AND WHITTIER MAKES THREE

300 Students Crowd O'Hara in Celebration

"Do it again" read last week's Technology News headline, and "do it again" they did. ITT College Bowl team met its second opponent, the University of Denver, and defeated them once more by a score of 155 to 135, last Sunday.

At 10:40 the plane bringing the victorious team back to Chicago landed and the five team members disembarked to the cheering, sign-waving, and instrument-playing of 300 students and faculty members.

The jubilant crowd marched through O'Hare Field for an hour, singing such songs as ITT's Alma Mater, the Fight Song, "When the Saints Go Marching In," and "Mickey Mouse Club Theme Song."

Asked about the demonstration, Mike Rushing, ITSA treasurer, commented, "I'm assured that 200 Teckawks marched through O'Hare Field without doing any damage. I expected TWA to have to send me some apologies, but thankfully none were necessary."

Returning to their cars, the welcoming committee drove back to campus where they regrouped, added several more dormitory and fraternity residents to their numbers, and spent another ninety minutes driving around campus, setting off fireworks, and waving signs. Up to eighteen cars were in the parade at times.

Letters to the Editor

Students Attack Conservatism & Complain About Heating System

Dear Dave,

Mr. Gravender, who wrote the rebuttal to Mr. Kratz’s remarks about the War on Poverty, is to be commended when he is a liberal. For, too, we have it on good authority (that of Messrs. Gravender and McClosky) that Mr. Gravender is a broad, well-rounded, intelligent, self-respecting, purposeful, confident, informed, and even so many other wonderful things.

Therefore, Mr. Gravender has every right to attack Mr. Kratz on the grounds that Mr. Kratz is a mental and social monstrosity. We must all be broad-minded and recognize that to assault someone’s character and thereby discreditable views is only wrong when it is done by conservatives, who should all be locked up anyway.

I have only one question for Mr. Gravender. Who constitutes the exception right? According to a great liberal, Mr. Arthur Schlessinger, Jr., the extreme right is everyone from Kenneth Keating to the Minutemen. One is shocked to learn that so great a segment of our population is so chauvinistic and confused. However, this must be correct, because liberals like Mr. Schlesinger and Mr. McClosky have to be right, or else they would not be liberals, Gee-whiz, or something.

Finally, I must congratulate Mr. Gravender for his refraining from using innuendos, equivocations, and clichés, which are reserved for use by n-asieeTII

Apathy, Apathy, Who’s Got The Apathy ‘Around Here’

by David Spano

The only apathy on campus today will not be found among most of the members of the student body. To find it, you only have to look in the ranks of the administration and faculty and some of our “student leaders.” For the most part, these apathetic people are those who have talked most about the “campus apathy” on campus.

These same people can be heard to talk long and loud about the lack of “collegiate atmosphere” on campus; yet on Sunday evening when this campus took on the atmosphere of the sound of every campus, some of the residents of the campus apartments complained about the noise and the “lack of consideration for others.”

I was appalled when I heard comments from members of the faculty and administration stating that they felt “this whole College Bowl thing was being overdone.” One member of the administration who seems to have been out of touch with things for a while, I have since commented, “I did not understand why (Technology News) devoted so much space to such an unimportant thing as a victory.”

Public Relations seems to have taken the approach that “the team is doing a great job,” but “...I suppose that they would like to fill in the space after the ‘bowl’ with ‘it doesn’t beat public relations.’” What some of these people have overlooked is the fact that the team’s television appearance means, at least, three exposures to some twenty million people. And since it might be the first time that they heard anything about ITT. How many years would it take Public Relations to reach that many people? Is there a question of professional jealousy involved?

I hope not.

I have always been under the impression that every department, every member of the faculty or administration, and student activities were working to benefit ITT. It might seem that some members of the “innocent family” are more interested in themselves than in the work.

In a tense education is a business, and the reputation of a product is based upon its performance and quality. The people associated with ITT who are doing a better or at least being doing their best until something begins to come along are not doing part in the production of a quality product. It may be an “old school” idea, but I am under the opinion that an individual earns his loyalty to the man who pays his salary.

In short, what the hell do you want around here?
ITSA Recall Amendment To Be Put To A Referendum

"An important ITSA constitutional amendment concerning the recall procedure of the Board of Control will be put to a referendum at the same time as the class election. The amendment requires a two-thirds majority." Stunt, election commission chairman.

The amendment reads: "Any member of the ITSA Board of Control may be recalled by petition, signed by at least 20 percent of those qualified to vote for that member, after a vote on whether to recall the member. The Board of Control must then hold a referendum to determine that member's dismissal from the Board, and if that member does not receive a majority of affirmative votes at said election, then that member shall be recalled by petition signed by at least 20 percent of those qualified to vote for that member, and the member shall be recalled by petition signed by at least 20 percent of those qualified to vote for that member.

Coming Budget Boasts of Increased Faculty Salaries

Eleven million dollars is the amount authorized by the board of trustees of ITT for its 1964-65 academic budget. This record budget represents an increase of $1 million over last year's budget, and also, according to Lester Armon, chairman of the ITT Board, marks the second consecutive million dollar budget increase.

Since the academic year 1960-61 the budget has increased by 53.6 million, a 45 percent jump in a four-year period. During the same period, expenditures for faculty and supporting personnel and equipment have increased by 6 percent. Faculty salaries next year will jump 7 percent over this year.

"The increase in faculty salaries is due to the general growth of the institution. But this is only part of the story. The budget is designed to provide the best possible education for our students. The faculty is the backbone of our institution, and we are committed to providing them with the resources they need to do their job effectively." Armon.

PS Dept. Offers Course on Asian Politics in Fall

The department of political and social sciences is offering an area specialization course called "Health and Social Change in Asia." The course is taught by Dr. James Rajaratnam, a leading authority on Asian politics. The course meets on Wednesdays from 12:00 to 1:00 in the Hunt Memorial Building, Room 201. The course is open to all students, regardless of major, and no prior study of Asian politics is required. The course requires a term paper and an examination. There are no prerequisites.

Censorship to Be Topic of Playboy Mount

Anson Mount, managing editor of Playboy, will address students of PS 420 classes Wednesday at noon in the Student Union. Mount is the editor-in-chief of Playboy, the world's most successful men's magazine. He will discuss the magazine's role in society and the freedom of the press. The event is sponsored by the Publicity Club of St. Louis, and is open to all students. The event is free and open to the public.

Mount will speak in room 301-302, Hunt 3rd floor at 7:00 PM.
Hilberseimer is Awarded The Title of AIA Fellow

Ludwig Hilberseimer, professor of architecture and director of the City and Regional Planning Program at the University of Wisconsin-Madison, has been honored with a Fellowship in the College of Fellows of the American Institute of Architects. The award was announced today.

According to George Danforth, president of the Institute, this award is given to architects who have made significant contributions to the field of architecture.

'This award is a high honor,' Danforth said. 'It is given to architects who have made significant contributions to the field of architecture.'

The award will be presented at the Institute's annual meeting in New York City this month.

THE SAFE WAY to stay alert without harmful stimulants

NoDoz keeps you mentally alert with the same safe re-energizing formula used in coffee and tea. NoMore is faster, stronger, longer-lasting. Absolutely habit-forming.

THE ACTIVITIES

ABME

Dr. George Kalpakjian, former research engineer at the Cincinnati Milling Machine Company and now an associate professor in the Mechanical Engineering Department, will speak on the "Design and Manufacture of Mechanical Components," at a seminar on May 2 at 11 A.M.

International Club

Mr. Richard Michaud will give a talk about Indian cultures in Latin America, in the lounge of the Intercultural Center, at 3 p.m. and 4 p.m.

Graduate Council

The Graduate Council will sponsor an annual spring picnic at 11 A.M. on May 20, on the South Beach. Lunch entertainment will be provided until 11 A.M. Parking will be available from 11 A.M. to 5 p.m.

RECENTLY DISCOVERED TECH

Fight Song To Be Printed

The Illinois Tech Fight Song (printed below) is an original song which was written by William C. Luschei, Jr., B.E. 50. It was copyrighted in an unpublished song in 1949. Luschei wrote the song as the melody of an unpublished march, "Illinois Tech March" which Luschei was unable to publish because of the war.

The copyright and royalty rights were assigned by Luschei to the Alumni Association Building Fund of IIT.

During his student days at IIT, Luschei was president of many musical activities. He played the French horn in the band and sang in the glee club. He was also an officer of Phi Nu Epilson, musical honor society.

Currently an active member of the Alumni Association, Luschei has written several other instrumental and vocal compositions.

The score itself was discovered by H. E. Nuss, IIT musical director in the music files last fall. Nuss secured Luschei's permission to arrange the "Fight Song" for the IIT band to use at the termbight parade and basketball games coming up.

The song was discovered by the music files last fall.

Nuss secured Luschei's permission to arrange the "Fight Song" for the IIT band to use at the termbight parade and basketball games during the―coming season last Dec. 6.

Since then the concert band and the pep band have used the score on a number of games. Phi Nu Epilson plans to sponsor publication of the song in the future.

SENIOR CLASS PRESIDENT

Michael Rushing   Phys-6
Independent
GPA: 2.8
During my year and a half on the ITSA Board of Control, I feel that I have gained sufficient experience to enable me to carry out the duties of the Senior Class President.

As ITSA treasurer, I set up an accurate set of financial records and, for the first time in three years, ITSA ran on a balanced budget.

I feel that I am the best qualified candidate for this position. If elected, I will do my best to represent the Class of 1965.

Richard Testvich
EE-6
Pi Kappa Phi
GPA: 2.4
Next year’s Senior Class has suffered through three years of cramming, studying, taking tests, and being surprised by surprise quizzes. Only one year stands between us and graduation. My reasons for campaigning for Senior Class President cannot be put down in black or white, cannot be calculated, weighed, or questioned. That reason is desire, desire to serve.

Al Gorewos
CE-6
Alpha Sigma Phi
GPA: 2.53
Dear Fellow Students,

I would like to represent you as Senior Class President because I believe that as Senior Class President, I can be of service to you, my fellow classmates. As Junior Class President, I have sat on the Board of Control and have served you well. Evidence of this was the most successful Junior Class pizza party in recent years. Activites such as these tend to pull the class together in addition to providing everyone with a chance to have some fun.

Communication, as usual, is a big problem. If re-elected, each member of the class will receive correspondence of our activities.

As a member of the Board of Control, I will be functional because I have one year’s experience on the Board and have knowledge of its inner workings.

As to my desire to serve you as President, I can say that my most sincere and intense desire is to get our class moving.

With all the above in mind, I ask for your support on election day.

VICE-PRESIDENT

JUNIOR CLASS PRESIDENT
Margaret Sheridan   M-4
Alpha Sigma Phi
GPA: 2.94
Guess what? Tech has suddenly discovered school spirit. Now that we have found it, let’s keep it! My main goal if I am elected president of the Class of ’66 will be to spread the spirit.

College Bowl has brought all students together. An activity which will require the cooperation and enthusiasm of the entire Junior Class, but our successful bunny has shown that we can do it.

I like the junior to hold a party as a class to favor unity and class spirit, as well as another successful all-school outing.

As the voice of the Junior Class, I will endeavor to represent the best interests of my classmates and the entire student body.

Dave Smith   FPE-4
Phi Kappa Sigma   GPA: 2.44
I am presenting myself as a candidate for the office of president of the Junior Class.

Our class needs a president who feels a genuine interest in the welfare of our class. I have this interest.

In our two years at Tech we have never been serviced as our activities or organized as a class should be. Our activities have been conducted in such a way as to merely obligate obligations of the class officers to plan for these activities. There should be planned to benefit every member of our class and not simply to fulfill an obligation.

If you are not satisfied with the organization of our class, then it is up to you to do something about it. The simplest way of affecting such an organizational change is to elect me president of our class.

Pat Sassenaga
EE-4
Triad
GPA: 2.75
If precluded to the position of Junior Class President, I won’t have to waste time searching for worthwhile activities for the class. Why do I say waste time?

All new class presidents do just that because nearly all worthwhile activities are now handled by the ITSA social committee or the Union Board and a class has no function that is feasible and yet, not covered by either.

Serving as your Sophomore Class President, I have gained one year’s experience in this field. What have I found to be our best events? —happenings, folk festivals, and small activities in coordination with, or in support of Union Board and ITSA. These are my general proposals.

Communication, as usual, is a big problem. If re-elected, each member of the class will receive correspondence of our activities.

As a member of the Board of Control, I will be functional because I have one year’s experience on the Board and have knowledge of its inner workings.

As to my desire to serve you as President, I can say that my most sincere and intense desire is to get our class moving.

With all the above in mind, I ask for your support on election day.

Question Removal of Editor

by Tom Rakes

In my position as editor-in-chief of the Student News, I have a duty to ensure that the newspaper provides a balanced and accurate representation of the views of the students. I have received requests from some students to publish an article that was rejected by the previous editor on the topic of the removal of a member of the editorial board. I believe that it is important to allow for a variety of viewpoints and perspectives to be presented in the newspaper.

Let's say for a minute, this is you.

Once you wear the gold bars of a second lieutenant in the United States Air Force, what's in store for you? Well, you may fly an aircraft entrusted with a vital defense mission. Or you may lead a research team tackling problems on the frontier of knowledge. You'll be helping to build an organization that's essential to the safety of the free world. Sounds like you'll be called on to shoulder a good deal of responsibility, doesn't it? But when you come right down to it, that's what your college years have been preparing you for. You've got ability and a good education. Now's the time to put them to work.

You'll have every opportunity to prove your talents in the Air Force. By doing so, you can put yourself and your country ahead.

If you're not already enrolled in ROTC, you can earn your commission at Air Force Officer Training School—a three-month course that's open to both men and women college graduates. To apply, you must be within 210 days of graduation.
Ball Team Drops 2 Of Last 3

Tech Splits Doubleheader With Elmhurst Ball Squad

Last Saturday's doubleheader at Sonny's Acres was split by IIT and Elmhurst. The visitors took the first game by a 5-0 margin, while the Techawks rebounded in the second contest with a 3-2 victory.

Darrell Raczy was on the mound for Tech in the first game, on 1 hit in the 5th inning, then lead as Jay Burns, the leadoff man, singled, advanced on a wild pitch, and scored on a double by Haines. Joe Durkan then knocked Haines in with a single.

The score at the end of the regularly scheduled 7 innings was tied at 2-2, but Tech came out with the winning run in the first extra inning. Howie Moom found an error by the shortstop and scored on Bob Reen's double to deep right center field.

Phil Gowers insured Tech victory by retaining the side in the 8th inning.

IF Baseball Heads Toward Playoffs As Four Teams Contend for Crown

Interfraternity softball action continued last Sunday with five games being played. The Delta's earned a split for the day being edged by the Sigs in their first game, 16-15, as the Sigs squeezed across the winning run in the bottom of the seventh.

The Delta's then bounced back to down the Big Apple 13-12 putting four quick runs in the bottom of the ninth to take the extra-inning contest.

64-65 Basketball Schedule

IIT's baseball and basketball coach Ed Clancy has announced the 1964-65 basketball schedule. There are twelve games scheduled as Tech hopes to improve upon last year's 8-11 record. Tech will open Dec. 1 against Milwaukee Tech, an opponent they did not face last season.

Varsity Schedule

Varsity Baseball

     Date        Opponent               Place
     Dec. 1       Milwaukee Institute of Technology (Wisc.) Home
