Six bandits burglarize bursar's office of $1,500

On the night of Nov 11th a group of 6 masked bandits burglarized the bursar's office and made off with $1,500.

This deed it still listed among Chicago's unsolved crimes.

The door leading through a convenience store window in the basement of the building was forced open. They entered the building, entered the bursar's office and then made off with the cash.

There will be three permanent members on this committee, being Deon Cowens, Dean Larke, and Professor Wohrman. The other members will serve on a rotational basis. The plan calls for each faculty member to serve four years on the committee. When it is fully operational, a new member will be appointed every two years. If necessary, the committee will be expanded to include more faculty members.

New procedure selected for disciplinary committee

By the recommendation of Dean of Students C. E. Doughty and unanimous approval of the other members of the committee, IIT's disciplinary committee has been reorganized.

Under the old system Dean Doughty served as chairman of this committee, which is now made up of faculty members.

Professor Pease has been appointed chairman of the committee to fill the position vacated by Dean Doughty. The opening on the board will be assumed by Professor Elmer Fehrman.

Dean Doughty will, however, continue as the chief disciplinarian of the Institute. He will be responsible for checking the charges of instruction of IIT's rules to the committee. He will gather evidence of the facts for presentation to the committee.

He will not participate in the action of the board and that it will remain to the members to make their recommendations. He will not participate in the action of the board and that it will remain to the members to make their recommendations.

The new procedure of the disciplinary committee was set up as a result of the investigation of the rules to the committee. It will gather evidence of the facts for presentation to the committee.

Overall the disciplinary committee is set up as a result of the investigation of the rules to the committee. It will gather evidence of the facts for presentation to the committee. The new procedure is intended to make the disciplinary committee more effective.

Campus land clearance approved by City Council

Illinois Institute of Technology redevelopment project, sponsored by the Chicago Land Clearing Commission, was approved last week by the Planning and Housing Committee of the City Council following a hearing on the matter.

The $2 million plan, which will take approximately 18 months to complete, calls for the demolition of old buildings on the campus and the construction of new facilities.

WITI conducts first broadcast

WITI, the Illinois Institute of Technology-Broadcasting Station, conducted the first test broadcast last Friday morning, November 19, on a frequency of 600 kilocycles.

A committee was established and the technical aspects of the equipment were tested. The broadcast was conducted from the studio at the Institute of Technology.

The station will be on the air on a regular schedule of programs.

The WITI staff will appreciate any program suggestions.

Navy dance and Pan-Hellenic formal to be tomorrow night

Two important social functions of the semester will be held tomorrow evening on campus - the Pan-Hellenic formal and the Midshipmen's Ball dance.

Record concerts to be given free hours next week

A series of record concerts, designed to promote interest among the engineering students, has been organized by William C. Delaney, director of concerts.

Next week, December 8, at 11 a.m. Beethoven's Eighth Symphony and Pettersra is to be presented by the orchestra. It will be played Wednesday, Dec. 7, and preceded by the student orchestra's concert of chamber music featuring the First String Quartet.

Applications for scholarships due

Applications for financial aid for undergraduate or master's degree students must be submitted by December 7. Applications may be obtained from the Assistant Director of the Office of Financial Aid.

Senior farewell to be Jan. 27

Senior farewell will be held Wednesday, January 27, in honor of the senior class of 1952. The Blackstone Ball will be the year's final social event, sponsored by the Students' Office.

For additional information, please contact the Office of Student Activity.}

Annual Toy Harvest' to be held tonight in Commons

"Toy Harvest," fourth annual benefit dance for the Ada S. McKinley Community House, will be held tonight at 8:30 p.m. in the Commons. Tickets are $5.
Disciplinary committee reorganized

The Disciplinary Committee, upon the recommendation of the Dean of Students, has reorganized and, with the unanimous approval of the other members of the Committee, has been reorganized.

Professor Elmer Fieshawer has been appointed to replace the Dean of Students on the Committee and Professor Osawara Davis will assume the chairmanship of the Committee for a period of two years.

Dean Owens, Dean Larkin, and Professor Weilman will all remain permanent members of the Committee, with the other faculty members serving on a rotating basis.

The plan is in complete operation, each faculty member will serve for a period of four years, with a new member being appointed each year.

The Dean of Students will continue in his function as chief disciplinary officer of the Institute. He is responsible for coordinating the Committee's charges of violation of Institute regulations or infractions of behavior detrimental to the welfare of the Institute.

We object!!

In the above response to the letter presented to the disciplinary committee by the editor of Technology News and the president of ITSA, A. C. Daikos and the body of members carefully circumscribed the true ground on which the pardon was requested.

The decision of the board contends that no new evidence was presented. This is true. The pardon was requested to be given as a gesture of goodwill by the administration in an attempt to alleviate the damage to the name of the Institute's administration.

We see no reason to punish these students for another complete offense just because their period of probation runs into the next semester by two weeks. However, this is the result of the board's decision that all positions in administration will be taken by the time of the probationary period.

We still contend that the original punitive measures were too severe for the purpose of a "paper." At the recent ACP convention, our feelings in the matter were expressed by a large number of college editors. The recent editorial in the CTS tech paper, although somewhat misleading in fact, uphold this principle.

We realize that the committee members might have taken a pardon to be a possible admission of the necessity of their action, but the disciplinary action. However, we feel that some members should be careful enough that this would not affect their judgment.

As it stands now, we see no reason why the administration has no respect for the students as individuals, as long as they can "save face".

Concares

Editor, Technology News

Dear Dick:

As I read the November 6th issue, Technology News, I received weekly from Jack Brown, whom I met at a summer camp this past summer, I was particularly interested in the "As I See It" column which dealt with the "bigness" of the world.

I have in mind a situation which is quite different from the administration's attitude toward the impression that is created.

I have no idea what is the situation that already most institutions often look for its reputation first and the students second.

While this is an appealing status for any academic system, it is one that is in evidence in every college that has come to my notice.

Perhaps I had better get to the point I have in mind. This is primarily a note of congratulations on the fact that your paper made on the issue of placement of relative importance.

We have had similar trouble recently in Lexington with the advent of a semiotic here in the central bar- racks last Tuesday night. The administration immediately feels that the students can no longer control these affairs due to the actions taken by a very small minority. Anyway, I wanted you to know that your paper made on this issue is of great importance.

Saturday morning, the basketball game is scheduled to meet Notre Dame in our gym. If you're never won any collegiate game this is a good chance. There's a good possibility that you'll win.

The basketball game is scheduled for this Friday night, December 5. It will be played in the gym with admission free. All students interested in playing are welcome.
Know your ITSA

Reilly chairman of advisory comm. on student activities

By bill reilly

Among the virtually unknown organizations on campus is the Advisory Committee on Student Activities. This standing committee of ITSA is composed of the Dean of Students, the Activities Coordinator, and one representative appointed from each of the following groups: UPT, Religious Council, SRC, Pan Helteres Council, and TECHNOLOGY NEWS. In addition, two students are appointed to represent miscellaneous campus organizations not otherwise represented. The Co-ordinator of Activities, who is chairman of ACSSA, is elected by ITSA from the three engineering, one independent, and miscellaneous studies representatives to the Board of Control.

The purpose of ACSSA is to investigate and report to ITSA on matters designated by the ITSA Board. It is the responsibility of the committee to maintain the re-emphasis on the students' welfare. The committee meets once a month to discuss and make decisions on the various activities that affect the students.

Safe driving day purpose explained

In 1964, automobile accidents killed 36,000 Americans, 7,000 of these were of college age. Thousands of other students were injured and some maimed for life.

December 1 was Safe Driving Day and its results are not now important statistics. However, the purpose of S.D.D. is not statistical. According to the President's Committee on Traffic Safety, its real purpose is twofold: '1. Not a single traffic accident during the 24 hours of December 1 — in daylight or darkness. 2. Year-round public support for year-round traffic safety programs of proved effectiveness.

Also, in the attempt to make the day a success, the Committee requested the help of college and university students throughout the United States. This message through mailing Tech students, who should certainly be kept in mind for the 1965 S.D.D. day and also for the Committee's campaign to make every day a safe driving day.

Five new members appointed to Tech's board of trustees

Dr. John T. Rottalite recently announced the election of five new members to the board of trustees of Illinois Institute of Technology.

The new members are:

- Michael J. Satin, president of the Fortune Five division of the Hartford Fire Insurance company;
- James C. Wright, president of the Peoples Gas Light and Coke company;
- Robert E. Brooks, vice-president and director of Stein, Riesenberg and company;
- Calvin B. Gifford, executive vice-president and director of Dailey's I.C. company; and
- Harold C. Mueller, president of Power Research company.

Illinois Tech's board is composed of 10 civic and industrial leaders who serve as active members and eight long-service trustees who serve in an honorary capacity. Mr. Mueller was elected a new member of the board as one of these active trustees who officially represent the Institute Alumni association.

Fire in Chem. building arouses much activity

Monday, November 21, the Physical Chemistry Research Laboratory, 313CB, was the scene of a fire that consumed seven pieces of fire-fighting equipment.

About 4:15 p.m., the warning buzzer sounded, sending over a hundred students from the building. Jim Keith, a graduate student in Chemistry, who had been doing work on lithium aluminum hydrides, which became overheated. This resulted in an ether fire. Since other burns very rapidly, the material caused the blaze had already started an out-of-control blaze when the Fire Department arrived. All that remained burning in the building was a baffle that had caught fire when the blaze started. This baffle was the only damage incurred by the fire.

The fire-fighting equipment was still present in front of the Chemistry Building when classes were dismissed at five o'clock, there was a considerable crowd of curious spectators. Among those present were Dean Deeks and Dean Brown.

Augustana student nurses to hold dance and mixer

by Rose Schaffner

What, When and Where

I hope everyone is safe and sound after the Thanksgiving holiday, because Chicago is approaching its social season for the winter.

Tonight, the Junior class of Nursing is sponsoring the "Frosh Hop," a dance and mixer, at the residence from 8:00 to 12:00 p.m. The address is 677 W. Dickens Ave. and a nominal admission price of 50 cents will be charged.

In the realm of more spectacular entertainment, "Payola Blues" continues to be a smash hit at the Student Theatre. Harry Belafonte is still packing them in at the Empire House in what is one of the best performances of Augustana Hospital School of Nursing this winter has seen in many a day.

William Inge's hilarious comedy "Bus Stop" starring Peter Finch, Anne Baxter, Albert Reimann and John Altman is now causing a sensation at the Savoyette.

That about wraps up the big entertainment this week in Chicago, but more is coming to keep interest in this little literary column alive. At the library, with the latest installments of the Season, and in the Windy City.

Four editors attend annual collegiate press convention

by Frank Ravezzo

Associated Collegiate Press held its annual conference in Detroit, Nov. 17, 18, and 19.

Dick Grawe, Frank Ravezzo, Ken Peterson, and Dick McKinley represented Technological News at this convention.

Marcia Greer and Cynthia Lussen were seen by the integral.

Meetings were conducted concerning front page makeup, general page makeup, writing news stories, photo coverage of news, and interdepartmental relations. There were also specialized meetings for business managers and the year book editors.

The kick off was a buffet dinner presented by Chrysler Corporation. Max Novak saw the "Do You Want to Be a Write, Too Fool?"

College newspapers were represented from 33 states and Canada. The farthest distance traveled were the delegates from California, New York, with 29 representatives present, and the conference, had the larges delegation. Pennsylvania was second with 74 representatives. The membership at the conclusion was in newspapers and 13 of these were represented. Other college publications represented included 38 yearbooks and 26 magazines.
 Reserve obligations given in second article of series

This, the second in a series of articles printed by Technology News in an effort to keep the student body informed of their obligations to the armed services, deals with the structure and size of the reserve.

Q. What is the present reserve structure?
A. The essential elements of the Reserve Force are the Reserve Officer Training Corps (ROTC) and the Selective Service System (SSS). The Reserve Force was established to allow the nation to maintain a reserve of trained personnel in times of national emergency.

Q. What are the functions of the Reserve Force?
A. The Reserve Force is designed to provide trained personnel for the military services, to conduct educational programs for reservists, and to serve as a source of trained personnel in times of national emergency.

Q. What is the size of the Reserve Force?
A. The size of the Reserve Force is not fixed and varies according to the needs of the nation. As of 1942, there were approximately 800,000 reservists in the U.S. Army and 200,000 in the U.S. Navy.

Q. What is the role of the Reserve Force in times of war?
A. The Reserve Force is activated in times of war to provide trained personnel for the armed forces. Reservists are called to active duty when necessary to meet the needs of the nation.

M.I.T. president heads new group

Henry Ford II announced that the American Telephone & Telegraph Company will give $1,000,000 to the M.I.T. Institute for the Study of Organizational and Psychological Problems. The Institute will be directed by the late Dr. C. E. Wettach, and will be located in the former headquarters of the Bell Telephone System in New York City.

GIFT HINTS

With the coming of Christmas, many technical students and faculty members of the engineering profession are faced with the problem of selecting appropriate gifts for their families and friends. This year has been a time of national emergency, and many families have been hit hard by inflation and other problems. In such a situation, it is especially important to select gifts that are practical and useful.

Here's pizza's background and where to buy the best

Pizza has become one of the staples of the American diet. Whether it is eaten for dinner, lunch, or even breakfast, it is a dish that is enjoyed by people of all ages and backgrounds.

A Campus-to-Career Case History

Paul Guild, E.E., Purdue '49, started as an engineering student with the Bell Telephone Systems in 1949. He has since been promoted to the position of Director of Engineering for the Western Electric Company. His work has been instrumental in the development of new technologies and the expansion of the company's operations.

He's building a foundation for his future

Paul Guild is a typical of young engineers in the Bell System. He is currently working on the construction of the new microwave equipment that transmits television pictures and telephone conversations simultaneously. He is also involved in the development of new technologies and the expansion of the company's operations.
Navy "A" takes championship
Battles Phi Kaps for title

Navy added a couple trophies to its display case, as they took the one-two positions in the Intramural Touch Football League. The Junior and Senior squads finished on top, with the Middle "A" team and the "B" on the "D" by a score of 8-6, 1-0 in the play-off game, to take the championship trophy.

Navy "A" finished an almost perfect season, as they won and stopped their losing streak in 8 games, and were held to a 2-0 loss by Navy "B" in regular season play.

Other than that, the team by the IM champs, was victory in the Military Bowl. The Middle squad received APORDC "A" 21-12, to bring the "A" to the Navy showcase for at least the coming year.

The college football games of Dec. 10th marked the final day for 1955 Pigskin Prophet Contest. This season was especially interesting with the supervisors needing to decide the winners of a high school, but as the season progressed, maybe upset the interest in the contest and instilled any thought of perfect picks.

The large scope of Tech News circulation was shown by the number of varied entries. To keep spectating and reading of all, there is talk of a similar contest for the spring. More news on this will follow as the season progresses.

November 25th appeared to be the "Free-for-all Day." The fifty entries for the games netted two first-year prosperity with only one winner. After resulting to the Tec-throwers, an FW, R. Weaver, won first prize. Dave Claypool opened the number two spot while the Senior Chem Bag, block had to be matched with show money, as Otto Deutsman took third place.

No perfect entries were received for the games of Nov. 28th and again the Tec-throwers has us to use in a final winner from the three who had one right. Bernie Menke, a fifth semester student, was second followed by Jim Barz, a twelfth winner and member of the Senior Chem, Eng, Block, and Mill Rally, with second place. All winners should appear on the Tech News for their selection.

Farr Hall, Koolpeck, PKS
retain bowling league leads

With more than half the bowling season over, the teams are beginning to take definite positions. This week both bowls are on top, and the others have clear cut leaders.

Monday's leader is Farr Hall (A), behind five full games. Farr holds high team series (766) and high team game (98), Dean Debinski, a member of the team, holds high individual series with a 268 tally for three games. Center, with B.L.A. is high man with his 232.

Tuesday, the Koolpeck, Tuesday's red hot leader, holds six games, and also has high team series (753) and high team game (90). Bill Bond has individual high game with a 212.

PKS Kapp Sigma dominates Thursday's league with a 15-3 record. The PKS Kapps hold the top three team games (101), (99), and (96) and also leader series (71). Bud Abraham, the PKS Kapp anchor man leads the league with a 171 series. Ron Larrson of Farr Hall holds high game with a 207.

Friday's league shows a tie for first place, both the Tech-Mutes and PKS have a 10-2 record. The other two teams are novices, who are in a stone battle for third place. The Go-B's had the league with a 216 team series. The Temple High team game with 995. Jean Valders' 334 game still leads this league.

The more with the highest average are MB, Maron 176, Robe 175, Godbold 171, LaFayette 164, and Odenheimer 150.

Alumni test cagers in preview tonight

By Bill Done

Illinois Tech's basketball team opens its 1956 season tonight. The starting five will battle the alumni at 8:00 p.m. in the I. L. T. gym.

Coach Ed Clancy feels that "although the team is not strong, it has developed according to his expectations."

The team is small and weak in reserves, but with considerable teamwork, the cagers have a good chance of having a successful season.

Steve Vick, 6'2", will be the shooting center. Sears is the team's best rebounder but has to try and shoot, coach Clancy insists that he is underestimating his own ability.

Team captain Bob Moran, 5'10", was the second highest scorer last year. Bob is slated as a starting guard.

Sitting at the center forward position is Don Faste, 5'10", who is expected to do very well this year.

Sitting in the starting spots will be Bob Sears, 67"; Bob Glasser, 6'2"; and Don Clifford, 5'10". Henry Hunton, F'17, Jr. Hunter has just returned to the team after suffering a broken leg.

Ed Tinling, last year's captain and high scorer, is expected to be a main man in the lineup. He is expected to be a main man in the lineup.

The team will be coached by Joe Byrnes, 6'7", who was the first 1000 point scorer in I. L. T.'s history. He is expected to lead the team to victory.

The other four men in the winter starting lineup will be Bob Peterson, 5'10", who was captain in 1955-56; Bob Glasser, 6'2" captain of the 1955-56 team; Don Leiser, 6'2" captain of 1955-56; and George Stelma
ners, E. T., the second highest scorer in I. L. T.'s history and captain of the 1956 team.

Music will be furnished by the Illinois Tech Band under the direction of H. E. Nuss, director of music. The Alumni are also planning some entertainment to be presented during halftime.

Wrestlers face Notre Dame in first match of season

Tech's matmen will meet Notre Dame tomorrow in our gym. After a month of practice, our wrestlers are prepared to meet the South Bend team.

Coach Tony Barbare is fortunate this year in having enough candidates to make up an adequate wrestling team.

The matches for this season are as follows:

Notre Dame at IIT - Dec. 1 at 3:00 p.m.

IIT at Notre Dame - Dec. 7 at 4:00 p.m.

IIT at Wright - Jan. 10 at 4:00 p.m.

IIT at U. C. - Feb. 5 at 4:00 p.m.

IIT at IIT - Feb. 25 at 4:00 p.m.

Christmas have you up a tree?

Keep your vacation free for fun-shop at your Arrow dealer's display window.

Cover yourself and the men on your list with rare, slim, hot-the Arrow button-down. Shown, $3.95. Or the arrow-blanket "Fort Fighter" jacket-sweater-fleece-lined and light as a snowflake! $19.95. Count yourself in one, too!

See how ARROW'S new collar works!

A completely new idea in shirts—a completely new standard of comfort—the Lido by Arrow.

Your tie alone closes the collar—no button! And as long as you own it, the collar fits, because it expands when you do. See it in white or solid colors... at retail or by catalog.

Price starts at $5.00.

IIT sailors fifth in Angsen Regatta

Illinois Tech's Sailing club placed fifth in the "Timmy Angsen Mid-West Inner Collegiate Championship Regatta." Tech was outpointed by a very small margin by Brown, Ohio State, Ohio Wesleyan, and the University of Michigan, but Tech defeated all of the schools that are in our conference, such as Notre Dame, Purdue, Northwestern, the host club the University of Cincinnati, the University of Wisconsin, and Michigan State.

There were eleven races each in two parts as an actual score was a total of 12 races. Tech's sailors were Bill Darlington, lead tackler, and skipper; John Vail and Bill Langley, crew. They were cheered on from the big lake by a few students and faculty members led by the Club's Commander, Felix Andrews.

The regatta was sailed under very adverse conditions. Saturday day the wind was from the south, and the lake was a glass, making it very difficult for the sailors to sail. Sunday, however, the wind was from the north, and the lake was rough, making it easier for the sailors to sail. Despite the conditions, the Tech sailors performed well, finishing fifth overall.

Make It A BIG RED LETTER DAY.
