Four Candidates for Position of Junior Marshal

Need Thirty Signatures to Place Name on Ballot

Election This Week

The information for the election of Junior Marshal started last week at the last of the eight academic buildings. B. D. B., F. W. F., and E. C. H. W. Y. were the men who at press time had already secured the required thirty signatures for nomination. Three more men in the junior class also have signatures which will be sectional on petition on which they appear. The election for Junior Marshal will probably be held this Thursday, though it is not definite.

Junior Class Week

The Junior class is the third group of students who are to point by him direct control of the social activities of the annual Class Ball; setting the program, selecting the class guests, and the entertainment. As it is one of the many duties, one of the important ones, and probably the most important ones, in the entire school year, the Junior Class Week is always a great responsibility. The selection of the date for Junior Class Week is determined by the Student Council for the Junior Class at the Student Council meeting.

Motion Pictures On Steam To Be Viewed

An opportunity to view several motion pictures on steam will be afforded students during the second part of the summer term. Several motion pictures on steam will be shown in the Student Union.
Inquire ing Reporters

The Business of publishing a magazine is a big and growing one. There are now over 100 publications dealing with various aspects of the telephone business, ranging from technical journals to consumer magazines. The largest of these, with a circulation of over a million, is Telephone World, which covers all phases of the industry.

"Test It!"

The watchword of an industry

The Bell System—the worldwide system of inter-connecting telephones—has a special message for you. It says: "Test It!" We want you to test our service, our equipment, our technicians. We want you to compare our system with all others. We want you to see for yourself how well we serve our customers.

"Test It!" is the watchword of an industry. It is the promise of the Bell System to serve you better, day by day, week by week, month by month. It is the challenge to you to test us, to compare us, to decide for yourself which system is best for you.

The Bell System is composed of 13 companies, each with its own distinctive name and symbol. But they all belong to the same family, the family of the Bell System. And they all have one goal: to serve you better, to test us, to compare us, to decide for yourself which system is best for you.

"Test It!" is the watchword of an industry. It is the challenge to you to test us, to compare us, to decide for yourself which system is best for you.
Why we spend $2,000,000

to put CAMEL cigarettes
in the new HUM DORR PAC

We have been in the tobacco business a long time now here at Winston-Salem and we take a lot of pride in the quality of the cigarettes we make.

While we have spent a good many millions dollars advertising our cigarettes, we have always held the idea that the thing that really counts is what we put into our cigarettes and not what we say about it.

If we know anything about tobacco, and we do, Camel contains the highest Turkish and the mellower, deepest flavor that money can buy.

In fact we have every reason to be proud of the quality of our cigarettes as they come from the factory, but the remainder of our friends from Denver some time ago emphasized a point that has been the problem of the cigarette industry for many years.

As stated the tobacco from a Camel was delivered to our offices one morning, was sidetracked with very slight delay and then examined physically, it was found to be of the best quality which can be had.

"Well," said, "I been a dried in the wool Camel smoker for a good many years, but upon my soul I never get a cigarette as good as this in Denver. If you would give the rest of the world the kind of Camel you sell here in Winston-Salem, you could have all the cigarette business there is in.

This statement simply emphasized the cigarettes cigarette's most important property - flavor.

We know what we wanted. We tried many things. We asked the Pittsburgh Testing Laboratory to help us. After many experiments and humidity tests covering all methods and patterns, we found the cigarette we thought of which is the next:

(c) Nonaromatic cigarette packages, including those wrapped in glassine paper or ordinary cigarette-paper, showing adequately, that they have been kept free from ash and other foreign matter.

We have been told by the testing Laboratory that when a Camel is packed it is as good as it is to be had.

You may be aware that Camel has been in the cigarette business for many years. We have been using this testing laboratory for many years. We have been studying this problem for many years.

If you aren't a Camel smoker, try them just to see if you can find a cigarette that is as good as Camel.

ARMOUR TECH NEWS

TECH MERMEN DOWN LOYOLA TANKSTERS BY 33 TO 31 SCORE IN CLOSELY FoughtBattle

Armour Swimmers Inconvinced by Odd Odds

Construction and Pool Lighting

MEET ILLINOIS WESLEYAN SATURDAY

True to expectations, Armour downed the Loyola swim team Thursday. March 31, at the Loyola 75 foot pool on the north side.

Armour held their own in most events but Loyola captured victory in winning his 10th straight title. Even, an Armour freshman, positioned in with a good secret, being a full half length of the pool ahead of the third man from Loyola. This event is one that Armour has been consistently for the past four or five years.

Due to poor swimming and a rather sluggish condition of the pool, the Tech men missed several times.

This may have worked to the advantage of the Tech men missed several times. This situation was not to the satisfaction of captain Chan who lost the 20 point trifecta to Trinkle, north arm. However, Chan was a good for a long post.

The meet was scheduled to start at 7 o'clock but problems developed when the head coach for Loyola was called out of town. Contacted by Loyola was another harsh reminder of the many hang-ups that men who own the diving event. Tech's diving was at times a complete romance. However, it did create dividends, which the Tech men missed several times. This situation was not to the satisfaction of the Tech men missed several times.

Credit must be given to the swimmers of the Tech men who had lost a full point on the relay event on the back stroke.

Andy Winton shared for Armour by winning fastest time of 20 yards and 100-yard back stroke.

On the second lap, Winton was to develop a stout 20 yards and 100-yard back stroke.

A close race was the 100 yard backstroke. Ross Chastin of Tech vs Winton with a beautiful start. The diving dive was a beauty and the Tech men missed several times. This situation was not to the satisfaction of the Tech men missed several times.

SUMMARY:

Hoy Bade, Tech, was the best of the Tech men missed several times. This situation was not to the satisfaction of the Tech men missed several times.

A close race was the 100 yard backstroke. Ross Chastin of Tech vs Winton with a beautiful start. The diving dive was a beauty and the Tech men missed several times. This situation was not to the satisfaction of the Tech men missed several times.

BRENNER BOMBS CANCELled

All the students are urged to attend these meetings as they will be held to complete and more formal swimming engagements. The Tech men missed several times. This situation was not to the satisfaction of the Tech men missed several times.

RUSTY CARMICHAEL elected Captain

Veteran swimmers Vernon Brown and Ed Dean, who have been with Armour for the past three years, won two of the 200 yard strokes in the meet. The Tech men missed several times. This situation was not to the satisfaction of the Tech men missed several times.

Your EYES MAY FOOL YOU, BUT YOUR TASTE TELLS THE TRUTH

MILDER...AND BETTER TASTE

TUESDAY, MARCH 16, 1951

Anticipate Huge Diamond Turnout

One of the largest turnouts of prospective candidates for Armour's 1951 baseball team is anticipated when Coach Knuth issues his call for callouts and fielders next week.

The huge turnout of last year's tremendous aggregate remains to give Coach Knuth hopes for another successful season. The vacancies left by the离去 of the many standouts will have to be filled by incoming men, and the field open to anyone who possesses baseball potential.

The term of observation officially presents an opportunity for a large number of players who would ordinarily have no chance and who are assigned to the try-out squads. If an open team is composed of a majority of regular players as has been the case in the last few years, the selection of the team will be based on the skill and experience of the players.

When the official try-out begins, Coach Knuth looks forward to a large number of fresh faces and experience replacements. Each candidate will be given a fair trial.

To date, Knuth has concentrated his efforts on developing the pitchers and catchers. All workouts have been made in the gymnasium in order that the men may develop their arm condition and they fit for some strenuous workouts when practice sessions are moved to Ope- pen Field.
