Socialist VP Candidate To Speak On Campus

An opportunity to hear the views of Paul Bouteil, Socialist Workers Party vice-presidential candidate in the 1968 election, will be offered Tuesday, April 2. The IIT Students for a Democratic Society is sponsoring the appearance.

Bouteil, a student, is immediate withdrawal of US troops from Vietnam and every other country in the world.

He also supports the right of black Americans to control their own schools, police their own neighborhoods, and run all the affairs of their communities.

"Black people must oppose and expose the whole range of racist politicians from George Wallace to Eugene McCarthy. We can not have any politicians that support police and programs that are implemented by this racist capitalist system.

"We must have all black unity: our own organizations, our own leaders, and our own independent party. We need a black party based on control and controlled by the black community—a party that daily fights for every means necessary for the needs of the black masses, at the ballot box, on the job.”

Paul Bouteil was an organizer of the Harlem Freedom Party in 1964 and a candidate for Congress. He is now the secretary of the Black United Action Front, which organized the Harlem convention in the April 15, 1967 mobilization against the war.

IIT students will be able to voice their political views in “Choice 68,” April 24. The ITSA Elections Commission will run the National Collegiate President’s Primary at Tech. The ballot includes fourteen presidential candidates, and questions concerning opinions toward government policies in Vietnam and federal spending.

Take to date, nearly 1000 college students with enrolments numbering over five million students, representing 75% of the total student electorate, have decided to participate in the ITSA election. Any student currently enrolled in an American college or university will be eligible to vote in the primary. This includes graduate, part-time, and foreign students, as well as those studying abroad in American branch universities.

The ballot was compiled by a Board of Directors composed of student leaders from colleges all over the US. The project is being handled by Time Magazine. The names include both self-declared candidates and men the board believed should be considered for the Presidency. The Democratic candidates listed are:

Lyonnel B. Johnson
Robert F. Kennedy
Eugene J. McCarthy

The following are the Republican candidates:

Mark O. Hatfield
John V. Lindsay
Richard M. Nixon
Charles M. Percy
Ronald W. Reagan
Nelson A. Rockefeller
George W. Romney
Harold E. Stassen

The Independent choices on the ballot are:

Fred Hladil (Socialist Workers)
Martin L. King
George C. Wallace
(American Independent)

Three referendum questions follow the Presidential candidates:

The first two refer to the country’s involvement in Vietnam.

Vote: Yes or No.

No

The third referendum questions follows the Presidential candidates:

Vote: Yes or No.

No

Calendar Changes To Be Considered

The IIT Calendar Committee, headed by Dennis Driey, has proposed a new schedule for the 1968-69 academic year. The school will be in session from September 16 to December 20. Christmas vacation and semester break will be combined into a 30-day vacation, and the spring semester will be extended to May 12.

The new plan involves a longer summer vacation, and classes will start on September 16.

Choice 68 Mock-Election To Be April 24

Choice 68 will be the first student election in which students will be able to make their presence felt on the political scene. Choice 68 will be the first real indication of the political views of college students, if they take the primary seriously.

Lack Of Communication Causes Stumbling Block In Security Resolutions

In light of this information gap as related to Bellett, “to gather together thought on the entire issue of security,” the Board members prepared a meeting to be held on the subject which would bring together the vice president and interested students and faculty members.

The meeting was held on a Thursday evening and was attended by almost all of the students and faculty members present. Bellett and Koch presented their arguments and were able to clear up some of the misunderstandings that had arisen due to the lack of communication.

New Academic Calendar Plan Merits Discussion and Approval

Plans for the revision of the academic calendar have been announced and a tentative schedule of the new academic year has been distributed to faculty, administration, and students. No formal proposal has been developed as yet, but the tentative plan which the Calendar Committee of the school has created, is receiving comment and criticism from many interested parties on campus.

The basis of the plan lies with the maintenance of two academic semesters, the first of which will end shortly before Christmas. This means that the Fall semester would begin about two weeks earlier in September. Following the ending of the first semester there would be a four week vacation beginning at Christmas, and lasting into the middle of January. The second semester would then begin, concluding sometime in the middle of May.

While this type of schedule is not new to IIT, it is now being discussed more fully and with more interest than before. It is pointed out that time and support are needed if the plan is to reach the proposed stage and be acted upon for final full acceptance.

The basic components of the plan are most favorable. The reaction among students and faculty at one of expected approval is favorable reaction warrants continued effort to probe the plan for future acceptance. All of the good points must be seized and the plan to stand on its merits. Approval of the plan would be most welcome by all of IIT. There, of course, would be many problems which will arise during the process of implementing the plan. All of these problems remain and now to make the new schedule desirable.

Any change of such proportions as this, will always create problems during the course of the changeover. While it is impossible to eliminate these difficulties, the ultimate outcome of the new receives more support, should not be overlooked and debated because of implementation difficulties.

Continued effort is needed to drive the complete situation and resulting consequences of such a plan. Such effort can only lead to a forthcoming of the expression of individual feelings which should result in the eventual approval of the new schedule.

LETTER POLICY
Letters to the editor on articles previously appearing in TECHNOLOGY NEWS are welcomed. Such letters must be typed (double spaced), signed, and written in good taste.

Letters should be limited to two hundred words. All letters will be printed, space permitting, but TECHNOLOGY NEWS reserves the right to edit any letter.

Announcements

LPL-ME Lecture
Dr. Christian Kirs, Psychophysiology and Director of the Sensory and Perceptual Laboratory, Bruch Medical Center, Cambridge, Massachusetts, will lecture on "Objective and Subjective Approaches to Perception: Especially Seeing." The lecture will be given in the Mechanical Engineering auditorium at 3pm on Monday, April 8, 1968.

ASCIE
There will be an ASCIE meeting Tuesday, April 2, in room 302 of the HUB at 12:15. Mr. Hal Iyengar, project engineer from Skidmore, Owings, and Merrill will present a talk and slide presentation on the design and construction of the John Hancock Center.

Still Unsolved

ITSA CRIME-STOP Telephone 3193 and ask for ITSA. At this number report all information pertinent to the incident and your name and where you may be reached for further information.

Through this number you may also be connected directly to the Chicago Police.

Report all incidents. This system can only benefit the residents of IIT if it is used.

UB Education
The Exhibits Committee of Union Board in conjunction with Galleria presents, "Baltic Contemporaries," a collection of works by Baltic contemporary artists in the HUB from March 27 through April 20.

WITT Contest
Anyone who filled out one of the cute little forms contained in the WITT program guide to enter the Radio 64 Name Dropper's Contest is eligible to win a free, one dollar gift certificate from Naple's.

However, the contest is now being run twice a week with some names being drawn at random from the current Tech Directory. So even if you didn't fill out any entry blank, you can still win by listening to WITT.

IIT Campus Security Situation
Over two weeks ago I presented a list of proposals concerning campus security. Since that time the Resident Student Life Committee has presented similar suggestions. ITSA and other special groups have also been urging changes in the present campus security situation.

Some action has been taken. This action is only a beginning. The addition of lights in the resident areas is a good start and the repairs on the fences surrounding the locked lots are commendable.

However, much is yet to be done, especially in the areas of "beeping-up" the Campus Police.

For this reason the following proposals have been adopted in Technology News, are being submitted for student, faculty and administrative consideration:

1. The over-all size of the campus police force must be increased.
2. The members, as well as the present members, of the campus police must be trained in the proper handling of crime prevention and policing activities. The campus police must also be instructed in the proper use and handling of firearms.
3. The administration must contact professional law enforcement or security consultants and obtain their services. These professionals must be permitted to observe and study the IIT security situation and their recommendations followed.

These are the plans that must be put in effect immediately.

Other suggestions that can be offered, that might improve campus security:
- Increase the number of police both in the police stations and on foot in the areas that are most heavily traveled by students.
- Immediate improvements in lighting in all campus residence areas.

The deadline for articles in TECHNOLOGY NEWS with the 7 pm on the Tuesday prior to publication.
Cash Awards Offered For LL & P Contest

The Department of Language, Literature, and Philosophy is sponsoring a contest in creative writing to award two categories of competition, and cash prizes for the winners in both.

The first category, for expository and argumentative essays, is open to full-time undergraduate students. Entries may be on any topic and of any length. Papers written for courses are acceptable.

The area of writing with cash awards of $125, $500, and $50 for the top three places.

Creative writing is open to all 117 students. Entries in this category may be plays, poems, or works of fiction of any length. Awards are $100 for first place, with $50 for second, and $25 each for honorable mentions.

Entry blanks and other information concerning the contest are available at the IL&K office, room 106. All entries must be there on or before Monday, May 10.

New Appointments Head Fund Drive

The ITT Alumni Campaign is rapidly gaining momentum with the naming of three division chairmen in Illinois and Connecticut.

The alumni campaign is part of an ITT development drive called "Investment in Tomorrow" in which more than $12 million has already been raised. Additional gifts are being sought through personal solicitation on a nationwide basis for further achievement of program objectives of the campaign.

Objectives of the campaign include faculty additions and salaries increase, undergraduate scholarships and graduate fellowships, equipment, and other program re-

Summer Employment for Engineers

A subsidiary of Proctor & Gamble will interview engineers one year from their final degree, either BS or MS in Engineering, Chemical Engineering, or MBA with technical BS.

TUESDAY, APRIL 9

Here's an opportunity to evaluate your technical skills and interests with one of the nation's largest chemical manufacturing companies. You'll gain firsthand information about careers opportunities in this industry and see yourself functioning in an actual industrial situation. After a brief orientation, you will be assigned a project or projects in the following fields:

- Production Management
- Plant Engineering
- Plant Industrial Engineering
- Plant Chemical Engineering

Each problem assigned to you will be in accordance with your particular level of training and will be an actual problem on which you must have an answer. You will be paid part of actual work you have put into the project and graduate students may be available to work with you.

Choice of three locations: Green Bay, Wisconsin; Chicago, Michigan; or Philadelphia, Pennsylvania (near Scranton).

MATRIX Management Trainee Program

This is a special one-week non-computer business simulation exercise for everyone in the summer program. You and other summer trainees in your plant will each simulate the position of a top manager of a hypothetical plant. After being briefed on your responsibilities, you make decisions affecting chemical pro-

Promotion Offered For College Students

Senor McCarthy was definitely a writer with college students in Chicago. We must look in Wisconsin this week to see if his appeal is as great as the path.

Mackintosh Appears at Meigs Field Press Conference

by John Harlow

On Wednesday afternoon, peace candidate Democratic Senator Eugene McCarthy addressed several thousand of spirited students at Chicago's Meigs Field. The Senator's appearance is expected to draw Chicago area student support to his all-out campaign for the primary in Wisconsin next week.

The Senator was greeted by thousands of spirited students, bearing "I dream of Genteel" and "spend your next birthday in the White House" placards. Prior to be the Senator's 52nd birthday, he was presented with two birthday cakes.

During subsequent halts in the exhilarated cheering and applause, the Senator was able to make brief comments. He spoke of the draft and suggested that there be a "deterrent on the basis of conscience." In reply to a recent statement by a democratic party spokesman that his nomination would cease in Hawaii, Senator McCarthy contended that his nomination "would more likely cause cheering in places like Madison, Minneapolis, and Chicago.

He drew cheers with declarations of "student power" and statements about closing the generation gap. Concerning the present remoteness of the White House or more precisely presidential policy, McCarthy said, "If I am elected I will take down the iron fence of the White House and open it up so everyone can come on the White House lawn." He concluded the Senator's address to the public, he held a press conference for representatives of high school and college newspapers. At that time, he expressed concern regarding the financial backing of his campaign, but reassured us he would make it to the California primary.

He praised student campaigners and said that "there never has been a college group as effective as in New Hampshire." He noted the high dropout rate of candidates after the primary there. He went on to say that "if we win in Wisconsin, we may lose two more candidates."

When questioned about the recent letter of his press secretary, the Senator commented in a moment of levity, "What's hard to find is a good driver for your car. If I had lost a driver, I would be distressed, but the loss of a press secretary is not serious."

How The U.S. Surrendered And Won The War
by Greg Cook

June Fourteenth

Another incident of Partition of Indochina slipped into the background during the fighting in Vietnam, particularly in the civil war in Laos. The main event was the ceasefire agreement signed between the Laotian government and the Pathet Lao forces in the 1962 Geneva Accords, which ended the Indochina War and recognized the independence of Laos.

June Eighteenth

After another flurry of political maneuvers in South Vietnam, the U.S. government announced a new policy of détente with North Vietnam. This was in response to the demands of the North Vietnamese government for a more comprehensive and lasting peace settlement.

Pettions for class officers, ITWA officers and "Man and Woman of the Year" may be obtained in the Dean of Students' Office.

Making headlines: The famous "Vietnam Veterans Against the War" (VVAW) movement has been gaining momentum, with protests and demonstrations across the country calling for an end to the war.

June Twenty-first

Vietnam Veterans Against the War (VVAW) protest outside the Pentagon. The movement is gaining strength, with protests becoming more frequent and widespread.

June Twenty-third

A new political newspaper, "New York Review," has been launched, focusing on the anti-war movement and the political landscape of the U.S.

The next week...

June Twenty-sixth

U.S. troops begin pulling out of Vietnam, marking a significant shift in the U.S. military strategy in the region. The withdrawal is seen as a victory for the anti-war movement, and it is expected to have a significant impact on the political and social landscape of the U.S. and the region.
"I was wrong about IBM. You can get into the mainstream here with a liberal arts degree."

"I used to think IBM was a place for engineers, scientists, and machines.

"But not for liberal arts graduates. And definitely not for American History majors, like me. (This is John Robohm, an IBM Marketing Representative specializing in banking.)

"Then I talked with an IBM interviewer. He explained that much of the work at IBM is solving problems. So if you have a logical mind, you could go into areas like programming or marketing. Both of which are in the heart of IBM's business.

"My job is helping banks use computers. Which isn't nearly as technical as it sounds. You deal with people a lot more than with machines.

"At first, the idea of sales appalled me. You know, you think of Willy Loman and so on. But marketing at IBM is entirely different. You're a problem solver. You have to come up with new solutions for every customer.

"I guess that's what makes the job so interesting. That and the level of people you deal with. I usually work directly with the president of the bank. You get a lot of responsibility in this job very soon after you start. And if you're good, your income goes along with it."

What John says covers only part of the IBM story. For more facts, visit your campus placement office. Or send an outline of your career interests and educational background to I. C. Pfieffer, IBM Corporation, Dept. C, 100 South Wacker Drive, Chicago, Illinois 60606. We're an equal opportunity employer.
Delts, Sigs and Phi Kaps Teams to Beat

by Nate Peppersardo

Expectation rises as the IF basketball league competition moves into the final six games. According to the games already played Alpha Sigma Phi, Delta Tau Delta and Phi Kappa Sigma seem to be the teams to watch in the play-offs.

On March 21, Delta Tau Delta defeated the Pi Kaps 65-35. The game, however, was forfeited in the second half when Pi Kaps Lee Giasson and Rick Klein, both varsity basketball players this year and alumni Jim Britt entered the game. Despite this the Deltas posted a 34-23 score in the second half.

Also on March 21, Sigma Phi Epsilon stopped Triangle by a score of 35-28. High scorer for the Sig Eps was Fred DeMaine coming thru with 15 points. Charles Kelly led Triangle’s scoring with 7 points.

One of the later games of the season was Thursday night, March 21 was the Alpha Epsilon Pi-Tau Epsilon Phi game. Alpha Epsilon Pi won this close contest in overtime when Sam Brilliant put in two free throws to make the score 20-18. Gerry Fein received high scoring honors with 15 points.

The highlight of the IF contest so far was the Sig-Phi Kapp game. Both houses have produced strong teams and the Sigs 44-40 victory does not necessarily forecast the outcome of the play-offs.

Jim Wilder and BobGotlieb were high scorer in the game with 16 points. Close behind him was Phi Kapp teammate Ken Hrubes netting 13 points.

In the first game last Tuesday night, the Sigs romped Alpha Epsilon Pi 56-36. Lee Solomony led the scoring for the Sigs with 9 points.

Gerry Fein turned in an outstanding performance, contributing 12 of AEPi’s 36 points.

In the second game on March 26, the Delta stopped Triangle cold by a score of 59-23. Rudy Breyley and Lee Caryer led the Delta scoring with 10 points apiece.

Joe Bellegarde and Tim Kendall both netted 10 points for the Delt.
