TECHNOLOGY NEWS

Pub Board Appoints Publications Heads

At a special Publications Board meeting on April 29 six applicants were appointed to the positions for the coming year. Appointments were made for the positions of business manager of Technology News, WIT, and Integral, EKT positions for Technology News and Integral, and Station Manager for WIT.

The new appointees are: Glenn Davidson (Chem-4), who will serve as the business manager; Steve Savage (ME-4), who will serve as assistant editor for Integral and has served in various capacities on the staffs of Integral and Technology News; and Paul Morel (EE-9), who will serve as the manager of WIT.

New appointees heads of the various IIT publications.

That senior picture will be compiled into an earlier date than has been done in the past.

The position of business manager of Integral for the coming year is Steve Savage. DMAs present editor of Technology News, Savage has served on the business staff for a semester and will succeed Paul Morel as of September 1.

The Time Is Short, The Hour Is Late, The Matter Is Urgent

1. Police harassment of IIT students and residents of the surrounding community must end immediately. The rules and guidelines governing IIT police action and the areas in which they have jurisdiction must be made explicit. Harassing, the barring of objects, and conduct practices on the part of male white students from the dormitories are crimes must cease immediately. The IIT students handbook must state the fines and or punishment for violation of campus rules.

2. Disciplinary Board meetings must be open hearings and a tape of the hearings made available to the involved parties. Students must be included as members of the Disciplinary Board.

Alumni Cite 7 Students for Contributions to IIT

A special luncheon will be held for all the members of the graduating class of 1968 on commencement day, June 7, at 12 noon in the HUB Ballroom. The event will be sponsored by the IIT Alumni Association and, according to Earl Reutter, president of the Association, it will serve to welcome the class of 1968 into the Association, and to honor the class through awards to a number of its outstanding members.

Students representing two distinct areas of achievement will receive awards.

The Alumni Award in Recognition of Academic Excellence will be presented to five students representing the four academic fields of engineering, science, liberal arts, architecture, and design. The award is given for the achievement of the highest cumulative grade point average.

The second award will be the Alumni Award in Recognition of Distinctive Contributions to the University Community. The seven recipients have been announced and are listed alphabetically as follows: Jay Frank, Thomas Konrad, Steven Lipson, Paul Morel, Fred Pechner, Jeff Simonds, and Al Ver. They have been chosen for their overall performance during their careers at IIT.

(Continued on page 8)

Administration Reaction

(continued from the prior section)

A petition relating to the demands of black students has been presented to the administration of IIT. The petition contained 61 signatures, including three faculty members. It was delivered to Dr. James B. Grich, vice president, on Monday afternoon, May 6. A group of students whose signatures were Harvey Thomas and Charles Boyd.

Dr. Retallick, IIT president, today appointed a committee from the university administration to meet with the students who presented the petition. The committee consists of Dr. Brophy, chairman, Raymond Spath, vice president and treasurer, and Dr. Thomas Harrick, dean of students.

IIT has never practiced racism and has no racial restrictions in its employment, admissions, or housing policies. Dr. Retallick said, "The university is willing to engage in constructive discussions but will not be responsive to ultimatums, threats, or intimations."

New Union Board Artist Series Lacks Student Cultural Appeal

Union Board Concert Area has announced the tentative schedule for its 1968-69 Artist Series, beginning next fall. The Series will consist of six concerts spread over two semesters.

While Union Board should be praised for the diligent effort that they put each year in staging the concert series, they likewise should be criticized this year for their choice of performers billed in the upcoming series.

Union Board states, and quite naturally, that they have already received a substantial number of orders for the series, that the fact of the matter is, however, that these ticket buyers are not current reserved ticket holders, and that they are remiss in not seeing this.

The general reaction to the listed performers by current ticket holders, at least some of them, is that the Union Board will find in the long run that the response by the IIT community to the new Series is inversely proportionate to the pride of choice which the Board now exudes.

It is very unfortunate that the IIT community does not have a greater choice in regard to the artists contracted for performance.

If this had been the case this year, and Union Board had made a more careful and discerning decision, the six chosen performers would have been approved by the faculty (Seigro Mendes and the Oscar Peterson Trio) or, at the very least, not because of the quality of performers, but because of their choice of performers.

It must be said that the Union Board that their selection is happily varied, including classical piano, pure jazz, pop music and so on.

Also, with the desire for the teaching of the Negro culture, as opposed to Negro history, life, socio-economic situation, etc., promote understanding between the races? Or will it serve basically to build "pride in race"? And if this will, this pride work toward the creation of a truly integrated society, are they equal? Or will it serve rather to separate the races?

If these actions turn to separating the races, will this separation solve the social problems that are challenging us today?

I think not, rather it might guide all Americans into the path that has faced other socially-oriented societies, that is, the path of decline. These questions and views are obviously given from one side of the racial situation. However, they are ideas and views that face every person who hopes to be a social welfare professional in the US which benefits all and that does not serve as a deterrent to anyone.

They are especially of concern to those who are seeking to better the lives of all persons who have suffered, in the past and present, under prejudice.

Letters to the editor on articles previously appearing in TECHNOLOGY NEWS are welcomed. Such letters must be typed (double spaced), signed, and will be printed on occasion.

Letters to the editor should be limited to two hundred words. All letters will be printed, space permitting, but TECHNOLOGY NEWS reserves the right to edit any letter.

A bit of advice from TECHNOLOGY NEWS to Union Board Concert Area.

In planning future concert series, actively seek out and heed the opinions of interested parties on campus, so as not to only satisfy their cultural needs, as you see them, but also to satisfy their cultural desires, as they might see them.

Likewise, in future concert series, Union Board should carefully consider its own selection of concerts, it presents, but the degree of selection, not the majority of interests for those who wish to attend concerts.

The following is a statement of the President of Illinois Tech Student Association concerning the demands of IIT's Black Student Organization.

There is no doubt that IIT is confronted by some very serious questions concerning the university's responsibility to the surrounding community. These questions are which are asked of every member of the university, students, administration and faculty, are they are questions which demand positive answers. The answers are to be found in sane and responsible discussions among all those involved. Discussions such as these have not taken place thus far. It is hoped that they soon will.

This fact remains, however, that IIT is a university, a place of learning. The students of IIT are spending their time and money for that purpose. Any attempt to interfere with the operation of the university, therefore, cannot be tolerated.

Again, IIT is a university and a place for the expression and exchange of ideas. Only through a coherent exchange of ideas, can these ideas come to fruition and have any use. Let us work towards the goal of all members of the IIT community working together to solve our mutual problems and not respond to divisive forces, whatever their source.

(For more information on this matter, please contact the IIT Student Affairs Office at 332-6000.)
International Festival
To Be Held Saturday

The fourth annual International Festival, organized by the International Club and the Inter-Cultural Center, will be held this Saturday evening, May 11, at 8 p.m. in the HUB.

The program will feature song and dance artists from ten different countries plus an international fashion show. Among the performers will be the Spy, the Shamrock Irish Dancers, Manfred Yoffe demonstrating modern German dance, African drums, and an Indian quail. Also featured in the Festival will be the Lake Country String Band, a dance group. A Filipino student will present the exotic bamboo and candle dance. A highlight of the evening will be a performance by an Arabian belly dancer.

During the half-hour intermission the audience will move into the balcony where nationality pavilions displaying the cultures of the world will be waiting for those interested in various cultures and in sampling the special international refreshments being served.

Tickets for the International Festival are available at the Inter-Cultural Center on Friday, May 10, and Saturday at the HUB newstand, or at the door. Ticket price is $1. Advance purchases are recommended.

Lipson Receives Fulbright Scholarship

Stevie Lipson, an eighth semester ID student, has been awarded a Fulbright Scholarship by the Fulbright Foundation. The scholarship will cover tuition costs, books, living expenses, and transportation costs for one full year of graduate study.

Steve is awarded on the basis of academic standing, participation in school activities, and achievements in outside activities.

Steve, who majored in political science, will be in London, England, where he will study Graphic Design & Film.

Academically and socially, Steve's record is impressive. He has been on the Dean's list at IIT; he has served as a member of Alpha Epiche, Phi Kappa Phi, Pi Kappa Kappa, the Student Association of the Institute of Design, Phi Beta Sigma Fraternity, and Counselor for the Student Admissions Advisory Board.

Steve has been quite active in outside activities as well. He has worked for the Center for Advanced Research in Design of Consumer Corporation, and for a Cincinnati Advertising company. This year Steve won an Award of Excellence from the Board for his participation in a 14th International Festival.

UB Announces 1968-69 Artist Series

Union Board has announced the tentative plan for the 1968-69 Artist Series concerts. The schedule includes six concerts, two each in the first semester and two in the second semester.

Present season ticket holders can reserve their seats before May 15 if they want the same seats for the 1968-69 Series. This may be done at the HUB newstand.

Reserved season tickets for the six concerts will be available at the public beginning May 15 at the HUB newstand at a cost of $25 for patron A seats, $18 for patron B seats, and $14 per C seat.

The first concert of the series will be a performance by the Pennsylvania Ballet on Oct. 19. This ballet company was formed four years ago.

Following the New York date last January, the Pennsylvania Ballet received its greatest acclaim from Barnes of the New York Times. "The company is young and ambitious, and it has the faults of immaturity as well as the virtues of youth. Yet its qualities of happy exuberance and stylistic promise make it a company very well worth seeing."

Featuring in the second concert of the series is Charlie Byrd on Nov. 16. Byrd is a middle-aged musician known basically as a popular guitarist. As Newsweek sees him, 'he has a compelling individual style, a combination of impeccable musicianship and a personal idiom that delights his fans.'

Byrd, operating out of his Washington, D.C., club, performs several concerts each year. He combines some jazz, classical, and the Lennie-McCartney in his performances.

The Oscar Peterson Trio will be featured in the third concert on Feb. 15, 1969. This trio is a solid jazz group which is probably the foremost such group in the nation. One of their many honors was the label of number one jazz pianist and number one jazz combo in the 1968 Playboy poll.

The fourth concert will be a piano solo by Masao Dikcer on March 9, 1969. Mr. Dikcer is a 22-year-old Californian who has received praise and acclaim from Chicago to New York to Moscow for his classical performances.

In the past several years his reputation has rapidly grown. His performance at the Tchaikovsky Competition in Moscow in 1965 brought him second place and an ovation exceeded only by Van Cliburn in the 1966 Competition. The fifth concert will be a performance by P.D.O. Bach on March 28, 1969. P.D.O. Bach is the creation of Prof. Peter Schickele. The concert of P.D.O. Bach are performed by thirty chamber musicians and are always a lampoon of baroque music, wrapped up with just enough expense to border on the unbelievable, as stated in Time.

According to Erison of the New York Times, an evening with P.D.O. Bach is a very funny show even for people who like music but don't know why. The sixth and final concert in the Series, to be staged on May 3, 1969, will be Sergio Mendes and Brasil '66. Introduced in this country by Herb Alpert, the group has shot to great heights in a short time.

In a review, Derek Taylor states that a "substantial international achievement cannot be slurred this group who have marketed, with considerable taste, a deliberately mixed blend of classical jazz, subtle Latin nuances, cool, minor chords, dancelike up-beat, glee laughter and a little sex.

Questions in regard to the ticket policy will be answered by Paul Chrzanski or Dale Deluca, both reachable at 842-8957.

INTRODUCTORY PAYMENT OF $50: 0.20 AT THE DOOR, $3.00 IN ADVANCE AT ALL WARD AND CRAWFORD STORES AND AT TICKET CENTRAL, 222 NORTH MICHIGAN. GROUP SALES: Call Mr. Fox at 544-4585 to throw a party at Cheetah for 50 to 1000.

WIDE OPEN FRIDAY, SATURDAY, SUNDAY AT 9 P.M.
Candidates Present Plans and Views on Class Presidencies

Senior Class - Officer Candidates

William Wolfe

Senior President

During the last two years I have been active in several activities on campus. Through these activities and my participation in the last spring conference I have gained useful insights into the workings of ITSA and its role in better serving the student body.

This semester I have served as Junior Class President, replacing John Hurley in January. In completing this term of office I find myself involved in the work of the ITSA Board of Control and its attempts to restructure itself to better serve the students. During this last semester the Board of Control has planned many changes which will benefit you. I would like to continue to represent you and your opinions during this change.

In my desire to become Senior Class President and have an active part serving you on the Board of Control, I have not overlooked the social structure that exists in the senior class. These traditions will be continued and will be a help to the future students.

M. Wyplowsky

A welcoming dance for the Freshman Class, the Senior Class, and all, the Board of Control; these, by tradition, are the events for the Senior Class President. A good senior class officer also means other duties are involved.

The Senior Class President, more than any other class officer, represents his school. He must have clear, original ideas and must be unhesitating and aid the fraternity, dormitory, college, and administration dialogue. He must be able to argue and have a fund of experience. He must find and present his ideas of this class.

Today's generation - sensitive neighborhood relations, growing student participation - and issues such as the "protection of campus" problem, the "administration of the Faculty Discipline Committee" demand that student leaders be thoroughly informed. He must know how to air the, thoughts, how to react his ideas.

I have had experience within fraternity, dormitory, and student government. I believe my background qualifies me to effectively fill the office of Senior Class President.

Gene Bader

As a Board of Control member for the past year and a half and a member of "Homecoming '67" I have tried to live up to the responsibilities of an elected representative and the behavior of his constituents, the student body.

Our institution continually tries to improve its image and stature by publicizing its accomplishments and achievements, and by helping to improve it. We must be aware of these things and have an opportunity to make them happen. I believe in the need for a renaissance and desires of the student body to be realized in the near future.

Harley Feldman

In the past three years at IIT I have held several positions, including Temporary Elections Commission Chairman of ITSA and Treasurer of the ICF Council. Through these experiences I have come to know many members of the class of '69 and to know them as the current draft situation and evaluation of job offers and their potential should be considered.

Important points that I should like to see happen are the following:

1. The need for a student government. I believe the need for a student government and the need for the class of '69 to have a voice in its formation and the need for a student government to be reorganized.

2. The importance of the student government's role in the organization of campus activities and the need for the student government to be reorganized.

3. The need for a more active student government. I believe the need for a more active student government and the need for the class of '69 to have a voice in its formation and the need for a student government to be reorganized.

4. The importance of the student government's role in the organization of campus activities and the need for the student government to be reorganized.

5. The need for a more active student government. I believe the need for a more active student government and the need for the class of '69 to have a voice in its formation and the need for a student government to be reorganized.

6. The importance of the student government's role in the organization of campus activities and the need for the student government to be reorganized.

7. The need for a more active student government. I believe the need for a more active student government and the need for the class of '69 to have a voice in its formation and the need for a student government to be reorganized.

8. The importance of the student government's role in the organization of campus activities and the need for the student government to be reorganized.

Junior President

Howard Horwitz

The class representatives you elected are on your campus. They bring your problems before the student government, the faculty, and the administration. Your class representatives, therefore, must be elected by a majority of the students, one who is willing to serve you and your problems. Your class representative will be your spokesman on the Illinois Tech Student Association Board of Control. He must be selected by the student government, the faculty, and the administration.

Mendel Yeho

The office of Junior Class President is an opportunity to serve our class and the entire student body.

Jerry Dodd

To be a class officer, one must be able to communicate effectively with the group he is to represent. I believe that the two personal friends of a class representative and the experiences of the group are necessary for an effective representative. I have had the opportunity to work with the student government in various capacities and I believe that these experiences are necessary for an effective representative.

Although I have held various offices, I am not the only person who has had experience in student activities. I have served in a class representation group for 4 years and I am a member of the student government. I have also been the chairman of the junior class and I am a member of the student government. I believe that these experiences are necessary for an effective representative.

We're holding the cards.

Get one. Rooms are now up to 20% off with a Sheraton Student I.D. card. How much depends on where you stay.

And the student I.D. card is free to begin with.

Send in the coupon. It's a good deal. And at

Sheraton Hotels & Motor Inns

155 hotels and Motor Inns in major cities

Through this experience I have learned much about the effectiveness of the class representative in handling the problems of the class. I believe that the class representative must have the ability to communicate effectively with the group he is to represent, and that this ability is necessary for an effective representative.

Senior Farewell

Saturday, May 11
6:30 p.m.
The Betterment Association has invited the candidates for the Class President for the Junior, Senior, and Sophomore classes. On the basis of interviews, we have made the following recommendations:

**Class President**
- Gene Bader
- Mendel Yohe
- Doris Hayashi

**Better Government Assn.**

**Fashion Show Co-eds**

Thursday, May 18, at noon in the HUB ballroom, the Recreation Area of the ASU will stage the first fashion show in the history of the Institute. The show will be from the "Ward" collection of the ASU's Ward department, and will be modeled by female students. A professional orchestra will provide background music.

For the event: $1.75 for both the lunch and show. They can be bought at the HUB stand. Sheldon Emery, supervisor of the Ward department, has asked that you publicize the event to the students on campus, and if possible, to cooperate by officiating during the lunch hour for the show.

The team is using this event as an experiment in test planning and carrying out an "ASU" Luncheon Series. Evaluations will be made on the support generated for this event, according to Chuck Griswold, student council president.

The Recreation Area and members of the committee that is planning this event are determined that the committee will not be a source of trouble. Each of the students attending the event will be female students, who will be responsible for the event, and all student personnel of the ASU staff.

Contains their new single release... Right Track...and Dot's got it!
This summer... why take your phone out when you can turn it off for less.

If you're leaving campus for the summer, Illinois Bell's "phone suspension" service may be just what you're looking for—and it may save you money, too.

You can have your present service "in" or "out" for as long as three months for just $4. That's less than reconnecting a different phone after vacation.

If your phone will be in the same location most of the summer, we'll turn it off when you leave and turn it back on when you return. While you're away we'll refer calls to another number if you wish, or tell them your service has been temporarily suspended at your request.

When you return in the fall, you can pick up your phone service where you left it in the summer—with the same phone, and more important, with the same phone number.

So before you leave for the summer, call your Service Representative at the Illinois Bell business office. (You'll find her number on the front pages of your directory.) Then, have a nice summer. We'll hold the phone until you come back.

Committee Formed to Investigate Benzeman Case, School Policy

Major topic of discussion at the TSTA meeting was the issue of the TSTA and student committee. May 8, the appointment of the committee comprised of faculty and students, the purpose of which will be to compile the investigation committee. The committee consists of John T. Smyth, thesis department; Professor Taggecurrent (Soc.), student committee members were members of the administration and faculty. The committee was formed to study the case and to recommend the best course of action to the Board of Control, the purpose of which was to inform the Board of student feelings on methods of improving the ITSA as a whole. Briefly, the report suggested that

the ITSA was in need of a more suitable organizational structure to aid it in the attainment of specific goals. The report also offered several specific suggestions for improving campus relations and campus facilities. The Board of Control accepted the report and adjourned without comment.

by Jim Farlow

This past Thursday evening, the Union Board presented their concert series, the last of the season. The event, held in the Union auditorium, attracted a large audience.

The concert began with the Union Band, followed by the student choir. The performance was well-received by the audience, and the event concluded with a lively Q&A session.

Near the end of the meeting, the Board of Control approved the budget for the upcoming academic year. The budget includes increased funding for student organizations and initiatives, as well as improvements to campus facilities.

In other news, the Board of Control also discussed plans for the upcoming academic year, including new courses and programs. The Board expressed its commitment to providing a high-quality education for all students.

Overall, the meeting was constructive and productive, with the Board working towards the betterment of the campus community.

**Hurlers Place Tech at 6-4**

by Jim Seiff

The IT baseball team now boasts a 6-4 record after winning 4 of their last 6 games. Tech has lost 3 out of their 4 losses by one run.

In its most recent IT split a doubleheader with Lotus College. Tech winning the first game 4-1, but dropping the second game 1-3. The Tech sweep last week saw Chicago State College twice 4-0 and 10-5. The Tech sweep is back after losing to St. Vincent Seminary 5-4 in the sit-down of the season and defeated them 4-1. Lotus College defeated Tech 5-4 on a strong third inning rally.

Tom Costello went the entire distance for Tech and got the win in the first game of the double header with Lotus. Tech scored all of their 4 runs in the third inning, sparked by Tom Williams’s triple.

The second game with Lotus was unbelievable that John Altenzio threw a one hitter and lost 3-1. Two walks, two errors and one single gave Lotus their 3 runs.

In the 4-2 shutout against Chicago State, Stu Mathewson pitched all 9 innings with only 1 base runner. The second game this year with Chicago State, Tech needed them with 10 runs on 14 hits. Leading the IT offensive was Tom Kricco, Tom Williams and Larry Sturm. Rick Klein got credit for the win posting 15 strikeouts.

Tom Costello pitched the entire game against Sisters and allowed but 4 hits.
