Only 3 Tenured Women Prof Here

The question of women and tenure has been raised here in two suits filed against the University by two female professors. The two, Dr. Fay Sawyer and Dr. Ellen Cohen, say they were denied tenure because of their sex.

A preliminary survey by Technology applicable to women engineers shows that there are currently probably tenured women faculty members at IIT. The three are Lee Graham in mechanical engineering, Audrey Conover in psychology, and Mary Vermillion in psychology. All these are associate professors.

Nationally, about 75 percent of the doctorates awarded in psychology go to women; yet IIT has only one woman tenured professor in psychology. However, the engineering department is above the national average with its one professor.

Dr. James Brophy, who makes tenure decisions, said he didn't know how many professors would be offered tenure this year, or if any were women. He said that this decision will not be made until mid-March, when the budget for next year is submitted to the trustees. He also supplied that approximately 120 professors come up for renewal each year.

Facing an assistant professor's first year of teaching, Brophy said he offered tenure. Between the six-year budget year and the next, he said he would ask for the tenure decision to be made by the administration. Some of the factors in the decision are the financial situation of the University, the candidate's qualifications, the candidate's ability to attract grants, the amount of money available to the candidate, and the amount of quality research produced, which isn't necessarily lab work. The candidate must also have the recommendations of his or her department and the approval of the Board of Trustees.

The tenure decision is mailed to the trustees around the first of April. If the professor is refused tenure, he is given a year to find another job. Brophy said that all professors may not get tenure; there are no rules on this. However, he said it has been the policy in the past for all assistant professors to get tenure. Of the assistant professors who have been refused tenure, all have managed to find new positions.

Dr. Robert Dewar is Chairman of the Faculty Curriculum Committee and chairman of the Faculty Senate Curriculum Committee.

Gebhart Likes His Job, IIT

In last week's教职工 meeting at IIT, Dr. Gebhart was received with cheers and applause. The president of the IIT faculty, a man who has been at IIT for 25 years, was introduced at the meeting.

The Gebhart Family is the largest family to attend an IIT meeting. The Gebhart Family, which includes Dr. Gebhart, his wife, and their three children, were the first to arrive at the meeting.

The Gebhart Family is not the only family to attend an IIT meeting. The IIT faculty is made up of many families, each of which has at least one member attending the meeting.

• Group Asks Changes in Grading

Below are the recommendations from the Grading Subcommittee of the Curriculum Committee.

1. Retract the "incomplete." Any student who is unable to complete a course during the current term must complete the prerequisites and take the course the following semester. Projects, essays, and exams should be submitted to the instructor of record by the end of the term.

2. Drop the "credit by examination" option for all courses. Only those students who have completed the course requirements and exams can receive credit.

3. Change the grading system to a 4.0 scale. This will make it easier for students to determine their GPA and make informed decisions about their coursework.

4. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

5. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

6. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

7. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

8. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

9. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

10. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

11. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

12. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

13. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

14. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

15. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

16. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

17. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

18. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

19. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

20. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

21. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

22. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

23. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

24. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

25. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

26. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

27. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

28. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.

29. Change the grading system to a 90-60% scale. This will allow students to focus on their coursework without the pressure of earning a specific grade.

30. Implement a "pass/fail" option for all courses. This will allow students to take courses without the pressure of earning a specific grade.
WIT Won't Get WYFR Equipment

By John Mikisita

Last November, assistant chief engineer of campus radio station WIT, Carl Roneyzick, found himself in a scramble for WIT A Channel radio station with a $40,000 surplus equipment which it was trying to get rid of. According to WIT Business Manager Bob Nielson, WYFR found itself in a similar situation with a $30,000 surplus equipment. This equipment, according to Nielson, was a gift to the station by the Westinghouse Corporation. After checking with their accounting department, WYFR found they could get a tax write-off by donating the equipment to WIT. In the meantime, according to Nielson, a "hard cash" buyer for the equipment was found.

WIT Station Manager Dan Jesko confirmed that with the additional equipment, the station could have operated for longer hours. The automated equipment would have required little supervision, once it was running.

At this time, WIT is still expecting to obtain a control center from WYFR. With the console, WIT will set up a recording studio in what is now the staff lounge.

Faculty React to Sex Bias Charge

By Tom Rockenbach

In the wake of Dr. H. A. W. Sack's charge of sex discrimination against Dr. Louis Moore, IIIT, the IVIT faculty recently gathered to discuss the situation. The charge, according to Moore, was that he was discriminating against women faculty members. In support of the charge, Moore cited the banning of master's students from the Women's Center and the lack of representation of women faculty members in senior administrative positions. The faculty members cited the necessity of an already untenable low: all faculty members interviewed pointed out that the tenure policy of IIIT is an example of the low standards set by the administration.

Tenure at IIIT varies significantly, works like this. After six years a teacher is eligible for the recommendation for tenure at IIIT. This recommendation is based on three areas of competence: excellence in teaching, publication, and research. It is then the responsibility of the department head to determine whether a teacher should be recommended. At the request of the administrative faculty members of the department, the recommendation was denied.

- Lack of Funds Causes Tenure Denials

Although some faculty members could be brought up to an acceptable level, and it may be necessary to deny a professor tenure, the recommendation for tenure must be based on the fact that the department has the funds to support the professor.

The daily grind at David's

These days grinding your own meat is considered old fashioned. Because it's time consuming. But at David's we grind every day. So our meats are fresher. They taste better. So you enjoy.

We also prepare all our dishes fresh. Frozen food is safe. And we make our own seasoned dressings. Have our products delivered daily. Give us home-style ice cream. Serve people not numbers. All in all, we provide quality food at reasonable prices. The old fashioned way.

The Only Things on the Line Are Your Jobs

For once the roles may be changed. Usually the student newspaper calls for unification of the student body to protest real or imagined administration oppression. This time the rail goes out to the faculty.

Dr. Sawyer and HEW have raised some questions on this campus concerning sex discrimination. At some point they have brought another problem into the spotlight: the whole tenure policy at IIT.

A great number of faculty members have expressed their disconformity with the tenure policy that was geared to an economic situation that no longer exists. Now, in a time of educational belt-tightening, a system originally designed to give university professors job security is not only shown to have serious defects, but in some cases actually defeats its intended purpose. If no longer means an influx of good people but actually forces them out of the field, the dead wood to remain in tenured security Yes Virginia, there is dead wood floating around IIT and the words “tenure” are being confused with a faculty member. “Unless some of that dead wood gets motivated to do something about tenure here, they’ll all be out on their own for financial reasons.”

And right about now seems like the time to get motivated and form Dr. Vanderpoptalde’s “united front.” You, the faculty, have a sex discrimination suit at hand that, by its very nature, can modify tenure policy at IIT. You also have on hand a political opportunity to forge new and more equitable tenure guidelines. At the moment, IIT has no president! And having none, the administration lacks the authority to force a tenure change on the faculty.

It’s time to motivate those that languish in their imagined tenure security. All we can say to them is it’s too bad they didn’t take that job offer at SIU. The academic job market is tight now. Faye Sawyer is holding down four jobs to replace the one she lost at IIT. In view of this and other academic employment forecasts, it would seem that tenure reform is needed at IIT now more than ever.

Tech has done quite well in the past with apathetic students and will probably continue in the grand tradition of “seriously minded university” style. But it can never survive a apathetic faculty. And tenure reform is not brought about now, you may never get the chance again.

Letters

Bars

Dear Editor,

I just wanted to compliment your fine choice of bars along the university area. You did, indeed, pick out the best: the bar de crème of neighborhood bars, each serving the finest of cheap libations. My compliments to your staff, whom I know must have done extensive research, forcing them to go from bar to bar, without thought of their personal welfare. Such staunch journalists should be praised. There is all to the quality of this country in journalism in this country of journalism. If more people knew how to find a good bar, this country would not be in the shape it is today. I can only say well done! Well done!

Terry Carino

Parking Lot

Dear EIC

I feel that the time has come, to make your influence in arresting the public to an awareness of a situation which, I feel, endangers the safety, health, and sanitation of our campus and community. Although I am reporting this second hand, I feel that reports of men, women and children falling into the water of the Quad and Library parking lots, with the unvisited sighting of a siren floating on the rice puddles near the E1 tracks should not go unheeded. This situation causes a serious hazard to drivers and can easily become a breaching place for disease, as can the practice of the natives cleaning their clothes by beating them on the railroad ties in the faculty parking lot.

Instead of paying the proper authorities, I suggest that Halterman Park be declared the common area for all students and be used to fill up the chock holes in the parking lots, allowing water, and thereby eliminating the problem. (I'm sure that the sump is not property of any local commuter.)

Thank you,
Mr. B. Rap

Chthulu on Spud

Dear Graded Spud

It has come to my attention that certain of the lesser deities, namely the Malignor Tubes of historical infancy, have presumed to take into their own hands the affairs, health, and safety of our community. Although I am reporting this second hand, I feel that reports of men, women, and children falling into the water of the Quad and Library parking lots, with the unvisited sighting of a siren floating on the rice puddles near the E1 tracks should not go unheeded. This situation causes a serious hazard to drivers and can easily become a breaching place for disease, as can the practice of the natives cleaning their clothes by beating them on the railroad ties in the faculty parking lot.

Instead of paying the proper authorities, I suggest that Halterman Park be declared the common area for all students and be used to fill up the chock holes in the parking lots, allowing water, and thereby eliminating the problem. (I'm sure that the sump is not property of any local commuter.)

Thank you,

Mr. B. Rap

Letters to the Editor are open to all writers who know you feel about anything. Technology News encourages students, faculty, staff, alumni, and anyone to mail letters to the newspaper. We reserve the right to refuse publication of letters that are written in poor taste or contain offensive errors or misrepresentations. Letters should be typed, 8 characters is a line, double spaced, signed, and must contain a recognizable name and phone number. Names will be withheld upon request.

Deliver all letters to person in the HUB basement or mail them to Technology News, 3511 South Federal, Chicago, Illinois 60616.
IIT Academic Rush Week

**E-Cohort (Education and Experience in Engineering)**
- Tuesday, Wednesday: 13 pm, Workshop and Models, 218 Engineering 1 Building
- Wednesday, 1 pm: Coffee Hour

**Electrical Engineering**
- Monday, 12 pm: Digital Research Laboratory 136 Siegel Hall, Machinery Laboratory 122 Siegel Hall
- Tuesday and Thursday, 12:30 pm: Repeat of Monday, Refresher in 136 Siegel Hall

**Civil Engineering**
- Monday, all day: Special Exhibits and Open Laboratories (Materials and Concrete), 119 and 116 Alumni Memorial Hall
- Tuesday, 12:30 pm: Exhibit in 116 Alumni Memorial Hall

**Computer Science**
- Thursday, 11 noon and 1 pm: Have some fun - see the best film we could dig up on the history of computing, discuss the opportunities in Computer Science with faculty, 111 Stuart Hall

**Environmental Engineering**
- Monday through Friday, all day: Open Laboratories, Picture Display, Alumnae Mezzanine
- Tuesday, Wednesday: Open Laboratories, Picture Display, Alumnae Mezzanine

**Fire Protection and Safety Engineering**
- Tuesday, 12 pm: Discussion with faculty and students, 217 Engineering 1 Building

**Industrial and Systems Engineering**
- Monday, all day: 12:30 pm: Faculty available, 217 Engineering 1 Building

**Mathematics**
- Monday, Faculty Members Available: 206 and 208 Engineering 1 Building

**Mechanics and Aerospace Engineering**
- Monday afternoon: Laboratory units (Stress Analysis 133 pm: 044 Engineering 1 Building, Fluid Dynamics 115 pm: 602 Eng 1, Environmental Wind Tunnel 115 pm: 044 Eng. 1 Building)

**Metallurgical and Materials Engineering**
- Tuesday and Thursday, 12:30 pm: Laboratory tour and demonstrations highlighting the use of microscopy in studying the structure and properties of materials, presentations with faculty members, 206 Peter's Hall Thursday, 3:30 pm: Coffee precedes Seminar on "Structural Effects During the Gaseous Reduction of Iron Oxide Composites," by Prof. W.L. Pohlman, Car negie Mellon University, 206 Peter's Hall

**Physics**
- Monday 10:12 am and 2:12 pm: Friday, 11:30 am and 1:30 pm: Demons Continued on page 11

Second City's New One a Winner

In August of 1981, The Second City opened its Chicago Street Theatre, the newest in the chain of classrooms and theaters across the country. This new venue was designed to accommodate the growing needs of the company and to provide a space for new artists to explore and develop their skills.

The theatre is located in the heart of Chicago, in one of the city's most vibrant and diverse neighborhoods. The building itself is a historic landmark, having been constructed in the 1920s as a vaudeville theater. The Second City bought the building in 1976 and began renovations to transform it into a modern space for performing arts. The renovation process took several years and involved extensive work to preserve the building's historic character while adding state-of-the-art facilities for performances.

Today, the Chicago Street Theatre hosts a variety of performances, including improv shows, sketch comedy, musicals, and more. The venue is known for its creative and innovative programming, attracting both local and international audiences. The theatre also offers classes and workshops to support the development of new artists and ensembles.

The opening of the Chicago Street Theatre marked a significant milestone for The Second City, cementing its reputation as a leading institution in the world of improvisation and theater. The new space has allowed the company to expand its reach and continue to inspire and entertain audiences for generations to come.

If you can't win this Saab, you

It's Only A Movie

by James R. Moltke

It's Only A Movie—Family (United Artists). This is the group's third studio album, after their previous two. The band's members are now going their separate ways. The title cut is an interesting borrowing of cinematic references, with notable piano work by Troy Baker. "Lucky" and "His Campus Queen" are a carefree, arranged country-western rocker. "Buffet For Two" is a less interesting component of the show, but it is still a good one.

The Three Musketeers

by Richard Wanger

Richard Lester is another director who has released two films in the '60s. "A Hard Day's Night," which Lester worked on, is a musical comedy. George Macdonald-Fraser tailors the story to fit the story of the Beatles. The "Beatles" are the band's most famous members, and the film is an accurate reflection of their style.

The Three Musketeers is based on Alexandre Dumas's novel of the same name. The main character is a young and good-looking man, who eventually becomes the hero of the story. The film follows the adventures of the Musketeers, who are led by Athos, Porthos, and Aramis. The three Musketeers have several adventures, helping the Queen of France and fighting against the enemies of the wily Cardinal Richelieu. However, the three Musketeers always keep their promises and never let anything get in the way of justice.

In the original novel, D'Artagnan, a young and good-looking man, is the hero of the story. In the film, D'Artagnan is the lady's lover, and also the main character of the story. D'Artagnan meets Athos, Porthos, and Aramis, and they become his friends. They are led by the Cardinal of Richelieu, who is a wicked and evil character. The three Musketeers fight against Richelieu and his followers, and finally win the battle.

The film was released in 1963 and was a huge success. It was directed by Richard Lester and starred Omar Sharif, Jean-Pierre Aumont, and Richard Greene. The film is considered a classic and is still watched by people around the world. It is a great example of how movies can be made to entertain and educate at the same time.
Costa-Gavras, the director of Z, found the subject matter of his latest film when he read an article in the Paris newspaper, LE MONDE. In the first edition the article described the kidnapping of a United States official by a group of revolutionaries in a South American country. The second edition indicated that the person who was kidnapped was a police official and the third edition described the kidnapped man as a diplomat. The changing roles in the editions of LE MONDE aroused Gavras' interest. Together with Franco Solinas, the writer of THE BATTLE OF ALGIERS, Costa-Gavras made trips to several South American countries to begin a form of investigative journalism about the incident. From their research and documentation has come the film STATE OF SIEGE which stars Yves Montand.
Gebhart Likes His Job, IIT

February 10, 1974

TECHNOLOGY WEEK

Page 9

Gebhart, who came to the University of Illinois from the University of Utah, has been at IIT for three years in his present position, and he was very happy with the environment. He particularly enjoyed the opportunity to work with both the technical and administrative staffs. Gebhart also appreciated the opportunity to work with faculty members from other departments, such as engineering and business administration. He found that the university provided a stimulating and challenging working environment, and he was able to make contributions to the university's mission.

In his current position as a research scientist, Gebhart is involved in the development of new technologies and the application of existing technologies to solve real-world problems. He enjoys working with colleagues from different backgrounds and disciplines to develop innovative solutions.

Gebhart is also involved in teaching and mentoring students. He has taught courses in computer science and engineering, and he enjoys helping students to develop their skills and achieve their goals.

In his free time, Gebhart enjoys spending time with his family and participating in outdoor activities such as hiking and cycling. He is also a member of a local hiking club and enjoys exploring new trails in the area.

Gebhart is looking forward to continuing his work at IIT and contributing to the university's mission of advancing knowledge and improving society.
Many of you have been asking what Union Board is planning for this year's Homecoming. This letter is intended to answer these inquiries.

First of all, the theme this year is "Of Better Days." For most of us, the time we spent at Tech has not been what we would call "better days." The theme, "Of Better Days," can be interpreted to mean that there were better days in the past or there will be better days in our future. Homecoming Week is from February 25 through March 3. This week is full of activities, contests, and most of all, good times. Briefly, we will try to give you a look at what we have planned for that week.

Monday February 18
During lunch in the HUB, a representative from the Dinglefest Theatre Company will present a slide show and answer questions about this extra-dinary theatre group who will be performing at the Homecoming Dinner Dance on March 2 at McCormick Place. Also on this day all petitions for Homecoming Queen and Ugly Man are due. Also on this day, the UB Button Contest. Whomever can sell the most Homecoming Buttons wins $150 and the second place finisher wins $50.

Monday February 25
This is the first day for Homecoming Queen and Ugly Man elections. Also on this day, in the HUB, Part A of the Annual Homecoming Booze Hunt will take place during lunch.

Tuesday February 26
This is the second day for Homecoming Queen and Ugly Man elections. During lunch in both the HUB and Dorm Cafeterias we will be showing cartoons. Starting around 8 p.m. will be the Resident Homecoming Party (everyone is invited). It is here where we will show more cartoons and hold Part B of the Annual Homecoming Booze Hunt. Special note: Don't be surprised by the refreshments!!

Wednesday February 27
This is the final day for voting for Homecoming Queen and Ugly Man. Today is also the first day that decorations can be set up for the Homecoming Decorations Contest. This contest, $25 goes to each first place winner in each of the following four categories: Best Design, Creativity, Originality, and closeness to Theme. There are also first and second place trophies awarded. Tonight is the Homecoming Basketball Game. During half-time of the game the Homecoming Queen and Ugly Man will be crowned.

Thursday February 28
Tonight is the Homecoming Hockey Game. Buses will be provided to take spectators to and from the game. Buses will leave at 3:30.

Friday March 1
All buttons and / or money must be turned in and winners determined. Homecoming Concert starts at 8 p.m. with Bonnie Kolac and Bill Quieman. During the concert intermission, Decoration Contest prizes and Button prizes will be awarded.

Saturday March 2
Homecoming Dinner-Dance at McCormick Place with the Dinglefest Theatre Company doing "Tom Swift and His...". On Campus Orchestra, and Sealed Out Revue. Buses will bring you to and from McCormick Place.

Sunday March 3
Homecoming Movie—Mixer in the HUB. Movie starts at 7 p.m.—Summer of '42. Mixer starts immediately after the movie.

We hope that you come and enjoy yourself during this week and if you have any questions or wish more details call the following people:

Homecoming Queen—Scott Cooper or Bob Foerster ext. 1371.
Ugly Man—Kent Broten ext. 1362.
Homecoming Concert—Scott Cooper ext. 1371.
Booze Hunt—Bob Foerster ext. 1371.
Button Contest—Bob Foerster ext. 1371.
Decoration Contest—Bob Foerster ext. 1371.
Dinner Dance—Larry Katela ext. 530.
Homecoming Movie-Mixer—Mike Carroll x 530 or 842-9448.

Hope you enjoy yourself,
Union Board
announcements

World Famed Gynecologist

World Famed Gynecologist Announces Osteichthyes Care in the Home. The topic of study and discussion at the College of Complacent, 100 W. Grand Avenue, Saturday, February 20th at 9 p.m. Why is our infant mortality rate so high for Beatrice Tucker, Medical Director Emeritus of Chicago Maternity Center, discusses the problem.

Motorcycle: Tuition $1.50 plus $1.00 minimum for lunch, theater, and amusement.

Architecture Lecture

Larry Booth, partner in Booth and Nagle, Architects, will lecture on "Architecture: Design - Friday, February 27 at 7:45 p.m. in Ward Auditorium, Siegel Hall.

Student Directories

Anyone who has not yet gotten a copy of the 1974 Student Directory and still wants one can obtain a copy from either the Dean of Students Office or the HUB.

Fire Protection

Professor Hal Jones, Chairman of the Fire Protection and Life Safety Engineering Department, will hold a seminar dealing with fire protection and life safety in Architecture on Tuesday, February 18 from 4 to 6 p.m. in the Crawford Auditorium (Room 101) of Engineering I. The program will include lecture, slide presentation and discussion segments. The seminar is open to all interested persons.

Cycling

Anyone interested in touring or competitive cycling is encouraged to attend a meeting in the Schmierer room of Keating Hall Gymnasium (southwest corner, lower level). We will discuss Saturday/Sunday rides and try to coordinate tours for this summer. Whatever your interest, there are a number of good rides on campus which would be just the job for you. This Wednesday, February 20 at 9:30 p.m. For further information call Jack at 337-7717 after 16 p.m.

Reuven Gold

Reuven Gold, renowned storyteller, will grace the After the Flood Coffeehouse with his presence on Wednesday, February 26 at 9 p.m. Reuven's stories are based on the fundamental truths of life, and are very serious, as well as entertaining. Everyone welcome, free admission.

Baha'i Club

There will be a meeting of the Baha'i Club Tuesday, February 18 at 12:30 P.M. A lecture film starring Seals & Crofts, Erzy Gilespie, Geraldine Jones, and Lando Mustang.

B.S.O.

The B.S.O. will hold a meeting Tuesday, February 18 at 12:30 in room 305-306 HUB. Meinmeister: All committees bring reports or send proxy.

Financial Aid

David Baurer, Director of Financial Aid, will hold two meetings next week to dispense financial aid to interested students. The meetings will be held Wednesday, February 20 at 1:30 p.m. and Thursday, February 21 at 12:30 P.M. in the HUB Room 101. Students should bring their questionnaires and contact financial aid for the 1974-75 academic year.

Integral Deadline

The deadline for inclusion in Integral has been extended. Any organization or department wishing to be in Integral may do so by contacting Dave Fink at 1400 or by leaving a message at the Dean of Students office. The deadline is Feb 22.

IEEE

George Travers from Commonwealth Edison will speak on power distribution and power generation problems. The meetings will be from 1 to 1:40 on Tuesday, February 19 in 109 Siegel Hall. Everyone is invited.

Representative Democracy?

"Can We Make Our Representative Democracy a Representative Democracy?" is the topic for study and discussion at the College of Complacent, 100 W. Grand Avenue, Saturday, February 25 at 9 p.m.

Arno Vandel, candidate for Congress, will try to answer this puzzle. Visitors welcome. Tuition $1.50 plus $1.00 minimum for ride, theater and royal cola.

Personals

I meet people, have fun and drink with you, and enjoy me. Call me any time of the day or night. Meet "Samantha" at 12:01 or 7:01 or any time.

Classifieds

Technology News is accepting classified ads at 5 cents per word. Deadline is Monday. Last chance. If you've got something to sell, remember Tech News Classifieds get results.

**Tankers Split**

ITF-Carolyn Smith Teams split their fourth double header of the 1974 season with North Eastern and the University of Chicago last Thursday. North Eastern captured 9 of the 13 points against ITF and ITF in turn grabbed 9 of the 13 points against 6 of 12. The scores were North Eastern 71 ITF 41 and ITF 72 ITF 2 1.

Two pool records were set during the match. Smith of Chicago shattered the record of Dr. Yang's record with a smashing 11:4 11:4 6 and after the match Smith of ITF, it was 7:1 4:6 6 in the second set.

The Knights have beaten the 1974 record of Dr. Yang's record with a smashing 11:4 11:4 6 and after the match Smith of ITF, it was 7:1 4:6 6 in the second set.

**Keglers Have It**

In their recent match against Lessau University, ITF Vicente Rosario's bowling team once again proved they have what it takes to come through in big pressure. Although hampered by the loss of two key bowlers who were deferred to get marriage, the Lessau team was victorious in three matches against five bowlers from Lessau.

The Keglers needed a win in the last match against Lessau to clinch. So far, this season the Keglers have played 12 matches with 15 of 50 pins in their first five matches for a season percentage of 527.

Leading the Keglers scoring for the day were Joel Vivas and Ken Stenekh, who each rolled 150 pin games. The five-man games totalled 169-pin five-game series.

In the league of five games the Layala squad led 12-11, Totalling a total of 58 strikes to ITF's 36. In spite of this fact the Keglers were able to win the competition, becoming the score leaders with eight strikes, including 10 strikes as compared with Layala's 9.

The team scores are as follows:

On Feb. 26th the Keglers will face Layala College, a newcomer to the Midwest Intercollegiate conference, and one of the leaders in the season's race this year. Both teams need this win so it should prove to be an exciting match.

**Scoreboard**

**B-Ballers Under Again**

By Tom Couriery

The 50 mark continues to haunt the Basketball Team's success. Twice this season the Knights were held to the 50 mark and just once again to 5. One point; the Knights alternated wins and losses for a 6-game stretch. Presently they're trying to break a 5-game losing streak of some 33-38-1 in recent conference games.

St. Francis reversed the results and almost the scores as IT went to their gym. The Knights lost 51-37, almost the score they won by last month. IT won 53-36. Hawaiians, Skuliffe, and especially Ricks and Wolinski, were effective in the first half. Those who paced the spirited first-half rusher for the Knights 15-15 in the second half.

Once again St. Xavier proved an all-time equal match for ITF—2:17 and the first half. At the first meeting this season of these two
