JINXL STILL HOT ON TRAIL OF ONE MAYNARD VENEMA

Senior Chemical Tries Hand at Mural Depicting the Revolution

REACTION GOES AWAY

Maynard Venema has quit read- ing those bitter monotones of depth, so refined for him by the,Neuchatel band of the Musée des Beaux Arts. The recent issue of the Bulletin of the Musée des Beaux Arts has given him a new lease of life to sit and read, and to absorb the latest developments in the field of art.

While it is obvious to everyone that his reading material is read by an individual, a man who can read so much in one day, his close attention to the latest developments is a real asset to those who can read the Bulletin of the Musée des Beaux Arts. It is possible to read more in one day than the previous issue of the Bulletin of the Musée des Beaux Arts.

Standing by, however, may be a change in the field of art, painting, and sculpture. New developments are taking place in the field of art, and the reaction to these developments is going to be interesting.

"Three mighty good reasons."

"MILLER"—smoke as many as you like! That's what every Chesterfield smoker knows... and it's not hard to prove, either. Just try this blend of milder, Rye Pipe tobaccos.

"TASTE BETTER"—you'll like as many as you smoke! That's more smokers are learning every day. Not over-sweet, but just enough for constant enjoyment.

"SATEISFYING"—in every way! The tobacco, the package... everything about Chesterfield is the best that money can buy. And you'll have to answer science.

Good God...they've got to be good!

"...you've got to be good!"

"...you've got to be good!"
