FROSH HANDSHAKE ATTRACTION BIGGEST CROWD IN YEAR

Entertaining Program Features Speeches and Music

REFRESHMENTS SERVED

The freshmen and other new stu-
dents of the Institute were heartily
welcomed by the upper-classmen
last Wednesday evening at a Frosh
Handshake. The program held in
the Maloney auditorium, began at
7:30, and continued until 9:30.

The most significant part of the event
was the presentation of a few round
balls of the 1933 Frosh Class, which
is a well-known custom of the Insti-
tute. The balls were turned over to the
president of the Frosh Class, Mr. H. V.
Hart, by Dr. J. H. C. Eames, presi-
dent of the Institute.

SIXTH SENSORS TO CHEC:

A list of all frosh rated as senior students appears on the south
side of the main building. These men should be checked to see if they are in good standing.

IMPROVEMENTS IN BUSHES ON OUR CAMPUS

Last Friday the student body of the Frosh and upper classes attended the
services of the Frosh Class on the
main building. These men should be checked to see if they are all in good standing.

MOISTURE-PROOF CELLOPHANE
Sealed Tight—Ever Open!

The Unique HUMIDOR PACKAGE
Zip— and it’s open!

Examine the new naphtha tab on the top of the package. Hold down each nub with your thumb. Turn off the half, Simple. Quick. Zip! That’s all. Unique, unrolled, in dry-proof, semi-proof, proof. Cellophane. Clean, protected, neat, FRESH!— what could be more modern from LUCKY STIKE Improved Humidor packagings— to open? LADIES— the LUCKY tab is your flavor self-protection.

Lucky Strike

HUMIDOR

SHIPS FREE

Mile of the street—coffee
The Cream of many crops—LUCKY STIKE alone offers the threat protection of the exclusive "HUMIDOR" Package which prevents the use of modern Ultra Violet Rays— the process that causes certain harm, burns briards automatically protects your humidor tobacco leaf. These superior qualities are present in your LUCKY STIKE! "It’s toastee... it’s toastee!" LUCKY STIKE papers are always bright on your fingers.

It’s toasted!

Your threat protection—against irritation—against cough

And moisture-proof Cellophane of plates and "streamlined" cellophane keeps that "Toasted" flavor ever fresh.
Are they as good as the rumors came to the ankles?  

Good... you bet they are! Maybe the girls are even better. Anyhow, cigarettes are a whole lot better. No doubt about that.

They were used to be made by hand —
Now it’s machine-made, but at least the filters are in place.

They used to be made in expensive, high-quality cardboard boxes.

Now they’re sold in cheaper, more practical packages.

The U.S. Revenue Tax used to be a pesky package of twenty...

Now it’s one package of twenty.

Tobacco used to be treated by air —
Now it’s shipped by sea, and even by air, with a daily capacity of over 1,000,000 pounds — and over five million tons of tobacco for storage.

Better — they’re nifty better! Everything used in the manufacture of Chesterfield tobacco is of the highest quality, with the best of scientists, engineers, and chemists, to ensure the finest blend of leaves.

Chesterfield tobacco — both Turkish and Virginia — is the best, most expensive, and finest blend, with the best of scientists and engineers, to ensure the finest blend of leaves.

Chesterfield gives you the benefit of all the world knows about the production of better cigarettes. You smoke a better cigarette than Chesterfield.
