ELECT FOUR MEN AS TRUSTEES ON INSTITUTE BOARD

SELECTED IN A CONVENTION HELD AT THE ARMOUR INSTITUTE OF TECHNOLOGY

Men Are Connected with Industry in Illinois

SEVERAL ARE LAWYERS

As a testament to the profession of the Development Plan for new men have been elected to the Board of Trustees of Armour Institute. The new trustees, fully informed in the convention of engineering and industry as outlined by the plan of Dr. Henry Morton, Russell W. Wallace, and W. P. Winterer, and Charles W. Lillie Jr., have been selected and are now connected with the professional society. Russell W. Wallace is a graduate of Armour Institute, and has been connected with the American Institute of Chemical Engineers. He is a member of American Chemical Society and Chicago Patent Law Association.

J. J. MANN ELECTED AS NEW EDITOR FOR YEAR BOOK

In addition, J. J. Mann has been appointed as the new editor of the Year Book for the coming year. Dr. Mann was graduated from Armour Institute in 1915 and has been connected with the professional society.

Business Meeting at F.P.E. S. Held Friday

A short business meeting of the Students Engineering Society was held last Friday in the Armour Memorial Hall. The meeting was attended by about five students from different schools.

A.I.E.E. Examinations

The American Institute of Electrical Engineers (AIEEE) has announced that the examinations for the coming year will be held on June 15th. The examinations will be held in the city of Chicago.

Civil Inspection Trip Held Last Wednesday

This week, May 11th, was a full day of inspection and surveying for the civil engineers. The group, riding in private cars, reached the city limits at 9:30 a.m., having left Chicago at 8:30 a.m. The trip was sponsored by Armour Institute of Technology.

ELECT W. E. OFFICERS

The American Society of Civil Engineering (ASCE) held an election for officers last Wednesday. President R. E. Horton was selected as the new president. The next meeting of the officers will be held on May 21st.

Riflemen Down Humboldt Park

In spite of the efforts of the Armour Institute Rifle Club to outpace the rival club from Humboldt Park, the Armour team was defeated 14-13. Although the Armour team was not as successful as expected, it is still considered one of the best marksmanship teams in the city.

ARMOUR TECH NEWS

Class of ’97 Will
Hold 25th Anniversary
Beginning Friday, May 21, the class of 1995 will hold a three-day reunion to commemorate their twenty-fifth anniversary. The event will include a dinner on Friday evening, a tour of the Armour Institute campus on Saturday, and a farewell dinner on Sunday night.

LIFE OF THE PARTY
I’ve always been a life of the party. Although I truly don’t know why.

Strict Sanitation

What gets your goat? What makes you sweat? What makes you lose sleep?

The Slipstick

“Just do it!” is the slogan of the Slipstick, a new fitness equipment inspired by the latest technology.

And When He Holds My Hand

The moment when I realized my heart skipped a beat.

During the song, the Slipstick was featured, highlighting its benefits and features.

Present Gibbs Award

At A. C. S. Meeting

The present Gibbs Award is announced for outstanding contributions to the field.

PHI KAPPA SIGMA

The second Annual Alumni Banquet was held last Friday evening, May 7, at the Chicago Athletic Association. A large turnout of alumni and friends attended the event.

Fraternity Notes

The final meeting of the year was held last Friday night.

Phi Pi Phi

Phi Pi Phi Club has been selected for the World’s Championship Scholarship at the State University.

RHO DELTA RHO

Rho Delta Rho Club held its Spring Banquet last Friday evening.

STUDENT'S WORK WILL BE EXHIBITED AT OPEN HOUSE NIGHT

(Continued from page 3)

The Department of Mechanical Engineering will present a large collection of student projects on display in the Student Center.

Architects Inspect World Fair Buildings

On Tuesday, May 17, the architectural buildings of the World's Fair, accompanied by Professor William, and Robert, inspected the World's Fair's buildings. These buildings are being serviced to give the public a look at their architectural beauty. The inspection took place at the Hall of Science, where they inspected the various buildings and the major attractions of the fair. The inspection was conducted with a view to giving the public a better understanding of the architectural beauty of the fair. The inspection included visits to the various buildings and the major attractions of the fair.
DO YOU INHALE?

A frank discussion at last on a subject that has long been “taboo”

LET sleeping dogs lie? So said the cigar-toting Sage who first wrote "Sleeping dogs lie"—but not because a cigar does an impressive job of keeping dogs away from the master. "Sleeping dogs lie" is a phrase that has been around for centuries, and it continues to be used today. But what exactly does it mean? And why is it such an enduring metaphor?

The phrase "sleeping dog" refers to something that is dormant or inactive. In the case of a sleeping dog, it means that the dog is resting and not likely to act aggressively. This is why the phrase is often used to suggest that a situation or problem is not currently active and therefore not something to worry about.

The phrase "sleeping dog lie" was first used in the 16th century by the English playwright and poet William Shakespeare. He used the phrase in his play "Othello," where it appears in the following line: "Othello, if thou dost love me, let me hear thee say so, or I'll sleep and dream that thou dost love me if thou lie." This line is often interpreted as meaning that if Othello does not say "I love you," then it is just a dream.

Since then, the phrase has been used in various contexts to suggest that a situation or problem is not currently active and therefore not something to worry about. It has also been used to suggest that a person is lying or not telling the truth about something.

The phrase "sleeping dog lie" has become a popular phrase in recent years, especially in advertising. It is often used in campaigns to encourage people to buy a product or service, or to promote a cause or idea. For example, a company might say "Sleeping dog lie" to encourage people to buy their new mattress, or a political candidate might use the phrase to suggest that an opponent is lying about their policies.

In conclusion, the phrase "sleeping dog lie" has been around for centuries and continues to be used today. It is a powerful metaphor that suggests that something is not currently active and therefore not something to worry about. Whether it is used in a political campaign or an advertising campaign, it is a phrase that is sure to catch the attention of anyone who hears it.
