Herman Plays at I-Ball Tomorrow Eve
Expect 400 Couples

The Grand Ballroom of the Sheraton Hotel, 505 N. Michigan Avenue, will be the site of the 1959 Integral Ball to be held tomorrow evening. The ball, which will be held from 8 p.m. until 11 p.m., is sponsored annually by the Illinois Tech Student Association social committee.

Music for the I-Ball will be provided by Woody Herman and his "Third Herd." The orchestra, so named because it is Herman's third group, has existed for nearly a decade.

Tickets, which are priced at four dollars each, are on sale at the Student Union, student center, the Commons bookstores, and all dormitories and fraternity houses. According to Dale McDaniel, ITSAA social chairman, formal wear or dark suits with proper dress for the occasion.

Highlighting the evening will be the selection of a queen by a panel of judges. The queen will be chosen from among five finalists who will be in turn chosen in an all-school election held Wednesday and Thursday, November 11 and 12.

The five finalists and their escorts are: Pauline Beeham and Eri Crammer, Alpha Sigma Phi; Linda Cauthen and Ludwig Doehlman, ID 7; Helen Stasak and Ronald Weisband, Pi Kappa Phi; Sue Nelson and Lenzi Linderman, Delta Tau Delta; and Marilyn Piety and Jerry Roskey, Phi Kappa Sigma.

ITSA Reveals Highlights Of All-School Pep Rally

Illinois Tech Student Association will sponsor an all-school pep rally on Tuesday, December 19. The pep rally, an annual event, will begin at 5 p.m. in 115 Chemistry. At that time, a film of the Harlem Globetrotters will be shown.

Apply Tuesday For Editorial Of Tech News

Applications for the position of Editor-in-chief of Tech News for the spring semester must be presented to Pete Pollentine, at 3360 South Michigan Avenue, on or before 5 p.m. Tuesday. The applications will be considered for the meeting to be held at 6:15 p.m. Tuesday in the Commons basement.

Publications board is an organization consisting of nine members appointed by the Illinois Tech Student Association. The purpose of the organization is to review, approve, and publish board publications by approving budgets and selecting editors. Members are managers, editors of the university publications.

DEAN BROWN reveals the dress of Pi Kappa Phi mock jack at the event. nooded last Saturday evening. "Standing" the Dean are Paul Wagner (left) and Bob Raiteri, Pi Kappa pledges. Delta Zeta sorority won first place in the book competition with an art booth and the Pi Kappa took second with their jall.

Toy Harvest Draws 200;
Proceeds Go to McKinley

"Toy Harvest," an annual informal dance held in the Commons basement on Tuesday, November 10. The dance was sponsored by Kappa Phi Delta and Theta Xi, lasted from 8:30 p.m. until midnight. It was attended by approximately 750 students. Proceeds from the dance, including over 100 new and used toys, will be donated to the John S. McKinley House to provide Christmas presents for underprivileged children. A donation of 15 cents or a toy was requested for attending.

The Toy Harvest is a round robin affair, which Kappa Phi Delta co-sponsors with a different fraternity each year.

Pi Nu Epsilon, Reese Nurses Present 'Dancert' Tonight

The Pi Nu Epsilon Dancert is being held at Michael Reese nurses' residence at 8 p.m. tonight. The Nurses' Glee Club is presenting this Dancert after last semester's experiment here at Tech proved so highly successful.

The Dancert will run much along the same lines as last year's affair. A free concert, during which the concert band, inter-fraternity glee club, and nurses' glee club will perform, will be followed by a formal dance. The Dancert will start shortly after 7:30 p.m.

At the end of the concert, the center of attention will shift to the gym, where the Tech Dance Band will be providing the music for the free dance that gives the 'Dancert' the other half of its name.

Although a great number of nurses will be on hand for both the concert and dance, it is stressed that anyone wishing to bring a date is welcome to do so.
Van Doren Suffers Criticism Due to Education and Family

Thousands of words written during the past months have included Charles Van Doren, star witness in the quiz show scandal, as corrupt, a martyr, or a confused young man. Columbia University has been both condemned and praised for dismissing him. In short, the spotlight seems to have fallen on Van Doren from both sides of the scandal scene.

The fact appears to have been overlooked that Van Doren is playing whipping-boy for all the contestants who have admitted receiving "helpful hints" about the questions used on the rigged quiz shows.

If Americans seek to see a true picture of the quiz show scandal, the whole story must be presented by the press. The Horatio Alger, the unknowns who become heroes overnight, can not be overlooked. Despite the fact that a popular bubble will be burst, they are not immune to the dirty smear on American entertainment because they are the popular underdog who, for a short time, came out on top.

Keyserling, 'Progressive' Lack Insight in Presentation of Economic Theory

The November issue of "Progressive" magazine features a particularly obnoxious article written by Leon Keyserling called "A New Economics for America." The general train of his thoughts (it is a great compliment to him to refer to his ramblings as a "train") seems to imply the following goals:

1. The United States Government is excessively worried about inflation and the implications of future inflation, according to Mr. Keyserling. He claims that the people in charge should immediately change their goals and the goals of the country to 1) achieve steady and optimum economic growth, 2) to assure our national production wisely, in accord with relative priorities of needs, and 3) to combine economic progress and efficient use of resources with economic justice.

He defined his goals in his "National Prosperity Budget." This budget should, as he says, "set forth short-range and long-range goals for maximum employment, production, investment, and consumer purchasing power."

He further states that the chief means of attaining these goals...calls for a considerably larger federal budget and a much more liberal monetary policy to assure a healthy economic climate were necessary. The writer appears to be concerned that the public has not been informed of the dangers of inflation, unemployment, and depression.

Letters to the Editor

Contends Both Parties Should Send Representatives to Asia

As a free-thinking student, I wish to express my feelings on a current national issue. A suggestion has been made by an American Senator that one of the country's leading Democratic politicians, President Eisenhower, should run for the upcoming European Union. The Republican Party is somewhat against this idea under the pretext that such a combination would be less popular among American leaders. Similarly, it may be true that the same combination would be supported by the Democrats if the President were their Party leader. I believe this to be an error in thinking. If the government is to be national in perspective, it should be composed of two parties, why not represent it as the same? Surely the issue on which the country runs is not completely confined to one political group. Support ICCs are held alternately by the two major parties, and each party should be able to provide leadership. The good of the country should be placed above political differences.

ITSA Should Vote on Issue, Not Personality

At the ITSA meeting of November 4, the board of control defeated a motion that would have amended the present method of appointing members to the student admissions advisory board. We do not wish to discuss the pros and cons of this issue, but rather the way in which the board members voted on it.

Seemingly several of the board members did not actually vote on the issue, but on the people who were supporting or opposing it. Perhaps some of the board members lacked a little tact in the presentation of their arguments, but revenue is certainly not gained by a vote opposing them on the issue at hand; the only people that can be injured in the long run are the students.

Entertainment Media Have Responsibility for Truth

by Bob Zoller

The recent quiz show investigations have focused the spotlight of public opinion on the "ethics" of the American people. In the same vein of thought, ITIA's Chaplin Fangman conducted a discussion on "values" at the recent ITSA fall conference. Chaplin Fangman based his own concern on facts arising out of the current war.

"Ethics" may be defined as a devotion to moral duty. This latter duty may be based on any one of several sources. One of these sources is the "ego," for example. It is this source which gives us "duty to sell." This latter duty is the one which has assumed proportions alarming to all.

The source of moral duty which we usually mean when we use the term "ethics" is man's relation to the universe or divine law. It is the laxity of attention to this duty which is causing concern in America today.

Should Van Doren be depicted as a martyr? Josephine Riley of the Christian Science Monitor notes that the "free community of Representative Doornin of New York that no adult, especially one of Van Doren's intellect, should be praised for telling the truth," brought in an era of "burst of applause." Representative Doornin, and the audience, are both to be commended for their actions.

Express Thanks

Dear Bob,

We wish to publicly thank all the organizations participating in the Carnival on Saturday evening. We are extending our appreciation to Bill Vondrich, Dean Browne and Miss Dwyer for their efforts in judging the books. It is to be remembered that if it had not been for the outstanding cooperation of Sonny Weltman and the athletic department, the affair would have been delayed. The city newspaper were all praised for their efforts. Finally, we wish to thank you for publicizing this function and for your efforts in promoting the success. Because of you, the gain fund will be increased by approximately $50.

Sincerely,
Sigma Kappa-Alpha Phi Omega

APO Committee Gives Report

Dear Bob,

Alpha Phi Omega wishes to thank those who contributed to the "Olympic Man on Campus" contest. At the conclusion of the contest, the winner was William Redmond, a junior. Nevertheless, we estimate that if it had not been for the outstanding cooperation of Sonny Weltman and the athletic department, the event would have been delayed. The city newspaper were all praised for their efforts. Finally, we wish to thank you for publicizing this function and for your efforts in promoting the success. Because of you, the gain fund will be increased by approximately $50.

Sincerely,
SMCC Committee
Submit Entries Now For Homecoming Queen

Plans for the IIT Homecoming on Friday, December 4, are being led by Bill Bahmester, president of Honor I. and the other members of the honorary.

Honor I will sponsor the annual homecoming dance in the Commons, following the IIT basketball team’s homecoming game against Concordia. Teacher’s College in the IT gymnasium.

In conjunction with this dance, the Tech athletic honorary is conducting a queen contest. Eligibilities for the contest are that she must be an IIT student, and she must be submitted by an organization. An entrant need not be the date of one of the members of the sponsoring organization.

Entries, together with an $8 by 10 portrait, must be submitted to Bahmester by 5 p.m. on Monday, November 30, 1959. Last year’s queen was Louise Dietz, submitted by Farr Hall and escorted by Leo Zyaznuk.

Honor I has not announced the band which will provide the music. Tickets for the affair may be purchased from any Honor I members.

Debaters Discuss Tech Architecture, Will Orate on Fraternities November 30

The second debate of the ITT debating society concerned the resolution that “the architecture of IIT is not suitable for university use.” Approximately 30 people attended the meeting which was held at 5 p.m. Monday in the Commons basement.

Defending the resolution were John Bjert and Milton Kaufman. Opposing it were Richard Chadwick and David Parnell. After the debate, the resolution was opened to discussion from the floor.

Those supporting the resolution felt the architecture is too extreme; that although we should not be tied down by tradition, we should not go to such extremes of experimentation because we have limited funds.

Those against felt that the modern buildings reflect the spirit of our age and that of a technical university.

The resolution was defeated by a large majority.

The subject to be discussed at the next meeting is whether or not every college man can benefit from a social fraternity.

Tale of Two Cities!

Among Western Hemisphere cities with the largest per capita enjoyment of Coca-Cola are Mexico City, Lima, Guatemala City, and New Orleans and chilly Montreal. When we say, “Who Else Has 9,000 Calories,” we’re really making the point that frames for indulging.

So don’t take any lame excuses about its not being hot enough for Coca-Cola. Forget the temperature and drink up.

Have a real cigarette—have a CAMEL
Industrial Engineers Schedule
Youth Conference, Nov. 27

All IE's student chapter will hold a conference on industrial engineering for all Chicago high school upperclassmen and junior college students on Friday, November 27. About 300 high school students are expected to attend.

This conference, featuring "New Approaches to Science and Engineering," has a three-fold purpose to aid high school students in choosing a career; to introduce these students to the field of industrial engineering; and to acquaint the students with ITT.

A fourth purpose or function of the conference is to provide training to our industrial engineers in the technique of giving short talks on the subject.

During the first part of November, student members of AIEEE visited various high schools in the Chicago area. These members distributed approximately 4,000 brochures describing the events to take place at the conference; additional brochures were mailed to the college advisors of the Chicago public schools.

The conference will begin at 1 p.m. with a general discussion of the fields of science and engineering by ITT's industrial engineering faculty. Films showing industry in action, such as Edward R. Murrow's "See It Now" film "Automation" and IBM films on computers and missiles, will be shown during the discussion period.

A tour of ITT's campus follows the discussion period, after which free refreshments are to be served. A panel discussion in the form of a question and answer period will conclude the events of the day. Student members will form panels and answer questions pertaining to industrial engineering and life at ITT.

In addition to the high school and junior college students, all ITT students are invited to attend the conference. Additional information may be obtained by calling Charles Schwartz at extension 423.

Campus Religious Societies Recess For Thanksgiving

Due to Thanksgiving recess, Inter-Varsity Christian Fellowship and Newman Club will not meet next week.

Can we find a concept of fun that is not artificial? The Lutheran Association will discuss "The Pursuit of Happiness" at 4:30 p.m. Wednesday, November 25, in Room 8 of the Commons lounge. Church services will be held at 7 p.m. in the chapel.

United Campus Christian Fellowship will continue its "Life of Christ" study series at 8 p.m. on Wednesday, November 25, in the Commons lounge.

The Young Adult Fellowship, students from IIT and junior college students from Michael Reese and Wesley Memorial Hospitals, will meet at 7:30 p.m. Sunday, at the Second Presbyterian Church to discuss another of the parables of Jesus.

Motbx Extends Friday's Bad Luck to Other Days

by AI Munn

Then there was the season's first snowfall. To drive toward school on a very slippery South Park Avenue, a car cut from another lane skidded in front of me. I went up onto the parkway and into a tree as I daintily crashed into his back fender. The other driver seemed in bad shape. He was taken to Michael Reese Hospital's emergency room. I very nervously approached his man.

“What's his condition?”

“Uninjured.”

Laws Handle

On Saturday I worked as a delivery man. I had frozen shut the tail gate of my employer's station wagon. Emulating the efforts of our other driver, I took a lack at the handle. The door wasn't freed from the ice, but I did slyly manage to free the handle from the door. As it sickeningly edgered along the sidewalk, I began lowering my deliveries through the front door. Small, but effective.

Professor Smithburg Hosts Channel 11 Television Series

The Integral Ball, sponsored by FSA, eclipses fraternities this weekend. The dance is being held at the Sheraton Hotel Saturday evening. Woody Herman's orchestra will furnish the music. Woody is a Big Up. The only fraternity planning anything this weekend is the Phi Kappa. They will have an alumni smoker tonight at their house. The DZ's IF dinner was considered a success, even though cranberries were served. Last night Kappa Phi Delta was the guest of Phi Kappa Phi for dinner. Although busy making plans, the Trio.

A DOOR IS OPEN AT ALLIED CHEMICAL...
AND THIS MAN CAN GIVE YOU THE FACTS

You'll want to note the date below. Our interviewer will be on your campus this week, ready to answer your questions about a career in the chemical industry...and to point out the advantages of pursuing that career at Allied.

You'll find it worth your while to get the facts. Allied has seven research laboratories and development centers, over one hundred plants, and a nationwide network of sales offices. It's worth knowing all you can about a company that makes over three thousand different products—plastics, fibers, glass, chemicals, and hundreds more coming along every year.

Come prepared to ask our interviewer what you want to know: What kinds of jobs? Which products? What opportunities for advancement? What location?

Armour Discloses All-Time High Gross Research Total for 1959

Armour Research Foundation reported an all-time high gross research volume of $15,431,000 for the years 1958-59, it was announced Monday.

ARF director, Dr. Haldon A. Leedy, stated that the research conducted was the "best ever," and described the past year as "the most successful in the 23-year history of the foundation."

A total of 695 projects, 314 for industry and 381 for government, were recorded.

Leedy said that emphasis on pre-project work which included the continued upgrading of the quality of research programs, the strengthening of the staff, and the improvement of facilities, resulted in a year-end backlog of over seven months.

An announcement of importance to

ENGINEERING AND PHYSICAL SCIENCE MAJORS

LOCATIONS—You have a selection of two of the choicest living areas in the country at Lockhead. Headquarters for the Divisions are at Sunnyvale, California, on the San Francisco Peninsula. Research and development facilities are located in the Stanford Industrial Park in Palo Alto and at Van Nuys, in the San Fernando Valley of Los Angeles. Testing is conducted at Santa Cruz and Vandenberg AFB, California; Cape Canaveral, Florida; and Almotogordo, New Mexico.

Together, the Division's facilities occupy more than two million square feet of laboratory, engineering, manufacturing, and office space and provide the latest in technical equipment, including one of the most modern computer centers in the world.

OPPORTUNITIES FOR ADVANCED EDUCATION—For those who desire to continue their education and secure advanced degrees Lockhead maintains two programs. The Graduate Study Program permits selected engineers and scientists to obtain advanced degrees at the company's expense while working part time at Lockhead.

The fuzzon Reimbursement Plan remits fifty per cent of the tuition for approved evening courses for salaried employees who are working full time.

**Prophet to Pay Off For Last Time in '59**

by George Siegel

As the college football season draws to a close, the football fans and the newspapers turn to the question of who will win the Big Eight and the Sugar Bowl.

The winner of the Big Ten race faces the Pacific Coast champ, most likely Washington, Syracuse.

**Kane Replans IFC Tennis For Spring**

The finals of the tennis tournament were completed two weeks ago, but due to a protest which was lodged, changing luck of the draw, and the fact that the doubles matches in the tournament were replayed, the Interfraternity tennis committee will be called off this fall. It is felt that it would be more advantageous to hold it in the spring.

**Navy Downs Air Force For Blue Jug**

Navy won the Blue Jug football game Thursday, November 12, defeating the Air Force team by the score of 13-6. The Blue Jug, which was played in a cold, driving snow storm and marked the third year in a row that the Navy has captured possession of the jug.

AFTROTC kicked off the Navy to start the game. Navy QB Mike Graham called a series of flat and delay passes which moved the ball to the Air Force 10. Middle Anderson took a pass from Graham for the score. The try for the extra point was thwarted and the half ended 6-0, Navy.

Early in the second half Carbeck, AFTROTC quarterback, ran and cut sharply for a 40 yard touchdown jaunt. The score remained the same to the end, the victory.

Hampson Sources

Navy won the Blue Jug on a 30 yard Graham to Glen Hampson touchdown pass. A similar pass was called back on a holding penalty previously.

After the Airmen were forced to punt, Navy was on the ball again. A roughness penalty, when Navy's Bill Mohrman crashed into a player, put the ball on the AFTROTC 5. Hampson caught another pass for the touchdown at the 72. The only successful pass attempt was when Center Earl Glass caught a pass.

Glancy, Team Prepare For Basketball Season

by Norm Berger

The Tech basketball team is in preparation for their first game against CTC. The game will be played in Tech's gym, Dec. 1.

A starter in the last half of last year and who also is a junior, should hold down a position this year. Two freshmen, Dan Benvenich and Jim Hardick, will be counted on to round out the first five. Benvenich has looked good in practice and Hardick, although only out for about two weeks, could be the ballhandler and team leader that Tech needs so badly. If more height is needed Dick Silken or Tom Storti will replace Hardick with Olin or Neal moving out in front to guard.

The team in general will be stronger than last year's which finished with an 8-12 mark. One of the main reasons is that the scoring load will be distributed more evenly. Probably just as important is the fact that with seven men who are possible starters, they can be substituted freely to provide freshness during the game. The definite weaknesses are a susceptibility to fast breaks and a tendency to erratic play.

Sophomore Mike Kollath has an outside chance to break into the starting five if he could clean up on his defensive work. Also freshmen Dan Carnes and Jerry Cislo can see action if their play improves.

Harriers End Season; DePaul, Northern Win

by Al Topol

Illinois Tech's cross country teams closed their season losing both ends of a triangular meet to DePaul and Northern Illinois at the University of Illinois, November 3, atNORMAL TECH. The Tech losing 17-40 to DePaul and 19-34 to Northern Central.

Running for Tech were: Hollinger, Larson, Love, Brax, B. and Wartburg. From these, Hollinger turned in the top time of 16:33, Larson was second at 17:52, and Love third at 17:40.

In the scoring the DePaul part of the meet, Hollinger's time was only good for fifth place, as DePaul swept the first four places. Tech took fifth, sixth and eighth.

In the North Central end of the meet, Northern Central took places one through three, HVT taking fourth, sixth and seventh.

Despite the seemingly overwhelming defeat which the Tech harriers received, it can be noted that the individual times were greatly improved in spite of the cold weather and 20 mile per hour wind blowing from the lake. With this meet the cross country team closed their season sporting a one-win-loss record. This record however is not entirely indicative of the team's potential. Coach Costanza, looking up his first season as mentor, commented by saying, "If the boys show the report in edile condition, we should have a much better season next fall.

Apes Announce Annual Open Basketball Tourney

It's time for the AEPi basketball tourney again. The tourney, now in its fifth year, was last year by an intramural team, the Koal Gents. The large traveling trophy which they won is now in the gym trophy case.

The tourney is open to any team under any names. IM rules will apply with slight variations, as details of these rules and entry blanks may be obtained from Richard Reiner at 3211 S. Michigan Avenue, telephone WI-2-8766. Entries are due along with the $4 entry fee at the AEPi house by November 25.

Games will be played in the gymnasium and spectators may attend. Participants and spectators will be governed by the gym rules concerning use of the gym and conduct.

Reiner warns people who wish to refer to contact him. He made it clear that the referrals will be paid.

The Tote Board

Carnival Swings

A new carnival was on campus last Saturday. The girls of Sigma Kappa and the boys of APO did most of the creative work to promote the event. Several organizations also contributed. The Sigma Kappa booth mostly sold raffle tickets, the APO boys sold raffle tickets, the Sigma Kappa booth had a prize going to the best costume. The Sigma Kappa booth was the most successful, selling over 1000 tickets in just a few hours.

This reporter presented a ticket to a cute girl, William Brown, who was there with her friend. She said she had never won before but this time she was sure she would win.

Fraternities Frolf

The fraternities held an unannounced snowball fight last Thursday night. The Alpha Phi and Alpha Delta fraternities met at the Alpha Phi house to play a game of snowball fight. Many of the Alpha Phi members were present and brought their own snowballs. The Alpha Delta members were surprised and had to quickly gather their own snowballs.

The Alpha Delta members were victorious and won the game by a score of 10-0. The Alpha Phi members were disappointed but were happy to have had a good time playing the game.
