Spring Thing Quite A Wing Ding: For Fall

by Dan Henle

Last weekend Union Board sponsored Spring Thing, three days of activities, including the 3rd Annual Tricycle Race.

Last Friday's event was Das Grosse Oktoberfest, basically a beer drinking festival. Soft drinks, potato chips and pretzels were also provided. For late comers to the feast one was immediately struck by the high humidity and smoke in the air and slime on the floor. While people drank, ate and danced around, the band, "Your Father's Mustache," played such favorites as "Mame," "Roll out da barrel," "The Hokey Pokey," "Sweet Georgia Brown" and "Harrigan."

The combination of banjo, tuba, trombone and piano was perfect for those songs and students were quick to participate by clapping, stomping, singing or dancing. The favorite mode of dancing was to put your arm around the shoulders of the two people next to you, to hop and to kick. It all seemed to prove the motto of the band that "the time of your life is right under your nose."

On Saturday the 3rd IIT Intercollegiate Invitational Tricycle Race was run. Twenty-five teams were entered in the race including teams from Indiana and Wisconsin. A new feature of the race was a modified trike sponsored by 7-Up. As in the past the regular tricycles were given to a charitable organization after the race.

The race itself was held just to the east of the HUB. Riders cycled north on the HUB fire lane, around the AM building, around the open space and back to Probation Rock for 1 lap. The entire field finished the 12 lap race in under 45 minutes. The first team finished in just over 24 minutes.

The winners were as follows:

Men's:
1st—Chinese Students Association Team A
2nd—Dope Pedalers
3rd—Dork Squad

Women's:
1st—Wesley School of Nursing
2nd—IIT Women's Dorm

Mixed:
1st—Extruders
2nd—Newman Club
3rd—Illinois Medical School

Modified:
1st—C.I.A.
2nd—Surg City Pooters
3rd—Radical I

Saturday evening "The Ides of March" played. Included in their repertoire were their famous songs, "L.A. Goodbye" and "Vehicle." They also played a version of "Elanor Rigby" which they dedicated to Janis Joplin and Jimmy Hendrix.

The audience particularly enjoyed an analysis, by the lead singer, of teeny bopper bubble gum music. He would give a characteristic of the music and then illustrate his point with a song. The terms he used to describe the music were "insipid," "operatic" and "suggestive." The audience joined in quite often in this section of the program.

The WIIT Hopscotch Tournament rounded out the "Spring Thing" weekend. Seventeen contestants participated and each got their choice of a record after the tournament. The winner was determined in three rounds of competition. Four sets of hopscotch squares helped facilitate the tournament. In the final rounds the winner had to reach Sky Blue. The final round pitted a man with taped keys as a thrower and a man with a stone from New Jersey. (Yes, the stone was from New Jersey.)

Greg Krook, the man with the stone from New Jersey, won the $20 first prize. Limus Long won 2nd prize.

A few scenes from last weekend of festivities, which included the WIIT Hopscotch Tournament and the 3rd Annual IIT Tricycle Race.

Letters: Readers Reply to “Love it or Leave it”

(Note: There will be no editorial this week because of the volume of letters received. We welcome the opportunity to step aside and let the students have their say.)

To the Editor:

The Campus Police provided the most inefficient aid at the scene of an accident on October 14 on State and 31st at 8 am. A vehicle plowed into the rear of a parked Volkswagen which spun, struck its owner who was standing beside it, and then hit a pole while striking the rear end of a Pinto parked in front of it.

The Pinto began rolling and struck a tree in the median of State. I called the campus operator immediately. She connected me with the campus police. I informed him of the situation and asked for an ambulance for the owner of the Volkswagen who appeared to be in shock. He said he would dispatch the necessary help immediately.

10 minutes later a campus police car inadvertently saw the accident while cruising in the opposite direction on State. He waited a light and then lethargically pulled up to the accident. He called for an ambulance. Another 5 to 10 minutes later the ambulance arrived. The ambulance crew made no real attempt at efficiency either. If the victim had been bleeding, he would have bled to death by the time the ambulance arrived.

A Witness
(Name withheld)

There will not be a TN staff meeting this week; everybody brought their stories in on time and the evening staffers came through!

To the administrators,

Just to let you know how some of the students feel, we are very much dissatisfied and unhappy about the situations here; and our main concern now is indeed how to “leave” this place.
(Signed by) Alex Garcia
Charles Koons
Wah Woon Lau
J. Lo
Richard Tin

To the administrator who stated, “If he didn’t like it, he could leave.”

Upon noticing this statement I was instantly reminded of a story about a son, who when sincerely telling his father about his home and was wishing to help settle the family conflicts, was rewarded, however, by “IF YOU DON’T LIKE IT HERE, WHY DON’T YOU GET THE HELL OUT OF HERE?”

Wondering if there is any comment about the story,

L.C. Tin

Dear Mr. Daruszka:

Ref: Mr. Samuel’s letter of last week. I agree. Technology News has done a fine job, considering the alleged administration’s hassles and also considering that there is no news (is that good news?).

While you may not command the respect of newspapers at other schools, you are certainly appreciated more than you realize. Therefore, I request that you do not resign but that you stay on and, maybe next semester, you’ll have a magazine.

One definite improvement that I must comment on is your cartoons. Those “Disagreeable Mort” pictures were insane, ridiculous, and an insult to the readers’ intelligence. Whoever authored these should be done away with. However, the present cartoonist is much better. But, he’s no match for the cartoonist that you had last year. To satisfy my curiosity, could you tell me what last year’s cartoonist’s name was, why he isn’t here this semester, and if there’s any chance of getting him back on the staff next semester?

In the meantime, keep up the good work and, please answer my questions. Thank you.

Jack Casady

There were two people who did cartoons: Ken Crenshaw and Dave Daruszka. Ken has transferred to another school and Dave was too busy playing Editor to do them. Thanks for the compliments.

Sincerely,

Peter A. Lewis

Dear Editor,

In reference to your front page article appearing in last week’s issue telling of the student-administration Vice-President’s luncheon, I would like the administrator who suggested that students should leave Tech if they do not like it to identify himself. His is certainly a childish attitude to take, unfortunately typical of many of the responses we get from the administration.

To administration seems afraid of student suggestions, though they will state just the contrary. It is important to remember that much of the school’s reputation lies in the quality of its graduates and the facts they tell about the Institute. I am sorry to see that it is still been impossible for students and administrative officials to work together for the common good. This is partly the fault of the students for their prevailing mood of apathy is among the most unfortunate of traits. But maybe the Archie Bunkers of Main Building and Perlstein Hall should wake up and realize that the students are, perhaps, an important part of IT.

I look forward next week to an explanation by the above-mentioned administrator to clarify his views on dissatisfied students.

Sincerely,

Peter A. Lewis

Deadline for all articles, announcements and personal is 9 pm on Tuesday before Friday publication.
This past week saw the formation of a new representative organization at IIT — the Commuters' and Townsmen's Association (CTA). The commuters are probably the most neglected, ignored, passed-over group on campus. The reason for this is that the average commuter comes to IIT for classes and leaves without experiencing much of what goes on. CTA was formed to remedy this situation.

The purpose of the organization as stated in its constitution is "to promote and stimulate commuter representation in campus life and to serve as a nucleus for commuter involvement in campus affairs." In other words CTA was organized (1) to see that commuters are properly represented in student government and (2) to serve as spokesman and center of organization for commuter involvement in campus life at IIT.

All IIT full time students (10 credit hours or more) who do not live either in the dorms or fraternities on campus automatically belong to CTA. Every member of CTA (that is, all commuters) are welcomed to take active part in CTA by coming to its senate meetings. Each commuter who comes to the meeting will automatically become a voting member of the governing body of CTA, the senate, merely by being present.

Already CTA is actively involved in the placement of commuters on the new Communications Board (there is a seat on it specifically designated for a commuter), Union Board, integral President's Advisory Committee, and ATS. CTA is also forming a commuter football, baseball, or anything else team for competition in school sports. Information on any or all these can be secured by calling either of the CTA Co-Chairmen listed below or by writing to:

Commuters' and Townsmen's Assn.
APO Mailroom
3124 South Federal St.
Chicago, Ill. 60616

CTA was conceived by Tech commuters who were just plain fed up with belonging to the great ignored. The dorms have IDC, the fraternities have IFC, and now the commuters are represented, too, by CTA. Dean C. E. Gebhart, Assistant Dean of Students, actively took part in the formation and recognition of CTA by the school. As a matter of fact, there is only one thing CTA needs in order to insure its position here as the voice of the commuters at Tech and that is active members. The first meeting of CTA will be held on Thursday, October 28, 1971, at 12:30 pm in the HUB conference room on the Mezzanine, Room 303. Attendance at the first meeting of CTA will be an indication of this and it cannot be emphasized enough that any commuter who has any gripes or who wants to have a voice in life at IIT, should come and make himself known.

Cross Country and Intramural Football

(Continued from page 8)

joyed running because it gave him a chance "to interact with different people." Ivarson noted that via running you can "learn about yourself to make yourself better, both mentally and physically." Obviously, a thing that, in four years, Gerry Wilks and Bob Ivarson have done to perfection.

The cross-country team record as a whole is nothing to get high over, but the big day as far as the harriers are concerned was Oct. 1. The Techhawks won both ends of the meet at Lake Forest, getting good depth. The Hawks nudged Northeastern Ill. 27-28, and beat host Lake Forest 25-30. Gerry Wilks and Bob Ivarson ran 3-4, with all 5 scorers finishing in the top 12. This is depth.

On Oct. 5, IIT dropped both sides of a triangular meet to Illinois Benedictine and Concordia at the latter school. Only Wilks and Ivarson, in a dead heat for fourth, could crack the first dozen finishers.

Things were pretty ordinary on Oct. 9, when the Hawks placed eighth out of 13 schools in the 9th Rockford Invitational. Again, Wilks and Ivarson came in with IIT's only good times. Gerry finished 10th, in 23:15, and Bob ran 12th, in 23:19.

Notes: The IIT basketball team has begun practice. The prospects point to an exciting year, with a chance of approaching last year's great 19-6 record. Practice times for the team at Arthur Keating Hall are: Mon.-Wed.-Fri.: 4-6 pm; Tues.-Thurs.: 12 to 2 pm.

Personal to the IIT Hockey club organizers: Please drop me a line with all your particulars. Hockey is a great sport, and let's all make a concerted effort to get a team together.

IM Report: The intramural tennis tournament is a double elimination event. This means that it takes 2 losses to be knocked out of the tourney. Winners and losers from the first round go into respective brackets to battle it out. Here is a partial list of first round winners: Rick Gordon, Andrei Umek, Pete Wendt, Doug Geisler, Dick Podlesnik, Bill Schoen, Don Burman, Bud Ward, and Bill Kozak. Pairings and dates are posted in the Keating Hall office.

Football: The touchback competition is in the thick of the regular season. Consult the Keating Hall bulletin board for the remaining schedule. Here are the standings as of Oct. 14:

Reuven Shares Stories In Chapel

“Reuven, can you tell us a story about love?” “Have I told you a story yet that was not about love?”

Reuven Gold — professional storyteller, possessor of a warm and enchanting personality, 38-year-old composite of childish exuberance and ageless wisdom — will return to IIT this Sunday, October 24. Reuven will be telling his stories at the United Campus Ministry’s Sunday Night Program, from 8 to 11 pm.

In his recent appearance at IIT, Reuven was the featured “speaker” at the weekly Technology and Human Values Forum. Thirty to forty students and faculty had gathered, expecting to hear

Serve In U.S. And Elsewhere

There will be an ACTION representative (Peace Corps/Vista) on campus at IIT October 25 and 26 to talk to interested individuals and students about opportunities for both Peace Corps service overseas and Vista service in the United States.

The representative, Carol Westerlund (Returned Volunteer in Teacher Training in Science in the Philippines) will be available in the placement office.

According to the representative, ACTION was created on July 1, 1971 as a new agency to coordinate federal volunteer programs, specifically PEACE CORPS and VISTA, to facilitate the administration of both as well as to expand the opportunities for individuals interested in joining.

Peace Corps has many requests from developing countries for individuals with academic backgrounds in Math and Science, Education, Business, Engineering, Urban Planning etc. In addition, Peace Corps will be looking for more skilled tradesmen, auto mechanics and other persons who possess various technical skills. Vista has great need for lawyers, nurses, architects, and individuals with business backgrounds.

Presently ACTION: Peace Corps/Vista has about 12,000 Volunteers serving in 56 developing countries in Asia, Africa, South and Central America and in the United States.

For further information either contact the representative while on campus October 25 and 26 or contact Mr. William Smith, Room 223 Perlstein Hall.

Reuven speak on “Is There Intelligent Life on Earth?” He “tricked” them, he joked. Reuven neither speaks nor lectures, but simply relates stories, generally spiritual or philosophical, of Hasidic or Zen origins.

Zero Makes Zilch

by Noell Chatland

I have stifled this scream for just too long, the tears I now have are not for wrong.

I have been branded and used, and hated and bled — its just so sad.

Has it happened to you? Do you know dig what I mean?

Egotistical players have played a bad scene.

When my life flashed before me I could see what I’d done,

losing the race before it’d begun.

I’m not too much wiser, or rich and have land,

But, my brothers and sisters, I now understand.

Something of a mystic himself, Reuven can delight those who listen to his tales and enrapture those who will share in his feelings.

PLACEMENT OFFICE

SENIORS SIGN UP FOR INTERVIEW
Cross-Country’s Two Anchormen Carry Team

by Harvey Schultz

This has not been a vintage year for the IIT cross-country team. Coach John Mathys had hoped to have a solid, balanced club, but it has not turned out that way. The weight of the team has fallen on the shoulders of the team’s two veterans, and they have responded magnificently, bringing the Techhawks up to a measure of respectability.

This is the fourth and last year on the varsity X-C team for both Bob Ivarson and Gerry Wilks. Their achievements could be measured and spitted out statistically: they have been top scorers for the Hawks; they have literally carried the younger members of this year’s team by placing at or near the top in every meet IIT has run in. But more importantly, they have been the heart of the IIT harriers. Their hard work and dedication has been the welcome base that Coach Mathys has had to work with in order to mold the IIT team.

Gerry Wilks graduated from Grant Community High School in Fox Lake, III. His non-athletic activities here at Tech include a hitch in AFROTC, and majoring in Metallurgical Engineering. When he graduates in May, Gerry faces four more years in the Air Force. After that? “I want to do research to better man’s environment.” Gerry says that the top highlights of his collegiate career were his fifth place in the 1969 Rockford Invitational, and his 10th place finish this year in the same meet.

Proviso East graduate Bob Ivarson is a civil engineering major and hopes to go to graduate school, if anyone will take me.” Bob has gotten his biggest thrill out of his performances in small meets, when he has come up with especially good times.

Both are married, thus normal school responsibilities are multiplied, yet both still religiously run in practice and in meets. Why? “I wouldn’t know what to do if I didn’t run,” said Ivarson. “I’ve competed for eight years now, and to go through a season without it (running), would leave me empty.” Wilks agreed, and then took a different tack. “It’s a different kind of competition,” he said, “It takes a lot of guts to run four miles at race pace.”

Both athletes lamented the fact that IIT is not conducive to an athletic program. Ivarson noted that he became a member of the cross-country team via the Athletic Department orientation-week meeting. He also noted that running depends on time to work on it. Since, unlike other schools, athletes’ schedules are not arranged for practice times, it takes more devotion for an IIT runner to succeed. Wilks and Ivarson have shown this kind of devotion for four years.

What has made all this worthwhile?

Tech’s New Athletic Director

by Harvey Schultz

This year, Edward W. Glancy embark on a big job: his first year as Athletic Director at IIT. The 53-year-old ex-Navy officer and professional athlete comes to the job with 24 years of service to IIT as basketball and baseball coach as well as intramural director.

In 1942, Ed Glancy was firmly established as a successful high school athletic coach. It was then that Naval Air Corps service interrupted his coaching career. Glancy saw subsequent action in such historic campaigns as Iwo Jima and Okinawa. His initial contact with IIT came in 1944 when he was ordered to duty here for several months with the ROTC unit. He returned to high school coaching upon release from the service and put in another one year stint prior to coming to IIT in 1947.

Coach Glancy served his athletic apprenticeship in New York City. As a member of the Manhattan College basketball team in 1938, he received recognition by being named to the All-Metropolitan team at a time when the best college basketball in the country was being played in the Big East. Glancy also starred in baseball during his college days, and he played both sports professionally after his graduation.

At a school which is recognized as one of the most difficult academically, Glancy’s basketball squads compiled an overall record of 237 wins and 243 losses, for a percentage of .494. His ability as a coach, not to mention his top-notch qualities as a person, gave his Techhawk teams the will to win while facing some of the best college competition in the Midwest and in the country. One of the top highlights in recent IIT sports history was the Techhawk basketball team win in the Holiday Tournament held in Rochester, New York, in December of 1960.

Coach Glancy, a resident of Naperville, III., has been a member of the Big Ten Conference football officiating staff since 1965 and weekly proves to be one of the most knowledgeable officials in the area.

Coach Glancy is instituting a number of innovations at Arthur Keating Hall this year, all designed to make AKH the place to be on the IIT campus.
