LARGE ATTENDANCE AT FROSH SMOKER FRIDAY THIRTEENTH

Schoenemaker, Ambar and Freshman Orches-

SENIORS WILL SEE HAWTHORNE PLANT OPERATION TODAY

DEANS SPEAK TO SMOKE

Over one hundred men were present at the recent meeting of the Academic Student Council held last Friday, "the thirteenth," at the W.E. L. Student Center, in the Engineering Building at 300 West Willow Street. This has been the first time that the freshman class had been invited to a meeting. The success of the meeting may be credited to C. L. Allen, who has been working on the project for a few weeks. The meeting was called by Professor Schoenemaker, who gave one of his famous "students of the present day" talks, followed by a discussion on the relations of the present day student to the future engineer.

Paper "Klink!" Strentze

This year’s paper meeting was quite interesting, covering a wide range of topics from the simple to the complex.

"The Slipstick"

Chief to the "Slipstick" by whom it may.

ADIOS

I now take open upon the detailed duty of writing this column, and so I offer my appreciation to everyone for their support and understanding. I have enjoyed this task and it has been a pleasure to write about various topics. I hope everyone has enjoyed reading it as much as I have enjoyed writing it.

The following is a brief summary of the topics covered in the "Slipstick" column:

1. A discussion of the importance of writing for the health of the mind and spirit.
2. An account of a recent trip to a national park.
3. The latest scientific breakthroughs.
5. The latest developments in technology.
6. A column on the importance of exercise and fitness.
7. A column on the latest fashion trends.
8. A column on the latest music releases.
9. A column on the latest movie releases.
10. A column on the latest political developments.

I hope everyone has enjoyed reading this column as much as I have enjoyed writing it. Please continue to support me and I will continue to write for you.

Take It or Leave It

By M. J. Miller

I come to you today with a picture that I believe will capture your attention. I have been working on this project for some time and I believe it will be a great success. I hope you will enjoy it as much as I have enjoyed working on it.

The picture is of a young boy sitting on a bench in a park. He is holding a small bird in his hand and appears to be enjoying the moment. The background is a beautiful park with trees and flowers.

I believe this picture will capture the attention of everyone who sees it. I hope you will enjoy it as much as I have enjoyed working on it.

The picture is available for purchase and will be delivered to your doorstep within 24 hours. I hope you will enjoy it as much as I have enjoyed working on it.

Thank you for your support and I look forward to hearing from you.

Arms News

Thursday, March 13, 1981

The last time I visited with our friends at the Four Winds Arms Company, they had already started working on their new line of arms. They had already started building their new line of arms and were very excited about it. I have been working with them for quite some time and I believe they will be successful with their new line of arms.

The new line of arms will be called the "Four Winds Arms" line of arms. They will be built with the highest quality materials and will be designed to meet the needs of both the military and law enforcement agencies.

I believe this line of arms will be successful and I look forward to working with Four Winds Arms Company again in the future.

The new line of arms will be available for purchase in the near future. I will keep you updated on their progress and I look forward to hearing from you.

Civils Complete Work in Bridge Competition

Twenty-seven senior civil-engineering students in the American Institute of Steel Construction Bridge Competition, spent the specified three hours last Thursday in their project. In this space of time the bridges passed geographically through all the engineering details pertaining to the laying of the necessary piles to the installation of the lighting system. Three prize winners are selected by both the architectural and engineering sections. First prize winners are awarded 500 dollars and second prize winners 300 dollars, while third prizes are 100 dollars. This is the first year that Armour students have participated in this competition. A total of 123 student entries constitute these three categories last year. A number of the best-looking designs are selected from the preliminary examinations. Teams in the final competition are notified and required to enter a finished bridge model on the basis of the preliminary entry. The position for this year is the design of a bridge 150 feet total length with a clearance for roadway of at least 20 feet below the surface of the road. This bridge is to serve the needs of a city of 100,000 inhabitants. The purpose of this competition is to encourage more beautiful designs of steel bridges from all engineering points of view. The Jury of Award will consist of three consulting bridge engineers of national reputation and two nationally-known architects. John Herrick of the University of St. John will be the judge of the winners last year in the engineering department.

TECH LEATHER PUSHERS TO FIGHT LOYOLA BOXERS IN MEET FRIDAY AFTERNOON

Two Home Match to Feature Eight Boats in Encounter With North Side Team

SEVERAL CONTESTS IN NEAR FUTURE

In response to a draft, drafted at the recent meeting of the Tech football-pusher, the Tech students and faculty will be afforded the opportunity to view two of the best boxers in the city of Chicago in action. A total of eight bouts will feature notable boxers from both teams.

Stevens Student Nestled

Stevens is recognized as a recognized school sport, Armour boxing club having had a long record of conspicuous victories. Stevens will be favored, it is reported, but the Y.M.C.A. state championships for the Chicago boxing world at this time will be a manifestation of the fine work done by Stevens. It will be interesting to see how far Tech boxing team will go. "After the tourney, the Tech boxing team will meet at the Armour Tech gymnasium to compete against the Y.M.C.A. team.

School Tournament Next Week

The finals will be held on Monday evening, with the matches to be held in the Tech gymnasium with Tech team members and fans

Tennis has been added to the list of sports for the next school year. The matches will be held in the Tech gymnasium with Tech team members and fans.

Weather Hampers Diamond Tyrods

Coach Kraft and his company of baseball enthusiasts were promised a somewhat uneasy experience in competing for the appearance of a few sun rays which were to be accepted on the field at 2 p.m. Under the favorable conditions of the weather, the game was to be played in the Tech gymnasium.

The Coaches

Coach Kraft will be assisted by several other coaches who will be present to lend a hand in the management of the game.

Another Match

Another match will be held on Tuesday afternoon at the Tech gymnasium. A total of eight matches will feature notable boxers from both teams.

Cub Fricys Ship

All would be well if Coach Fricys ship had a vacancy for a week in camp. One must of his players who would arrive in the Chicago area in the middle of the week. The weather is expected to be clear and mild.

Sand Bag Court

The court will be used for practice purposes.

Heavy Snow Prevents 1931 Tennis Practice

Tennis for this year was given a setback by heavy snow accumulation. Captain Bldy urged all the members to continue their practice in the gymnasium, regardless of the weather. The practice sessions will be held on Monday and Wednesday evenings.

The members are expected to be present at the meeting on Monday evening, when the plans for the upcoming season will be discussed.

FRIDAY AFTERNOON

The Tech tennis team will be absent from the practice sessions due to the poor weather conditions. The team is expected to return to practice on Monday and Wednesday.

Tech Favored To Win

TheTech tennis team is favored to win the match against the North Side team. The Tech team has been practicing in the gymnasium, and the North Side team has been practicing in the Tech gymnasium.

Missouri State Tennis Championships

Missouri State Tennis Championships will be held in St. Louis on March 17-19. The championships are expected to attract top players from across the United States.

Annual Tournament

The 1931 golf season will be opened by the annual spring tournament which will be held at the Tech golf course on March 17. The tournament will feature several of the top players from the country.

Weather Forecast

The weather forecast for the upcoming week shows a high chance of rain and thunderstorms. It is expected to be cool and comfortable for the tennis matches.

Wesleyan Swim Meet Postponed

The Illinois Wesleyan boys encountered some trouble in their proposed swimming trip to the Tech swimming team. The meet will probably be held on Saturday, March 17, but the date is subject to change due to the weather conditions.
