Seventeen Honor Degrees Will Be Conferred Today Upon Distinguished Persons

A special convocation commemorating ITAs 75th anniversary is being held in the HUB auditorium today at 4 p.m. to confer seventeen honorary degrees on distinguished persons. All students are invited to attend.

A reception will precede the convocation in the Armour Club at 3 p.m. Invited are the honorary degree recipients, press and forty selected student leaders.

Reading of the citations will be done by the president of the Board of Trustees and his members of the faculty and administration. A special phonograph record will be conferred upon Lester Armour.

Social Calendar Meeting

A meeting of all campus organizations which are planning to hold social functions next semester will be held on the social calendar for next semester.

The meeting will be held Thursday, May 2, at 8 p.m. in the Sigma Phi Epsilon Fraternity House.

former chairman of the Board of Trustees for 4 years, who retired in 1965, will be honored at the meeting.

The meeting will begin with a panel discussion on campus social functions and their impact on the campus community.

The program will include presentations by representatives from the student organizations, faculty, and administration.

The meeting will also feature a series of workshops on planning successful social events, with guest speakers from the local community.

The purpose of the meeting is to encourage collaboration between the various campus organizations and to promote a sense of unity and shared responsibility for the future of the campus community.

The meeting will conclude with a panel discussion on the role of social events in building a strong sense of community and fostering a positive campus environment.

The meeting is open to all campus organizations and students interested in social events. Attendees are encouraged to share ideas and insights on how to make social events more inclusive and engaging.

The meeting is an opportunity to come together and work towards a common goal of creating a vibrant and exciting community for all students and faculty.

The meeting will be held on Monday, May 1, at 7 p.m. in the Student Center.
Choice 68: An Opportunity For Expression of Opinion?

Last week the students of IIT, particularly those under 21, were given an opportunity to express their opinions concerning national policies, and to indicate their preferences for certain presidential candidates.

However, for the most part, the average Tech student chose to ignore this opportunity. For out of approximately 3000 eligible students, only about 720 took the time to indicate their opinions and candidate preferences through Choice '68.

This showing for the student body is far below the deplorable national election percentage of registered voters who cast their ballots in each election.

As a national average, there are usually somewhere around 50 per cent of the voters exercising their right to vote. However, the IIT students could not even get 25 per cent of their number to express their feelings about the forthcoming national election and national policies.

The fact that so few students could take the time or find the energy that was required to punch out a hole in an IBM card is frightening. It is frightening, since this group is the part of society which screams for the right to vote and the lowering of the voting age.

Admittedly the direct influence of such a procedure is not evident. However, I think the interest and concern that participation in this Choice '68 election could show might very well influence the policies and opinions of the top running candidates.

It might have added the battle for lowering of the voting age, since a good turn-out would further prove the concern of the college student on national issues.

The actual performance of IIT students only helps to confirm beliefs of those observers who argue that by lowering the voting age one will only increase the size of the apathetic voter group.

This performance also gives more ammunition to those persons who believe and espouse the "fact" that college students would rather prorate than utilize the ballot box and other "legitimate" means of expression.

Confusion Shrouds Controversy

This past week has brought an issue to a full boil which has been simmering for weeks. Its effects have triggered large-scale discussions dealing with a wide variety of questions about IIT and its relation to students and to the community. But the issue itself stands in a cloud of uncertainty and perplexity.

The Michael Benton issue abounds with confusion. The controversy has "witnesses" detailing opposing reports besides the differing stories of the parties involved. As a result, it is little amissment that either party can draw sympathy and support from a baffled and bewildered audience.

It is desired and deemed necessary by the Editorial Board of this paper that concrete and substantial fact be established in order to provide a proper basis to evaluate the actions of both parties and thereby reduce the confusion that now exists.

Secondly it is recommended that representatives of the Faculty Senate and TFS meet with the Disciplinary Board in order to review the incident and determine if the present case needs clarification to the IIT student body and to the community.

Thirdly it is requested that the Disciplinary Board explain their decision on the more of the concrete facts established and to report its decision again.

Sound judgment can be passed only if an agreed set of facts are established. It is our hope that the cloud of confusion and uncertainty will be cleared in order to exercise this judgment.

PUB Board Meeting

A regular meeting of the PUB Board will be held on Tuesday, May 14, at 8 pm in the PUB.

Business manager reports will be due at this meeting and the appointments of the new Board members will be made.

Applications for positions on the Board are due in the Dean of Students office by 5 pm on May 14.

Student Organization Space

Student organizations that have offices and or desk space in the PUB must reapply for that space for the coming school year, since re-allocation of the space will occur.

Applications should be completed and returned to the PUB Director's office soon.

TFA Committee System Discussion

A special meeting, conducted by TFA members Gene Bader and Mike Albertson, will be held to discuss the TFA Committee System situation and its implications.

This open meeting will be held on Thursday, May 9 at 12:30 pm in the PUB. All students are invited.

Reservations for Events in the PUB

Campus organizations that are planning to have meetings or any special events in the PUB next year should contact the Reservations office on or before May 15, 1968.

Peace Corps Test

Peace Corps Placement Tests will be given on May 18 and June 15, at 1:30 pm in room 402 at 226 West Jackson.

For further information contact the Dean of Students Office or the Placement Office.
Letters to the Editor-in-Chief

May 15 — Deadline For Scholarships

Stan Getz Will Perform In HUB Saturday Night

Dr. Retallack of MIT Distinguished Leadership

Space is relatively scarce in the dorms for small gatherings. Plans were in progress for converting the new occupied recreation room into a pizza lounge. This change would greatly benefit the dorm residents since at the present time there is no place within the dorms where residents may relax in a large lounge area and be served pizza.

We hold that the dorm buildings and facilities are solely for the use of the dorm residents and guests. Occupancy of dormitory space by a campus organization, such as the Gamma Foundation, places an unnecessary burden and an inconvenience on the residents. We, therefore, ask that the situation be corrected and action be taken.

East-Fifths Undergraduate Association Class Secretary

Stan Getz, the world renowned saxophonist, has returned to the U.S. with his song “Desert Flight.” This song made such an impact on the public that it was soon flooding the market. A tear was spreading that house music was being played once again. But Getz put an end to that by performing “The Girl From Ipanema.”

The concert will begin at 8:00 p.m. and will be held in the HUB auditorium.
Chicago Happenings

Viet War, Make-up of National Leaders Are Themes of Plays
by Dave Hayashi

The fairly new American custom of warming up the television set along with the evening meal has captured many in its wry and electrifying grip. One realistic drama which never seems to be included in the Nielsen ratings however, is the evening news. The contents of this program usually brings harsh criticism from many but the story cannot be changed.

It is, period.

Occupying a majority of the viewer’s time is the Vietnam issue which inevitably upon the digestive tract of a few. A play which opened on May 3 at the Hub House Parkway Theater, captivates the nation’s ambivalent feelings toward the war in Vietnam. “Viet Rock,” directed by Curt Cole Burkhardt recreates the atmosphere of the war and expresses the varying attitudes of Americans toward this military exercise. The play uses parody and satire as its form of communication.

“Viet Rock” employs a fairly new technique in which the theater is known as “transformation.” This refers to the continual changing of roles by actors so that attention is focused on the progression of action. Location ed at 500 E. 67th Street, Hub House will present the play from May 3 to July 7, Friday through Sunday evenings. It is safe to assume that life is conducted on another level too. National problems can sometimes be overshadowed by more personal ones, derived from the immediate environment. The audience is invited to participate and objectively view a tale of romance in a fascinating girls’ finishing school in the mid 1920’s.

“The Boy Friend” is a musical comedy now appearing at the Leo A. Lerner Theater, which speaks the glitter and glamour of the Roaring Twenties. It aptly captures the authentic quality of the period and sympathetically mocks all the rattamance.

This play, with book, lyrics and music by British playwright Son-
dy Wilson, had its birth on the London stage and later became a Broadway success. It will appear for a 15 week-end run ending on July 14.

A psychological make-up of our national leaders in no way differ from the pedestrian class.

In the translation of “A Flea in her Ear,” by Georges Feydeau, John Mortimer has added the postmodern self-importance, pride and greed with stylistic skill.

This revue French farce, starring well-known Broadway actor Heman Sherman, will run from May 3-8 at the Goodman Theater.

Following its run, the new translation will be withdrawn from use because of a filmed version of the script that will be released later this year.

Go 1,600 miles

Regular

On this much gas

With this new Honda

This sleek Honda Super 90 delivers an incredible 160 mpg on regular gasoline, but economy of operation isn’t Honda’s only bag.

Ride any of Honda’s 23 models and you can forget high insurance and maintenance costs. Forget parking problems too.

And when you ride Honda you go in style. Every time. The Honda Super 90, for instance, combines big bike looks with easy lightweight handling. Its dependable Honda four-stroke overhead camshaft engine produces an impressive 8 bhp @9,500 rpm; speeds up to 65 mph. And the Super 90 is priced at what you want to pay.

The smooth Honda Super 90. Is there a better way to go the distance?

Review of The Graduate
by Gregg Cook

I am going to take this opportunity to urge any of you who have not already done so, to go see The Graduate, still showing at the Loop and Carnege theatres. This film attains the status of a younger generation to its elders, namely, “Hey, what are you doing with my life?” by the simple and direct process of showing the appalling things that one group of elders tries to do with its young and the battle they put up to regain control of their own persons.

If you will permit a subtle metaphor, this picture is about adult vampires trying to sustain themselves by drinking up the life in their children. In the particular instance of Mrs. Robinson and Ben, the new graduate, this relationship is made obvious, but it also underlines all the family interactions in the story.

What the story is, I’m certainly not going to tell you. What I will tell you is that it is unquestionably a high point in the history of motion pictures, and for that matter in the whole history of dramas. For what Mike Nichols has done is to tell a brutally naive story of human weakness, pettiness, and at times degradation, while producing one of the funniest pictures that ever won a nomination from an audience. It’s hard to say whether the direction of the acting deserves the most credit, but Nichols’ star, Dustin Hoffman, gets more simultaneous tragic and comic mileage out of a daisy than God! than many another can from two paragraphs of dialogue.

This is an awful movie, and it’s a hilarious movie. It’s a movie about all of us, and all of us should see it, for with the other reason than to experience the process of being enlightened by a sharp ear in the gas while hearing our heads off.

Incidentally, Dustin Hoffman was here in Chicago during the week, visiting campuses in an effort to sign up student workers for the forthcoming McCarthy campaign in Indiana. Observations indicate that he is either very much the sort of individual that he portrays in The Graduate, or else he is a method actor down to his toes. In either case, I’ll probably make it a point to see his next film.

New ‘69 Calendar Ratified

In an all-faculty meeting headed by IIT President John T. Retta lata on April 23, 1968, the proposed “Christmas Break” Calendar was ratified by a large majority vote of the faculty.

The new calendar will go into effect beginning September 19, 1969. Under the new schedule, classes will begin on September 19, as opposed to the old calendar’s date of September 15. The semester’s Thanksgiving recess will occur at the usual time, with the addition of a two-day break following the fall finals. Winter break under the new calendar will be scheduled for December 15-19.

The new calendar then combines the two-week Christmas break together with the two-week spring break of the previous plan to give students an uninterrupted four-week vacation.

Classes for the spring semester will begin January 19. Easter vacation will be March 27 through April 2, as was scheduled under the old calendar.

Final Exams will begin on May 11-15, releasing students two weeks earlier than under the previous schedules.

The new calendar was developed and proposed by the Academic Calendar Committee, under the Chairmanship of Mr. Fred Eckford. Members of the committee were: Dr. Robert F. Bunting, President; C. E. Hammersdal, and Dr. R. F. Irving. Student committee members were Dennis Dulaney, Terry Feng,
Research Grants Given to Pros in MAE, Bio

IT recently received two grants, the funds of which are to be used for research purposes. The first is a one-year $50,000 grant from the National Aeronautics and Space Administration for the study of rocket propellant evaporation and spray breakup.

This grant is in extension of a 31-month experimental and analytical program, now under the direction of Prof. T. Paul Turek of the Mechanical and Aerospace Engineering department. It was announced that the mathematical model that was employed to design rocket engine combustion chambers cannot be solved without sacrificing the thrust. The objectives of the current project is to develop a theoretical understanding of fuel evaporation as well as insight into rocket combustion instability.

The second grant received by IT is a recent $100,000 grant for research on the basic mechanisms of energy transformation in muscle.

This grant was made by the National Science Foundation to support research by Professor Tera Hayashi, chairman of the department of biology and a recognized authority on the physiology of cell movement. To achieve this understanding Professor Hayashi plans to isolate the protein components, synthesize them, and then study their interactions.

Hayashi stated: "One of the fundamental properties of living things is movement. In higher forms this is brought about by the movement of muscles, but in lower forms, movement is a characteristic of the activities of cells. The understanding of muscle activity at the molecular level will lead to the possibility of utilizing these proteins in the muscle during the course of myoblastic development. This, in turn, should lead to our understanding of muscle function in common diseases such as muscular dystrophy and the degeneration of muscle."

Jade & East NEW... GOLDEN LIME

WAS KEATS THE BOB DYLAN OF HIS DAY?

Who was the greater of the two English Romantic Poets? Keats or Byron? This question has given rise to many lively campus discussions and not a few stanzas. Let us today try to find an answer.

First, Keats vs. The Louisville Slugger, as he is commonly called. Keats' talent bloomed early. His short life at St. Edmonds drew the white lines of his epic lines.

But I don't know that any answer.

From this distinguished beginning Bryant went on to write another 10,000 line poems, an achievement all the more remarkable when one considers that he was not the perfect poet. Bryant, for example, was lame. Shelley suffered from syphilis which left his hands and feet and he was never handicapped by immunities.

Many said that Keats was the greatest. But I don't enjoy it half as much as writing about it.

While Bryant fought in Greene, Shelley stayed in England where his fame was soon widely known. Shelley was born in 1803, the same year from which his classical poem, "Haikey, A Sea Man," was published. He died in 1822, the same year that he was born. Shelley, in contrast, was born in 1812, the same year that he was born.

One wonders how Shelley's life would have been different if he had not suffered such a severe attack of pneumonia. Shelley's Steel Blades had been invented in his time. Personal attacks of pneumonia that need no throwing of horses or shooting. It's a shame when you get hit, and then it's a shame when you get shot after luxury surgery. Here truly is a blade fit for a living artist. Furthermore, Shelley's Steel Blades is this jewel of the blade-maker's art. This art to the clerk and helpful to the doctor, comes to you both in double- edge style and finishing style. Get some now during the "Easter to Your Honor Week."

But I digress. Byron, I say, was in Greece and Shelley in England. Meanwhile Keats went to Rome to try to grow. Who doesn't remember his wedding day? Although he only lived for a few years, some day I will look on the same road in the "Easter to Your Honor Week."

But Keats did come. His friend Shelley. Byron, touched by the heart of a heart. Both were driven to the heart, to the heart of the dreamer, to the heart of the dreamer, to the heart of the dreamer.

Marc Anthony of Liverpool, a man of a different era, who had all the same virtues of his namesake, would have much in common with the artist. Anthony, a more domestic type, stayed home with his wife and barber in his barber shop.

And how her and how her and...
Air Force and Navy ROTC Cadets Honored

On April 28, 1968, the combined Air Force and Navy ROTC held an awards presentation and review ceremony on Nony's Acres.

Midshipman E. Erickson received the Navy League of U.S. award, the General Dynamics Award, and the Illinois Commandant Award.

Other recipients of the gold Chicago Tribune Award were Cadets Walker and Killian and Midshipman Rasmussen. The silver awards were presented to Cadets Patil and Pohland and Midshipman G. Erickson.

Along with Midshipman E. Erickson, Cadet Neshen received the General Dynamics Award and Midshipman Schaff received the U.S. Naval Institute Award.

Other awards went to the Air Force Association Award to Cadet Biddle, Air Force Times Award to Cadet Muller, Marine Corps Association Award to Midshipman Parley; Reserve Officers' Association Award to Cadet Luyster and Midshipman Walsh; the Military Order of the World Wars Award to Cadet Kravetz and Midshipman Komoda.

The Daughters of the American Revolution Awards went to Cadet Baker, and Midshipman Hillgard, the Muirce Honor Award to Midshipman E. Erickson, the Chicago Chapter of the Navy League Award to D. and B. Platt, the Sons of the American Revolution Award to Cadet Houde and Midshipman Goodin, the American Legion Gold Award (Military) to Cadet Fasiga and Midshipman Rosbrock, and the American Legion Gold Award (Academic) to Cadet Russell and Midshipman Flaherty.

The issues:

McCarthy Wins IIT Choice '68 Vote

Eugene McCarthy was the winner of the recent Choice '68 mock referential election that was held on campus. McCarthy received 200 of the first choice votes out of the approximately 720 votes cast.

Richard Nixon was second with 170 of the first choice votes. Robert Kennedy was third with 105 votes.

In the results, McCarthy was the great favorite, with 427 total votes, the maintaining or expanding of military efforts, which received 281 votes.

In the question asked about the cause of the US presence in Vietnam, voting was somewhat contradictory to the results expressed in the question on the course of military action.

This question was not cast for continued bombing, however, 266 were cast for the temporary suspension of bombing. 214 were cast for the continuation of bombing.

The Age Groups

In this election, Eugene McCarthy was the choice of the oldest age group. McCarthy received 93 votes with Nixon receiving 81 and Kennedy 70.

McCarthy received 19 votes with Nixon receiving 15 and Kennedy receiving 70 with McArthur and Kennedy receiving 9.

At Last: Chapin's Coming Down!
Second IITRI Protest Staged By Tech SDS

A rally protesting research in chemical and biological warfare at IITRI was held last Wednesday on the IITRI plaza. This rally is the second such demonstration that has been held there. The first was on October 18, 1967.

The demonstration was sponsored by the IIT chapter of Students for a Democratic Society. About 4:15 pm the group of demonstrators began to arrive. They milled about for about 15 minutes before starting to circle the plaza

The highlight of the rally was the arrival of "General Waste-management," a puppeteer who paraded about in his own particular uniform, condemning the administration and selective service system through his own form of humor.

Of the some 70-80 people who gathered in front of IITRI, few were identified as part of IIT's student body or faculty. However, Dr. Primack and Prof. Knau's of the faculty were a part of the group from IIT, as well as was Peter Price of IIT's chapter of SDS.

A small detail of the Chicago Police was also on hand to maintain order if necessary. No action of any kind was needed from them and no action was taken to prevent the use of sound equipment, as was the case last October. At that time the police prohibited the use of bullhorn, in accordance with a city ordinance.

After about one-half hour of marching the group of protestors huddled up to listen to a number of speeches. Most of the comments, by various members of the protest group, were cut short by the cold winds and precipitation.

For the most part the demonstration ended by about 5 pm.

A few members of the IIT chapter of SDS stayed behind. They remained by the exits from IITRI to hand out literature to the employees as they left the building.

D'YA THINK ENNABUDDY'LL RECKINIZE ME?

May 1, 1968

Micro-Mini Happening Coming Friday

The International Teens Association will sponsor the "MICRO-MINI HAPPENING" mixer on Friday, May 3 in the HUB Ballroom. It is a new innovation in mixer, designed with girls in mind. In order to encourage girls to come, a reduced admission for corresponding to a reduced beverage will be in effect.

The Creations, an all-girl band and the Royal Blueberries (a new "up-and-coming" group) will provide the "beat" for the dancing night, which will include a group girl contest.

Gents from over 100 schools are expected to attend. In fact cards are needed to transport the "crowd." Those who wish to drive will be given an assignment of 1 or 2 girls to live close to their home, along with free admission.

Short course in lifelong economics for college seniors!

If you are soon going to graduate, you'll be interested in learning about New York Life's program of group life insurance especially tailored for college students.

Tell your roommate to get her own.
The price is low enough.
The new Lady Norelco.

Norelco brings you a new lady's shaver, the Lady Norelco 15L. It's a delicate pink, with red trim, and comes in an oyster-white snap-open wallet. The shaving head is designed with you in mind—one side is for shaving legs, the other for underarms. You get a smooth close shave, the kind you'd expect from a Norelco, at a new low price. Why not get one for your roommate?
If these kids don't make it, neither do we.

These are big city school children. They are partners of all who try to build and keep our cities alive with hope and promise of personal dignity. If we fail these partners, they will fail, as finally will we all.

To the Bell System, they also are customers and, prospectively, many are fellow employees. Those we hire will bring with them attitudes and skills produced by city life and city schools. Their qualities will help shape the quality of our service. And service is our product.

Bell System companies and people are increasingly engaged to help meet the problems of the cities, especially those concerning education and employability. In these areas our skills and other business resources may have extra value. We shall try to keep our deeds outrunning our words.
Alumni To Sponsor Luncheon For Seniors

The IIT Alumni Association will hold a special luncheon for the members of the graduating class of June, 1968. This luncheon is the first of what is hoped to be an annual event.

The special luncheon will be held on commencement day, June 7. According to Carl Resnik, president of the Alumni Association, this luncheon will serve both to welcome the class of 1968 into the Association and to honor the senior class through awards to a number of its outstanding members.

Some one hundred prominent alumni, representing government, business, industry and the arts will act as hosts to the luncheon, which will be held in the HUB cafeteria at 12 noon.

The awards to be presented at the luncheon will cover two areas of achievement. The recipients of the awards were first nominated by a committee made up of junior students, the Dean of Students and a faculty member. The final winners were then selected by the Alumni Association.

One group of students will receive the Alumni Award in Recognition of Outstanding Achievement in the University Community. There will be seven recipients in this category, chosen for their all-around performance throughout their careers at IIT.

A second award will be the Alumni Award in Recognition of Academic Excellence. A total of five awards will be given to the students with the highest cumulative grade point averages. One recipient will be selected from each of the five academic fields of engineering, science, liberal arts, architecture and design. The final selection of the recipients of these five awards will be made by the Alumni Association after this semester's grades have been submitted.

Tech Baseball Team Beats U. of C. 10-0
by Jim Sellier

The Tech baseball team ended its season on a high note with a 10-0 win over the University of Chicago. The victory was crucial for Tech, as they needed a win to secure a spot in the postseason tournament. The game was a complete domination of the visiting team, with Tech scoring 10 runs in the first inning alone. The team's batting was led by two home runs, one each from Mark Johnson and Tom Miller. The defense was solid, with only one error recorded in the game. This win solidified Tech's position in the conference standings and set them up well for the upcoming tournament.

Bowlers Complete Year
With a Winning Season

The IT bowling team finished its 1968 season with a 3-1 record. Despite some setbacks early in the season, the team managed to turn things around and secure a winning record. The season highlight was a two-game sweep against the University of Illinois, with the team only losing one game in the process. The team's success was attributed to strong performances from the individual bowlers, with three of them consistently scoring above 600 in their matches. This year's season was capped off with a victory at the Northeastern Illinois College tournament.

Tech Kaps Defeat Delts, Sigs for IF Championship
by Nathaniel Pappalardo

The IF football playoffs ended just before Easter vacation with Phi Kappa Sigma as IF b-ball champions. The Phi Kaps defeated Alpha Sigma Phi in the final playoff game by a score of 42-23. In the first of the two semifinal playoff games, Alpha Sigma Phi stopped Sigma Phi Epsilon by a score of 52-36 and during the second semifinal playoff game, Phi Kappa Sigma edged out Delta Tau Delta by a score of 47-40. In the Alpha Sigma Phi-Sigma Phi Epsilon game, Chuck Schott was high scorer for the Sigma Phi Epsilon team, while Fred Demato had the Sigma Phi Epsilon, and the two teams ended the regular game at 4-4-1. With nine seconds left in the game, the Delta Tau Delta team scored a touchdown, and the final score was 4-4-1. The Delta Tau Delta team scored a second touchdown out of bounds to put the Delta team ahead by one point. Phi Kappa Sigma scored on an offensive rebound to tie the game at 4-4-1. The Delta Tau Delta team scored a second touchdown out of bounds to put the Delta team ahead by one point. Phi Kappa Sigma scored on an offensive rebound to tie the game at 4-4-1.

Gym Boys Win IM Volleyball

The Gym Boys team came to defend a surprisingly strong Newman Club team and win the Interhousehold Volleyball Championship. The team consisted of 16 players, all highly skilled and experienced in the sport. The team's success was due to a strong team dynamic, with every player contributing to the team's success. The team's victory was a testament to their hard work and dedication to the sport. The team's success was further highlighted by their participation in various intercollegiate events, where they exceeded expectations and performed to the best of their abilities.

International Festival on May 11

International events are an integral part of college life. The International Festival is a celebration of cultural diversity, where students from various backgrounds come together to share their traditions and customs. On May 11, the festival will be held from 3 p.m. to 9 p.m. at the University's Intercollegiate Center. The event will feature performances by student groups from different countries, traditional food, and craft demonstrations. The festival aims to create an inclusive environment where students can learn about and appreciate different cultures. The festival will be a great opportunity for students to engage in cultural exchange and build a stronger sense of community.
