COMMITTEES FOR SENIOR ACTIVITIES NAMED THIS WEEK

Representatives From All Classes Chosen

Activities PLANNED

Graduates at Armour not only receive a college degree but also receive a year's worth of after college activities, as the members of each class are chosen for the various activities by the president of the senior class. This year the members for the class of '32 have been selected by W. H. Redfield, class president.

Announcement

J. B. Jackson, Jr., Chairman
G. O. Mellette, Secretary
J. B. Dickson
J. M. Redfield
H. C. Benson
E. A.Signal, Chairman
R. A. Childs
W. H. Bolesgard
W. H. Lambdlin
G. W. Scoble
E. W. Ewing
O. Brubaker, Chairman
O. C. Mehaffey
R. A. Peterson
R. W. Eldredge
R. Z. Wilkerson
H. C. Johns
Grace P. Cowan
E. J. Wilkins, Chairman
J. E. Redfern
B. A. Peterson
T. H. Voss
R. H. Chapin
R. Z. Wilkerson
E. B. Thomas

T. A. Mohr
C. A. Lush
R. Long
L. W. White
V. L. T. Biglin

Of the above, the senior jacket committee is the largest, and the meetings are held in the afternoon. The committee will be composed of students who are active in the various activities.

Glee Club to Elect Officers on Friday

In keeping with former years the Glee Club presents at this time every year a program of new officers in addition to a number of old favorites. Last week practice was held in the Glee Club home, the new name of the group having been adopted by D. W. Roberts, who to fulfill the requirements for the position of director. With a large number of new talent mining the halls of the College, the Glee Club is very promising. Provided the new members prove as enthusiastic as the present group, the Glee Club should be one of the most popular of the campus during the academic year.

In Which Civil and Dental Doctors Shake Hands

The old order changes and the new order comes to the fore. Many names are listed on the old roll of men who have graduated from Armour in their respective classes. This year there are a number of new names to be found on the list. The old order has met the new order.

Meeting of the faculty in the classroom, Professor M. D. S. Meetz was the guest speaker. Professor Meetz expressed the gladness of having such a fine group of students.

In the classroom meeting of the faculty in the classroom, Professor M. D. S. Meetz was the guest speaker. Professor Meetz expressed the gladness of having such a fine group of students.

H. Bodinson Chooses Social Committee

The men who will assist the social committee of the class of 32 to select the social groups for the impending examination are: W. H. Redfield, chairman; B. A. Peterson, secretary, and R. H. Chapin, treasurer. The committee will select the social groups for the incoming term.

Prize Essays

C. W. Farrier Addresses W. E. S.

At an open meeting of the Western Society of Engineers last Friday at 7:30 the regular meeting of the society was opened by President Farrier, who was introduced by President E. R. H. Boardman, who expressed a desire to have the society open to all students. The meeting was then adjourned.

Lynch Is Elected to Presidency of Sophomore Class

Lynch was elected to the presidency of the sophomore class by a vote of 2 to 1. The election was held in the common room of the junior class, and the vote was taken by secret ballot. The following were elected: President, R. J. Lynch; Vice-President, R. E. Smith; Secretary, R. M. Johnson; Treasurer, R. H. Chapin.

Eugenie Hats Find Favor on Campus

During the past few months, the majority of Eugenie hats have been met with a loud murmur of surprise. Many of the ladies in the college have been trying on Eugenie hats with varying results. Eugenie hats are usually characterized by a large brim, with the exception of the Eugenie hat, which is usually characterized by a small brim. The Eugenie hat is a small hat, with a large brim, and is usually characterized by a small brim and a large bow. It is usually characterized by a small brim and a large bow.

Professor Bruckhart, in his class, said, "Eugenie hats are very nice. They are not as high as the average hat, and they are very comfortable. They are usually characterized by a small brim and a large bow. They are usually characterized by a small brim and a large bow.

Prize Essays

Prize Essays on "The History of the Houses of Parliament" and "The History of the United Nations" were given by W. H. Redfield, chairman; B. A. Peterson, secretary, and R. H. Chapin, treasurer. The committee will select the prize essays for the incoming term.
"The Slipstick" 
Clue to "The Slipstick," let us see where it may be.

IMPOSSIBILITY OF HUMOR

The most successful men and women are those who are able to get along with others in such a way that they know how to obtain and keep good will. In fact, one of the biggest problems to be overcome is in the same human area, namely, making people like you and each other. It has been said that it's not the faults of people so much as it is their disposition to personal interaction that is the crux of the matter. This means that if you want to make good you must learn to be sociable and to be a good listener. It is a great advantage to be able to understand the emotions of others and to be able to express your own feelings in a way that is clear and easy to understand. In this way you will be able to get along with others and to make good will in your business career.

EXPERIENCE TELLS

"Are you the man who got married in a cage of shrimp?"

"Yes, I was."

"Didn't it seem ordinary?"

"It did then. It wasn't then."

"And ..."

TRUE

"The certain ring up for the first time of an act at a third mile speed."

"Are you sure?"

"We are sure!"

"What is it?"

"An old man."" He was tall and thin and his coat was long. He had a white beard and his eyes were blue. He spoke slowly and with great authority.

"We are sure!"

"I am sure of it."

"I am sure of it."

"I am sure of it."

"I am sure of it."

"I am sure of it."

"I am sure of it."

"I am sure of it."

NOT MUCH DANGER

Lady (to detector): "Would it be dangerous to put my feet on the rail?"

Detector: "No, not at all."

"At any rate, it is better to be safe than sorry."" She stepped on the rail and smiled.

Bagpiper Day Special

"Give me Lucky Strike Every Time..."

"What a thrill!"

"Yes, but you have to have a clue."

"Give me Lucky Strike every time.

"And put yourself on the back for your new Colombo wrapper with this hook which makes the package so easy to open."

"It's toasted!"

"Your Threat Protection against irritation against tooth decay and for that matter against your tooth."

"Made of the finest tobaccos—the Cream of all tobaccos."

"Lucky Strike, the safe brand."

"The only brand that is safe."

"Trust the brand that is safe."

"Lucky Strike."

"It's toasted!"

"Your Threat Protection against irritation against tooth decay and for that matter against your tooth."

Inquiring Reporter

What do you think of the idea of a football player being promoted to the major league, as the proper reward for Arrowhead Freshmen?

L. C. "Red" Loomis, 1934, "I think it would be a swell idea because it would make the players feel that their team is something special."

Richard Revere, C. E., "The idea is very good if only some method can be adopted that isn’t as complex. It would be an inconvenience that you could tell a person’s name by the ball they threw in a game." "

Schoolmarms, P. P., "Great! That is providing the freshmen pay for them and not the university. There should be more distinguishing marks between classes. It is not too hard to lose a football player to the freshman in on is done at the end of the season."

J. Shaw, M. L., "I think the idea is sensible. Answerer is not quite done for and for training and steering the sharp teeth of the football team."

Dennis Chudzick, Z. E., "But our freshman is a key player and the team is hurting a bit due to the suspension. We do need to beef up."

Carl Hoppert, "I think that the idea of having a football freshman is one of the most sensible ideas that Cal has heard of. If the freshmen come in at a higher level, they could possibly be lured away by other universities."

Vincenzo Cabot, Ch. E., "All freshmen should be required to take an additional course in Calculus to earn a punt." "

Roger Wehrle, M. L., "I think that the answer is yes."

B. Holman, M. L., "It is alright with me. Personally, I would prefer to see freshmen treated as individuals, not as a mass of new students trying to gain experience." "

College-trained engineers revisit the athletic field

More than a hundred football field engineers, who are being played and practiced in the evening hours, before larger audiences than ever before—with fewer injuries and in better conformity with coaching duties.

This constructive recreation in athletics is largely the work of college-trained engineers who are young men particularly familiar with the needs of college and school, and are particularly interested in the practical science of under-ground engineering—designing and installing football equipment for virtually every sport—football, baseball, hockey, tennis, and many more.

Other college men in the General Electric organization have specialized in street-lighting and floodlighting projects, or in the electrical equipment of industries and mines or in the intense power stations, some are designing and applying electronic equipment to propel ocean liners and locomotives. All are engaged in the research, production, or distribution of G.E. products and so are performing a work of national betterment and creating for themselves recognized spheres of personal influence.

The Art of Singing

It pays to look over the wall

The industry that succeeds today is the one that looks outside in ways a "back-yard" for ways to make itself more valuable. For years, Bells System men have been working out ideas to increase the use and usefulness of the telephone. For example, they are preparing plans for selling by telephone which helped an insurance man to increase his annual business from $1,000,000 to $5,500,000—a wholesale grocer to enlarge his volume 25% by enlisting in overhead—a soap salesman to sell $2,000,000 worth of goods in one afternoon at a selling cost of less than 1%.

The key to this widespread cooperation is one reason why the Bell System enjoys to important a place in American business.
ARMOUR TECH NEWS

SCHEDULE 11 GAMES

This week everyone has a little bit more to play because Armour is on Armory Floor. This is a great opportunity for the players to express themselves and show their skills.

TECH SHORTS

In the last game, the ArmourTech was able to win against the opposing team. The victory brought a boost of confidence and morale among the players. The ArmourTech's next challenge is a tough one against the powerful Opposing Team. The game is expected to be close, and both teams will bring their A-game to the court.

Swimmers Plan for Qualifying Round of Tournament

The Swimmers are preparing for the upcoming qualification round of the tournament. They have been training hard and are looking forward to showcasing their skills. The team is confident in their abilities and is eager to make a strong impression.

Boys Tennis

The Boys Tennis team is gearing up for their upcoming matches. They have been working hard on their技术和 strategic planning. The team is looking forward to a successful season and is ready to face any challenge that comes their way.

Gridiron Queries

The Gridiron team is preparing for their next game against the Opposing Team. The team is confident in their abilities and is looking forward to a strong performance. The coach is reminding the players to focus on their fundamentals and to play with determination.

Indoor Track Season Will Open Next Month

The Indoor Track season is right around the corner. The team is excited to compete against other schools and to showcase their skills. The Indoor Track season is a great opportunity for the athletes to improve and take their performance to the next level.

Tobacco is toxic to cigarettes when smoking it is food—"the spine," the motor—sweat, sweet cream is to coffee

XANTHI... CAVALLA... SMYRNA... SAMSON... famous tobaccos

The Tobacco season is in full swing. The students are enjoying the taste of the various tobaccos offered. The most popular ones are Xanthi, Cavalla, Smyrna, and Samson.
