roll orchestra. The dance is limited to the official and will start at 9:00 p.m. The high point of the evening will be around 11:00 p.m. when the open will be opened and the traditional kiss taken from her date.

In contrast to past years, parking facilities will be available and in adequate amounts. The dining room of the club has its own area and the student parking lot will be available for a fee of 50 cents.

The ballroom is available for all events throughout the year, and is one of the few facilities in the city that can accommodate large groups. The ballroom can seat up to 1200 people, and has a variety of decorations and equipment available.

Freshman class to hold open meeting, Nov. 7

Several pertinent issues will be discussed at a meeting of the freshman class, Monday, November 7, at 11:00 a.m. in the Student Union auditorium.

The question of merger with the sophomore class will be discussed. The freshmen will vote on the question of merger with the sophomore class. The freshmen will then vote on the question of merger with the junior class. The freshmen will then vote on the question of merger with the senior class. The freshmen will then vote on the question of merger with the graduate students.

Positions open on Technorama staff

Applications are now being taken for positions during Technorama. Illinois Tech's open position is for a sophomore open house chairman, a sophomore open house director, a sophomore open house assistant director, and a sophomore open house assistant director.

Applications should be submitted to the Technorama office by November 1, 1965, and should include a resume. The resume should include the student's major, minor, and any other relevant experience. The resume should also include a statement of why the student is interested in the position.

Any questions concerning Technorama or open positions may be directed to the Technorama office.
Dark horses start running

The recent statement of Senator Russell D. (D. Ga.) and Texas Governor Frank Long that they might like to see Ohio Governor Frank Latimer as the party’s nominee next year is a highly significant political move. Lauchie is the first of the candidates, while he is probably as competent and popular as any candidate who might be nominated, he is not well known outside of his home state, and is a relative newcomer in the political world.

The endorsement of Lauchie is significant for several reasons: first, it indicates that many influential Democrats want to be able to pick the nominee at the convention and not have him determined beforehand, as was the case in 1952.

Certainly Mr. Truman has been bending over backward to avoid committing himself for any candidate about all of his testimony has been (and he is probably still the most important single factor) a good New Yorker. While President Truman and Mr. Johnson say that Illinoisans should think to their own state and that the New York delegation has no right to say anything about them.

Margaret’s duty

It is most refreshing, in this coldly immoral world, to be once again reminded that the word “duty” still holds some meaning in our society. Duties are required to do or perform an action chosen to achieve one’s goals or objectives. In the performance of duty, she had little left to be (comparatively) and to be in the same day system of values, everything to gain. She did, however, have little left to be a person of color or of the Empire.

Your decision has been made, and I am sure that your own statements and that of the royal family as well, are not to further force our opinions on anyone. As we see it, we have one editorial mission . . . to cause our readers to think about what we say.

Good policy

(Signed from the Emory Wheel, Emory University)

The primary purpose of any newspaper, whether it exists on a college campus or in a city, is to report the news. That news has been reported in a manner free from bias and slanted; the staff of the paper has been chosen for the best possible. That will be the aim of the Wheel this year.

This is not a new thing. The Wheel has for many years attempted to report the news about life on campus and not just political as possible. We believe that we have succeeded in this attempt. Yet, the coverage of events such as the musical performances, the art shows, and the lectures of noted figures on campus will be continuous.

Letter to the Editor

Functions of SAAB explained

Editor, Technology News

Dear Mr. Editor:

The two articles in the October 21 issue of Technology News concerning the Student Admission Advisory Board have been quite interesting. I am writing to you about one of the most important aspects of SAAB work: the role of the SABA (Student Admission Board) in the selection of students.

Assistance for incoming students during orientation week is a valuable contribution of SAAB. This effort has been constantly refined from semester to semester, and in the opinion of many, the senior counseling of the recent orientation week was the most effective that we have experienced.

Good policy

Three mixers to highlight weekend's social activity

Three mixers tonight feature this weekend's off-campus social activity. "Turkey Test," a dance and mixer, is being sponsored at Mercy College of Nursing at 2:30 p.m. The party is to begin at 8:00 p.m. and admission is required at a 50 cent dinner to be held at the door.

The second portion of tonight's activity is at Rosey Collyer which is located at 2830 Division Street in River Forest. The mixer will start from 1:30 to 11:30 p.m. and tickets may be purchased at the door for a nominal fee of 75 cents.

There isn't too much else new in the big city, so all Techs can save their money for the big "Lexicon Ball" at Tom O'Hanter next Saturday, November 12. It is the biggest night for this.

Religious talks to begin soon

Father Lawrence, the ITT chapel minister, thinks that Tech students might benefit from the stimulus of some religious thought. He has secured him that if a student to hear and talk with a religious scholar, the experience might stimulate his thinking on his own. Father Lawrence feels that there is a need for a scholarly religious inspiration, and he has found it in the Reverend Richard Young, director of the Andrea House of the West Side Medical center.

The first lecture and discussion will be held Sunday evening at 8 in the seminar room of Carman Hall. The series will continue on the following Sunday evening. The subject for the first lecture will be: Nov. 6 "Problems of Modern Man." Nov. 13 "The Idea of Revolution." Nov. 20 "The Idea of Authority." Nov. 27 "The Whole of the Faith." Chapel Services: Sunday November 6. 9 a.m. Holy Communion. 10 a.m. Morning Prayers. 11 a.m. Auditorium. Noon by the Chapel. 11 a.m. Holy Communion. 8 a.m. Tuxedos to Rent $7.50

People and Places

Chicago theatres begin to take

on more of a Broadway air

by Owen Rossen

A person in Chicago, reviewing the local theatre scene, might think, for one fleeting moment, that he was in New York. The reason for this is that the theatre scene has changed considerably — and for the better.

One factor is that there are more big shows in Chicago at the same time. (In fact, there were two on the way in the next few months. Another is that under the urging of Chi-

cago's increasing interest in the local community's new theatre, theatres are starting to take their acts on a first-class level. The local procedure is that the best seats to ticket brokers and influential people. Also, there is a marked change in the attitude of the public. One of the things that the local community companies complained of was that critics were too

harsh in their reviews and that they were not encouraged to write clearly and thoughtfully. While this has been the case, the reviews have been done extremely well. This has all helped to make the theatre scene more widely enjoyed and has enhanced the theatre's role in hanging around longer.

"Can Can" at the Shubert has the house of having the biggest run. "Souvenir," "The Quest," "The Luck of Little Theatre.""""...""

On November 12, Music Hall by Cole Porter, dances by Michael Kidd, and scenery by Abe Burrows makes it a musical comedy that is very entertaining. "The Admirable Crichton," by John Galsworthy, is given Monday through Saturday nights with matinees on Saturday.

The "House of the Ancients," at the Elgin, is in its fifth week and due to full houses most of the time. The impressive performances have a long run. An extremely funny play that was well received by the critics. It stars Burgess Meredith and Scott McKay. Performances are scheduled Monday through Saturday nights with matinees on Saturday.

"The Blackstone," in its fourth week, is the "Blood Good Cullin-

n." A pleasant little comedy. It was taken for a ride by the critics but has had a very strong box office. Also, "A Funny Thing Happened on the Way to the Forum" by Stephen Sondheim and Jerome Robbins. It has a score by Stephen Sondheim and Jerome Robbins. It has a score by Stephen Sondheim and Jerome Robbins.

The play is a musical comedy that is very entertaining. "Can Can" by Richard Adler and Jerry Ross, and George Abbott is a musical comedy that is very entertaining. It has a score by Richard Adler and Jerry Ross, and George Abbott.

"Lucky" opens December 5 at the Great Northern, and the cast is off from that of the Chicago productions which starred Alfred Drake and Ethel Merman. The same night "Anastasia" opens at a different theatre and is announced. "Plaza and Palace," a musical comedy of the Pennsylvania Dutch, opens January 30 with Alexander Kent as King.

The Goodman Theatre and the Northwestern University Thea-

tre do not help to provide such a "New York" theatre scene.
Information concerning Naval air to be given

A naval officer information team will visit the Illinois Institute of Technology from 8:00 to 16:00 on 11 November to present the various officer programs currently offered by the US Navy.

Young men interested in Naval Aviation may be considered for two programs. One is the Naval Aviation Cadet Program in which applicants must have completed two years of college, be between the ages of 21 and 30, and be unmarried. Successful applicants will receive a commission in the Naval Reserve upon completion of approximately 17 months of training.

College graduates are eligible for the aviation officer candidate program. Applicants must be between the ages of 21 and 30 and may be married. Successful candidates will be commissioned in the naval reserve after four months of pre-flight and will undergo advanced training as a commissioned officer.

All applicants must be United States citizen and in good physical condition.

Young men having the above qualifications and possessing the desired interest in Naval Aviation, and who will be unable to take advantage of the naval officer information team visit may write LCDR J. Baleruk, GRGNS, Glenview, Illinois, or phone G-13000 E. 312.

John Burns, FPE boast long list of campus activities

by Dave Roberts

In addition to being President of Sigma Phi Epsilon, John Burns, a 4th semester FPE from Oaklawn, Ill., is running this his senior year as an engineering member-at-large to the IPSA Board of control and an IPC representative. He also was recently elected to the Who's Who.

Last year, John was both Treasurer of the junior class and on the IPSA Financial Committee.

Marcia Gray is delegate to journalistic convention

Marcia Gray, editor-in-chief of the 1955-56 Integral, represented the IIT chapter of Pi Delta Epsilon at the national convention held at the Colorado A and M college, Fort Collins, Colorado, on October 28 and 29.

Seminars and meetings comprised the main business portion of the activities, while tours of the campus and surrounding area, coupled with other manifestations of hospitality on the part of the hosts made the affair enjoyable.

Among the highlights were the election of national officers and a talk by Albert McKinsey, the Colorado editor of the Denver Post.

The Tech chapter has recently communized the planning of putting together student groups, drawn from the ranks of the publications' staffs. Members of that group will be required to obtain one signature from each of the present officers, and wear a red card containing a press card of special type and dimensions.

"At the present time, Pi Delta Epsilon is in a position to keep all its members informed and enthusiastic."

D's whip Air Force in final to take tourney championship

The Ds capped the pre-season basketball tournament sponsored by Alpha Epsilon Pi by crushing the Air Force 70-49 last Friday night. For the Ds, Truesdale led all scorers with 24 points. For the Air Force, Navin led all scorers with 16 points. The game was a close one until the last minute, when the Ds pulled away to win.

Thursday night the Ds played Kappa Sigma with the latter on the short end of a 53-42 score. High scorers in the game were: Kappa Sigma's 18 points for the Los Alamos team, and the Air Force's 36 points for the winning team.

This Friday night the Ds played against the Lambda chapter of Alpha Epsilon Pi. The Ds won 78-52. High scorer for the Ds was Truesdale with 28 points. For the Lambda chapter, the high scorer was a member of the team with 12 points.

BOWLING LEAGUE SCORES INDICATE CLOSE RACE

If the present pace is maintained the bowling league will be characterized by close races. The Sunday league is an example of this, with the current leaders being: Monday, Fraternity Hall (178); Tuesday, Kappa Sigma (175); Wednesday, AAR; Thursday, Kappa Sigma (173); Friday, Gamma Delta Zeta (172); and Sunday, the Sophomores (169).

ENGINEERS, SCIENTISTS, PHYSICISTS, MATHEMATICIANS

Important on-campus interviews soon!

North American Missile and Control Department Representative will be here Nov. 11. You'll learn first hand about the advantages and opportunities in choosing a career with a future at North American. Here engineers and scientists are now discovering new frontiers in four exciting new fields:

- ELECTRO-MECHANICAL
  - Missile Guidance Systems
  - Fire and Flight Control Systems
  - Computers

- ROCKET PROPULSION
  - High Thrust Engines
  - Propellers
  - Rockets

- SUPERSONIC AIRFRAMES
  - Structures
  - Thermal Protection
  - Vibrations and Flutter

- NUCLEAR ENGINEERING
  - Research Reactors
  - Medical Reactors
  - Power Generation Reactors

Contact your placement office today. Make an appointment to visit North American representative, Mr. J. W. Pietsch, on Nov. 11, between 8 A.M. and 2 P.M.

Tiebreakers decide winner of final of Integral Ball bid

by Ken Griffin

It looks like there was a little collaboration between last week's winners, since all three had identical entries. Each had one error, that of the Minnesota-USC game. The winner, who annulled the final I-Ball bid was Jules Lipton, a first semester MC, Charles Wood and Al Guicciardi were runners-up. Next week's contest will be announced soon.

As the teams turn off cold and colorless, a football team's thoughts turn to the post-season bowls and games. The reason for this activity surrounding the current gridiron contests to decide, since the remaining games on the schedule are either contests between the country's most winless team or matches where the top gridiron emotions face vastly inferior opponents. The number of consistently good teams dwindle as the season progresses, and the interest laden, closely contested games are few and far between.

This week, for example, Notre Dame faces Pennsylvania; the boys from Ann have last chance in their own contest in a row. The question here, however, is whether the Irish will win or not, but will Penn have a team ready at the end of the first half. Unbeaten Oklahoma and Michigan are heavy favorites over opponents that were non-conquering foes. Navy and Maryland play eleven third time this year after the middle of October and last Saturday, respectively.

UCLA and West Virginia, the powers of the west and east coasts, play each other. Pacific and George Washington, teams that can often be counted on to produce some interest.

There are some close games, however; but these are matches between North, western, Dartmouth, and Villanova, where the spectators have little resemblance to football.

The outstanding game that will grace your TV screen will be between Kansas State and the Wildcats of Wisconsin. If statistics are any indication of merit, this game will be a good one. The Wildcats scored a point last week, but 76 points were scored in the game. So, the Wildcats were drenched wet, they will be favored to win the week's againometry of errors.

On the west coast, California encounters Washington. This game might be called a tie. (Continued on page 8)

I-M basketball meeting scheduled for Nov. 18

by Dean Kedron

A meeting for all interested in I-M Basketball will be held November 1955 at 11:15 a.m. in the Gym office with Ed Glancy, school basketball coach and Intramural Sports chief;

Plans for the coming season will be discussed at this time. These include matters pertaining to eligibility, scheduling, referees, etc. It is hoped that all those who wish to enter teams will be present to register any future minor misunderstandings.

Another important note is that anyone interested in playing for the championship must be present at the meeting.

Games on the following schedule, the games that were to begin last year, as they appear on the schedule for the coming season. Einstein and Arthur are the favorites.

A final match between Ziegler, next year's runner-up, and Avon, because of their failure to make any arrangements about their quarter final match.

A new team, the Big Boners, entered into the fray by defeating Bob Shaw, 60-51, in semifinal play and were scheduled to meet Bill Smith, 61-60, in second round competition. The Boners drew a bye in the quarter final round.

The games were played last Friday. A weekend of rain resulted in the postponement of the games scheduled Monday between the I-MAC-A and the Blues. The schedule was restored on Tuesday, from an hiatus in the OGB. The games were held at 3:00 and 5:00 and were scheduled to meet Bill Smith, 61-60, in second round competition. The Boners drew a bye in the quarter final round.

New games scheduled next week:

17th TUES vs. Boners
18th WED vs. Boners
19th THURSDAY vs. Blues
20th FRIDAY vs. Blues
21st SATURDAY vs. Blue
22nd SUNDAY vs. Blues

Evergreen Park
Evansville
Oak Park
Chicago
Fraternity Row

by Kay

In the last game of the regular season '66-67 defeated AEFS by a score of 66. It seems that a very spirited bystander didn’t like the rough tactics one player or was using and so a small brawl ensued between the two individuals. This was quickly quelled, though, by members of the fraternities and the refs.

In a playoff game between Phi Kappa Sigma and Delta Tau Delta, the Delta edged the Phi Kappa by a 70 score. The refereeing in this game was very indifferent, and there was a difference of opinion between refs as to rules.

The next matter at hand is to mention SPS. I think I have been slighting them in this column. I have been told to mention that they won 13 straight games before losing to the Alpha Sigma by an overwhelming margin. The source of information didn’t mention the loss to a stronger team last year, however. This year the Sig Ep’s are going into the finals after taking second place in their league.

The Phi Kappas are playing the Alpha Sig’s today afternoon in the first play-off game of the finals, and the Delta’s are playing

**PROPHETS**

(Continued from page 7)

up since another team has tasted victory for three weeks.

In the Big Ten, the Prophet picks Iowa on the strength of the Hawkeye’s 31-22 win over Michigan last week. I tend to favor Minnesota’s right against the U of M since the weather made archon play almost impossible. In the turbulent southwest, the Southern Methodist-Texas A&M match should be a top-flight grid battle. SMU lost by one point last week and should be mad enough to take the Texans. Don’t forget, enter now, win.
