'Who's Who' Selects 27 Illinois Tech Students

Twenty-seven IIT students were nominated to "Who's Who in American Colleges and Universities" this year, according to Mike Kollath, chairman of the Who's Who nominating committee. The list is tentative, pending confirmation by the publisher. Board of Control were: William Bollman, president; Donald J. Overbey, president-elect; George W. Berg, Alpha Sigma Phi; Letitia McClellan, president; Arthur R. Rinehart, Robert W. Eldred, vice-presidents; James Conners, senior class president.

Other Illinois: Donald Devery, Ronald Chandler, Edward Drum, publications photography; Donald Elsberg, Richard Ginger; William Hardt, president of IIT; Robert Hinsley, Robert Jacubak.

Also chosen were Terri Lindquist, ITSA; Louise James Christian, James Paper; Roger Peterson, ITSA treasurer; Norbert Peterson, publications photography; Donald Yoke, Barbara Reber, 1960 Integral editor. The committee also named Elizabeth Finley, Alpha Phi Omega, national service fraternity; Richard Smith, 1959 Integral student; Richard Zuller, Marshfield Taylor, Myra Winkler, Alumnae, ITSA; Ann Youngahl; and Robert Zoeller, Technology News editor.

ACP Awards 'Integral' 'All-American' Rating

The Associated Collegiate Press granted the 1959 Integral an All-American rating, the first awarded the yearbook since 1949. The Integral earned this, highest of the ratings, for its: appearance, content, editorial and production quality. The Integral student body is the only one of its kind to receive this recognition.

APO to Return Books and Cash

Books are now being sent out to those who have not yet picked up their books or their book's for the Alpha Phi Omega, national service fraternity. Each semester, the APO runs a book exchange for IIT students. Unclaimed so far this semester are $40 in cash and numerous used books.

Woody Herman's 'Third Herd' To Play at 1959 Integral Gala

The Grand Ballroom of the Sheraton Hotel will be the site of the 1959 Integral Gala on Saturday, November 21, from 9:00 p.m. to 1:00 a.m. The Gala is sponsored annually by the Illinois Tech Student Association social committee. Bids, which are priced at four dollars each, will go to sale November 9 at the Student Union candy counter, Commons bookstore, and all dormitories and fraternity houses. According to Dale M. Daniel, ITSA social chairman, formal wear or dark suits is proper dress for the occasion.

A panel of judges will select a queen from the five finalists to be chosen in an all-school election. Music for the event will be provided by the Nitebirds and the Orchestra. Committees are Leo Zavatskas, publicity; Ed Morler, ticket seller; Jim McDonald, Friollo Queen judge; and Ron Smith.

Debating Society to Discuss Playboy Distribution at IIT

Students of Illinois Institute of Technology will have the opportunity Monday to join a new organization on campus, the IIT Debating Society. The newly formed group will meet at 8 p.m. in the Commons basement. A free style debate concerning whether or not Playboy magazine should be sold on campus will be held. With this style of debating, the initial arguments are made by two teams, after which the debate will be thrown open to all present. Following the debate, a business meeting will be held to organize the group and to elect officers.

According to Mike Feldberg, who initiated the group through the Student Union Board, the group is free of any political bias. The group will become a sounding board of campus policies, to affect a true debating society, and to stimulate a team for competitive debating.

Seniors to Attend Smoker Wednesday

Illinois Institute of Technology's Senior Class will hold a Senior smoker next Wednesday starting at 8:00 p.m. in the Bamboo Room of the Harmony Club, located at 313 E. Haldane Street. It is open to all members of the class of 1960.

According to senior class president Jim Combs, this is the first such affair ever to be held by a class. Drinks will be served at the smoker, which is in the style of such affairs. Arrangements have been made by the class executive committee. Entertainment will be provided by the smoker.

Jazz Concert Features Septet of Kai Winding

Kai Winding and his septet will be the main attraction at the Student Union Board's annual jazz concert next Friday in the Student Union auditorium. The concert is to be the first of several concerts sponsored by the SUB.

In the past, SUB has sponsored several jazz, folk, and jazz concerts. Well-known jazz artists such as Bob Scobey, and folk artists such as Oscar Brand and Odetta have been presented in the past. A chamber music concert by the Fine Arts Quartet was given in 1957.

SUB concerts have been unique in that they are the only IIT social events which are consistent financial successes. Tickets for this affair may be obtained at the Student Union candy counter, all of the dormitories, or any fraternity house. The price of the tickets is $1.75.

Midshipmen Club to Present Annual Autumn Dance This November 7

Midshipmen of the Illinois Institute of Technology NROTC unit will present a dance on Saturday, November 7, in the Navy Armory. The dance will last from 8:30 p.m. until 12:30 a.m. Only members of the Midshipmen's Club and invited guests may attend.

Music will be furnished by the IIT Dance Band. Chaplains for the dance will be Major William E. Gould, United States Marine Corps, and Mr. Gould, representing the Navy will be Lieutenant (j.g.) and Mrs. James Snyder. Those attending the dance will be admitted free of charge.
Letters to the Editor

Questions Stand on 'Rock Issue'

Dear Bob,

Whatever the student may be, or wherever he may be, he feel sorry for him. He tried to bring about school spirit by performing a "humorous" act, as was implied by last week's edition. The performance was with water was immobile, and I didn't read the article which stated that it would be immobile to point the rock in the first place. I don't remember reading an article saying that quiet spirit is immobile. It is true that all practical jokes, all college jokes, and even school spirit is immobile, but only one of these was criticized. Why only one? Was because the author was on "the spot" and had to criticize to save his own life?

The Dean may be having a little fun, also.

I disagree with what he said... but I'll defend to the death his right to say it!

Debating Team Practice

Technology News Welcomes Debaters

The recent association of several students and a faculty representative in the Illinois Tech Debating Society is a major advance in the caliber of newly-formed student organizations. A debating society such as this is one of the most effective ways of training our people to manner.

This training, or experience as some would have it, will be invaluable to anyone who participates. As Pat Callahan, past editor of New Edit Magazine, once said, "... we send our people out to the business world as nabobs." A society put together for the purpose of considering both sides of many different questions cannot help but to alleviate some of the attacks.

The people involved will come to encounter new ideas in their discussions. They will be forced to form and investigate opinions regarding new ideas. They will be forced to discipline their own thoughts to a greater extent than they have ever done before.

The group will have opportunity to discuss issues which are purely hypothetical. That such discussion goes on is not an a priori waste of time. If nothing stunningly concrete comes of these talks, we will not be surprised. We will be surprised, though, if all those concerned with the group fail to gain some useful insights into the questions discussed. Welcome to the campus, ITDS. We've been waiting a long time.

Survey Discloses Prices of Cafes

At Colleges In Chicagoland Area

In a letter to the editor, Mr. Melvyn Treichl, IIT assistant treasurer and business manager, expressed the belief that Commons and Student Union cafe prices compare closely with other college food services in the Chicago area.

Examination by Technology News of interesting facts, however, out of the college food service contracts, two were on a par with IIT prices-wise. Four rather soundly undersold our campus cafe, and several other cafe聿s released price information. Northwestern University was not included in the survey, since their main cafe聿s are operated on an entirely different basis.

University of Chicago and University of Illinois (Navy Pier) were found to charge prices quite close to those of IIT. Concordia Teachers' College, a private institution in River Forest, seems to be the highest. Concordia sets a standard price on items like $1.20.

Wilson Junior College and Chicago Teachers' College operate a cafe聿et (the schools are also administratively joined). Service is on a meal basis. One is charged eighty cents for a meal consisting of meat (beef, etc.), potatoes, a vegetable, broth, and a beverage.

Perhaps most interesting is the cafe聿et at the Marquette University. The dinner consists of meat, potatoes, a vegetable, rolls, and butter. The dinner is eighty-five cents, and lunch is eighty-five cents an (chicken, egg) seventy-five.

The cafe聿et is run by an outside company, the Marquette Management Company, who not only pays a concession fee to the University but also manages to show a profit.

Why Did Ford Foundation

Omit Tech in Donations?

The same week that the IIT president's report to the board of trustees was released, Time magazine announced a $9.5 million gift by the Ford Foundation to four institutions of technology (Caltech, Carnegie, Case, MIT) and six universities (UCLA, Illinois, Purdue, Wisconsin) in order to boost, as Time put it, "the pace setters."

$112.5 million of the money will be used for the purpose of improving facilities, namely the balance will be used in educational improvement.

ITC is conspicuous by its absence from this group of recipient institutions. No reason is readily apparent for the omission; however, the purposes for which the funds are earmarked give some hint as to the remaining behind the omission.

ITC's preoccupation with the development of its physical facilities at the possible expense of curriculum or faculty improvement is readily apparent to Foundation President Henry T. Heald, who until 1952 served as president of IIT.

One step in the direction desired by the Foundation may be the initiation of the engineering science course of study. Massachusetts Institute of Technology received a $1 million Ford Foundation grant for a curriculum focused on science-core courses that cut across traditional departmental lines.

The most important goal of the Foundation's gift, in the estimation of Technology News, is to help top science interest.

This school suffers somewhat from a dearth of "career" teachers. A good question to ask (in the "first, the chicken, or the egg?" category) is, "Should IIT be given money now specifically for full professors, or should it be given to the curriculum in the expectation of better next year?"

Regardless of our personal opinion, Ford Foundation may have inadvertently chosen the latter as its standard.
Sigma Kappa, Alpha Phi Omega Sponsor Carnival November 14

Sigma Kappa sorority and Alpha Phi Omega service fraternity will co-sponsor a carnival in the IIT gymnasium on Saturday, November 14. The carnival, which is open to all IIT students, will take place between 6 p.m. and midnight. A donation of 25 cents will be requested at the door and tickets priced at five cents each will be sold for general use at the carnival. These booths will be operated by various campus organizations.

Organizations wishing to sponsor a booth should contact Judy Richter at V-7-3757. Three trophies will be awarded to organizations sponsoring booths. These awards will be made on a basis of originality, workmanship, and general interest. Organizations will be partially reimbursed for the expense of setting up their booths.

Proceeds from the carnival will be given to the "New Gym" fund.

Kappa Phi Delta, Theta Xi Plan "Toy Harvest"

"Toy Harvest," an informal dance sponsored by Kappa Phi Delta sorority and Theta Xi fraternity, will be held in the Community Center on November 13, from 8 p.m. until midnight. Tickets can be obtained at the door for 75 cents, or a new or used toy in good condition. Proceeds from the event will be donated to the Ada S. McKinley House and used to buy Christmas presents for underprivileged children. According to Margie Prusack, President of Kappa Phi Delta, a trophy will be presented to the organization that best represents "Toy Harvest." All IIT students may attend the dance with or without dates. Exhibitions have been set up in the hospital area. Music for the affair will be provided by the Illinois Tech Dance Band led by Roger Dahlgren.

Listenings Plans Essay, Photo Essay Contests

Contributions for the Listenings magazine essay and photo essay contests will be accepted until November 30, 1959 for the issue to be published January 8. Judges for the essay will be R. G. Geiser, professor in the political and social science department, R. A. Toomer, instructor in the department of language, literature, and philosophy, and Rik Schriefer, editor of Econ. Prize for first place in this contest is publication in the magazine's issue, a subscription to the 1960 Integral, and a copy of Bergen Evans' "Dictionary of Obscure American Usage." Second prize will be a subscription to the 1960 Integral.

Judges for the photo essay contest have not yet been selected, but will be announced in next week's Technology News. Prizes will be $10 and $5 merchandise certificates which will be honored at the Waverly Music Co., 119 No. Dearborn. First prize also includes publication in Listenings of the photo essay.

CONTEST RULES

A. Essay Contest

1. Entries must be submitted on or before the deadline, November 30, 1959.

2. The topic is "What should the schools do for students?" That is, what responsibilities does a school have beyond the usual academic demands, in the areas of socialization, emotional development, intellectual growth, etc.

3. Length of paper must be no fewer than five paragraphs of minimum size of 12 lines of type in order that satisfactory essays may be graded.

4. The range of topics for the essay is unlimited. However, the topics must be relevant to the theme of the Integral, a series of essays is not necessary. Homework memoranda and essays on additional topics may be stressed in addition to essays on the Integral theme. The essay should be constructed so that draft papers or other writings might be used to help with the assignment.

B. Photo Essay Contest

1. Entries must be submitted on or before November 30, 1959.

2. The essay will consist of no fewer than five photographs of a minimum size of 12 lines of type in order that satisfactory essays may be graded.

3. The range of topics for the essay is unlimited. However, the topics must be relevant to the theme of the Integral, a series of essays is not necessary. Homework memoranda and essays on additional topics may be stressed in addition to essays on the Integral theme. The essay should be constructed so that draft papers or other writings might be used to help with the assignment.

CAMPUS JOB OPPORTUNITIES

Do you have a girl friend or a friend with a sister that you would like to meet more often? Why not suggest that she come to work at Illinois Tech?

Several departments have interesting secretarial positions requiring the use of shorthand. Another needs a good typist to transcribe dictation from a machine. Still others have positions which require good typing and offer opportunity for advancement.

Tuition scholarships for an evening course, paid vacation and sick leave, as well as paid insurance are among the many benefits.

For applicants hired prior to January 1, 1960, a $800.00 award will be offered. The girl referred must be in her sophomore, junior or senior class and must be an IIT student.

Refers all applicants to Miss Dixon, Personnel Office, Room 246, 3335 S. Federal Street. Call extension 2210 for further information.

P.S.—Student typists can earn good wages by applying to the Personnel Office for work in their free time.

A date to remember...

SUBJECT: Caterpillar Interviews for Engineers

DATE: November

5, 1959

If you're about to receive your B.S. or M.S. engineering degree, Caterpillar Tractor Co. is interested in you.

Caterpillar is the world's leading manufacturer of Diesel Engines—Tractors—Earthmoving Equipment. Our products are everywhere... every work of the world... getting big jobs done in big ways.

At Caterpillar you'll be doing important and satisfying work in RESEARCH AND DEVELOPMENT—DESIGN—SALES—SERVICE—and many other fields. With just four more years, you'll be able to grow in position and salary calmly and steadily along with us.

Start thinking about Caterpillar now. Your Placement Office has more information about us.

CATERPILLAR TRACTOR CO.
Combes Heads Discussion At Tau Beta Pi Confab

Tau Beta Pi, engineering honorary, held its annual convention October 15-17 at Purdue University. ITd delegate was chapter president James Combes, and alternate was George E. Berg.

At the convention, Combes presented an amendment to the constitution which was approved, "to remove the requirement of Engineering Council for Professional Development activity for all chapter members."

Schedule Coffee Hour In Carman November 11

The south wing of the dormitory will be the site of the Tau Beta Pi Coffee Hour, which is planned for November 11. The annual meeting of the chapter will also be held at this time.

Students View Film on Graham

A film on the life of Billy Graham will be shown on November 18 in Carman Hall.

Religious Organizations Hold Open Seminars Next Week

"Religion and the Law," a film about the life of Billy Graham, will be shown on November 18 in Carman Hall.

Sigma Pi Sigma Plans Meeting

Sigma Pi Sigma, physics honorary fraternity, will hold its regular meeting on November 17 in room 202, Siegel Hall. All interested students are invited to attend.

IBM WILL INTERVIEW NOV. 16

IBM invites candidates for Bachelor's or Master's degrees to attend the IBM interview on November 16. The company will discuss opportunities in product development, programming, and research positions across the United States.

Laboratories and manufacturing facilities are located in Endicott, Kingsport, Owsley, Poughkeepsie, Yorktown, N.Y.; Burlington, Vt.; and Rochester, Minn. Corporate headquarters is located in New York, with 188 branch offices in cities across the United States. The IBM representative will be glad to discuss with you the type of career of particular interest to you.

- Leadership in the development of information-handling systems.
- New applications for data processing and advances in computer technology.
- Favorable climate for continued career growth.
- Opportunities for a wide range of academic backgrounds and talents.

Contact your College Placement Officer to arrange an appointment for a personal interview with the IBM representative.

If you cannot attend the interview, call or write:

Mr. R. J. Barnes, Branch Manager
IBM Corporation, Dept. 8488
9415 Southwestern Ave.
Chicago 56, Ill.

Rho Epsilon Announces Classes For Tech Ham Radio Devotees

Rho Epsilon radio society has announced openings for students interested in attending ham radio classes.

According to Dave Lubahn, president of Rho Epsilon, the classes have been held since the beginning of the semester. Students are presented on tape recordings and each individual is allowed to progress at his own speed.

After certain levels of proficiency have been reached, students may qualify for different types of ham licenses. Those interested in these classes should contact John Gust, Donald Daughters, or Robert Pawulas on Tuesday or Friday between noon and 1 p.m. at room 300 Main.

Phi Eta Sigma Meets Thursday

Phi Eta Sigma, freshman scholastic honorary, will hold a meeting on Thursday, November 5 at 1 p.m. in 108 MC. The tutoring program will be discussed.

Anyone wishing to join should contact Dick Gregory at DA 6-9587.

Set Wednesday As Rhodes Form Deadline Date

Deadline for filing Rhodes Scholarship applications is next Wednesday. Students must have at least junior standing to be eligible. Applications and pertinent information may be obtained by contacting John D. Larkin, Dean of Liberal Studies.

Fullbright Scholarship applications are available through the Dean of Students office. Deadline for filing through IIT was October 16, however, applications may be sent to the national office not later than this Sunday. Students must have at least a bachelor's degree to qualify.

AAR Improves Designs, Specifications, Methods

Three buildings in the northwestern corner of the campus not occupied by classes are inhabited by the research facilities of the Association of American Railroads. The association is composed of 101 member companies and 150 associate member companies.

Twenty railroad presidents comprise the board of directors of AAR. Of the appointed officers, one, the Vice-president in charge of research, is stationed at the Technology Center research area.

AAR Applies New Facts

Aims of the research department at Tech Center deal with developing improved specifications, designs, recommendations, and the application of new technology to railroad uses.

Engineering research is concerned with roadway, track, and ties. The railways of the United States maintain about 366,000 miles of track. Problems such as frost heave, fill sinking, tie abrading, or splitting, and steel structure wind imposed stresses are considered; many interesting solutions have been worked out.

One area of research focuses on the use of prestressed concrete for cross ties. Another, in cooperation with Armour Research Foundation, works on the feasibility of a nuclear light source for roadway signs.

Study Efficiency

Mechanical research hopes to provide solutions to problems in rolling stock. Wheels, axles, journal bearings, Kobe, and draft gear come under the jurisdiction of this division. Leakage tests are made on air hose couplings at various temperatures in the laboratory by means of a machine that simulates the motion to which a coupled hose would be subjected in a moving train.

Super Sub!

It's been said that the stomach submerges "Nutristix" stays submerged so long that it only surfaces to let the nose resell. Perhaps for this reason, the Navy has taken valuable space aboard the "Nutristix" for the only airborne vending machine in the entire submarine fleet.

Naturally (or you wouldn't have bought it from us) it's a Coca-Cola machine. And not unexpectedly, possibilities are not respectable.

Regulate led, those submergers. Great drink, Colonel!

The Coca-Cola Bottling Co., Inc., of Chicago, Ill.
Residents Respond With T-H Opinions

This week the answers to our "Man on the Street" question, "Do you think that President Eisenhower was right in invoking the Taft-Hartley Law during the recent steel strike?" were unusually strong and also seemed to be well-informed opinions on the subject.

Phil Burgar
I like what he thought was best. Other industries were losing because of the steel strike. I am surprised that the union put on such a big fuss over the Taft-Hartley injunction. I feel the union really won the strike due to Kaiser's signing. The strike could have been continued, but the defense would have suffered. The trouble is that both sides have valid stories as to whether the injunction was right.

Emilio Schildow
I think it should have been invoked because they failed to come to an agreement in 90 days. The country's economy was being jeopardized by the unemployment and the lack of steel.

Pearson Lauds Physical Change in Neighborhood

by Ron Douglas

Dr. Leo Pearson, assistant professor of mathematics, is a man of many talents. In addition to being on the faculty, he is also the assistant dean of engineering, counselor of the south wing of the new men's residence hall and Head Resident. Originally from Vancouver, Canada, he acquired a B.A. in Engineering Physics at the University of British Columbia in 1949, and then went on to complete his M.A. in Mathematics there in 1951. He came to Tech as a graduate assistant in 1951 and three years later was appointed to the full-time faculty. At the same time he became counselor in Fowler Hall. He went on to take his Ph.D. in 1957, and that fall was appointed assistant dean of engineering.

Commenting on the changes in Tech since he had been here, he said, "The major change, of course, has been the physical change and the change in the neighborhood." "An active drama group at Tech would be a very good thing," he said, "because the students participating in the entertainment it would provide. At his University, he concluded, "they had both an active drama and social group which greatly contributed to the school. Here the only difficulty would be the lack of time plaguing most engineering students."

Peeks at the Greeks

Greeks Slate Costume Parties Tomorrow Nite

by Steve Dickinson

Halloween parties seem to be popular this weekend. Most of the fraternity houses have planned a costume party for Saturday evening and most of the sorority girls plan to go to a costume party Saturday evening.

Taps Haunts It Up

The Taps have decided to dress up as famous personalities of stage, screen, and television. Famous couples are scheduled for the Phi Kapp. Such couples as Adam and Eve and Captain Smith and Peacock will be in order.

Triangle 'Ghosts' Triangle is having a funeral party in their living room. Just who the stiff will be hasn't been decided. This party also requires costumes. The pledges also sponsor TN's party. They plan to have a costume dance. A tent will lead from the sidewalk to the house.

Harriers Lose To Navy Pier

Illinois Tech's cross country team fell to their fourth straight defeat, 16-46, at the hands of Loyola's at Monroeton Park. Because the Loyola harriers possessed superior experience, the leaders of each team realized that the runners were unable to finish the race at the rigorous pace at which they started it. This failure to finish the run was partly responsible for their poor showing. The weather, manurally cold and quite windy, contributed little to either of the teams times.

Ernie Billings of Loyola finished first with a time of 12:59. He was followed by teammates Slawow- skis of the first seven places with Dave Hoilinger of Tech finishing fifth in the time of 17:16. Lachino finished eighth with 17:39. He was followed by Joe, Knuts, Brun, How, and McPherson who com- posed the remainder of the Tech team.

This afternoon at 4 p.m. Coach Costanza sends his charges out to face Wright Junior College at Kim Park.

Pigskin Prophet Conducts Another Football Contest

by George Singlet

Congratulations to Tim Luttrell of 71 E. Thirty-second Street. Tim not only predicted all thirteen games correctly, but only missed the tie breaking score by 2 points. For this feat he received a prize. His second prize of $5.25 went to T. W. Fox who missed only three games. Teamman of Tech was awarded a $1.00 prize. He was tied with 5 others, but won by being closest to the garbage score.

In the Big Ten game this Saturday, and possibly the most important game against the Ohio State Buckeyes, the top team in the country, LSU faces fourth ranked Missi- sippi. LSU won in 184th game in a now lost last Saturday by shutting out Florida, 9-0. This year the LSU team hasn't had a touchdown against them, yielding only 2 field goals in 6 games. Missis- sippi, who has scored 159 points this season, won their sixth straight by swamping Arkansas, 20-2. Even with such a strong defense as the Cincinnati Bearcats, it shouldn't be enough to stop Fox Mississipi. Louisiana should hand LSU its first setback in three years.

The Big Ten, league leader Northwestern, who trampled Notre Dame, 30-24, Saturday, should still hold the top position in the league. Indiana and coming Spartans of Michigan State, in somewhat different terms, and Wisconsin, who have shown that they may be regaining their strength of 3 years ago. The Spartans could upset Ohio State.

In other games around the country, third ranked Texas, finally best their nemesis Rice, 24-6, should continue on their winning ways against SMU. Ninth ranked Georgia Tech should rebound from their sluggish 20-13 victory over Tulane when they play Duke. Yale assumed their fifth consecutive shut-out by shutting Colgate, 21-0. The Bulldogs are the first team to accomplish this feat since 1943. Dartmouth shouldn't curse their perfect record.

Don't forget to enter the Pigskin Prophet Contest. First prize is now $5.00, and the second prize is $2.50. Deposit your entries in the mailbox box in the S.U. lobby before, tomorrow.

Good Luck.

Forfeits Close IM Regular Season Play

by George Boris

Football activity Tuesday came to unexpected conclusion. The Civil Engineers forfeited their game to the Air Force "A" because of a meeting the members had to attend. Later in the afternoon, the Navy "B" was forced to forfeit their game to the wilds South Dorn team. While only four men were there to represent the Navy, the team had enough men to form two teams - an admirable effort on their part.

November 3, the AICM team, first in the A League, will play the Double Ugly, second in B League, at 12:15 p.m. At 1:10 p.m. the Air Force B, first in B League, will play the Air Force A, second in A League. The winner of these two contests will play in the final championship game on Thursday, November 5. The Air Force B is first in League B despite the same record of wins and losses as the Double Ugly because they had defeated the Double Ugly in a previous con- test.

Student Injures Leg in Gym 'Horse Play'

by Ron Ferri

The day was Monday; time was 1:30 p.m.; and the piece was the Illinois Tech gym. Nobody could foresee what was going to happen; it was just a typical gym period. There was the usual amount of horseplay and fooling around. Seven boys were playing around with the exercise when tragedy struck.

Ralph Dobson was sitting on the handle bars of the exercise, and somehow he was riding on the seat. What happened next no one is sure of, but Dobson caught his leg in the front wheel mechanism. The six other boys did not stay to find out what happened; they ran from the scene, leaving Dobson helpless. When the extent of Dobson's injury was made known, it was found that he had severely injured his calf.

Sunny Weinman stated that this was the first serious injury since 1926 when a man was killed. In 1930 a man lost a leg by "just fooling around."

Barbaro Welcomes Students To Participate in Wrestling

by Ron Ferri

Wrestlers met October 16, for the first time this season; coach Tony Barbero was on hand to start the proceedings. Tony has been wrestling coach at IIT for the past ten years, and his wrestlers have remained a better than 500 average. This year Coach Barbero has raised the wrestling schedule to nine meets with the addition of Valparaiso University. He has five returning letterman, as well as ten hopefuls.

Barbaro, who has extensive experience in wrestling, attended Tilden Technical High School where he was a prominent member of the wrestling squad. His college career at Wisconsin was interrupted by two years of serv- icer during World War II, but he returned to school and graduated in 1947. Tony now is married, and is in a physical education instructor as well as varsity coach at Tilden Tech.

He made it clear at this wrestling meeting that he is interested in everybody, regardless of skill or experience. Encouraging the need for conditioning as well as the basic skills and leverage, he stated, "You don't have to be a star because there are weight classes for everyone." Barbero holds his practice ses- sions on Mondays and Wednesdays from 5:00 to 6:00 p.m. He is just interested in variety and improving the students wrestling abilities. If you want to come out to learn wrestling, stay in condition, or have fun, you're welcome. Practice starts Monday."
