The vinyl record has created a certain amount of excitement among fans of the band, but the album itself is a mixed bag of musical styles that ranges from light rock to heavy metal. The Kinks' popularity is due in part to the success of their earlier singles, such as "You Really Got Me" and "Lola.

No One Likes Bad News

Everyone is happy to hear good news—no one likes to hear bad news. Some people consider bad news to be things that resemble the news of the Vietnam war. If it is not bad news, it can be more enjoyable to classify it as a warning of a moral or legal crisis. While we are not necessarily celebrating, we can see it as a way to improve ourselves.

Consider this: If you are living in a country where the laws are not respected, or if you are getting a letter from a friend about a family member who is in trouble, it is more enjoyable to hear about it. However, it is not enjoyable for others. A friend is likely to think it is fortunate that you are not in the same situation as they are, but others might feel their situation is not as bad. Therefore, good news is more enjoyable for others.

Now, let's consider the situation where we are all happy. If we are getting a letter from a friend about a family member who is in trouble, or if we are getting a letter from a friend about a moral or legal crisis, it is more enjoyable to have the letter. However, it is not enjoyable for others. A friend is likely to think it is fortunate that you are not in the same situation as they are, but others might feel their situation is not as bad. Therefore, good news is more enjoyable for others.
