Berger Plays at Tam Tonight

Submit Financial Report, Propose Spring Budget

Larry Weiss, Treasurer of ITSA, has submitted a financial report indicating a total income of $11,000 from the first semester of this year, including activity fees of $11,190 and miscellaneous income of $30.

Freshmen Apply Now for Social Committee Post

Freshmen wishing to apply for the Freshmen Social Committee should fill out the official forms which can be obtained from the ITSA office or from any of the Freshmen Social officers. Deadline for applications is Wednesday, March 11.

Juniors, Sophs Sponsor Dance

The main ballroom of the Tam O'Shanter Country Club will be the scene of the SIT spring all-school dance tonight at 9 p.m., sponsored jointly by the Junior and Sophomore classes.

Music will be played by the orchestra of Ralph Berger, consisting of trumpet, violins, electric guitar, sax, piano, bans, and drums. Tickets for the "Tam Twist" are priced at $3.50 and may be purchased at the Student Union window.

The dance will be a dark business suit for the men and formal or cocktail dresses for the ladies. Refreshments will be sold at a reasonable price at the doors.

Chaperones for the event will be Dean and Mrs. C. William Brown, Dean and Mrs. Robert Ackley, Dr. Gene Geiser, William C. Green, Mr. and Mrs. Ray Rickey, and Ralph Goddard.

The Tam O'Shanter is located near Howard Street and Caldwell Road in suburban Niles.

Last spring's all-school dance, sponsored by the Sophomore Class, was attended by 158 students. It was held at the Chicago Yacht Club.

This year, 200 couples must be added to the guest list.

Draft-Eligible IIT Pupils May Take Deferral Test

Eligible draftees will be given a chance to stay in college. The Selective Service System has announced that college Qualification Test applications are available at local draft boards. The test will be given on April 30.

Students interested in taking this test to obtain draft deferment should obtain applications and information bulletins from their local draft boards.

Applications, which must be postmarked no later than midnight, April 19, should be mailed to Selective Service Examining Service, Educational Testing Service, P.O. Box 964, Princeton, New Jersey.

Andres Becomes First IIT AFROTC Cadet to Solo

Cadet Louis Anderson, Jr., is the first IIT AFROTC cadet to solo the Aeronca 7AC trainer.

The program, sponsored by the Department of Aerospace Science and Engineering, will continue.

In an interview Tuesday, Anderson revealed that he is not only the first IIT AFROTC cadet to solo the 7AC but also the first to receive a commission in the Army Air Corps.

Seniors Vie To Become Man or Woman of Year

The deadline for the submission of applications for "Man and Woman of the Year" is Monday, March 9. Applications may be obtained from the Dean of Students office, and should be returned by March 9.

Blame Clogged Trap For Commons Fire

A small fire broke out in the Commons Drug Store last Monday. The fire was caused by an unsaturated lamp that was not turned off.

Mr. Thomas, Drug Store manager, said that the heat from the unsaturated lamp caused the lamp to catch fire and burned out the grill inside.

Mr. Thomas also commented that steps have been taken to prevent a recurrence of such an event.

ARF, IIT, Fraternities All Accelerate Building Plans

Recently accelerated planning, building, and construction on the IIT campus will accelerate even more in the next two years, according to IIT Vice-President and Treasurer Raymond J. Speth.

In an interview Tuesday, Speth revealed that, besides the new student union, plans for two other buildings—a library and a laboratory arts building—are under way.

Speth estimated that the library would be ready for the new student union in the fall of 1960.

Completion of the present library is expected to be completed by September, according to the Vice-President.

Construction of the new student union is underway, according to the Vice-President.

Navy Plans March On St. Patrick's Day

Participants in the annual Chicago St. Patrick's Day parade on Sunday, March 15, will include the IIT ROTC Drill Team, Drum and Bugle Corp, and Color Guard.

The Drill Team will be commanded by Captain Frederick Hoge, Jr., while Emery Jones will lead the Drum and Bugle Corp.

The 48 Mile Marchers will depart from the intersection of 54th Street and Ashland Avenue. The time and route of the parade will be announced at a later date.

Seniors May Order Rings Next Wed.

Students who have ordered class rings may pick them up next Wednesday, March 11, in the Student Union lobby. Mr. Jim Parker, representative of the company, will be here at 11:30 a.m. to 1 p.m. to deliver the rings.

New orders placed at this time require a deposit of $5.00. Students planning to pick up completed rings should be prepared to pay the balance.

Seniors interested in ordering graduation announcements should contact Phil Back at 77-2473, or in the morning, phone 77-2474. Phone orders should be placed by 1 p.m. on the last day of classes. Orders must be placed by 4 p.m. on the last day of classes.
Letters to the Editor

UN Delegation Chairmen Object to Editor's Views

Dear Bob,

Your editorial of last week has established a new low among Tech News editorials. It is not apparent whether your gross misrepresentation of the facts was purposeful or due to complete ignorance of the facts. In presenting your opinion you have challenged the integrity of both Tech's delegation to the Little U.N. and of its faculty advisor, Dr. R. Geisler.

Let us compare your opinions with the facts:

1. "Little U.N. Group represents Dr. Geisler, not students;" the statements made by the members of the delegation and Dr. Geisler's views were never expressed.

2. That Dr. Geisler is "purging one of the pet projects of his former employer." - Sen. Ford Douglas (D., Miss.) is today one of the leaders of the Senate's campaign against admission of Red China.

3. That in representing a country such as Red China, "the delegation would have to be organized." - Little U.N.'s model of the real U.N., which has among its many delegations a delegation from Red China.

4. You have claimed that the fact that you and your colleagues are the "only ones" to express those qualifications is a matter of prestige.

Tech's Administration Should Revise Stand on Mies Issue

Most Technicians have probably never heard of one of Italy's foremost architects, Ernesto N. Rogers. Fewer still are probably familiar with the Italian architectural magazine Cassabella. Yet both the magazine staff and Signor Rogers are apparently quite well-accustomed with ITT and, unfortunately, their acquaintance cannot be termed pleasant.

The January 1959 issue of Cassabella, contained within it an article by Signor Rogers praising the architectural design of Mies van der Rohe. This itself is not surprising, but the concluding paragraph of the article reads as follows:

"...we learn that Mr. Mies has done a marvelous job which has been in the interests of the field..." of architecture. This is not new, and the prominence of the great American university... will ensure his position, with the certainty that in doing so they will have contributed to the enrichment of our architectural heritage in this country..."

The statement, hardly complimentary to the Institute, was printed in three languages in the issue, bearing evidence to the importance placed upon it by the magazine editors.

This is a serious matter, and it is hoped that they do not choose the latter.

Support Confab

Dear Bob,

We, the undersigned, wish to correct several false impressions that are correct now on the delegations being sent by ITT to the 20th U.N. conference at the University of Wisconsin in April. You have made certain accuracies and implications which might lead the informed to certain wrong conclusions about the purpose and ideas of the delegations.

The members of the delegations are being sent from Illinois Tech are representative of the general student body, something which Mr. Foeller claims is not so. Among the 20 Tech students there are representatives from freshmen, sophomores, juniors, and seniors. Some are engineering students, while others are majoring in the fine arts, social sciences, and all majors are represented at Tech. The selection of participants was made from a committee of the student body.

The delegations going, including the one representing Red China, were chosen after a rigorous check of the facts. The editor probably feels that since Consultant China does not have a seat in the U.N., they are not entitled to any of the meetings. If the editor will check his facts, he is surprised to find that we will see Red China, as a member of the Communist bloc, is entitled to lobby at U.N. meetings and to be represented at meetings of the U.N. member committee.

We feel that the editor is being overly political and unrealistic when he implies that anything controversial and important is not for the U.N. and is not for the students.

Tech's Administration Should Revise Stand on Mies Issue

As a member of the Little U.N. delegation, I must take issue with your editorial regarding this delegation and its faculty advisor, Dr. G. Geisler.

As editor of a student newspaper, I understand, to get all the facts. It is obvious that this institution is not for your tastes in broadening your views, the publication of the facts, or all those things such as inaccuracy, discrediting all the rest.

Technology News hopes that the administration will realize the legitimate feelings of the students who see their interests not being served by a program that is not for the students.

As a member of the Little U.N. delegation, I must take issue with your editorial regarding this delegation and its faculty advisor, Dr. G. Geisler.

The Tech News hopes that the administration will realize the legitimate feelings of the students who see their interests not being served by a program that is not for the students.
Religious Groups Hold Meetings and Seminars

Religious groups on campus continue with their meetings and seminars during the Lenten season.

The Lutheran Association meets each Wednesday. The services are sponsored by the University Lutheran Church and the seminars meet at 6 p.m. in Room B in the Commons. The next Wednesday’s seminar topic is “The Shape of Worship.”

The Gummus Foundation continues with its series of Lenten Devotions. They are held from 12:30 p.m. to 1 p.m. in the Chapel. On March 11, the speaker will be Mr. Harry S. Karsen, Gummus Foundation student assistant.

On Sunday, March 15, Shari Anderson, student at the Michael Reese Hospital School of Nursing, will speak on the topic “I Want to Be a Christian.” This is part of a series conducted in conjunction with the Gummus Foundation and the Second Presbyterian Church Young Adult Fellowship. They are held on the first and third Sundays of each month at 12:30 p.m. at the Second Presbyterian Church, Michigan Avenue at 220 Street.

Pinocchlers Try to Gain Prizes in Free Hour

Entries to the Student Union Board’s pinball tournament are to be made on a partner system, to facilitate the team scheduling, Ken Jaque, tournament director, announced. Prizes, in the form of Common Stock certificates, will be awarded in writing.

The contest will be held during the free hour on Tuesday, with eight teams playing per week. Interested partners must enter or obtain information by telephoning Ken Jaque at Victory 2-9074.

Final dates for entry are March 10, and eliminations will begin shortly thereafter. There is no entry fee.

Symphony Features Russian Cantata, Singer Rosalind Elias

This afternoon’s concert of the Chicago Symphony Orchestra offers Sergei Prokofiev’s dramatic cantata, “Alexander Nevsky,” as its chief program item. Assisting the orchestra will be the Chicago Symphony Chorus, conducted by Rosalind Elias.

“Alexander Nevsky” was originally conceived as the background score for the Russian film of the same name, produced in 1938 by one of the world’s great movie producers, Sergei Eisenstein.

Eisenstein’s genius resulted in a film that still commands interest and maintains excitement despite the exigencies of its origins, its foreign language soundtrack, and the fact that it was photographed in ordinary 35mm black and white film (without even stereo sound).

Prolific, Eisenstein collaborated with Prokofiev to create a musical score that augmented the story line, not merely accompanied it.

The story centers on a 16th-century Russian hero, Prince Alexander, who, in 1240, under the leadership of Alexander, the Russians thwarted a Swedish invasion of battles on the banks of the Volga. As a result of his role in the victory, Alexander acquired the surname Nevsky, a derivative of the battle’s location.

Nevsky was honored by the triumphal Russian, but peace soon caused them to forget him and his deeds. Two years later, however, Russia was again invaded, this time by a powerful Germanic force, the King of the Teutonic Order. Nevsky called upon to serve once again his country, but the memory of the people’s hero fell into disgrace still rashed him.

Back in, however, and at the force of history’s successes, however, by way of his finely conceived incidental music, Prokofiev worked closely with Eisenstein to create a musical score that augmented the story line, not merely accompanied it.

The concert centered around this theme, which earned the Teutonic Order in combat at Lake Peipus on April 2, 1242. The film centers around this battle which proved a decisive victory for the Russians.

The cantata was extracted from the movie’s music by Prokofiev in 1938, the work depicts an impressionistic scene in the Teutonic Order’s battle at Lake Peipus.

“La Valse” has fast become a concert favorite and of the composer’s works, probably only the “Bolero” is better known.

“Fountains of Love and the Sea” by the French composer Bizet Chausson completes the concert offering.

**Do You Think for Yourself?**

1. When you feel that certain facts are foolish do you talk against them?  
   - **YES**  - **NO**

2. Do gadgets such as new cigarette lighters often irritate you so you want to take them apart?  
   - **YES**  - **NO**

3. Do you think that political candidates should write their own speeches instead of using a 'ghost writer'?  
   - **YES**  - **NO**

4. Given the choice, would you rather have an apartment of your own to live in or one with your parents?  
   - **YES**  - **NO**

5. Do you prefer a salesman who is honest to make a quick sale to one who will patiently answer all your questions about the product?  
   - **YES**  - **NO**

6. When arriving late for a party, are you inclined to join a group of close friends rather than attempting to strike up new acquaintances?  
   - **YES**  - **NO**

7. If you met somebody with a beard, would you tend to consider him 'ugly' and treat him with reserve?  
   - **YES**  - **NO**

8. Are you normally reluctant to go on a 'blind date'?  
   - **YES**  - **NO**

9. Do you base your choice of a cigarette on what people tell you rather than doing your own thinking?  
   - **YES**  - **NO**

You'll notice that men and women who think for themselves usually smoke VICEROY. Their reason? They've made a thinking choice. They know what they want in a filter cigarette. They know that VICEROY gives it to them! A thinking man's filter and a smoking man's taste.

"If you have answered "YES" to three out of the first five questions and "NO" to four of the last five, you really think for yourself!"

---

The Man Who Thinks for Himself Knows — Only VICEROY Has a Thinking Man's Taste!
Brust: Revise Elections Of Man, Woman of Year

In a recent interview, Phil Brust, engineering representative, stated that the man and woman of the year elections should be eliminated. He thinks the candidates should not be chosen purely on a personality basis. He suggested that a committee consisting of faculty members and students similar to the Who's Who committee should choose the man and woman of the year.

Phil, the present president of Theta Xi fraternity, objects to a compulsory activity. It is his opinion that the proposed free dance be used as a trial for the book, having no substantial connection with the book.

He does not like the way ITSA funds are distributed at present. One of his objections is that the bereavement money is not used to help the bereaved. He said he feels that the bereavement money should be used more wisely.

Heidelberg Choir Will Sing Tonight at Opera House

Heidelberg University's choirs under the direction of Father Hermann will appear tonight at 8:30 in the Opera House. Their diverse repertoire ranges from the serious pre-Rococo music of the German university to songs traditionally identified with the universities of Central Europe.

Tickets may be obtained at the box office or from Allied Arts Corporation, 20 N. Wacker. Prices are $2.00, $3.00, $4.00 and $5.00.

Your Imagination has a Chance to Soar at General Motors

Men like those are deeply involved in today's fastest growing and most exciting industry... electronics. At General Motors engineers and scientists have a chance to develop their talents to the fullest... to let their imaginations soar.

You, too, can have a chance to put your imagination into operation at GM. Every facet of engineering and science is found among General Motors 35 divisions and 126 plants. Engineering and science is found among General Motors 35 divisions and 126 plants: automobiles, diesel engines, electronics, airplanes, rocket propulsion and solar energy... these are just a few of the fields open to the inquiring mind.

Tech EE's Give Student Papers At AIIEE Meeting

Student papers will be presented to the MIT branch of the American Institute of Electrical Engineers at 6:30 p.m. on March 31. In the auditorium of Siegel Hall, all student national AIIEE members are eligible to participate. The AIIEE contest has prizes of $50, $25, and $10 for the three top papers, and the local winner also is given an expense trip to Madision, Wisconsin, to participate in the district contest. The papers should be prepared for a ten minute oral presentation and may cover any subject of an engineering nature. The primary purpose of the contest is to develop an ability to present papers orally. Judging is based largely on the organization of material and the manner of presentation. The graduate papers presented will be held the evening of April 21. Students interested in either contest may contact Charles W. Petri, AIIEE secretary.

Colin Young

Letters

Continued from page 3

The Tech delegation is officially representing Tunisia and Argentina. However, some members of the delegation, myself included, felt that these two countries are "specific" nations as far as their importance in international affairs are concerned. To us, the value of a conversion of this type is in the discussion and actual participation in problems of international scope. We just don't want to sit at the sidelines and watch (as this called apathy) — we want to directly participate in those questions of worldwide significance. It therefore appeared to us, misdirected by anyone, including Dr. Geisel, that Communist China, a big question mark to today's international scene, would be the ideal subject matter for the Convention to get its teeth into. Had any other country been so involved in such vital questions of international significance to the degree that Communist China is, then without a doubt our choice would have been that country.

To attempt to seat the delegates of a "de facto" national government into the U.N. is not "party politics". It is the legal right of any sovereign nation in the world community to ask for admission to this international organization — it is only the political actions of certain powerful blocs which prevent admission. Since the purpose of this convention is to familiarize college students with today's vital issues and questions, we as IT students, not uncertain ourselves with these issues merely because they are on the up-and-up of Bob Zellner, controversial and therefore interesting.

Dr. Geisel's only "offense" has been his desire to stimulate the interest of IT students to learn what is going on beyond the confines of Jint and Michigan. If it interest in non-engineering matters, it is, in Tech students, considered damaging to its reputation. I suggest we change this pernicious reputation for narrow and limited interests into one more filling of a college, rather than a social event.

In Retrospect

Dean of Political Science
Lockheed Missiles and Space Division is engaged in all areas of scientific activity in missile and space technology—from concept to operation. These include such fields as: advanced systems research; astrophysics; physics; chemistry; mathematics; materials; thermodynamics; electronics; electronics; magneto-hydrodynamics; aero-thermodynamics; propulsion; optics; materials and processes; test; astrophysics; space communications; computer development; reconnaissance; radar; electromagnetic wave propagation and radiation; human engineering; manned space vehicles and propulsion research and analysis.

As a systems manager for such major, long-term projects as the Navy Polaris IRBM; Discoverer Satellite; Army Kingfisher; and Air Force Q-3 and X-1, the Missiles and Space Division has established an enviable record of achievement. Tribute was paid to this record at the first National Missile Industry Conference when the Division was honored as "the organization that contributed most in the past year to the advancement of the art of missiles and space technology."

FACILITIES Headquarters for the Division are at Sunnyvale, California, on the San Francisco Peninsula. Research and development facilities are located in the Stanford Industrial Park in Palo Alto and at Van Nuys, in the San Fernando Valley of Los Angeles. The 1,500-acre, company-owned test base in the Santa Monica mountains 20 miles from Sunnyvale, conducts all phases of static and flight testing. Together, the Division's facilities occupy more than two million, six hundred thousand square feet of laboratory, engineering, manufacturing and office space and provide the latest in technical equipment, including one of the most modern computing centers in the world.

ASSIGNMENTS Upon joining Lockheed Missiles and Space Division, you are assigned to your special area of scientific interest and work directly under distinguished leaders in your field. The company encourages and sponsors individual communication with other scientists, the publication of papers and articles, and participation in symposiums and conventions. Every opportunity is given members of the technical staff to participate in the initiation of advanced technological developments.

ADVANCED EDUCATION OPPORTUNITIES For those who desire to continue their education and secure advanced degrees, Lockheed maintains two programs. The Graduate Study Program permits selected engineers and scientists to obtain advanced degrees at the company's expense while working part time at Lockheed.

The Tuition Reimbursement Plan permits fifty percent of the tuition for approved evening courses for salaried employees who are working full time.

Farr Hall Will Hold St. Patrick's Dance

By Alan Olsen

On the evening of Friday the 13th, Farr Hall will launch its fifth annual St. Patrick's Dance. For this big dance of the semester, decorations will be in the traditional St. Patrick's style with stereo music, according to Farr's manager. Also, many women will be present at the dance.

This semester's first issue of "Four Horizon" was published last week with a definite effort towards something new. As editor Chris said, "You will find the paper a bit different this semester. I hope to make each issue different from the one before except for the usual reports of the Council members."

Council Hall Elect Officers

The election of the Carmyn Hall officers for this semester were held in a dormitory meeting on February 25 with the following results:
President: Kathy Jacobson; Secretary-Treasurer: Alice Wink; and Social Chairman, Dave Loven.

Frank Voddespool and George Geraly were elected last week as representatives to the Farr Hall Council or the new constitution. The officers of the Farr Council for this semester are: Alan Olsen, President; Clark Bartunek, Secretary; Phil Berger, Treasurer; Frank D'Alessandro, Social Chairman; Ed Koza, Sports Chairman; Bob Bentel, Social Chair; LeRoy Burton, Reunion Chairman; and John Conne, Public Relations.

"Fourlady" in the basement

Due to cooperation of the members of the dorm, our dance turned out to be a success. Of special note were the excellent decorations and the excellent music provided by Art State.

"We hope that our next dance will be an even greater success," says Feesler President Ed Klipper.

Forty foreign students from Germany were invited by the Chicago Hospitalsski Center to the first screening of "The Girls in Sop", a light satire on the American political scene.

Madison Avenue...

Yes, up and down the street you'll find the smartest avenues in the smartest city.

We'll serve you with the best! They say that's what the client looks for. Up periscope and take a look into the situation. Ad men of the future aren't fooling around now—up to a gray tailored suit and relax with a Coke!

BE REALLY REFRESHED...HAVE A COKE!

Folk Singers Entertain Sat.

The Weavers will star at the Opera House in a concert entitled "Folk Songs Around the World," Saturday, March 7 at 7:30 p.m. Student ticket prices are $2.00, $3.00, $4.00 and $5.00.

V. Thompson, PS Head, Praises Tech Engineers

By Randy Wirtz

"The student committees going to the mock U.N. convention has a perfect right to represent anybody they want," says Doctor Victor Thompson, Doctor Thompson, head of the Political Science department at Tech, also says that, as he understands it, "the decision to go as the Red China delegate was completely made by the students." He commented also that Dr. Gesell is not formulating the policy of the committee.

100 per cent of the students are both highly able and highly motivated. He stated that this is a very good percentage when compared with a liberal arts school. Doctor Thompson does not think that it is difficult to teach a liberal arts course at a technical school, nor does he feel out of place here.

After receiving his bachelor's degree at Washington he went to Columbia for his Master's and Doctoral degrees in Philosophy. Doctor Thompson went back to Washington to teach, but was called into the service of the government as assistant director of fuel and automotive supplies. Learning that job, he went to teach for two years at the University of Texas. Doctor Thompson started teaching at Tech in 1947, becoming department chairman in 1949.

A Campus-to-Career Case History

"I wanted a job I could grow with -- and I've got it"

H. James Cornelius graduated from Swarling College in 1954 with a B.S. in Electrical Engineering. He's been "growing" ever since with the Bell Telephone Company of Pennsylvania.

After an initial 64-week departmental training course, Jim was made Faculty Engineer in charge of the fast-growing Norristown-Pottstown area.

In that capacity, he was engineered over half a million dollars' worth of carrier systems and cable facilities between major switching centers.

Today, he is one of 50 young engineers in the Bell Telephone Companies chosen to attend a special Operating Engineers Training Program at Bell Laboratories. This 12-month course of study—full pay—deals with advanced electronics and new concepts in electronics which signal a new era in telephony. It involves both classroom theory and practical laboratory applications.

When Jim and his colleagues return to their companies, they'll review major engineering projects. This will assure the best use of equipment for current engineering, as well as for expected new developments in communications.

"I wanted a job I could grow with," says Jim, "and I've got it. I can't think of a better place than the telephone company for an engineering graduate to find a promising future."

Many young men like Jim Cornelius are finding rewarding careers with the Bell Telephone Companies. Look into opportunities for you. Talk with a Bell Telephone interviewer when he visits your campus. And read the Bell Telephone booklet on file in your Placement Office.
You're always ready for a date... thanks to Arrow Wash and Wear.

Sports Hero

Baseball Co-Captain Weil Predicts Winning Season

by Skip McCormick

"I am a strong believer in the idea that a student should take an active interest in some form of athletics as well as his books," says Herb Weil, this week's sports hero. Herb is a shining example of the "activities major" who against Herb, but a contestant, even though he takes an active part in a great number of sports activities, the Roosevelt High School graduate still manages 2.6 GPA after seven semesters as an E.E.

Large in Ability

Small in stature, but large in ability and spirit, Herb, besides winning varsity letters in baseball, played in last year's JM-IR all-star basketball game, and was elected IF All-American of the year. His other campus activities include being a member of AEPI fraternity, the NRNUC program, Honor I ROW, and the Greek Week committee. This year Herb added the honor of junior class vice-president to his laurels.

Although he has an interest in all of these other activities, Herb's main interest in varsity baseball.

Herb Weil.

one of Coach Gissley's main spark plugs. Last year Herb played in the outfield, and as nearer, and expects to do a lot of the same again this season.

Team Hat Experience

When asked about the prospects of this year's team, Herb predicted this opening sentence, "This year's team should be very good. We have only one regular from last year's team. Last year we compiled a record of eight wins and seven losses with a team that lacked experience. Now that we have experience we are going to do all right."

Sharks Receive Awards; Score At 39 pt. Rate

Twelve members of the 1958-59 swimming squad were recommended to Athletic Director Beany Witterman, by coach Greg Gonzales, for letter awards Tuesday. Set of the awards were to be major and the other six minor.

Those to receive major awards were Captains Gene Curry, who also receives a star, Andy Zander, Dick Jensen, Janie Recker, Bill Van Buren, and Bill Miller.  Miller's receiving a star go to: Bill Anderson, Bob Corning, Chris Reeder, Bob Wells, Dick Bonner, and Skip Swanson.

The team compiled a total of 312 points while their opponents collected 312 points. This means that both averaged 93 points to the 44.2 of their opponents.

Gene Curry led the team throughout the season. He had the best times in the 100, 220 and 440 yard relays. Curry established a new record in the 220 yard freestyle in the time of 22.8.

Award IV Letters

To Cagers, Matmen

Winners of letters on the 1958-59 wrestling and basketball teams were announced at the beginning of this week. The awards were presented to members of the basketball team and eight to members of the wrestling team.

Coach Gissley recommended the following men for major letters: Don Crowther, Ron Gallaher, Mike Kellman, Don Neal, John Polly, Dave Romanoff, Merrit Reeder, Len Robich, Dick Bonner, and Mike Wood.

Chuck Keyworth: Gary Reiter, Dave McGuire, Phil Ritter, Dave Trepagnier, and Don Shane were recommended for major wrestling awards. Minor awards go to: Jim Heydrich and George Severson.

They said it couldn't be done... they said nobody could do it... but

I'M in Low in tar

with

MORE taste to it

DON'T settle for one without the other!

"I'M is kindest to your taste," says James Arness. "There are two good reasons why I know you'll like 'em. They're truly low in tar, with more exciting taste than you'll find in any other cigarettes."

LOW TAR: I'M's patented filtering process adds extra filter fiber electrostatically, crosswise to the stream of smoke... makes I'M truly low in tar.

MORE TASTE: I'M's rich mixture of slow burning tobacco brings you more exciting taste than any other cigarette.

Live Modern... Change to Modern I'M
Air Force Wins IM Crown

Sharks Win 43½ - 42½; Carr Sets Pool Mark

Tech’s Sharks won their second meet of the season against six teams when they edged the swimmers from the University of Georgia William C. Price Invitational meet was the last of the season for 11; only the Changchun College Championships remain.

Carr Sets Record

Bill Van Stasson, Dick Joneck, Mike Hargrove, and three other Tech swimmers set meet records in the 200 yard freestyle relay and 200 yard medley relay.

Carr Swims Fastest 200 Yard Free

The event was the 200 yard freestyle. Gene Carr swam the fastest in the 200 yard medley relay. Bill Miller also set a record in the 200 yard medley relay.

Glancy Plans IM Volleyball Meet

Entries are now being accepted for the IM volleyball tournament to be held in the Tech gym, beginning at 5 p.m. on Monday. The tournament will be a single elimination, with no disqualifications on the team members. Team entries and announcements should be sent to Ed Glancy by March 10.

The Tote Board

by Dave McDermott

All Stars Away!

Once again, an attempt is going to be made to pit the athletes engaged in intramural sports against those who are participating in the college league. It is hoped that this attempt meets with more success than the effort that failed to organize a single round of final games.

Baseball Practice Begins March 15: Plan 12 Games

Tech’s baseball team will begin practice on Monday, March 15, according to Coach Glancy. A list of the games to be played includes the following: vs. U. of Chicago, vs. North Park, vs. Illinois Institute of Technology, vs. Northwestern, vs. Indiana University of Chicago, vs. Purdue, vs. Indiana University of Illinois, vs. Michigan State, vs. Ohio State, vs. Michigan, vs. Indiana University of Illinois, vs. University of Illinois.

Tennis and Golf Teams Schedule Practice Hours

The tennis team will practice on Mondays, Tuesdays, and Fridays from 4 to 7 p.m. The golf team will practice on Wednesdays and Thursdays from 4 to 7 p.m.

Surprise 1958 Champs, 38-36

by Don Nelson

Members of the Tech track team were surprised by the results of the intramural basketball championship. The team, which had been practicing hard, was able to win the title. The key players were the seniors, who had been working hard to improve their skills. The team members were also surprised by the support they received from the faculty and staff.
