Dig The Dining Delights?
Tell It All To Tech News

by D. V. de Eada

Have you ever looked deeply into the ratifying wounds of your Tuesday 'Two Fish S'pecial and wondered — why? Have you ever been stung by inexplicable pangs while on the L or while trying to study and thought: "What a nightmare?" Have you ever felt depressed by such affections as "malnutrition"? Here's your long-awaited chance to express all the rage that's been building up in your life since you've started coming to — and eating at — Tech. (We're serious.) If you really want to make your feelings known, fill out the form below and send the provided answers, if you wish, and read it to Technology News through campus mail (VITB dorm room at 3:50 S. Federal, or stuff it under our door). Results will be published when available.

I consider the food
a) incredible
b) infidelible

c) inorganic
d) other.

The service is
a) exemplary
b) unprofessional at least

c) what service?
d) other.

The dining atmosphere is
a) conducive to great eating
b) conducive to the converse

c) conducive of malicious intent
d) other.

PAC Chosen; Const., HC Decided

The five persons selected by the ITSA Board of Control to sit on the President's Advisory Committee are: Mike Andrews, Mike Tompkins, Bob Kitzler, E. Michael Blake and Andrew Benenson. These five will join the Vice-President of ITSA, a representative of the Graduate Division, and a representative of Arts in the students on Dr. Rentia's committee.

In other business, the Board voted to ask the Administration for a 2% allocation from tuition for the student activities fee. This would replace the present system of $10 per semester per semester. Continuing on, a second reading of the proposed new Constitution for ITSA was held. The document, after revision, will come up for a final vote on November 1. It is anticipated that a student referendum on the Constitution will be held on November 18, 19, and 20.

The Homecoming Committee of ITSA announced that the decorations competition will be held Saturday, 6th and Sunday, 7th. The committee will be judged on a house by house, floor by floor basis, for the indoor category. The outdoor category will be judged by building. Decorations, to be judged on December 5, by the Homecoming Queen. Judging must not be put up before December 1. Trophies will be awarded in both categories. Decorations must be registered with Dena Mayes, 310 North Hall, 842-5539.

The next Board of Control meeting will be this Wednesday at 8:45 in the PUB.

Dormitories to Be Vacated?

Dear Students:

would you want to move all of YOUR stuff out into a front of snow?

Students in two of the residence halls for freshmen may find themselves in the unwelcome position of having to switch living quarters during the Christmas holidays, unless preliminary reports of large student holdovers in the dorms are not confirmed.

Because of some necessary cleaning and repairing procedures needed in East Hall and the Women's Dormitory, Administration and Housing Officers are considering a temporary assignment of some students for several days during the Christmas-season break. They estimated that over half the students in East Hall would remain in the dorm, which would probably interfere with the work planned for the period. The same problem exists for the Women's dorms because of the extreme difficulty of shifting the few people there into an alternative temporary residence.

Maintenance work in these two halls is difficult, since both are usually occupied during the entire year, unlike the other halls which become vacant in summer months. Added maintenance had to be scheduled for holidays when the short break between the summer session and the fall semester made extensive renovation impossible.

Hopefully, people of number of students occupying these dorms will be far greater than expected, but in any case the Housing authorities will try to work around those staying if possible, at least in East Hall. They will need additional help from their offices, the Department of Student Services, to move their personal belongings from one room to another, in any case.

The final decision on whether or not students will be transferred remains in the hands of the Department of Housing, but that decision will not be made until a better picture of the dorm population level through the break develops.

Meanwhile, the Housing Office awaits the final report and continues to make plans and commitments with several agencies, realizing that time is growing short. Time is also running short for the people in these two dorms, as they are not sure of their situation, and what will happen to them during this period.

Written Rules Proposals Leave Faculty Confused

by R. Michael Blake

The IIT Department heads have not responded to Academic Vice President Dr. Robert Fitt's offer to submit ideas for written rules. In a letter dated October 13, Dr. Fitt asked the IIT Department heads to propose regulations for a rules committee which would be accepted by the Dean of Students' office. If submitted to or before November 1.

But, of those Department chairs' suggestions for comments, not one said that he had taken advantage of the offer.

Much confusion has gathered around the rule-making episode in the written-rules campaign, originally proposed in a Technology News editorial (September 18) and since accepted by the Young People's Socialist League, Dr. Robert Fitt's Business and Economics, said that he didn't submit his own ideas because "something like this shouldn't be handled externally, just at the Department-head level, and final wording should be worked out by students, faculty, and administration working together.

Compounding the apparent communication problem, some chairman, such as Dr. Robert Fisher of Chemistry — mistrusted the
EDITORIALS

Second-Class Citizens?

The new constitution printed on Page 5 of this issue is a well thought-out, carefully put together document. It is the result of many hours of hard work, tightness, and compromise by a group of concerned students. These individuals are to be congratulated for the job they have done. Technology News wholeheartedly supports the proposed constitution. It is effective and is a sincere effort to end all章

Students Cheer As Gap Burns

Last week a fire erupted in a two-story dwelling on Indiana Avenue. The first knowledge I had of the fire was not from the sounds of fire engines, but from the cheers of the people I live with. "Gosh, there's a great fire in the gap!"

The scene I saw when I went outside turned my stomach. Hundreds of students were streaming out of their rooms running across Michigan Avenue. Comments ranged from, "Wow, this is really great," to "It's about time we had a fire around here." People pressed close as they could to the burning structure to get the best view possible. Firemen were hampered by the crowds.

Have we lost all our senses of humanity? It seems that the Gap area is...
"Five Easy Pieces" Reviewed; George Rates It "The Best"

by George Steinhke

This is going to be one of those really awful reviews because "Five Easy Pieces" is such a damn good movie. In fact, it probably is the best American film of the year. Or the past several years. And in plain language that means that a lot of people aren't going to like it. You see, it's not a nice, clear, simple story-type film; it doesn't have lots of violence or lots of sex (you know what), and so a lot of people just aren't going to like it.

But if you feel that there's more to a good movie than cusps and warm campfire smores all over the camera lens, for God's sake, miss this film.

You probably remember Jack Nicholson as the drunk lawyer from "Easy Rider," but believe me, this was just getting started in that film. In "Five Easy Pieces," Nicholson's dramatic ability just comes off the screen and wraps itself around you. He sits there in the theater grinning at this man up there, and you've seen so many people just like him. Just LIKE THAT, that you want to run up to the screen and bang him. The character is that real. Nicholson is a genius.

But now come the inevitable problems of trying to decide what the film is all about. Like "Easy Rider," the "message," is it one, so well blended into the fabric of the film that it seems so subtle that at first glance the film seems ambiguous.

I will say this much; it seems to be about this man who is having some trouble deciding what to do with his life. He has one great achievement, but the film never clearly identifies what that is. Anything you say about the film is suspect because it would be considered only by the film's original conception, not an interpretation I'm afraid.

If all this sounds like anybody who would make you cry, you're out of luck. This film is not generally interesting to anyone, and it certainly isn't widely interesting to anyone.

Checkers Trace Music Room Mess

by George Steinhke and Cathleen Saur

The dilemma of the music room, as described in last month's pseudo-editorial, has not yet been resolved. According to William Denis, Herman Hall Director, it was reported over the summer and it actually worked for a couple of days.

Birth Control

Planned Parenthood, Chicago Area, announces the opening of its Teen Scene. The new program offers rape sessions, pregnancy tests and contraceptive services in two locations to young people (men and women under 20).

The Teen Scene sessions and services start at 4 p.m. at the Planned Parenthood Clinic, 845 N. Washington Ave. Saturday mornings from 10 a.m., similar sessions will take place at Association Settlement House, 2120 West North Ave.

Disagreement with WITI ...

WITI, 640 AM 89.9 FM in Chicago, and particularly here on campus, want to see diagrams if you hear one of their editors and readers, "WITI, you may be able to do a robotic. Write down whatever student ideas you have and take 'em down to the WITI studios in the HUB basement—present your ideas to the students at the time of the broadcast by Ken Kastner, Editorial Director."
Pantomime Troupe at IIT

The Union Board of Illinois Institute of Technology will present the internationally-acclaimed three pantomime theatre at the Balloonade Theatre on Friday, November 6, 1970 at 8 pm in the Greer M. Hermann Hall auditorium, 3241 S. Federal St.

Currently on tour of US cities, the troupe will perform "Ballet, Ballet" with a group of 10 ballet dancers, acrobats and mime artists who have performed in 35 countries of Europe, South America, Africa and Asia.

The troupe has also appeared at festivals in Vienna, Amsterdam, Salzburg, Montreux, Rome, London, Berlin and Edinburgh.

Flucta is not only the star of the theatre on the Balloonade, he is the company's most versatile, choreographer and producer. He has been compared to Buster Keaton.

Clowns, Tigers, and Trapeze: Elements Of A Great Circus

by G. G. Groetschel

The circus is an acknowledged feature of American life. It first started in Europe as an entertainment form for people of all ages and classes. This year the greatest circus of them all, Ringling Brothers and Barnum & Bailey, celebrates its 100th anniversary.

Never having been to a circus before my thoughts about reviewing one were mixed. I was not sure that I would enjoy going as much as the circus at all. The performers proved me wrong in every way.

The show began with a group of people forever to be associated with circuses, the clowns. Clowns of all shapes and sizes, sad and happy, clumsy and cute, put all of them evoking laughter from inside the heart. All through the performance the clowns kept the crowds excited, never allowing anyone in the audience to become bored.

Why isn't a big company like General Electric doing more to clean up the environment?

How can you not be doing it? Even a company like General Electric is not under control—until its effects are reversed—no company can ever be doing "enough."

What follows is a list of things General Electric is doing to ease environmental problems. Some are new, some are old as twenty-five years.

Should we do more? Yes, of course. Every company should. These are among the more important ones. But day by day sees us take more steps in many directions.

> General Electric is working toward a process that will use bacteria to convert garbage into a high-protein food for cattle. One possible answer to the mounting garbage problem.

> Modern, pollution-free mass transit from General Electric is carrying more and more commuters into cities without their cars.

> GE pioneered the development of nuclear power plants. A nuclear plant makes electricity without making smoke. While there is still the problem of thermal effects, it's being tackled on a site-by-site basis and can be solved. But for now, increasing demands for power can be met without an increasing output of air pollution.

> GE has developed a waste treatment unit to significantly reduce the water pollution from ships and boats.

> We have been chosen by the federal government to solve the problem of jet-engine noise for the aviation industry. Our present jet is already quieter than those on the passenger planes of the Sikorsky, and yet it's nearly three times as powerful.

> GE designed and built an undersea habitat called "Teekitee." Several teams of scientists have lived in the habitat while studying coral reef ecology and ocean pollution.

> We're designing an earth-resources satellite which will be used for a worldwide survey of the oceans. A first step toward the ultimate control of water pollution.

> Our newest jet airplane engine, the DC-10, is designed to be smoke-free. Of course, there's more to jet exhaust than just smoke. And our goal is to have no smoke at all.

The complete combustion of many types of solid waste. Complete combustion drastically reduces the amount of leftover ash as well as virtually eliminating air pollutants.

The problems of the environment are many. And some of the solutions will be difficult and costly. But, as you can see, we're working on them.

Why are we running this ad?

We're running this ad, and others like it, to tell you the things General Electric is doing about the problems of man and his environment today.

The problems concern us because they concern you. We're a business and you are potential customers and employees.

But there's another, more important reason: These problems will affect the future of this country and planet. We have a stake in that future. As business people. And, simply, as people.

We invite your comments.

Please write to General Electric, 770 Lexington Ave., New York, N.Y. 10022.

Proposed Constitution

...ing the last three (3) weeks of the spring semester and shall serve for one year or until their successors have been duly elected.

b. The Assistant Treasurer shall be elected by the membership of ATS in the last three (3) weeks of every semester. He shall become Treasurer upon the election of a new Assistant Treasurer and shall serve until the election of another Assistant Treasurer.

C. DUTIES AND RESPONSIBILITIES

1. The executive council shall enforce or perform any act passed by the assembly.
2. It shall negotiate and act as a spokesman for ATS with the administration, the faculty, and outside agencies on matters which fall under the jurisdiction of ATS.
3. It shall direct and manage all matters which fall under the jurisdiction of ATS.
4. It shall initiate appointments that shall be confirmed by the assembly.
5. It shall investigate and render opinions upon any matter brought to it or initiated by it regarding the management of any student organization.
6. It shall submit a statement of student affairs report to the assembly on approximately Oct. 1, Dec. 1, Feb. 1, and Apr. 1 of each year stating its goals and progress since the last report.
7. The executive council may determine the rules and regulations of its proceedings.

E. QUORUM — A quorum shall be comprised of four (4) voting members.

VI. JUDICIAL — The assembly shall have the power to create a judicial system for ATS by electing the by-laws.

VII. ELIGIBILITY — A member of ATS is eligible for any office if he is able to complete the proposed term of office before graduation.

B. EXECUTIVE COUNCIL ON JUDICIAL

1. Any voting member may be recalled if a petition of twenty-five (25) of his constituents is submitted to the assembly. The assembly and his constituents shall be free to sign petitions for another assembly.

IX. VACANCIES

A. PRESIDENT — The order of succession to the presidency shall be: Vice-President, Treasurer, Secretary, and Assistant Treasurer. In the event of a vacancy in any office, the assembly shall convene in ten (10) days and by a majority vote of the assembly, elect a President-Designate to serve until a President is elected by the procedures established in IX (B).

B. VICE-PRESIDENT, SECRETARY, ASSISTANT TREASURER — In the event of a vacancy in the office of Vice-President, Secretary, or Assistant Treasurer, occurring at least six weeks before the end of the spring semester, the President shall call special elections of the membership of ATS within three (3) weeks to fill that vacancy.

C. TREASURER — In the event of a vacancy in the office of Treasurer during the first two months of the semester, the assembly shall elect a Treasurer by a majority vote; after the first two months, the Assistant Treasurer shall become Treasurer and shall serve until his term would have ended had the vacancy not occurred.

DEFINITION — The term vacancy refers to the resignation, incapacity to perform duties as determined by three-fifths of the assembly or the executive council of the credentials committee, or death.

XI. ADJUDICATION — The assembly shall have the power to create a judicial system for ATS by electing the by-laws.

XII. AMENDMENTS

A. CONSTITUTION — This constitution may be amended at any time by a two-thirds majority vote of dies ATS members voting or, in the event of a special election, by the credentials committee.

B. VICE-PRESIDENT — The Vice-President shall act as Acting President in the absence of the President. He shall be an ex-officio member of all committees and shall be an ex-officio member of the credentials committee. He shall perform such duties as pertain to the office of Vice-President.

C. TREASURER — The Treasurer shall administer the monies of ATS with the concurrence of the assembly. He shall keep the financial records of ATS in an appropriate manner and present a report at the close of each semester. He shall be chair of the financial committee. He shall serve as chairman of the finance committee. He shall serve as chairman of the credentials committee.

D. SECRETARY — The Secretary shall keep written minutes of all meetings of the assembly and the executive council. He shall be custodian of all the records and documents of ATS including those of committees. He shall serve as the official correspondent of ATS. He shall serve as chairman of the Credentials Committee.

E. ASSISTANT TREASURER — The Assistant Treasurer shall assist the Treasurer in his duties and lead the duties and responsibilities of the Treasurer.

F. BUDGET — The budget shall be submitted for the approval of the Assembly for the ensuing fiscal year.

G. FISCAL YEAR — The fiscal year of ATS shall be the same as that of the University.

H. RULES OF ORDER — This organization shall conduct all business according to Roberts' Rules of Order (Revised) except where otherwise provided in this constitution and by-laws.

I. DISTRIBUTION — The constitution and by-laws of ATS shall be published in an appropriate manner.

J. PUBLICATION — The by-laws may be amended at any time by a two-thirds majority vote of ATS members voting or in the event of a special election, by the credentials committee.
Introducing the fastest ladies' shaver in the whole wide world.

You know there's truly little laziness showing? Well, know that, because the lady beloved, Mary, next to you, is the world's fastest ladies' shaver. This is the biggest shaving tool that all the ladies' shaving is done. And, an extensive shaving tool for home and office that's easy to use and clean. Which means you can even shave your legs and feet and even more beautifully than before with only a flip of the shaver in the world. The new Lady Morrador is a beautiful poppy red with a strap in a lovely black case. And that makes the latest purchase perfect for every wife in the whole world.

Big Brothers Seek Help
by John Wagner

The Volunteer Brothers is an organization which has been recently structured with many points or goals in mind. The main goal of this body is to facilitate and encourage a better understanding and communication between the IIT community and the community which surrounds the school. The means by which we hope to accomplish this is not by large lectures but rather through a more personal level.

Our hope is that students on campus will meet many of the underprivileged and neglected boys that make up such a large portion of the surrounding community at a party sponsored by the Volunteer Brothers.

The idea is just to make friends with these kids, gradually deciding which person he would like to have as his little brother. From there on we hope that the big brother will provide for the most part on his own, trying to establish a true brotherly relationship.

The boys for this program have been contacted by the Correctional Service Division of the Department of Human Resources, a city-run organization. The kids range in age from six to fifteen. They are made up partly of police "truant offenders" (usually this means they have committed a "crime" such as violation of curfew or disturbing the peace), and for the most part are children who have little or no male guidance, and certainly have an extremely limited access to recreational facilities.

We hope that this big-brother—little brother relationship will help to prevent neglected kids who simply have nowhere to spend their leisure time, and who have very often problems at home, from turning to the wrong type of guidance, such as gangs, as an emotional outlet. We also hope that the big brother as he gets to know his little brother better, by taking him downtown, playing catch with him or just talking on the phone, he will get a better understanding of the life in such a different environment and the little brother will likewise see the world outside his own.

On Nov. 6, we will have a basketball picnic for all prospective big brothers and little brothers. After that, those invited to the free lunch, and the basketball and swimming which will follow, will be held in the center of the quadrangle at 12 and will last until about 4. No obligations to join is necessary.

On Nov. 20, 21, and 22 there will be a free camping trip for the big and little brothers. This will be held at George Williams' College Camp in Lake Geneva, Wisconsin. Attending the three-day camp will be student and staff representatives from colleges and universities in Wisconsin, Upper Michigan, and the Chicago area. Over 200 delegates are expected.

The purpose of the conference is threefold. The Union Board members of IIT feel that there is much to be gained through meeting with union representatives from other colleges. Conferences such as this enable us to put on better, more original programs. Thus, one of the purposes of the conference is to promote communication between schools through the use of displays and meeting in small groups.

Second, Union Board feels that campus today are undergoing change. What, then, should be the role of the Union? Should it be in the vanguard when it comes to new reformations, or should it continue along the present path and deal simply with social activities. Speaking at the conference in connection with this question will be Illinois Attorney General William F. Scott, and Dr. Ernest Smigias, Assistant Chancellor at the University of Wisconsin at Milwaukee. Dr. Smigias was the go-between when several groups accepted the Union at UWM, and was instrumental in effecting a settlement between the administration and the divisions.

Third, we are interested in learning how to improve our existing programs. The third aspect of the conference will be seminars headed by experts in the field of organizing artists, promotion, films, coffeehouses, and many more areas. These seminars will be available to attendees on November 13, 14, and 15.

The Union Board decided to forward the following resolution to the new board:

Resolved, that a committee of four be appointed to learn more about the current activities of the American Union, and to make recommendations to the Union Board of the Illinois Institute of Technology for the development of similar activities on our campus.

Weisman and Glancy — Deans?

by Harvey Sendels

The IIT cross-country team will continue their 1970 season tomorrow, when they meet Northeastern Illinois State at 11 a.m. The dual meet will be held 25 miles west of St. Paul College in Lisle, III. St. Procopius garnered 25 points, to edge out IIT by a scant seven points. Northeastern Illinois finished a distant third, with 71 points. In the single meet results, the Hawks and St. Procopius both easily defeated Northeastern Illinois, and IIT was beaten by the host club, by a score of 27-33.

The Hawks proved once again that they have three of the top small college cross-country men in the region. IIT got superb efforts from Waltz Sager, Bob Iveson, and Larry Wills, who finished first, third, and fifth, respectively. Sager's finish was the first of a series that the Hawks have garnered this year. He continued his amazing running for the Hawks, as he broke loose on a time of 21:49 on the four-mile course. Iveson finished third, and was defeated at 22:11. The Hawks' other veteran runner, Wills, continued his recent fine form, as he finished a strong fifth, in a time of 23:12. St. Procopius broke up the Tougher down with John Honick, finishing second, and Kevin Kriebes coming home fourth. The home club was the meet however, on the strength of their third, fourth, and fifth runners.

On Tuesday, November 3, Parr Hall Association continued its winning streak as it defeated MCGU 26-0. Quarterback Keith Enge ran for the first Parr Hall touchdown, and later in the half, right-end Ken Butler scored on a pass play.

In the second half, line-end Rich O'Brien dominated the game by catching two scoring passes. Center Chuck Johnson caught a pass from back-up quarterback George O'Keefe to tally an extra point.

IM tournaments are fast approaching and Parr Hall Association is a force with which to be reckoned. In other IM action: Versus 5, Koehnke Gang 6. If touchback playoffs are now underway, Randy Roberts complete wrap-up of the playoffs will appear in next week's issue of TN.
