Final Wage Offer Presented To Union
27 Added to IIT Faculty; Listing Includes 11 Pros

Twenty-seven new faculty appointments at Illinois Institute of Technology, effective with the beginning of the fall semester, have been announced by Dr. James B. Bronly, academic vice-president. This brings IIT's full-time faculty to approximately three-hundred.

Holding the new faculty list are two full professors. Dr. Elmer H. Agano is named professor of library science. Simultaneously, he was appointed assistant librarian for student services at the John Crerar Library. Dr. Gleeson had been associate professor of library science at Illinois Teachers College.

The other professor is Dr. Mark V. Markovin in the department of mechanical and aerospace engineering. Professor Markovin had been with the Martin Company in Baltimore, Md., where he was engaged in aerodynamics and fluid mechanics research since 1958.

Dr. Fritz C. Hertle, who is on leave from EURATOM, western Europe's counterpart to the US Atomic Energy Commission, has been appointed visiting assistant professor of physics. Hertle, who has been working in France near Rome, Italy, is a former faculty member of the Federal Polytechnic Institute in Zurich, Switzerland.

Other professional appointments are:

Edward Reinfrank, visiting associate professor of biology; Dr. Irving Millikan, visiting assistant professor of physiology; Dr. Joseph C. Ed. A. Pinto, assistant professor of biology; Peter P. Beltenbach, assistant professor of civil and regional planning; Lawrence M. Davis, assistant professor of English and linguistics; James R. Ford, assistant professor of English; Dr. Robert F. Frick, assistant professor of English; Dr. Judith V. Torney, assistant professor of psychology.

Two lecturers and fourteen instructors complete the new IIT faculty appointments.

Some of the employees affected by negotiations

The present contract between the union and IIT expired at midnight tonight.

Negotiations between union representatives and IIT management have been undertaken for the past few weeks, with both sides failing to come to an agreement on terms. Monday of this week the Institute made its final contract offer. A meeting of all employees represented by the union was held last night in Siegel Hall, at which time a vote was taken to either reject or accept the offer made by the Institute.

A rejection of the offer on the part of the union members, according to IIT Vice President and Treasurer R. J. Swartz, and local 321 business representative Michael Boede, would either lead to further negotiations, extending past the contract expiration time, or the calling of a strike vote by the union membership.

Swartz has said that he considers the contract offer "fair and equitable," adding that the final offer was the result of "fair negotiating sessions." He further stated that the bargaining sessions went "quite smoothly, noting that "hard bargaining" was also necessary, and that both management and the union were "aware of the needs and position of each other party in the negotiations.

Union business representative Boede also agreed that negotiations went well, noting that for the first time at IIT, employees, not just union officials, were made aware of union negotiations.

Negotiators for the union had bargaining power, but could not accept any proposal as final without full majority ratification by the voting membership of the union.

Several members of the union bargaining panel, according to Boede, were employees selected by their fellow employees to represent the members of the 42 different personnel classifications of the union at IIT and the research laboratories.

Boede will negotiate the talks. (Continued on page 7)

347 Freshmen Cast First Ballots; Electing Board Members, ITWA Rep

Official returns of the first elections for the Class of 1971 are in. Five members of the Fresh Board and the freshman representative to the Illinois Tech Women's Association were chosen in voting held during Tuesday's free hour.

The five winning candidates for the Fresh Board are: Celia Harris, the leading vote-getter with 241; Bob Rice, 222 votes; Michael Corrigan, with 213; Roger Johnson, 190 votes; and Sue Conley, with 175 votes.

In the race for a freshman ITWA representative, Karen L. Soto was elected over Joanna Getzinger.

The turnout for the election was quite small. Only 347 members of the Class of 1971 cast ballots, a turnout of only about 50 per cent.

ITWA Election Commission Chairman Ray Murray commented on the small turnout, "I was disappointed. Perhaps the freshmen were assurance that elections were to take place during the follow-up meeting with their counselors.

Members of the Fresh Board will govern the Class of 1971 until elections are held for all classes in December.

Until that time, the chairman of the board, to be chosen by the members, will serve as the freshman representative to the ITWA Board of Control. The chairman will have full speaking rights before the ITWA Board, but he will not be able to vote.

The results of this election thus clearly indicate a victory for the dissident side of the class of 1971. Though only 5 per cent of the freshmen are women, both male candidates were elected, giving the girls a 25 per cent representation on the Fresh Board.

ITSA: Is Homecoming in Jeopardy? Possible $10,000 Loss Without Gym

The ITSA Board of Control was told Wednesday evening that the chances of the gym being completed in time for Homecoming are in serious jeopardy. Institute Vice-President Raymond J. Specht refused to commit himself to a completion date, though he continues to be optimistic about the progress of construction as scheduled.

However, Technology News Editor-in-Chief Mike Belleson was told by the foreman on the construction site that Dec. 1 would be an unrealistically optimistic completion date.

ITSA Social Chairman Sue Bader explained to Technology News that the Simon and Schuster and Glenn Miller contracts represent a $10,000 commitment which stands to be forfeited if the gym is not ready for the event.

Bader said that the financial success of Homecoming depends on the sale of at least $5,000 tickets for the Homecoming ball. The seriousness of the matter was evident in his statement. Without the gym, we are lost.

See Page 3
Public Allows Sensationalism Of Mass Media to Govern Thought

The mass media have greatly simplified the life of the average American. Newspaper reporters and radio and television writers and announcers have the knack of clarifying and developing thought for the general populous. Case in point—anyone who has long hair, takes or talks about drugs, or has radical political or economic ideas is a "hippy." Much to the delight of all those classified as "hippies," one is hard pressed to turn to a magazine, newspaper, or TV or radio broadcast where "hippies" or allied topics such as LSD, pot, or free love, are not somehow involved in the conversational text. But sex has long been a topic of exploration for the press, and more recently for the television medium. And who knows how much college students have "learned" from the mass media that they are college students and hence must be draft dodgers. Often included in this "education" are lessons on how to be a draft dodger.

To a degree of course, all news must be somewhat sensationalized or it is not news. And certainly not all newspapers or radio announcers thrive on emphasizing the sensational. But one is hard pressed to place all, or even part of the blame on the press. The televi- sors, the real suckers, the FOOLS, are those who "eat up" the sensationalism, not those who exploit it.

LETTER POLICY

Letters to the editor on articles previously appearing in TECHNOLOGY NEWS are welcomed. Such letters must be typed (double spaced), signed, and written in good taste. Anonymous letters will not be printed, but the writer's name will be withheld upon request.

Letters should be limited to two hundred words. All letters will be printed, space permitting, but TECHNOLOGY NEWS reserves the right to edit any letter. All letters become the property of the newspaper and none will be returned.

If the public says that the press doesn't print it

Indeed, by allowing quality or thought to mold our vocabulary, our values and often our ideals, we tend to rigid values on repetition. Regardless of what truth is behind something, it is repeated long enough and often enough we tend to accept it, and in turn repeat it ourselves.

If these trees weren't on the way

I could see the forest.

Technology News Credo

To inform and report for the members of the IIT community.

To work for the betterment of the institution of which we are a part.

To foster greater harmony and understanding between all factions of Technology Center.

To voice student opinion and to support and check the student government.

In order to best achieve and promote these ideals, this newspaper commits its support to:

1. Creating a nearby, off-campus eating and drinking establishment
2. Increasing the percentage of resident students at IIT
3. Maintaining the present fraternity and dormitory parking lots.
4. Improving the Common Core Curriculum through better student-faculty communication.
Delays Hamper Campus Construction Progress

The two buildings presently under construction, the Engineering building and Arthur Keating Hall, are both nearing completion, enabling students to utilize their facilities in the near future.

One hundred and twenty men are supposed to work full time, with some men working six days a week, in order to complete the Engineering Building. The exterior concrete work, including the fire lanes, has already been finished.

The project has been hampered by several delays, some minor, some major. The most serious setback was a thirty day lay-off last January due to an infamous snowstorm.

With the exception of size and shape, EB I is of the same order as the Science Building. The design and structural styles are almost identical. One minor change is the substitution of aluminum window frames for the steel ones used in Life Sciences.

The final project in the building itself will be the opening of the underground corridor connecting it with Life Sciences. The passageway will be made at the southwest corner of Life Sciences.

Construction of the new gymnasium is presently at some stage of a standstill due to a problem that developed with a beam under the main floor. The beam was found to be curved slightly and further construction which would affect the beam was discontinued.

The designers of the building plan to weld one inch steel plates twenty-two feet long, and fifty feet apart, into the beam as reinforcement. To alleviate the situation, six foot I-beams will also be constructed perpendicular to the vertical girders. These reinforcement parts are presently in the process of being fabricated.

While repairs are being made, the construction on the floor above the beam is postponed because excess weight on the beam may cause further damage.

Also, the scaffolding erected for repair work below the beam has halted much work on the lower floor and swimming pool. Forty-five men are working at whatever can be done until repairs are completed.

A realistic estimate of the completion date is not available from the engineering contractor on the job. In fact, R. J. Squeth, IIT vice-president and treasurer, last week stated that the gymnasium would be ready for occupancy some time in November.

Dr. Weiner Sees Life Of Students Improved

Dr. S. R. Weiner, chairman of the ad hoc faculty committee investigating student affairs, discussed the committee’s work and its future in a recent statement in Technology News.

As a newly elected member of the faculty council one year ago, Dr. Weiner was approached with much faculty discussion and concern for student affairs.

He stated that while the faculty saw a great deal of improvement in the student life over a 15 year span, they felt a need for a great deal of additional improvement.

Recalling his reaction to these remarks, Dr. Weiner explained, "My main interest was in curriculum matters, but in the College of Arts and Sciences, my main interest was in the student body and the problems of the student body... I was asked to serve as a representative to raise the matter before the Faculty Council.

The twelve-member Council discovered a dearth of information about student affairs among its members. Thus, the Weiner committee was formed to gather information.

Dr. Weiner chose his own associates: Rev. Mitchell, Dr. Kersten, Dr. F. G. King, Mr. Humphry, Dr. Osbold, and Dr. Steppen. The main interest of the committee, Dr. Weiner stated, "was not to prejudge but to learn.

The learning task was carried out through much of last spring. Members of the committee talked informally with students, both individually and in groups, and visited fraternity and dorms.

Dr. Weiner and Rev. Mitchell visited the ITSA Board of Control meeting to hear the views of elected student leaders. Dr. Weiner also conferred with Dean Hogan and Dean Barnett.

Dr. Weiner commented, "We wrote down everything. I have an impressive volume of material on virtually every phase of student life." The disposition of this material is continued on page 4.

New Tutoring Program Seeks To Assist IIT Neighborhood

by Jay Fox

A new tutoring program for community high school students will be initiated in the next few months. It will supplement the presently offered in the school and concentrate on the development of mathematics and English skills.

Father Ivo G. Lawrence, Acting director of the Gandhi Foundation and pastor of Trinity Episcopal Church, is presently engaged in the establishment of the program which will attempt to overcome some of the obstacles encountered by previous programs.

Some of these had excellent beginnings with large turnouts. However, they lost momentum and were never carried out. Others were plagued by poor communication which resulted in large numbers of tutors to pupils or vice versa.

Father Lawrence noted that the earlier programs may have been too long-range in nature. Fathers were more concerned in planning a firm training basis and maintaining an active interest in the program.

This semester’s program will run for approximately seven weeks. At that time, the students who wish to continue will be at a more advanced level. New students will be brought into the program at the start of another session. This would keep the program at the fundamental level at which it must be maintained in the early stages.

Only fifteen to twenty tutors will take part in the initial program this year with a corresponding number of pupils. Limiting the size will produce a more manageable group allowing interaction among the group members and greater supervision. The supervisor could get around to each tutoring group and aid the tutor in presentation and the development of techniques.

Father Lawrence observed that one of the most necessary aspects of the program was the maintenance of a one-to-one relationship of tutors to pupils. This would establish an individual relationship which is vital to the success of the program.

He also felt that it would be beneficial to provide some type of training for the tutors before the program was actually underway. An orientation to the community as well as some principles of methods would be provided by qualified personnel. In the manner, an official of the community might prepare the individual students for the tutoring sessions.

The major goal is to obtain a meaningful relationship which cannot be found in the normal school situation. Father Lawrence is serving for observatory results which can form a working foundation for further development.

Swingline Paper Rorschachs Test Yourself! What do you see in the ink blots?

1. A seething lake

UB Movies
by Paul Anderson

Friday, September 29, 9 p.m
Cat Ballou—starring Lee Marvin and Jane Fonda.
This movie is undoubtedly the foremost western face ever produced. Jane Fonda plays a woman whose own sense of justice turns out to be no more than a twisting argument, and her partner is a cattle rustler who is a sex nut, a person who is a tramp, and an almost “Jewish” Indian.

Lee Marvin won an Academy Award for his portrayal of the most dangerous fighter that the West has ever seen.

This film contains all the familiar ingredients of the typical western, all precisely and perfectly established to the “why” degree. There has never been anything quite like it. (Union Board members: admission 40 cents)

Sunday, October 1, 8 p.m
Sleeping Car Murder—starring Yves Montand and Simone Signoret.
The transatlantic train roams through the night to Paris. In one of the compartments, six people are sleeping, including a rich woman, a man who was offered a bed by a young French tourist, the train driver, and one of the six is dead. How? Why? By whom? Yves Montand, policeman to track down the other passengers before they are in turn killed by the murderer.

This is a fast, suspenseful film filled with excitement, a new wave, tough, and an excellent cast.

Wednesday, October 4, 8 p.m
Kwaidan
This Japanese horror film is really a trilogy. It is based on three ghost stories, told in the Japanese manner with the accent on atmosphere and exotic color. The stories are Black Hair, the Earl, and In a Cup of Tea.

This film was nominated for the Academy Award for the Best Foreign Language Film of 1966.

Friday, October 6, 8 p.m
The Tenth Victim—starring Marcella Mastronnnia and Ursula Andress.

A futuristic detective story.

This new Norelco Rechargeable Tripleheader packs the longest charge in history. Or economics. Or math. Or wherever you shave.

And it delivers twice as many shaves per charge as any other rechargeable. All you have to do is charge it overnight for two weeks. It’s fast, fast, fast.

And you can use any rechargeable tripleheader for the best shave ever.

Either you’ll get Norelco shaves that are 30% closer. Or you’ll shave safely without a cord.

Choose the Norelco Tripleheader that’s right for you:

- The Norelco Tripleheader with the most comfortable shaves on the market.
- The Norelco Tripleheader with wheels with a cord.
- The Norelco Tripleheader with wheels with no cord.

The Norelco Tripleheader with wheels with no cord.

The Norelco Tripleheader with wheels with a cord.

The Norelco Tripleheader with wheels with a cord.

The Norelco Tripleheader with wheels with a cord.

The Norelco Tripleheader with wheels with a cord.

The Norelco Tripleheader with wheels with a cord.

NROTC To Increase Unit Enrollment

The NROTC unit of IIT has recently initiated a long-term program to augment its present enrollment. At a midshipman’s meeting on Sept. 21, commander of the unit, Capt. Bernard McLaughlin, USNR, explained that an intensified program is in effect that should increase the unit’s strength in many aspects. Capt. McLaughlin congratulated several midshipmen whose efforts tripled the number of freshmen contracts during Orientation Week. A total of nearly fifty-five freshmen have increased the unit’s roster to 104; freshmen have increased the unit’s total to 264.

Capt. McLaughlin also re-emphasized that improvements will be made to the midshipmen’s wardroom by assigning the library and the Midnight Club to the wardroom as well as the library.

Capt. McLaughlin also spoke of forthcoming events such as the Naval Ball, to be held at the Navy Armory on Nov. 18. It was also announced that the Midshipmen’s Band would again perform their cherished Blue Jig from the Air Force cadets as a result of the traditional football class between the rivals on Nov. 9.

The captain was well-pleased with the continued scholastic improvement of the unit and hoped that this year will again be successful.

Now the NROTC unit is Commander Monte D. Harcourt

Chicago Happenings

Area Cultural Events Varied This Week

by Pied

Chicago Happenings will continue the attempt begun last season to keep the IIT community informed of various cultural events staged around Chicagoland.

Voices at the College of Complexes report that their final event of the month will be held Saturday, Sept. 30.

The hot item of the week will be a review of the book, "The Fifth Estate," by its author, George Gordon. The crowning Mr. Murray’s area of concern is "Creeping Criminalism," the crime syndicate’s take over America.

One dollar at the door, 105 W. Grand Ave., at 9p.m., is the only requirement for an evening of intellectual stimulation and discussion.

Also on the bill of fare at the College of Complexes, besides a weekly lecture, is the Poetry Anonymous. This is a Thursday meeting held at 9 p.m. with no admission fee.

Scheduled happenings by the Hull House Organization include a variety of dramatic events.

At the Jane Addams Center, 1212 N. Broadway, two one-act plays by Murray Schragel, "The Typhoons," and "The Tiger," may be seen each Friday, Saturday, and Sunday evening through November 5. Curtain time is 8:30 p.m. Friday and Saturday, 3:30 p.m. Sunday. Tickets are $9.00 on Friday and Saturday, $6.00 on Sunday. For reservations call 827-0222.

The Parkside Community House, 500 E. 56th street, is presenting "The Lovemakers," by roger cornish. Curtain time is 8:30 p.m. Friday and Saturday, 3:30 p.m. Sunday. Tickets are $9.00 on Friday and Saturday, $6.00 on Sunday. Students will be admitted for $5 Friday and Sunday.

Final performances at the playwrights’ Center, 700 N. Broadway, of "The Encounter" and "The Consequence," by richard e. goodwin, are set for September 29 and 30. Admission is $2.00 for the performances.

Jean Martinon, musical director of the Chicago Symphony, received additional information concerning the symphony concerts for the coming months. Concerts on September 26 and 27, in the A series, will feature Martinon conducting.

The performance will include Beethoven’s Overture, "Leonore," No 3 Opus 72, Mendelssohn’s Symphony No 5, D major "Reformation," Opus 105, and "Le Sacre du Printemps" by Stravinsky.

Dr. Weiner
(Continued from page 3)

Dr. Weiner explained, "I hesitate to put anyone’s name on a document which he is unable to comment upon."

There is a proposal in the faculty constitution for a standing committee, but the constitution is not clear what the role of Dr. Weiner would be if the new faculty organization was adopted. Dr. Weiner stated that as soon as the new faculty organization is set up, he will express his opinion on the matter and his assistance to the committee.

Dr. Weiner did not comment on the possibility of his being appointed to the new committee. Since he has yet to approach the Faculty Senate with the information he has, he is reluctant to elaborate on his findings.

He did indicate a personal satisfaction with the committee’s work and confidence in the committee’s recommendations.

Peels at the U I

Fratel

by trudy

Purple and gold, red and yellow, blue and green, these are the colors that will grace the Quad on the first day of classes.

The colors are picked by the students, who are given the opportunity to decide on the color scheme for their residence halls. The colors are chosen by the students, who are given the opportunity to decide on the color scheme for their residence halls.
Fraternities Pledge Over 200 New Members; Sororities Take 16

by Hillboy

Purp�数 and gold, black and
gold, red and blue, blue and
gold—yes, these are the colors of headgear that are easily vis-
able on the Quad and elsewhere on campus. Square pins, star
pins, triangle pins, diamond pins—"What fraternity are you in?"
With all these lovely pledges wandering around, somebody is probably trying to figure out who belongs where. As a result, if one of you freshmen lost several of your brother's on the Quad during O'Week, you might find him included in the following list.

Theta Xi brought in thirty-two pledges to pace the Quad: Vincen Augustino, Jim Blank, Ed Bot-
ton, Alben Broccianti, Mar Brown, Rich Cappelletti, George Correll, Stan Elliott, John Giam-
nati, Bob Harris, Van Herrero, John Jaros, Roger Johnson, Al Kiell, Paul Kornyniak, Ray Kuehle, Mark Laundorski, Jim Leving, Dave Marsh, Jim Mc-
Enroe, Emile Meier, Eric Ne-
land, Dave Pietsch, Rich Powers,
John Ruth, John Sarna, Cliff Ta-
ioneer, Joe Van Oosterhout, Joe Tribova, Ron Weglarz, Jim Wik-
towicz, and Angelo Zaragosa.

Delta Tau Delta put up an aggres-
sive rush this year and gathered twenty-seven pledges to-
gether: Mike Benes, Wayne Bennett, Greg Bergman, Nick Carl, Steve Conover, Ed Dennis, Nick Depota, John Donat, Rick Erickson, Jim Faulkner, Lloyd Hager, Dick Harpole, Ron Hart, 

Cornel Marroco, Bob Mashaba, Nat Pappalardo, John Phillips, Bob Rice, Sandy Scott, Bill Shand, Larry Strain, Jack Stoka, Bert Trowel, Loren Vogel, Bill Walsig, Jerry Westlake, and Dave Wil-

Phi Kappa Sigma also made a fine showing during Rush Week and placed twenty-four names on the pledge roster: Skip Clark, Gary Lisota, Gary Horne, Walt Coddington, John Huston, 

Nineteen pledges found their way to Phi Kappa Psi: Phil
cannon, Mark Condic, Tom
crath, John Cunningham, Matt
Dormey, Peter Edsall, Allen
Friedman, Pete Ganes, Peter
Gross, Mark Gustafson, David

The Third Phase' Featured
In 'The Sixth Sense' Mixer
by Bob O'Connor

Come as you are on Friday, Oct. 6, to the HUB Ballroom. The mixer—The Sixth Sense sponsored by K, will start at 8 p.m. Girls are being invited from about twenty schools, but, if you like, you may bring your own girl. The important thing is being yourself. NOTE: This event is absolutely free!

Some of the schools invited are: Michael Reese School of Nursing, Mount Sinai, Presbyterian St. Luke's, Cook County, St. Bernard's, Rosary College, National College of Education, St. Anne's, Passavant College of Nursing, the Norwegian School of Nursing, the Little Company of Mary School of Nursing, Mundelein College, Ray Vogel, and the Palmer Stevens School of Nursing.

Music will be provided by a top-notch disc jockey, the Third Phase. This band has a new sound and is planning on running through the whole sound spectrum. They'll rock out with everything from the Bugaloos to Sing-A-Long, and even throw in a good number of slow numbers for the romantic types. Additional entertainment is being planned for a late-in-the-night surprise.

All in all, you will be sure to find music to dance to, girls to love, and above all, The Sixth Sense at this event.

Arthur Fiedler, Nippon Symphony To Appear at First UB Concert

The Yomuri Nippon Symphony Orchestra, recently formed in 1962, was a new acclaim in the world of music because of what Mr. Fiedler calls "musical visionary and technical brilliance." The orchestra, under the laws of Japan, was organized for the purpose of "promoting international cultural exchanges in the field of music to encourage the development and spread of music among the people of Japan."

The orchestra consists of 100 male musicians, with an average age of 32 years. Since its inaugural concert in 1963, the Yomuri Nippon Symphony Orchestra has given each year 10 subscription and 12 pops programs, approximatley 25 special concerts, 12 youth concerts. 115 television broadcasts.

The symphony concert and radio performances, and over the period since 1963, some 50 concerts tours within Japan.

Arthur Fiedler has divued an enormous talent and charming young pianist, Hiro Imaura, as soloist for the American debut of the Nippon Symphony.

Circle K to Sponsor Recruitment Session

by Circle K Rep.

The Circle K club at UB is holding a membership meeting Thursday, Oct. 5, at 1 p.m. in the HUB. All interested persons are invited and encouraged to attend.

Circle K is the largest college organization in existence—there are over 600 clubs throughout the United States and Canada. Circle K is not a social organization, but it is a service organization, however, college men operating on the campus and is similar to Kiwanis.

Circle K is an opportunity for college men because it provides:

1. An opportunity to join a participant in many activities for the service of humanity and for campus and community betterment.

2. An opportunity for self-expression involving the life of the campus and the community.

3. An opportunity for self-development of leadership, good citizenship, scholarships, and fellowship through community service programs, through the association with outstanding representatives of the business, professional, and social life of the community.

The UB chapter of Circle K was the first in the state of Michigan. The Better Business Bureau and the town council and the city council are some of the organizations that have agreed to sponsor Circle K. For further information, call Mr. L. McMillan, 220-0412.

**Union Talks**

(Continued from page 1)

according to Bylde, centered around wage increase and fringe benefits, with union demands being centered around the concept of keeping the wage structure for IIT workers as equal as possible to structures for similar workers at other colleges and universities.

Local 321 represents not only IIT employees, but all personnel at the University of Chicago, Loyola University, and Argonne National Laboratory. At present, negotiations are only being carried on at IIT.

One set of union officers represent each of the schools’ union “counsel” of the interlocking officers. Henry Goodick, president; David Sullivan, secretary-treasurer; and Bylde were all present during the bargaining sessions, as was Frank Golden, president of the IIT counsel of the union.

Representatives of IIT on the negotiating committee included Mr. Speck, R & D superintendant Walter Patchin, Institute business manager Robert Jerrel, food services director CaroL Massam, and housing manager Bradford Byrne, all of IIT.

Although optimistic over contract ratification by the union, Vice President Spoon was aware of the possibility of a strike by the employees, and stated that he would hope that a strike be averted.

There has not yet been a strike of IIT employees in the 75 year history of IIT and AIT.

A walkout could not occur until a strike vote is taken and approved by the union membership. Rejection of the contract offer on the part of the union would not automatically mean a walkout.

---

**Can there be this kind of excitement in engineering?**

A high performance car in a four-wheel drift around the first turn at Watkins Glen? That is the excitement of sports car racing... precision machinery and human skill in cool coordination.

Is it an exaggeration to suggest there should be an analogous excitement in your engineering career? In engineering, too, professional skill is constantly pitted against a variety of mathemetics, materials and men. And the pace can be fast.

This is the kind of engineering excitement Xerox can offer you:

- a strong drive into new areas and new technologies in a variety of fields...imaging, data handling, graphic arts, education
- a growth pattern stimulating in itself...total operating revenues up from $25 million in 1957 to over $300 million in 1966; research and development expenditures, at $30 million in 1955, up to $40 million in 1965
- a professional environment and spirit in which you have to experience to believe
- both long range technical aims and day-to-day engineering problems on a scale to satisfy any engineer.

Sound unlikely? Check it out and see. Your degree in Engineering or Science can qualify you for some intriguing openings at Xerox, in fundamental and applied research, engineering, manufacturing and programming.

See your Placement Director or write to Mr. Roger Van der Plag, Xerox Corporation, P.O. Box 965, Rochester, New York 14603.

An Equal Opportunity Employer (M/F).

Minneapolis Pick To Win AL Pennant
In Poll of Seven Tech Baseball Men

Minnesota was chosen as the likely American League pennant winner in a poll taken this week of seven IIT baseball men. The Twins had three first place votes, in two each for Boston and Chicago, and a total of 23 points, to 21 for Boston.

Among those interviewed were League Formed; IM Football Due To Begin Soon

Intramural football leagues have been formed and play begins next Tuesday.

There will be three four-team leagues this year. The Dorm Animals, North Wing 3-4, the South Dorm Ducks, and the South Dorm Rebels comprise the Dorm League. The Independent League is made up of AROTC-A, NROTC-A, NROTC-B, and Newman Club, while the FFES, ASCE, Senior Arch, and the Chem Buildings fill the Department League.

Varsity Basketball

There will be a meeting of candidates for the 1967-68 varsity basketball team at 12:30 pm, Oct. 3 in the auditorium of Perkins Hall.

All freshmen and junior college transfers are invited to attend.

The Dorm Animals meet the South Dorm Rebels at 12:50 on October 1, with a game between AROTC-A and Newman Club to follow at 1:10. On Thursday, October 5, FFES plays the Chem Bulldogs in the first game, and North Wing 3-4 battles the South Dorm Ducks in the second game.

Sonny Weinman, director of athletics, baseball coaches Ed Glancy and Ed Matsuzaka, baseball captain Tom Kincaid, and lettermen Rich Klein, Jim Teter and Stu Mathewson favor the Twins.

Weinman, Stu, and Jim voted for the Twins, though Sonny said he was rooting for the White Sox, Kincaid and Coach Glancy went with the Red Sox and Klein and Matsuzaka favored the Chi- cago.

There was a prejudicial thread woven through the selections, however. Glancy was in the Red Sox farm organization and has many contacts with the Sox. Klein was offered a contract in the Chicago farm system after he finished high school, and Mathewson is from Minneapolis, Minnesota.

A point system with four points awarded for a first place vote, three points for a second place vote etc., was used to clarify the choices of the men who were interviewed. Minnesota led here also, mainly due to the fact that it was only picked for less than second by one man. Boston scored 3 points more than the Chics to win second place.

The Detroit Tigers were not very highly regarded by the baseball prognosticators, as six said they would finish in fourth place and Mathewson pegged them for third.
