THE SLIPSTICK

The Stick to the Slipstick, at the Speed of Light and at Ease

WE RATE

We are by far the best in the field of the Slipstick, which is not surprising, as our engineers and sales staff are chosen from the best in the business. Our Slipstic is a superior product, designed to meet the needs of both professional and amateur use.

HISTORICAL NOTE

The history of the slipstick is one of the most fascinating chapters in the history of the Slipstick. It all began when...

SOUND BELL TELEPHONE

Show Talking Machines of Floating Power

On Friday, March 18, under the auspices of the Board of Directors of the Union of Chicago, a special meeting of the Telephone Department of the Illinois Federation of the Telephone Department of the Illinois Federation was held in the Assembly Hall.

CONTEST FOR STUDENTS

A nationwide contest is being held to encourage students in solving the problem of the Slipstick. The prize for the best solution is a personal appearance with the Slipstick.
Students Amazed at Demonstration of Audible Light

Words ranging from the bases around a distant station to a near by location is a new development that has been achieved in a recent experiment with the communications department of the University of Illinois. The experiment has been under way for some time, and the results have been most surprising.

In the past, communications have been limited to visual signals, such as lights and flags. However, the new development allows for the transmission of words, which can be heard at a distance.

New Department Is Established

L. O. Sanderson, the director of the communications department, stated that the subject of the experiment is a new and important field of research, and that it has the potential to revolutionize the way we communicate.
