Schlessinger Delivers Political Speech at IIT

"Technology news continues to grow in importance," said Arthur Schlessinger Jr. last night in a speech at the McCormick Library Auditorium. "It is not an exaggeration to say that technology is the key to the future."

Schlessinger, who is a member of the Board of Directors of the New York Stock Exchange, said that the United States must develop new technologies in order to compete in the global marketplace.

"The United States has been a technological leader for much of its history," Schlessinger said. "But we cannot afford to be complacent. Other countries are catching up quickly, and we must be ready to face the challenges of the future.

"I am optimistic about our country's future," Schlessinger said. "We have the resources and the talent to lead the world in technology. But we must work hard to make sure that our government supports these efforts.

"I urge all of you to be active in your communities and to support the development of new technologies. Together, we can build a brighter future for all of us."

Schlessinger's speech was the opening event of the McCormick Library's annual Technology Week, which is dedicated to promoting awareness of the importance of technology in society.

"We are very proud to have Arthur Schlessinger here tonight," said Library Director John McTigue. "His insights and ideas are invaluable to our students and faculty.

"I hope that all of you will take the opportunity to attend some of the other events planned for Technology Week. There is a lot of great information to be found here.

The event was well-attended, with many students and faculty members in attendance. The audience was engaged and interactive, asking questions and discussing the topics presented.

Throughout the week, the library will host a variety of events, including lectures, workshops, and discussions, all focused on the importance of technology in today's world.

Schlessinger ended his talk with a call to action, urging everyone to be active in supporting technology development.

"Let us all work together to build a better future," Schlessinger said. "Technology is the key to that future, and we must all be a part of it."

The event was a success, with many attendees expressing gratitude for the opportunity to hear Schlessinger's thoughts and ideas.

"I am very grateful to have been able to attend this event," said a student attendee. "Schlessinger's insights were very insightful, and I look forward to learning more about technology in the future.

"I think this event was very important," said another attendee. "It helped to remind me of the power of technology and the importance of supporting development in this area.

The week-long event is expected to bring a lot of attention to the library and to the importance of technology in society. Many attendees expressed interest in attending future events and learning more about the topic.

"I hope that all of you will continue to support technology development and to promote awareness of its importance," Schlessinger said. "Together, we can build a better future for all of us."

Course Evaluation: Better Luck Next Time

Course evaluation is one of those activities that is often left to the students who are not taking the course. It is a way for the students to provide feedback on the course and to help improve the quality of education. However, it is not always a straightforward process. Sometimes, students may feel that the course evaluation is not taken seriously, or that it is not used to improve the course in any meaningful way. In such cases, it may be necessary to take a more active role in the process, such as by participating in the evaluation or by advocating for change within the institution.
ON CAMPUS

The Student Body Council of the College of Engineering and Physical Sciences met on Wednesday, February 26, 1973, to consider the following business:

1. Approval of minutes of the previous meeting.
2. Approval of agenda.
3. Discussion of student activities.
4. Update on administrative policies.
5. Approval of budget for the next fiscal year.

The next meeting will be held on Thursday, March 9, 1973, at 4:00 p.m.

Oreff Campus

In the early 1970s, the Orlando area was experiencing a rapid growth in population and development. This growth was particularly evident in the area surrounding the DeVry Institute of Technology, located just north of the Orlando University Area. The institute had been established in 1968 and was one of the many educational institutions that were sprouting up to meet the demands of the growing population.

Caddies Tour Air Base

In 1973, the United States Air Force introduced the Caddies Tour, a series of golf tournaments designed to promote the sport of golf among military personnel and their families. The tournaments were held at various military bases across the country, and the Orlando area was no exception. The tournament was open to all military personnel, and the winner was awarded a prize package that included a new set of golf clubs and a trip to the United States Golf Association's headquarters in St. Louis.

The tournament was held on March 18, 1973, at the Orlando Country Club, and it attracted a large number of participants. The winner of the tournament was announced on March 19, and the prize package was presented the following day.

The United States Air Force was committed to promoting the sport of golf among military personnel, and the Caddies Tour was just one of the many initiatives that were undertaken to achieve this goal. The program was well received by the military community, and it helped to foster a sense of camaraderie among the participants.

Golf

Golf was a popular sport in the Orlando area during the 1970s, and the Orlando Country Club was a hub of activity for both amateur and professional players. The club hosted a number of tournaments and events throughout the year, and it was a favorite destination for local golfers.

Tech Sports: Swimmers, Wrestlers Down, But Not Out

By Harvey Schlueter

Finding a slice of life after returning from semester vacation to find Tech enrolling swimmers in the squad were for the season with one big victory. Coach Thomas Minton cut two 175 heats and entered the team in the 3,200-meter medley relay.

Toby Levy and Tom Walker just missed qualifying for the 1,600imeter medley relay for Tech.

The Hawks, 10-1, are assured of the Southern Intercollegiate Athletic Conference crown.

Nutters Drop Holiday Tournament

By Harvey Schlueter

Given the bad play any one may choke up a gift's actual, but something's guaranteed, the IIT basketball performance last week was cause for optimism. Indeed, the Hawks' performance in a hard-fought exhibition loss to the Chicago Bulls can be considered a victory.

The Hawks played the Bulls in the exhibition game, and the Bulls held the lead throughout the game. However, the Hawks fought hard and managed to hold the Bulls at bay in the second half, ultimately losing by a close score of 64-71.

Lewis, North Park Losses Ready Cagers for Future

By Homer Schlueter

The Bears have had a 10-year streak of unbeaten games, but last week's loss to No. 1 was a setback. The Bears' efforts were commendable, but the Bulldogs' defense was too strong. The Bears played a close game, but in the end, the Bulldogs had the upper hand.

NATIONAL LAMPOON

CRIME IN THE STREETS!

Dr. Jekyll, in a moment of idiocy, killed Mr. Hyde.

He had no idea what he was doing.

The police were called.

Dr. Jekyll was arrested.

He was found guilty.

He was sent to prison.

He died there.

The end.

Or, just the streets, at great distances, of course.

The National Lantonian

Clemson's swimming team hit a bump in the road in the 1971 season, but they recovered quickly. Despite losing two key swimmers, they managed to come back and win the ACC Championship.

Tech Swim Team Heads for State Meet

Coach Tech's team will be heading to the state meet. The team has been working hard throughout the season to prepare for this significant competition. The meet will be held in February, and the team is excited to showcase their hard work and dedication to the sport of swimming.

Nutters Drop Holiday Tournament

The Nutters dropped out of the holiday tournament. They were unable to complete all the games due to scheduling conflicts. However, they remain committed to improving their skills and competing in future tournaments.

Lewis, North Park Losses Ready Cagers for Future

The Lewis and North Park basketball teams are ready for the upcoming season. The teams have been working hard to prepare and improve their skills. They are looking forward to the challenges ahead and are ready to face any opponent.

Through one hot, 1-point swing the Hawks managed to put a little Lewis from 20, and showed the heart, guts, and the determination of a championship club. Notches one into another club book.

The Bears played well, but the ball was not bigger than the basket. The Hawks were able to contain the Bears' scoring and held the Bears to a season-low in points. The Hawks' defense was solid, and they were able to limit the Bears' scoring opportunities.
