TECHNOLOGY NEWS

April 24, 1959

Illinois Institute of Technology will open its doors to parents, relatives, and friends of ITT students at the annual Parents' Day on Saturday, May 2. Visitors to Illinois Tech will have an opportunity to tour the campus, visit with the faculty, and witness various school organizations in action.

Parents' Day will begin at 1:30 p.m. in the Student Union auditorium with a recital by several a cappella organizations under the direction of Dr. H. R. Price. Following the recital at 2 p.m. will be an assembly in the SU auditorium.

Immediately after the assembly, from 3:30-5:30 p.m. guests may inspect the campus or visit with faculty members in their respective offices to discuss any persistent problems.

A combined NGOC and APOTC recital will extend from 3:30 to 4 p.m. in Ogden Hall.

Following the military review, a reception is to be held at Crown Hall in which a receiving line will be set up to relieve attendance problems and refreshments served to the more than 500 expected guests.

Parents have been urged by letters of invitation from President John R. Ayres. The regular Parents' Day on May 2 and become better acquainted with the faculty and students of ITT.

ITTA's Social Chairman, David Brown, states, "I hope every full-time student understands that his parents are invited to the Open House and that we would appreciate his urging them to come."

Students Elect School Officers In Early May

Students have voted in favor of electing officers to represent various student organizations. The election took place on Monday, May 13, and the results were announced on Monday, May 14. Petitions for offices are available in the Dean of Students office and must be turned in by early April.

Concert Band, IF Glee Club Hold 'Dancert'

The Concert Band and the Interfraternity Glee Club present a "Dancert" in conjunction with the girls' glee club from Michael Reese Hospital. Girls will be invited from these hospitals.

The "Dancert" is planned as a finale to Parents' Day and is open to all. Admission to the Dancert is free.

Dean Announces Assignment of SU Mail Boxes

Mail boxes in the Student Union have been assigned to all recognized student organizations, according to a bulletin from Assistant Dean of Students, Robert Ackerman.

Organization members may contact Alpha Phi Omega, service organization, or the Dean of Students Office for the box number and mail box combination.

Deadline for Renewal Of Scholarships Near

Scholarship applications are available to any Tech students who have an average of 2.0 or above and who are current students. All applications must be returned by May 15.

Adelman Conducts Psychology Tests

Dr. Morris Adelman of the Psychology department is conducting a psychological experiment upon students of Engineering Tech. Subjects, Carl Baker, a graduate student, are administering the tests.

Approximately 100 percent have volunteered for the experiment, which consist of two phases. The first phase is a group of psychological tests lasting from one hour to two hours, used to determine the personal characteristics of the participating students. The second phase will be given to the students at the end of the test.
Letters to the Editor

Believes System Provides Means to Student Maturity

Dear Editor,

Certain views have been expressed recently concerning an honor system on our campus. One of the questions asked was whether the method now sometimes used of using proctors and other inhibitory devices is the only way to ensure the honesty of students. I feel that the answer to this question is in the affirmative.

In the professional engineering and scientific fields one would not consider falsifying or coloring data or even taking out information that will not plot a smooth curve. Yet absolutely nothing is thought of as to what would be done if a student "borrowed" information for his lab report or test.

Two of the things that are supposed to have developed before we apply for a job are honesty and integrity. Just how can we claim to possess such attributes when we participate and/or waste time at the black market trading of information for illegal use? We have dedicated our responsibility to ourselves and our fellow students by allowing such practices to go on.

An honor system can not be expected to be a cure-all, but it can provide an atmosphere conducive to the maturation of the engineer and scientist. We cannot expect him to become an engineer in a day. 

Clifford Anderson

IIT Students Should Support Parents’ Day

Eight days from now, on Saturday, May 2, IIT will present its annual feature, Parents’ Day. This occasion affords parents, relatives, and/or friends of Tech students, "in action," and to observe the various phases of Tech life, both educational and recreational.

Special programs of interest to guests are being prepared for presentation and the day should prove an interesting experience to campus visitors. Certainly at no other time this year will inquisitive persons be given a better chance to "see" the school.

The students at IIT, and especially those from the Chicago area, should heed Dean Brown’s request to urge their parents (and of course any other interested parties) to attend, not because a large attendance is desired, but because their curiosity about the school can best be satisfied at this time.

There is meant no implication that guests are permitted on campus only on this day, visitors are always welcome. But it is our wish that the invited guests and various participating school organizations be better prepared to welcome and serve them. Tech students should see that their friends and relatives take advantage of this specially prepared event.

Free Dance: Success Socially But Failure as Experiment

About 300 couples attended the ITSA free dance at the Shoreland last Friday night. Thus only 15 per cent of the ITSA student body availed themselves of the opportunity to spend an evening dancing at a modest cost. (How much the cost depended on the liquid capacity of date and the "duties" of the "dancers" who attended practically every social function to attempt to second-guess the reasons of those who did not attend.

If through some miracle 1000 students "danced" the campus would still leave 700 question marks traversing the campus today.

First Principles III

‘Survey Course’ Instructors Must Tell Why AND How

Engineering students must take, in addition to courses in their major department, courses that are of the "survey" type. That is, in these sections the students should obtain a general feel for the material at hand, and need not commit the entire content of the text to memory.

This is the goal towards which instructors in these courses should steer—acquaint every pupil with the important concepts. Once this is done to obtain a reasonable amount of problem-solving ability pertaining to these concepts.

This may be satisfactorily accomplished if the instructor will provide the class with a definite written outline of the semester’s work. This outline should include at the very least the chapter titles which will be relevant to the text material. The quantity of material should be sufficiently great so that, by the instructor’s own standards, an adequate presentation is made.

At no time should an attempt be made to present in the classroom only the most recent developments. This method can lead to very poor results. Consider the case of a "problem-oriented" graduate engineer. If at some later date one of his colleagues should ask "why?" the solution of a problem and he is unable to answer, he does not deserve the title, "engineer."
Fraternity Seminars, IF Ball Head Greek Week Activities

Greek Week, the annual fraternity festival, will be held from May 1 through May 9. Featured attractions will be the fraternity seminars, IF pageant, IF ball, Greek Week Olympics, faculty dinners, and tournaments.

TheIFSA picnic will be the scene of the first event of the Olympics: a mud-soaked-man contest, a tug of war, and an ignorance contest. These events will be open to all fraternities. Winners will be determined by elimination, and trophies will be awarded.

The Olympics will resume after a week-end respite with a sweep-stakes derby at 4 p.m. Monday. The race will be followed by the Greeks' annual waterfight.

Monday evening will see the beginning of the serious side of Greek Week, with the organization of an all-fraternity meeting in the Student Union auditorium. This note will be continued Tuesday with faculty dinners at the various houses and seminars on fraternity problems Wednesday. The results of these seminars will be summarized at an interfraternity meeting.

The week's activities will be brought to an end with the Pageant Friday night, and crowned with the Interfraternity Ball Saturday.

Decay Flourishes When Citizens Neglect Duties

by the Rev. William D. Langhans

Tech News recently reported the Association of Religious Organizations' proposal to the ITSA for the establishment of an investigating committee.

Camps' reaction to this development seems to be based, primarily, on a quibble over techniques and administration. Students who say, "I wouldn't report a cheat," are afraid of being ostracized, decide against the Honor System. Similar thinking permits corruption in labor unions, in racketeers which eliminate legitimate businessmen, etc.

Corruption Perverts Society

Nobody wants to report cheating. Corruption and moral decay pervade our society as a direct result of evasion of personal responsibility. If this is what Americans can live with, then traditional American freedom is nonexistent. We live in bondage to corruption and corrupt individuals are more free (in their own way) than anyone else.

Most Situate on Rights

If Americans are to be free, every American must stand on principle and assume responsibility for his rights. His rights, in turn, have no meaning apart from the generally accepted concept of what is right.

For example: Suppose 51 percent have a simple majority, of the students on campus decided to govern themselves under the code. "We require honest dealing." Democratic, this code becomes the normative right for all.

If the up-coming generation cannot understand this, then Americans whose roots are dying, will soon be a dead dream of a few men who, foolishly, had the courage to stand up for right.

Freedom without responsibility cannot exist.

Do You Think for Yourself?

(ANSWER THESE QUESTIONS AND YOU'LL FIND OUT!)

1. If you get stuck on a crossword puzzle, do you (A) rely on a dictionary, or (B) have the puzzle unfinished?

2. Would you rather be (A) the designer of the first successful space vehicle to the moon, or (B) the first man to ride in it?

3. If you were faced with two tasks, one pleasant and the other unpleasant, would you first do (A) the unpleasant task, or (B) the pleasant task?

4. If you find you are not doing well in an activity, do you (A) concentrate on improving your performance, or (B) devote your attention to things in which you do excel?

5. Would you rather work for a steady wage or gamble for a chance at a big job?

6. In deciding whether to see a movie, are you more influenced by (A) what a manual friend tells you about it, or (B) what you know of the cast and story?

7. If you were a multimillionaire, would you rather have (A) everyone know it, or (B) only a very few know it?

8. Do you take more notice of someone's (A) good looks, or (B) good manners?

9. When making your choice of a filter cigarette, do you (A) select one on the basis of what someone tells you, or (B) think it through for yourself?

If you checked (A) on three or more of the four questions, and (D) on four out of the last five... you really think for yourself!

The Man Who Thinks for Himself Knows —

Viceroy Filter Tip Cigarettes...

You will appreciate the difference.

Viceroy has a thinking man's filter and a smoking man's taste.

*If you checked (A) on three out of the first four questions, and (D) on four out of the last five... you really think for yourself!

Fillet tip or Joan of Arc... a smoking man's double trouble.

Farr Hall Will Present Pastor's Coffee Hour

The Pastor's Coffee Hour will be held at Farr Hall with the Rev. R. John Allen, a member of the chaplain, presiding. It will be held Wednesday night and coffee will be served at 10 p.m. A discussion, led by the Chaplain, will follow. The content, which has been changed in these coffee hours, and everyone is invited to attend.

Because of the change of room assignments this year, new officers will be elected to the Farr Hall Council. The new officers are: Bob Bedell, Cultural Chairman; and James Green, Secretary.

The Step party is scheduled for May 5. A look at Farr Hall's social calendar shows two events from now until the end of the semester. Farr Hall Social Club will meet on Friday evening, May 11, to discuss the upcoming social calendar. The social activities are planned to give students a chance to meet and get to know each other in a relaxed setting.

Willie Tachauk

Willie Tachauk, real name, is one who takes a good time. Singing as he takes a drink, his song, "No work, I don't even think," is a favorite with students.

Nurses Present Weekly Movies

Movies are being presented each Wednesday by the student nurses of the Presbyterian-St. Luke's School of Nursing. The movie will be "Gypsy," with Leslie Caron and John Kerr.

The film is to be shown in the Lecture Room of the East Pavilion at Presbyterian-St. Luke's Hospital, 1553 W. Congress Parkway. Admission charge is 25 cents.

THINKlSH

The Thinklsh translation is a fun way to add a modern twist to your everyday language. Whether you're writing a letter to a friend, making a conversation more engaging, or simply looking for a way to make your speech more interesting, Thinklsh is the perfect tool for you.

THINKlSH means:

- CANINE COLOGNE
- FLYING HITCHHICKER
- PAT VEGETABLE
- HIP SINGING GROUP
- ORIENTAL AMBULANCE

HOW TO MAKE $25

Take a word—garbage, for example. With it, you can make the contents of an auto junk yard (garbage), Hollywood refuse (trash), impound lot (trash), and factory reject (garbage). That's Thinklsh—and it's that easy! We're paying $25 for the Thinklsh words judged best—your check is itching to go! Send your words to Lucky Strike, Box 67A, Mt. Vernon, N.Y.

Phi Kaps Elect Officers; Pi Kaps Hold Rose Ball

by Johnny Edelmauk

The Sig Eps Mother's Club put on a ball and bingo party last Sunday. Also, this coming Monday, Charles Atwood, Sigma Phi Epsilon's province director will visit the house.

AEPi is planning for their Midwest Regional Convention May 16-18.

Shields Hold Elections

The new officers of Phi Kappa Sigma were elected last Sunday. They are: Joe Morris, President; Bob Zookoff, Vice President; Bob Beard, Treasurer; Ray Nelson, Assistant Treasurer; Jay Carnow, Steward; Bob Carnog, House Manager; Dave Hahn, Secretary. Dave Hahn, mother's club coordinator; Vern Kahlman, corresponding secretary; and Jerry Rosado, Social Chairman.

Pi Kappa Phi is holding their annual formal dance, the "Rose Ball," this Saturday night at the Astoria Country Club.

The Alpha Sigma Mother's Club will hold a card party Saturday evening. Congratulations to John Mathys who recently pinned Helen Warren.

Last weekend the men of Triangle visited Northwestern with members of other chapters from this region.

Kappa Phi Delta recently pledged Lorraine Spiegel.

Delta Zetas is engaged in research for donations which they plan to sell at the ITSSA picnic.

Dr. Vi and 2-8929, or Ed Lescatt, D.A. 6-9597.

Newman Club Slatet Retreat For Weekend

The Newman Club will hold their semi-annual retreat at Childsley this weekend, Friday, April 24, to Sunday, April 26. Childsley is located in nearby Wheeling, Illinois. Time of departure will be about 7 p.m. Friday night; rides will be provided for all who need transportation. Further information may be obtained from Jim Comben, 2-8929, or Ed Lescatt, D.A. 6-9597.

Newman Club will also present a discussion on "Contemporary Logic," at 1 p.m. Wednesday in the Common Lounge. The Chaplain's Coffee Hour will present a talk, "Reflections on Crime and Punishment," by the Rev. James G. Jones, Chaplain of the Cook County Jail.

CSO Wagner Program Shows Reiner at Best

by Karl Goldade

When Fritz Reiner elects to conduct, he can offer performances of such an excellence that he proves himself to be one of the artists. Last Friday night made use of his full capabilities as a conductor, in offering performances of the works of Richard Wagner. The performance was a model of the quality of the orchestra. The conductor proved to be one of the finest yet heard in Orchestra Hall.

The vehicle for Reiner's success was an all-Wagner program, an appropriately named Orchestra Hall event. Excerpts from "The Mastersingers of Nuremberg" and "The Flying Dutchman" provided the orchestral meat while George London appeared in vocal solos in selections from "The Flying Dutchman" and "The Valkyrie."

London, Good, Orchestra Better

London displayed a clear, full-bodied voice, capable of competing with a Wagnerian orchestra, but his understanding, sympathetic musicianship was completely overshadowed by the superb nature of the purely instrumental segments of the program.

Wagner's music, even when played poorly, overpowers the listener and reminds us of an author's uncanny genius. But when heard in a performance as fine as that of last week, the music achieves a status rarely attained, it becomes a monument to man's creative greatness.

Orchestra 'Magnificent'

Only adjectives in the superlative degree can be used to describe the orchestra's playing. Perhaps perfection can never be humanly achieved, but to attempt to find fault with playing like that at this concert would be much the same as defacing the Venus di Milo imperfect because of its missing arm. In light of the overall magnificence (this word is carefully chosen) of the musical conception, minute flaws become insignificant and unobtrusive.

The audience responded wholeheartedly and unanimously with total satisfaction to a concert offering that few are fortunate enough to hear. In all likelihood, some in attendance would wonder what he had heard. At least it must be hoped that this were so—otherwise, it becomes obvious to believe there exists anyone so obtuse that he could remain unaware of the beauty of the artistic subtleties which he was exposed to.

Aurora Edges Tennis Team Saturday 5 to 4

Aurora's tennis team squelanded by Tech's names Saturday on the Aurora Courts. Although playing without the services of Lila Andrus and Zevy Steiger, their number one and number two men, the Tech squad played their most impressive match of the season.

Bob Bachman, Art Wittmer, and Bernod Meyers played "top notch tennis," according to Coach Phil Patav. Bachman, playing number two, won his match 6-4. Wittmer, competing in the fifth set, took his match in straight sets also, these by the scores of 6-1, 6-2. Meyers encountered a little more trouble but emerged victorious 3-6, 10-8, 6-1.

In the doubles competition, Meyers and Wittmer teamed up for Tech's fourth win of the day. They took their match by the scores of 5-7, 6-1, and 6-3. If the team could have received a break somewhere along the line, their fourth loss in a row could well have been turned into a victory. Ed Rauer ran his opponent to 8-6 and 7-5 sets before yielding.

Tech's next match will be today on the home courts when they meet North Park College.

Tech Track Team Finishes Fourth At Concordia

Illinois Tech finished fourth out of five schools in a recent track meet at Concordia College. Rose Polytechnic Institute won the meet scoring 70 points; Navy Pier was second with 63-1/6. Concordia, 41-1/6, was third, Tech 221/6, fourth. Concordia (St. Louis) 175 1/10th.

Jack Knowles contributed most of the Tech scoring as he raced home with two first place finishes. Knowles won the 100 yard dash in 10.1 seconds and the 220 yard dash in 23.2 seconds. Pete Kalliou provided another first for the Tech squad when he tied for honors in the high jump with a 5' 7 1/2" leap. The team's next meet is today at Wilson Jr. College.

DELUXE ORCHID CORSAGES FROM HAWAII
5010 STATE SPECIAL $3.95

For your graduation or prom, these lovely orchids from Hawaii. By special pre-press each corsage is sealed in a box of chemically treated water. Beautiful for weeks.

All corsages sent by special delivery. We pay shipping charges and guarantee arrival in perfect condition. Allow 7 days from day ordered. All orders will be shipped on or before May 30th. Write or wire your orders specifying arrival date desired to:

TX Turns IF Bowling Into Rout to Take Title

Theta XI literally ran away with the IF bowling title Sunday at the Dearborn-Jackson Recreation center. The Theta XI bowlers amassed 6661 pins compared to 6431 compiled by their nearest rivals, the Sig Ep. Delta Tau Delta finished third with 6341 pins.

Theta XI also swept the field in the individual honor department, recording the highest scores in all of those events. Their team game of 973 pins, an average of 195 per man, was high for the tournament. Their team average of 333 pins was also high.

Dave Weismann provided the individual touch by rolling a 224 game to top the individual efforts. Weismann's average of 190 pins per game also headed the list. The final standings:

Theta XI 6661
Sigs Phil Egbert 6431
Delta Tau Delta 6341
Phi Kappa Phi 6329
Phi Kappa Sigma 6278
Triangle 5916
Alpha Sigma Phi 5869
Tau Epilson Phi 5794
Alpha Epsilon Pi 5515

Tech Golf Team Defeats Aurora, Wins 3rd Match

Led by captain Jim McCarthey, Tech's golf team bowed to Saturday's temperatures to emerge victorious for the third straight time this season. The match was played over the Longwood Country Club course.

Jim McCarthey was medalist for the Tech squad, firing a 74 over the par 72 course. Ray Nelson shot 83, Dave Gibbs 84, Mike Kudo 85, and Don Neal 86.

McCarthey also led the scoring, chipping up three team points; Nelson also scored three. The team's next meet will be Saturday against Wayne University.

Grads Notch Third IM Softball Victory

The Kingsmen won their second game in a row with a minimum of trouble last Thursday as they downed APO, 14-3. Excellent pitching by Varis Mittenber and heavy hitting by Al Groth of the Kingsmen proved too much for the APO squad.

Powder edged the Penns Valley Archers in a closely matched battle; a homer by Chuck Byrkit proved to be the deciding blow. A heavy barrage of hitting Tuesday by the Grads allowed them to win their third game of the season in a 12-0 conquest of the PPFY.

CER's Win 1-0

After being down 5-0 at the end of one inning the CER's rallied back to defeat the Air Force team to the tune of 12-5. Cloud Poes started with three hits and four walks, allowing four runs. A solid outing by Bob Davis led Tech to a 1-0 win.

Navv A downed their traditional rivals Air Force A, in a well fought 8-5 battle. This game was one of the lowest scoring battles seen in the season. The ACMB won its second contest of the season as they easily dropped Navy B 21-3. The AAF team now has a 2-1 record, which puts them in a second place tie with the Kingsmen in the National League.

Grads Upset Amriers

A second victory of the season occurred as the Amriers were defeated by the Grads 10-7.

IF Softball Teams Open League Play on Sunday

Interfraternity softball teams swing into action Sunday opening the year's competition for the IF title. Nine games will be played this week on the Grant Park diamonds, the first to begin at 1:30 p.m.

Other regular league games will be played following two Sundays, May 3 and May 10 have been set aside for make-up contests, according to IF sports manager Mike Heintzelman.

The teams have been divided into two leagues with five teams in one league and six in the other. Teams win a point for a total of either four or five games depending on their league. At the end of the regular season the top two teams will be chosen to compete for the crown.

IF Games Sunday

First Games

Second Games

Third Games

IF Sports

by Norm Berger

Aurora's hitters, batting as if they owned Tech's pitching, outslugged the Techkawks Friday to win, 11 to 10. The game was played at Mckinley Park, 96th and Western.

Tech looked impressive in the first four innings as they led Aurora by a 6 to 2 margin. But Pella blew up in the fifth and sixth and from then on it was all Aurora.

Although 16 hits were made, the inferior fielding of the out-field proved to be Tech's downfall.

Outfield Slippage

Except for a running, knee high coach by rightfield Fred Cassner in the fourth frame, the outfield played slippage. Carrere made three errors and his companion, left, Jim Hunter couldn't find a relay man all afternoon while he made one error.

Henry's return to his regular position, Ron Stare, again proved that it was not the day for outfielders he led the 229 foot fly-blow over his head to score the tying and winning runs.

Hitting the Plate

A bright spot in Tech's infield was Dick Huntington, Huntingon played a fine defensive game at third and got 5 for 3 as he drove in four runs.

Next Thursday at Mckinley Park, Tech will try to get back on the winning trail as they again meet North Park. They will attempt to average an 11 to 5 fling they received in their opener.

The Tote Board

by Dale McFarland

Coming Attraction

With the ITSA picnic approaching in the near future (Friday, May 1 to be exact) another new realm is opened in Tech athletic participation. Students will be given the opportunity to display their Hidden Forces talent. Egg throwing over the head and beer throwing will afford those students who are in top physical shape an interesting challenge. Since this requires physical exertion (you must move your arm) on the part of the participants, something of a more leisurely nature may be desired by many.

This event will take the form of a pie eating contest. Trophies will, of course, be awarded to those excelling in these events.

Another, sort of side contest will be sponsored by BON. This involves the personal disposal of the golden brew. Prizes in this event are open to all who participate. Grand prize is an afternoon of laughter and gaiety. At the end of this event there should be enough empty cans to build a mountain that will rival that of Captain Folger's in size. Tickets for this contest may be purchased from any BON member.

No Contest

Also the pitcher for the afternoon is a student-faculty softball game. (A chance to get even with the instructors?) Dean Bosworth, who along with Dean Ackery is helping to arouse the faculty interest in the event, has advised me that it will be no contest. According to Bosworth, Sonny Weismann, who hits the ball for what is commonly called a country mile, is on of their medium range hitters. It's up to the student body to organize a team of invalids and cripples to prove him wrong.
