IIT Open for Inspection By Parents This Sunday

Parents' Day at IIT will be Sunday, April 30, so an open house event. Nearly every aspect of the school and its functions will be open for inspection and questioning by parents.

Held annually, this event gives parents of current students or new students the opportunity to view the institute and all its facilities. Also attending, by special invitation, will be parents of students accepted for freshman admission next fall.

The program will begin at noon with registration conducted by members of the Parents Association in the HUB lobby. At 1:30 p.m., President John T. Rielly will address the visitors with a welcoming speech.

Various organizations will present special programs throughout the day, including a coffee hour in the Engineering Building, a tour of the student housing, a tour of the academic departments, and a tour of the athletic field. Each session will be scheduled from 2:00-4:00 p.m.

Entertainment will be provided throughout the day. A concert for children will be held in the Technion Chorus for the HUB auditorium. In addition to the annual Military Review of Air Force and Naval ROTC units, there will be a grandstand for dancing and a wildlife exhibit. The entertainment will continue in the evening with a concert for students at the student center.

Belletire Appointed Fall '67 EIC; Welte TN Business Mgr.

Belletire, who will succeed Jay Fox as Editor, is presently Associate Editor of the paper. He has been with the paper for three semesters, and has been on the Editorial Board for the past two years.

Belletire stated that he hopes to maintain the present staff members. To augment staff, Belletire added that he is in contact with other college organizations. The board sent a letter to the paper expressing its support.

Keller, Weiner Receive Fulbright

Two IIT students, Harry Stevens Keller and Peter Weiner, have been selected as Fulbright scholars which provide one year of study at a foreign university.

Keller and Weiner are both students in the Institute of Design. They both plan to continue their education in Europe.

Keller will matriculate at the Technische Hochschule in Darmstadt, Germany. He plans to study graphic design and photography.

Weiner will matriculate for German on July 22 and will spend two months in the Goethe Institute in Frankfurt. He hopes to work in the design field while overseas and to extend his stay.

The Fulbright awards are funded by a national government grant under the auspices of the Department of State. They provide stipends for tuition and monthly living allowance, school supplies, travel expenses, and allowances for dependents.

Spring Spectacular Tomorrow, Various Entertainment Available

This year's Spring Spectacular will be held tomorrow night, April 29. The event will take place throughout the HUB from 8 p.m. until midnight.

The show will feature a variety of performances, including music, dance, and dramatic presentations. The event will be sponsored by APO.

As in the past, the show will be an "Outstanding Man on Campus" competition. This year's competition will be sponsored by APO.

The show in this context can be seen as an opportunity to bring people together and foster a sense of community. It will also provide a platform for showcasing talent and artistry.

Faculty-Student Relations Discussed As Weiner Appears Before ITS

Weiner appeared before the faculty-student relations committee. The meeting was held in the president's office, where the students' representatives discussed various issues.

Weiner appeared before the faculty-student relations committee. The meeting was held in the president's office, where the students' representatives discussed various issues.
Teaching Award Needed Asset; Urge Nominations by Students

As was announced in last week’s issue of Technology News, for the second year, an IIT faculty member is going to receive an “Excellence in Teaching Award.”

We feel that the installation and continuation of this award is both desirable and necessary.

In our minds, the only drawback to the award is that it can only be won by one instructor each year.

There are many fine instructors at IIT, although we may students all too often fail to recognize this. Good instructors deserve recognition for the work they do, recognition not just from colleagues, but from the students and from the institution they serve.

In our reference to “fine” instructors, we are not speaking of the quality of instructors on a purely academic basis, but from an overall approach. What makes a good instructor is not solely determined by knowledge of his subject, but also by how he conveys that knowledge to students. The notion of a good instructor extends beyond the classroom, and into the area of interest in the student through face to face, informal relationships.

With this in mind, the Editorial Board would like to make two comments. First, we urge all students, either individually or by organizations, to submit applications recommending the instructor they believe best qualified for the teaching award to the office of the academic vice president, by next Monday.

Secondly, since only one award-winner will be chosen this year, we would like to commend those instructors deserving of the award who will not receive formal recognition for their efforts in helping to provide IIT students with a high quality of education.

Senate Tax Credit Amendment Would Benefit Tech Students

The United States Senate recently approved a plan to provide a federal income tax deduction credit of up to $325 for tuition, books, and fees paid by students in college.

However, final enactment of the plan will probably depend upon the decisions made by a Senate-House of Representatives conference committee, and the amendment has little chance of getting out of this committee unless students and their parents show an interest in having it passed.

The benefits of the plan would be felt by most families who have an income of less than $10,000 a year, but would be advantageous to those in higher brackets as well.

This tax credit would be available to any person at Tech, who pays his or her own tuition. It would be available to working students, as well as parents who must cover the expense of tuition. Parents with more than one child in college may get a separate credit for each.

Thus, this plan will benefit almost everyone on the IIT campus. But it may fail to be enacted, unless it is taken out of the present committee.

To get the tuition tax credit amendment out of committee, Congressman Wilbur D. Mills of Arkansas, chairman of the Ways and Means Committee, must be persuaded to act on the amendment.

We feel that it would be to the advantage of each IIT student if he were to write Congressman Mills or his own representative and urge the passage of this plan.

ANNOUNCEMENTS

Spring Music Festival

Pi Nu Epsilon and Music Aficionado Concerts will present a free concert of popular music tonight, at 8 p.m. in the HUB auditorium. The concert will feature the IIT Chamber Choir, the IIT Band, the Technion, the "Vanguard" from VanderCook College of Music, and the "Men from the ICO."

ITSA Meeting

The regular meeting of the ITSA Board of Control will be Wednesday at 8 p.m. in the HUB. Room assignment for the meeting, which is open to all Tech students and faculty, will be posted in the HUB.

FREE

The Institute of Electrical and Electronics Engineers will hold an open meeting Tuesday, May 2, from 12:30 to 1:30 p.m. in rooms 301-302 of the HUB. Mr. J. Petrakis, field engineer from Hewlett Packard, will give a demonstration of Digital Readout Meters.

Spring Lecture

A lecture on “Problems Suggested by the Study of Finite Projectile Planes” will be given by Prof. Reuben A. Saidman, from the U of I Circle Campus, on Saturday, April 29, at 9:30 a.m. in the Siegel Hall auditorium.

Spring Lectures Series

Dr. Lee C. Tong will present a lecture on “High Energy Physics and Accelerators,” as a part of the Spring Lectures Series, on Monday, May 1, at 4 p.m. in the HUB auditorium.

LETTER POLICY

Letters to the editor on articles previously appearing in TECHNOLOGY NEWS are welcomed. Such letters must be typed (double spaced), signed, and written in good taste. Anonymous letters will not be printed, but the writer’s name will be withheld upon request.

Letters should be limited to two hundred words. All letters will be printed, space permitting, but TECHNOLOGY NEWS reserves the right to edit any letter. All letters become the property of the newspaper and none will be returned.

Aid Applications

All applications for financial aid for the fall 1967 semester are due in the Dean of Students Office by next Monday.

SDS Lecture

Robert Schuman, the former editor of "Ramparts," will speak on the "C.I.A. and N.A.S. and US’s Foreign Policy" in the HUB ballroom on May 11 at 4.30 p.m.

A meeting will be held Thursday night at 8 p.m. in the HUB to plan the activities calendar for the 67-68 school year. All groups planning to sponsor activities should be represented, with the nature and date of the event prepared.

Dear Sir,

The department has some hard decisions to make on the budget for this quarter. Two of his department’s major needs are a new piece of equipment and a new office. The cost of these items is difficult to determine, but it is clear that the department should have some idea of the amount it can invest in each of the plans. Once the budget is approved, the department will be able to plan accordingly.

Dr. L. E. Mathews, biological sciences

Dear Sir,

It seems to me that the biology department has no idea of the amount it can invest in each of the plans. It would be helpful if the department could provide a budget for each of the plans.

Dr. K. W. Johnson, biology

Dear Sir,

I am writing to request that the biology department provide a budget for each of the plans. It seems to me that the biology department has no idea of the amount it can invest in each of the plans. It would be helpful if the department could provide a budget for each of the plans.

Dr. W. H. Smith, biology
King Editorial, Tech Dances, PR Dept. Ellicit Reader Comment

Dear EIC:
The chairman of one of our departments is retiring. It happens that his retirement coincides with the opening of new quarters for what was formerly his department. The building is beautiful, the new equipment excellent, and the staff wonderfully qualified, as we have been told twice this spring by "ITW Reports." What was said was true but it is regrettable that the name of the man responsible for the planning and the bringing to fruition of the plans is nowhere mentioned in the articles.

Of course we write of Professor Leslie R. Hidrick and the biology department. Like Moses, he may not enter the "promised land," but after 28 years of service he certainly deserves better of the "flacks" in the Public Relations Department than to be ignored.

Thank you professor and Godspeed.

Robert Brett
Department of Environmental Engineering

Dear EIC:
I have often thought how nice it would be if my place of employment would sponsor an "Open Forum," at which all employees and their superiors (including the "big-wigs") could and would speak freely concerning civil rights, the Vietnam War, and other timely (distressing) topics.

Such a forum would certainly be apropos in an academic setting.

The article in the April 14 "Technology News" about Dr. King and the marches heightened my feelings about such a forum.

Whoever penned that article not only showed his immaturity and "matronizing" brand of journalism, but he must also have traveled to some far-off place where no form of news media last summer if he knows nothing of Chicago's version of "fun and games in we don't want you land."

In the April 17 copy of the "Sun-Times," John Dreske made mention of the fact that many legislators thought that fair employment was impossible to regulate. However, now that we have had the bill for several years, some of them are saying that it is "fair" to pass this bill should never have been necessary. Maybe you can't legislate people's hearts, but if you threaten their pocketbooks it suddenly becomes an other matter (as here, Wesson 13). And while I don't necessarily want you to love me, I also don't want you to throw bricks or bombs through my window if I can afford a house in your neighborhood.

Such a forum would be (should be) for the staff members and faculty of IT and not necessarily for the students. Students sound off every chance they get, and they've been getting a lot of chances lately. Besides which they are notorious for championing causes of others, sort of, only to change their opinions (or ideals) as adults.

How about if fellow employees? Should there be a "Moment of Truth" meeting?

Martha Minor
Registrar's Office

Dear EIC:
We have attended various and sundry IIT mixers and have come to the sad conclusion that not very much mixing goes on. It is true you have a beautiful union building equipped with bowling alleys, snack shops, and ballroom; you don't invite all the girls' schools in the Chicago-land area but also provide transportation to and from the dances, and you usually have a good band. But there is something WRONG! Most of your boys stand around and look all night long, leaving the girls sitting around on the side; a situation not conducive to mixing. The purpose behind a mixer is to meet people, and it is usually up to the boy to make the first move. Unfortunately, your boys don't move too well. We don't know if your problem is not knowing how to dance, bringing shy, or simply not knowing what to say. For this reason we are going to offer a few suggestions to "alleviate the suffering" of everyone concerned.

1. Even if you're not the best dancer — ask anyway. The girl probably isn't either. If a girl refuses, it could very likely be because she doesn't know how herself.

2. For the non-dancer — make use of your other union facilities like bowling, pool, the Bog, etc. Also, surprisingly enough, most girls can carry on a fairly intelligent conversation and might prefer that kind of dancing.

3. For the shy boy who's at a loss for words — a few openers to break the ice is probably all you need. Try these:

"Introduce yourself and say..."
"I'm really not into the mood for dancing, but would you like to have a Coke?"
"I don't dance, but would you like to talk awhile?"
"Try something humorous like, "You're new around here, aren't you?"
"Talk about yourself — you're the reason she came.

4. Seriously try to: Find the next mixer and if you're not getting the best results, then perfect your technique and try again.

Good luck

Petition Deadline at 5 pm
For Elections May 9, 10

Election of Man and Woman of the Year, class officers, and ITWA officers will be held on May 9-10.

Graduates for Man and Woman of the Year must be seniors. They are chosen by a point system comprised by the ITWA Elections Commission. Points are awarded for positions these candidates have held in various student organizations.

The points are weighted on the basis of the importance of the office in the structure of the student organization.

Class officers are also included in this election. Officers to be filled are president, vice president, secretary, treasurer, and social chairman of the sophomore, junior, and senior classes.

ITWA president and sophomore, junior, and senior representatives will be elected.

Students interested in running for these offices or for the Man and Woman of the Year can call Elections Commission Chairman Ray Murray at Ext. 450.

Petitions for Man and Woman of the Year, ITWA and class officers are due in the Dean of Student Office today at 5 pm.

ITWA and class president candidates should submit their pictures and speeches at the Technology News office by Monday, May 1.

Pre-Registration
For Fall Courses
Will End May 5

Pre-registration for the 1967 full semester will continue through May 5 for all day undergraduate students. Instructions and relevant forms may be obtained by students in their major departments.

An attempt will be made this semester to process pre-registration information by computer. Upon contacting his advisor, each student will receive a scanning sheet with other registration material. This sheet will be marked by the student to identify himself and the courses he plans to take next semester.

The program is aimed at giving an accurate list of those who do and do not pre-register and providing a summary of course enrollments as well as individual programs.

F. R. Eckford, Registrar, points out that "The marking should be familiar to students since the method is used in the examinations. ITW students are also more familiar with each other than most students, so good results are expected."
New Chamber Symphony Slated Next UB Concert

The Chamber Symphony of Philadelphia will present a concert in the HUB auditorium Friday, May 5. The concert, sponsored by the ITSA Union Board, will begin at 8:30 p.m.

The 1966-67 season is the Chamber Symphony's inaugural season.

The group, made up of 36 musicians capable of playing on a virtually unlimited repertoire, has a large selection of music written expressly for a symphony the size of the Chamber Symphony. This selection ranges from baroque to contemporary.

The Chamber Symphony has been described by the "New York Times" as the "pick of American instrumentalists." James Flaxton of the "Philadelphia Bulletin" hailed them as the "musical soul of the town."

The conductor of the Chamber Symphony is Amos Bravouil. For "New York Times," Flaxton said he is "the spirit behind the group that "man for man is probably as good as any corresponding organization in the world."

The program will include guest artists along with solo performances by the ensemble's own principals.

Tickets for the concert priced at $1 are available at the HUB newsstand.

"Robin Dean" Mixer Proceeds To Aid Cook County Hospital

The "American Breed," the "Presidents," and the "Female" along with WCFI disc jockey Jerry G. Bishop will appear at the IDC benefit mixer on May 6. "To Robin Dean... With Love."

The "American Breed," formerly of the "Klondike" and "Northwest," have appeared in the past at the Teenage World's Fair, Peter and Gordon Summer of Stars Concert, and record hops throughout the area. They have also appeared at other campuses in the area: Wisconsin, Indiana, Lake Forest, Purdue, and Notre Dame.

The "Presidents" have appeared at Lake Forest College, Notre Dame, the Happy Medium, and the Sunny and Cher Show at the State and Lake Theater.

Tommy, lead singer and lead guitarist, Frank, lead singer, rhythm, and organ, George, bass, and Bob, drums, make up the four members of the "Presidents."

The purpose of the mixer is to raise funds to help equip an intensive care unit at Cook County Hospital in memory of Robin Dean. Robin Dean died there of severe burns suffered in an accident at her home.

NY Pro Musica Displays "Outstanding Musicianship"

by J. John Fox

The joy of the past was brought to IIT last Friday night by the New York Pro Musica in what I consider to be one of the best concerts of the season. Observing the audience, it was apparent that many of the season's ticketholders did not share my feelings.

The ensemble drew its material from the French composer of the thirteenth and fourteenth centuries, and the second half of the program featured the material of Guillaume de Machaut, a composer of great talent and genius.

The New York Pro Musica is probably the most perfect ensemble in the country in the presentation of the music of this period. They convinced me that music of such an incomparable nature can be delivered in a highly attractive manner.

They have established tradition in the scholarly presentation of the heritage of the medieval, baroque, and renaissance periods. In reference to this tradition, Robert C. Marsh of the "Chicago Sun Times" stated,"The essence of that tradition is the union of high artistic imagination and sensitivity with scholarship. Music is a creative art, and to make the performance of the recording itself a thing which can be enjoyed will illuminate the documentary remains of the era."

Their musicianship was outstanding as they ranged from the deep moving mass to the most complex music of Elizabethan times, of "Sackbut a la Minstrel."

The choir was one of the finest selections, and I feel that this was one of the best examples of the entire group's technical performances at this challenging undertaking I have observed the impressive gesture of the choir. "When done with...

The solo performances in the second half of the program were all of the first quality, while again serve as tribute to the remarkable nature of the New York Pro Musica."

Mr. Marsh concludes his review by stating, "The New York Pro Musica deserves regular Chicago hearings, and it is as a tradition to find that one of the local educational institutions recognize its worth. In bringing a program of this type, IIT is not only serving its own student body and faculty, but in adding a necessary element to the musical life of the city as a whole."

NSC Electric Rechargeable HiFi Speaker System

The Rechargeable HiFi Speaker System by NSC Electric, featuring 40 Watts of output power, is available in a compact design. The NSC Electric Rechargeable HiFi Speaker System is ideal for home and office use.

Hey, fellows, it's the new Tripletach 533T. A large, Norcoche Rechargeable HiFi Speaker System with nearly 4000, more powerful than ever before. The Norcoche Tripletach 533T, which shows a passive subwoofer as the speaker, is a wireless system with a Norcoche battery backup and microphone heads and rotary knobs. It gives you a smooth, clean sound and is easy to adjust.

The "Pro Musica as they appeared last Friday at IIT."

On campus, or in all the world, there is no jazz like the wide world of jazz on Impulse Records!
Present McKinley Dance Check

Representatives of ITSA and the junior class of IIT, as a luncheon held last week, presented the Ada S. McKinley Community Services organization with a check for $1650.

The check, presented by ITSA President Al Ver and junior class President Mike Bellsie to Ralph Burlington, director of McKinley House, represented the money collected in the recent IIT McKinley benefit mixer.

Money for McKinley House is to be used for the building of a playground for the retarded children serviced by the organization. Also in attendance at the luncheon, which was held in the HUB, were members of the McKinley House staff and board of directors. IIT Vice President and Treasurer Raymond Spreth, Academic Vice President Dr. James Brophy, Dean Hogan, Dean Barnett, Mrs. William Harvey (wife of the second ward alderman), and members of the dance committee.

Speaking on behalf of McKinley House, Director Burlington thanked the students of IIT for their efforts and generous donation to the McKinley organization and their interest in community welfare.

Administrative officials of IIT expressed the hope that further good relations between IIT students and Ada S. McKinley could be fostered.

McKinley House is located at Forty-Fourth Street and Michigan avenue, and the playground is being built adjacent to the east side of the building.

Lecture Series Presents Morgenthau Talk May 3

As part of the Union Board lecture program, Hans J. Morgenthau will present the fifth lecture of the series on Wednesday, May 3, in the HUB at 3 p.m.

Dr. Morgenthau has chosen "Politics Among Nations" as his topic for discussion. He is currently at the University of Chicago in the professorial capacity in the department of political science.

The guest lecturer not only has a vast knowledge of international history, politics, and law, as billed by the Adult Education Council, but has first-hand experience because of his internationally spaced life.

Born in Germany in 1904, he studied law and political science in Berlin, Frankfurt, Munich, and at the Graduate Institute for International Studies, Geneva. He received his doctorate (summa cum laude) from the University of Frankfurt, established a private law practice, and was acting president of the Labor Law Court in Frankfurt.

Teaching in Geneva prior to World War II, Morgenthau had personal contact with diplomats, scholars, and journalists representing many nations. His political activity in Geneva, the League of Nations and the Disarmament Conference, intensified his scope of international relations.

For several years in the mid-1930's the lecturer was professor of international law at Madrid. Following this, Morgenthau lectured at the Law School of the University of Granada.

In the United States he has played an active academic role at many universities. Among these are University of California at Berkeley, Harvard, Yale, Columbia, and Princeton. He was appointed Albert A. Michelson Distinguished Service Professor at the University of Chicago in 1950, where he also serves as director of the Center for the Study of American Foreign Policy.

Professor Morgenthau’s experiences include service on the Executive Council of the American Society for International Law, a member of the NATO Defense College, State Department consultant, and presidential advisor.

Among the professional organizations to which he belongs are the American Academy of Arts and Sciences, American Political Science Association, and the American Society of International Law.

Dr. Morgenthau's numerous written works include "Principles and Problems of International Politics" and the "Purpose of American Politics.

This will be the last lecture of the current 1966-67 season to be sponsored by the Union Board Lecture Committee.

Delts Top All As Greeks End Week of Competition

by Glen Davison

Plenty of exciting events wrapped up Greek Week of 1967 as Delta Tau Delta maintained their early lead and captured first place with 105 points. An exciting second place race continued through the entire week among Theta Xi Triangle, Phi Kappa Sigma. However, the final event gave Theta Xi second place with 90 1/2 points, while Triangle and the Phi Kaps finished third and fourth with 97 and 89 1/2 points respectively.

The remaining places were filled accordingly: fourth, Alpha Epsilon Pi with 62 points, sixth, Alpha Sigma Phi with 57 1/2 points, seventh, Sigma Phi Epsilon with 55 points, eighth, Phi Kappa Phi with 52 points, ninth, Kappa Phi Delta with 42 points, and tenth, Tau Epsilon Phi with 32 points.

Perhaps the most important event of the week was the American Cancer Society drive which netted a new record total of over $1000.

The Cancer Drive took place Wednesday evening, following a brief "paj rally" in the HUB. The defending titlists, the Phi Kaps, lost by a recording Thursday as they captured two firsts and a third. Their bicycle teams won handsomely over the Delts and Pi Kaps which took second and third respectively.

The former Washbash area, now a free lane, was the drag strip for the high-powered push cars. Triangle gave an extra push on the third trial to record the lowest elapsed time.

The Delts and Phi Kaps finished second and third respectively in the derby around the quad. Triangle and Alpha Epsilon Pi finished second and third respectively, according to elapsed times.

The cold weather and raging storms on Friday caused the postponement of the eight-man race and the pajama relay to the following day.

Meanwhile the drawing of the items for the washerman hunt took place at 6 pm Friday evening.

A list of thirty of the most weird and bizarre items challenged each house for more than twenty hours.

Among the items that had to be collected were an eleven-hole golf course flag, a WW II bomb casing, a picture of Albert Einstein suitable for framing, Viet Nam currency, five steel pins, a pair of overshoes, a lamp, a hickory, a pipe, a pomegranate, a dollar bill with five consecutive ones in the serial number, and the real killer was a pack of Police cigarettes.

Everyone gathered at the Delta house Saturday afternoon to proudly display their collections. The Phi Kaps surprised everyone by collecting twenty-nine of the thirty items. Theta Xi displayed twenty-seven items.

The combined cold weather postponed the final two events to Monday afternoon. The spectacular eight-man race was something less of a spectacle to the Delts and Sig Eps who chilled while running around.

This unfortunate circumstance perhaps cost the Delta's a first-place finish because they were leading the race at that time. The Phi Kaps took advantage of the situation and raced to the finish line to win.

In retrospect, Greek Week of 1967 once again embodied the spirit of competition while promoting the feeling of interfraternity. All the contests proved that the Greeks of IIT are endowed with mutual feelings toward the betterment of themselves.

Congratulations to the Delts for their fine showing and congratulations to Phi Kappa Delta who managed to yield last place despite the fact that they did not participate in all the events.

Financial Aid Available

The Illinois State Scholarship Commission has recently adopted a new Illinois University Awards Program to be begun in the 1967-68 school year.

According to Joseph D. Boyd, executive director of the ISSC, the awards, which will take the form of grants-in-aid ranging up to $1000 per year, will be given to students of demonstrable financial need.

Primary restriction of eligibility for the program is that all students presently enrolled in the ISSC competitive scholarship program (an Illinois State Scholarship holder) is not eligible for the Upperclass Awards Program.

Additionally, according to Dean Robert Holmes, IIT's financial aid director, each applicant must:

1) be in good academic standing (not on probation) as of the beginning of the 1967-68 school year.
2) be a citizen of the United States at the time application is made.
3) be a resident of the State of Illinois at the time application is made (have one parent or legal guardian a resident of Illinois).
4) have enrolled for no less than one year for the summer semester of college undergraduate work prior to the fall term of 1967.

Dean Holmes, in urging students to apply for the UA program, stated that "students wishing to apply for the program should complete an IIT aid application and a Parent's Confidential Statement—both of which are available in the dean of financial aid office. "These forms should be completed before May 15 in order to secure consideration."

Bowlings Win Finale, Hi-Game, Series Shot

The ITT bowling team closed out its season last Sunday with a victory over league leader Loyola. The match, played on the HUB lanes, saw the Techhawks take three out of five games, and win in points, 210 to 184. On the way to victory, the Techhawks shot their high single game total, 995 and high team series, 4682 for the season.

The team pulled together for the first time since the beginning of the season, as each game total was above their season's average of 877. Only one game total was below 900.

Despite this victory, the team remained in sixth place in the league standings.

Captain Jim Karlin gave clutch performances in both the fourth and fifth games to take victories for the Techhawks.

Delts Take IF Championship; Finish Play With 5-0 Record

by Gene Binder

Delts Tru Delta, behind the shooting and rebounding of Ed Cooke and Rudy Bresley, rolled over Alpha Sigma Phi to win the IF basketball championship. The championship tilt marked a replay match of the Delts and Sig game in the AIB Tournament last March and Cooke began to pull away and left the final result decisive.

The championship game, however, failed to produce the highlight of the IF finals. In a semi-final contest, the Delts defeated Phi Kappa Sigma, 68-64, in a game that saw the lead saw over a dozen times.

The Skulls behind the scoring of Bob Kech and Edens Dassin, lead by eight points one time. They fell in the final few minutes of the contest, missing three successive lay-ups.

The game, which was marked by rough-defense, play by both teams. was poorly refereed, as both squads committed obvious yet uncalled personal fouls.

As in the final game, it was the steady play of Cooke and Bresley which brought victory to the Delts. The three years experience of four of the DTD starters paid off, as they

Baseball Team Loses Two, Season's Record Now 3-3

by Jay Burns

The Techhawks' varsity baseball team was slowed down to 500 in recent play, dropping their last two out of five games against Loyola, Chicago Circle.

An unfortunate strength in the hitting department of Lewis caused the Flyers to squeak by in a narrow 7-4 margin.

The Techhawks were hampered by clutch those mistakes (five) which accounted for three unearned runs. Without the help of those three unearned runs, the Techhawks might have dealt a tremendous blow to the Loyola Specialists.

Jim Wetterbott brought in three of Tech's runs with a line shot driven deep to left-center with one out and the bases loaded. On a Lewis boot, Wetterbott moved third and scored on an infield hit by Dennis Tilden.

The team returned to action last Tuesday against the Circle Campus. In a slugfest that precipitated the third ITT loss of the season, again only four runs crossed the plate for the scarlet and gray while U of LCC knocked off in 6.

Skipper Rickagain, in turn, hurt the Southside sluggers, as two misjudged flyballs and a wild pitch accounted directly for three runs. But not as important as this factor was the stroke of bad luck which hit Tech star Tom Williams. With one on and no outs in the 7th, and losing 5-3, he tagged a ball that was barely nabbed by the centerfielder out at the 387 foot mark. Had there been any of the normal Chicago windy weather, the game would have been tied. Even more disheartening for Tom lined a brilliant drive down the left field line and it took the umpire five minutes to convince him that the ball had been caught.

Rick Klein singled one over the right fieldwall in the ninth for Tech's first home-run of the season. Rick also tapped a sharp drive down the third base line in the first.
