Thomas Martin: New IIT President

by Michael J. Harrington

Dr. Thomas Lyle Martin Jr. has been appointed President of Illinois Institute of Technology. He was appointed by the board of trustees in early May 1974. Before coming to IIT Dr. Martin was Dean of the Institute of Technology at Southern Methodist University in Dallas, Texas. Maynard P. Venema, chairman of the board of trustees, had been acting president since Dr. John T. Battelle resigned in June 1973 to become chairman of the board of the Chicago branch of Banca di Roma. When speaking at IIT’s commencement exercises May 12, Mr. Venema said, “Dr. Martin is a man of outstanding abilities. The primary qualifications the university established at the beginning of its search were rigorous and extensive.” Mr. Venema went on to assert his expectations that “Dr. Martin will bring excitement and vigor to IIT, and in turn, the university will achieve even higher standards in its service to Chicago, the Midwest, and the nation.”

Born in Montgomery, Tennessee, Dr. Martin received his BSE in 1952 and a MEE degree in 1954 from Rensselaer Polytechnic Institute and he earned a doctorate degree from Stanford University in 1953. In 1954 Dr. Martin was appointed assistant professor of electrical engineering at the University of New Mexico and was given an associate professorship in 1961.

At the University of Arizona he was professor and head of the electrical engineering department from 1962 to 1965 and Dean of the College of Engineering there from 1965 to 1968. In 1968 he was named Dean of the College of Engineering at the University of Southern California where he served until 1973. In 1973 he became Dean of the Institute of Technology. In 1974 he received an honorary doctorate from Rensselaer.

Dr. Martin is the author of six books: Ultra-High Frequency Engineering (1956), Electronic Circuits (1951), Physical Basis for Electrical Engineering (1957), Strategy for Survival (1962), Electrons and Crystals (1969), and Malice in Mis-celandia (1972). Dr. Martin is a member of the National Academy of Engineering and several honorary societies.

IIT President Dr. Martin says “...the challenges offered at such a fine university as IIT are especially exciting. If the opportunity in Chicago lasts it at the center of a thriving, major urban area and gives it some unique opportunity to address the principal concerns of this age. At a time when many schools are identifying themselves with the liberal arts, almost all of IIT’s academic programs are professionally oriented. I think that gives the university an unusual character and helps it meet the particular needs and interests of today’s younger generation.”

Dr. Martin recognizes the need for IIT to do more recruitment of students from the Chicago area including minorities and women. Dr. Martin was one of the organizers, through the National Academy of Engineering, of a national conference on the recruitment of minorities into engineering, and we have two good programs at SMU that will bring in a substantial number of Black students and those with Spanish surname into engineering.

On the quality of education Dr. Martin said that in the past when college enrollments were on the upswing it was possible to hire more faculty and add more courses in the catalogue but now enrolment is down and it is more difficult to build student enrollments in a course in many places the teachers have the same course load. I’d like to have a smaller number of courses and a larger number of offerings because it is not possible to live up to one’s own hopes.

New Registr. Procedures

by Michael J. Harrington

Of all the traditions and rituals colleges and universities around the country practice, registration is probably the most unique and bugging of them all. Few years, registration at IIT has been a chaotic mess by anybody’s standards, especially for newcomers. Every semester the rat race begins at Withnall Hall, where you receive your registration materials packet. The envelope contains enough cards to fill in to make you want to give up before you start. There are the endless lines, there are the endless lines, and the hundreds of booths that have to be negotiated before one is finished with the process. The whole gamut can take hours.

Now there is something to look forward to when you return to the registrar’s office is attempting to cut out 15 to 30 minutes of the time it takes to fill out all of those identical cards. This doing done by replacing some of the cards with one all-purpose card. The innovation being introduced this week at registration is the Higher Education Planning System (HEPS), an information retrieval system developed by the Education and Economics Systems Co. of Boulder, Colorado. The day will come, according to Mr. James Novak, Assistant Registrar, when only one or two cards are required for registration.

Novak explained that for the upcoming fall and spring registrations, students will still have to fill the 11MB master check, the University Relations reference card, and the master card, much the same as in previous registrations. The new card in the blue and white HEPS form which must be completed by the student is simple. The blank form is given to the student to fill out the blank form is given to the student to fill out their address, phone number, and other relevant information. Once completed, the card is submitted to the registrar’s office along with the other forms.

Football break will enjoy Rec Room Improvements.

Herman Hall Improvements

by Rob Wagner

A variety of new programs will be featured in Grover H. Herman Hall this Fall. Among the new programs will be a series of art exhibits, a new card room, the Ping Pong area, new tables, a crafts workshop, and several changes to the Recreation Room. The new card room is located on the second floor of Herman Hall and will feature a new Ping Pong table.

The art exhibits will be sponsored by the Faculty Women’s Club and will feature exhibits by some very talented local artists. A series of differences will be displayed throughout the year, starting with the display on the East and West walls of the building and an opportunity will be provided to meet with each of the artists.

Through the Dean of Students Office, we have purchased two brand new Ping Pong tables which will be installed in the
announcements

Baseball

Fall practice for the IIT Varsity Baseball Team will begin on Wednesday, September 4th at 4 pm. Anyone interested in trying out for the team should attend a meeting on Tuesday, September 3rd at 4 pm at Keating Hall.

If you are interested but cannot attend the meeting, contact Coach Klein at Keating Hall on 889.

Alumni Cruise

The IIT Alumni Association is sponsoring a shoreline cruise of Lake Michigan for incoming freshmen on Friday, August 29. The boat will leave the docking area at the north end of Shedd Aquarium at 7:30 pm and will cruise the lake and Chicago River for approximately two hours. Please contact the Dean of Students Office, Room 111 Main Building, for information and registration. There will be a $15 advanced registration fee. Students must have tickets to get on board. There will be a limit for the first one hundred that register.

Evening Faculty Advisers

The following is a list of the evening division departmental faculty advisers who are available for counseling for the academic year 1974-75. Please call for an appointment. Phone 111/4 225-9900 and ask for the extension listed.

Free Street Theater Frolics

Theater performers in Chicago entertain young and old.

The Free Street Theater is coming to IIT with their unique approach to theater which tries to involve the white community and make theater a joyful experience. The FST sees its role as "to act as a catalyst to creative life in the community—our purpose is to strengthen existing avenues of expression and to promote and encourage new ones."

The Free Street Theater will be at 3rd and Wabash on Saturday, August 25. Their program includes a one-act play at 2:40 pm, puppets at 3:20 pm, and the main program, "Workday," at 7:00 pm.

The Free Street Theater was founded in 1969 through the cooperation of the Illinois Arts Council and the Goodman School of Drama. It started as a project of the Council from 1966 through 1969, but is now on its own. Each year, FST tries collectively to create new, original shows, with music, for an ever-widening audience.

FST has recently journeyed to Europe at the request of Belgrade's International Theatre Festival. While overseas, FST visited France, Belgium, and Yugoslavia. Subsequently, in the Midwest, FST covered close to eight thousand miles, hitting a hundred locations in six states, giving a hundred-and-fifty performances to reach an audience of almost two hundred thousand.

The group, traveling with its own sound equipment and mobile stage, sets up in any place with easy public access. They attempt to dissolve the barriers between young and old, black and white. They work for audience participation and community involvement in all facets of their performance and try to encourage communication between people from every economic, social, and cultural level.

The Free Street Theater is being sponsored at IIT by the IIT Alumni Association.

WELCOME CLASS of '78

Tau Epsilon Phi invites you to attend our Get Acquainted "O"-Week Schedule.

Your chance to meet your fellow classmates and many other people, starting August 25.

Sun. Lunch and Dinner BAR-B-QUE

Mon. Band Party

Tue. Barn Party

Wed. Bid Banquet and Coffee House
(Freshmen welcome to play or sing a song)

Thu. Pizza Dinner and Boat Ride

Fri. Road Rallye to Party

Sat. Band Party

Sun. Beach Party

We don't have all the answers, but we may have what you are looking for.

The brothers of Theta Xi
We have a new president, fan-
tastic, and a great sigh of relief
passes over the entire community.
Expectations are high and we are
waiting to see what happens. He
hasn’t been in office long and
already there is a lot of talk and
the important first impressions are
being made. One is that he is a
recent former president and the
new man is being made and the
outlook is encouraging. Statements
by those who should know sound
like this: “He’s so open and
straight forward.” “There’s worlds
difference of difference between the two.”
“His is responsive and listens
to what you have to say.”
“A refreshing change indeed.”

Most observers who perceive
this new style in the presidency heartily
encourage it. This significant change in the attitude of the office
holder may signal that something
great is upon us. If so, we should all
learn from the situation of not one but two new
presidents: Dr. Thomas Martin,
President of IIT and Gerald Ford,
President of these United States
of America.

We have noticed striking
similarities in their style and
pronounced contrasts when
compared to their predecessors.
When Dr. Martin was appointed
president last May he met with
groups of students and faculty,
letting himself be known and
getting to know them. He asked
questions about life at IIT and
answered questions about himself
and future plans involving Tech.
The meeting with students was
twenty years but it did allow us
to exchange thoughts and Ideas:
the basic first impression one
received from that meeting was
that Dr. Martin wants to and
does communicate well with students.

The atmosphere and en-
vironment during the ‘leadership
and guidance’ of Dr. Rettelata,
president of IIT from 1952-1973, was
quite the opposite, especially in the
desk sixties and seventies. IIT
passed through a very brief period
of student unrest during the Kent
State shootings and the conservatism
for the climate at IIT was op-
pressive. Student interviews (or
audiences) with Dr. Rettelata
were rare and only given when
questions, submitted before the
interviews, agreed with what he
wanted to answer.

President Gerald Ford also
is in the process of making his
first steps towards the solving of problems
that is, establishing lines of
communication. Dr. Martin has
said that he intends to hold
regular open forums involving
meetings with the university
community so that we can discuss
problems, in his words “hassle it
out,” and find solutions. This is a
practice he found productive at
SAU.

Dr. Martin has chosen to live
on campus whereas Dr. Rettelata
lived off-campus, in the southwest side.
This difference in itself is a sym-
pathetic statement of commitment
and a willingness, to get involved
with the campus on a first hand
basis.

When one considers the parallels
and contrasts of the two situations,
Martin and Ford as opposed to
Rettelata and Nixon, one realizes
they are too overpowering to
ignore.

Only time can prove or disprove
those first impressions and it’s only
time for a “wait and see” att-
itude as for the future of IIT and
the nation are concerned before we
make any judgements.

On the meantime, the students
welcome Dr. Martin to IIT and are
looking forward to a substantial
relationship. We at Technology
News begin the semester with an
open mind and willingness to work
towards a better IIT with the new
president, Dr. Thomas Martin.

The “Letters to the Editor”
section of the paper is a free forum
of thought and opinion. In the past
the editorial office has
published these letters with the
understanding that the views
expressed are the views of the
writers of these letters and not of The
IIT. These views do not necessarily
reflect the views of the
president, the administration,
or the editors. We believe these
letters to be a valuable source of
information and stimulation for
the students and faculty.

The following letter to the
editor expresses the views of the
writer and does not necessarily
reflect the views of the
disclaimer department
of the IIT Press Association.

Letters to the Editor:

Dear Editor,

I would like to express my
satisfaction with the new
administration at IIT. I was
impressed with the openness
of Dr. Martin and his efforts
to communicate with the
students.

Sincerely,

[Signature]

ATS Course Evaluations

Every semester ATS, the ITI student government, distributes course evaluation forms so that the students can assess the quality of their courses. Jack Amorese is the ATS course evaluation moderator. Below is a list report on the work involved and the outcomes of this student government effort.

by Jack Amorese

In the hope of including all spring semester undergraduate classes in the course evaluations, ATS distributed 560 packets in April. Of these, 450 packets were returned completed. Results will be available to any interested students in Snack Hall during registration and to the ATS offices in the Hub student activities area.

There were a total of 217 courses which received packets but are not included in the evaluations. There were a number of reasons for this. Two instructors refused to participate in the course evaluations. Approximately 50 courses could not be surveyed because of the nature of the classes. Because there were not enough students present to conduct a survey, or because the packet was received too late to be administered. Another 50 packets were never returned. Of those, some were returned late and were not received by the instructor, but were never returned. And some were given out but never returned to ATS by the students who were too busy or too tired.

Although some people have told that they found that course evaluations serve no purpose or are inadequate, the data collected on course evaluations are a good form of feedback for both the ITI faculty and the students. As to their being beneficial, the present evaluations are obviously not entirely satisfactory, but many changes have been made to improve them—some more are planned. The evaluation has been expanded to include every undergraduate course offered by the school. The questionnaires have been revised, and the format of the forms has been changed to be more informative and more easily readable. These changes were made at the request of students who took the time to come up with some constructive criticism, and they were brought about by the help of many people.

More improvements are needed, however. We can use your suggestions and your help. Please contact any ATS officer or come to the meetings on Thursday evenings if you would like to be involved.

A good place to start is organizing the spring semester's course evaluation survey, and the following should receive recognition for their work: Marie Jones, Ralph Bongi, Kenneth Mathis, and Frank Hoke for compiling the questionnaires; Christa for compiling the course list; Ron Roulis, Jerry McCurn, Terry McCall, Rich Franor, Dennis Trenor, Pam Rakiar, and Dan Vultch for stuffing packets; and Pam Rakiar, Lisa Bailey, John Farley, and Elton Weiss for keypunching the results. I would also like to thank the faculty and the students who participated in the survey for their time and efforts.

Expanded Rec Room Facilities

Cost from page 1

Northeast Dining area. This room will be converted to a Ping-Pong area from 3:30 p.m. until closing each weekday and every Sunday. **Shuffling and table will be available in the Recreation Room.**

The Card Room will be located on Northeast Room 306. This room will be available for students during the day and will also be used for hosting the Union Board Bridge and Pinball Tournaments.

In cooperation with the Student Union Board, part of the Student Activities Area in the lower level will be converted into a Craft and Mini-Program workshop area. We hope to be able to feature programs in several different areas. We are presently considering short courses in ceramics, canoeing, bridge, chess, billiards, rug making, organic gardening, candle making, basic guitar lessons and more. Students will be able to obtain instructions and supplies at a nominal cost through this program.

Finally, the Recreation Room will be in full swing this Fall. The bowling alley has just been refurbished and the area is being expanded. The Union Board will be hosting a series of tournaments throughout the semester and weekly bowling leagues are presently being formed. Information on tournaments, dates and locations can be obtained in the Recreation Room.

The Hermann Hall staff and the ITI Union Board are providing these facilities and programs in the sincere hope that the students will see them used. If you have any questions or suggestions as to how we can provide better service, stop in at the Hermann Hall Director's Office or leave a note in the suggestion box.

7:00 TILL 3:00 PM - SAT.
IN THE COMMONS BUILDING
STOP IN AND GET ACQUAINTED
-- I.N. TECH CLEANERS --
Amidst the impersonality of Math III, Chemistry I, and countless registrations throughout your stay at IT, there is a refuge—ATS. The Association of Tech Students (ATS) is the student government of IT. We listen to students because we are students. The officers are elected yearly by the student body at large. The legislative branch of ATS is the Assembly. Any interested full-time student can become an assemblyperson.

Unlike many student governments where popularity and marriage politics determine the legislature, ATS is based on individual concerns. You can become an assemblyperson by obtaining the signatures of 10 of your fellow students. Students may sign only one petition per semester. Petitions are available at the ATS booth during IT Week at the Dean of Students office, and at ATS meetings throughout the semester. The assembly meets weekly on Tuesday at 5:30 in the HUB. All students, faculty, and staff are welcome. If you have a suggestion for making Tech's more livable or a gripe about its unhappiness, come to an ATS meeting or the ATS office in the HUB basement (times to be heard).

CTA

Under the section "Purpose," in the constitution of CTA, the IT computer organization, the only mention of "IT" shall be the duty and responsibility of CTA to promote and stimulate computer involvement in campus affairs in any manner its members deem appropriate. Therefore, membership in the CTA is open to any student interested in using the CTA's services.

Alpha Epsilon Chapter of Phi Kappa Sigma Fraternity requests the pleasure of your company at an Open House immediately following the President's Reception Sunday afternoon August 25, 1974

and to our Rush Week parties

Monday Carnival
Tuesday Bowl Ride on Lake Michigan
Wednesday Casino Party
Thursday Hay Ride
Friday Pool Party
All Activities start at 7:00 pm

Welcome to the Institute of Technology and the student body at Tech. If you are interested in joining a student organization, feel free to contact the following:

- The Student Activities Office (SAO)
- The Student Senate (SS)
- The College of Engineering (COE)
- The College of Arts and Sciences (CAS)
- The College of Business Administration (CBA)
- The College of Architecture and Urban Planning (CAUP)
- The College of Fine and Applied Arts (CFAA)

Please feel free to attend any of the events listed above and meet new people. We look forward to seeing you at our events this year.
Union Board

So what is Union Board? It is the select group of students who plan, run, and follow-up on most institute sponsored activities. "Institute sponsored" means among other things that a chunk of student tuition funds everything UB plans.

Many new and progressive ideas are forming on the Executive Board. Economic and efficient expansion of UB activities is occurring.

UB will be presenting one of the best series ever on campus. This season much film as Play It Again Sam, The Heartbreak Kid, Romeo and Juliet, Macbeth, Nicholas and Alexandra, Cry, and Whistle. Lady Says the Blues, and Butch Cassidy and the Sundance Kid will appear on campus.

CONCERTS WILL be scaled up. An attempt at securing bookings of talent on the order of Fagnoli, T-Bone, and Stevie Wonder, John Prine, Steve Goodman, Artichoke, etc. Top and Ring Morris is now being carried out. To provide enough room to handle maximum known talent such as those listed, Kodak Hall may be used as a concert site. The National Shakespeare Company will be returning in December and the prospects for the second City/Playwright Theater performances are increasingly better.

The recreational area will offer an expanded variety of activities. Through the semester UB will conduct a number of campus records of bowling, frisbee, basketball, ring-toss, and many other areas. A weekly program will be included for those offering lessons in bridge, tennis, piano, guitar, music making, alumnigiving, billiards, etc., as other volunteer time and space permits.

Social events, including your blasts, mixers and possibly an Oktoberfest, will be conducted.

UNION BOARD is changing in many ways. New ideas and new people are in demand. Men and women are needed to provide input and output to and from UB. The workshop program especially needs personnel to administer the courses. If you are able to teach or help teach any of the contact the Board. If anyone has any questions or comments, feel free to talk to someone at any of the following meeting:

- UB Office in Hub basement—Ext. 559
- UB Concerts—Ext. 575
- UB Films—Ext. 3927
- UB Social—Ext. 550
- UB Recreation—Exts. 354, 355, 359
- UB is spending student money on students should decide how it is spent. Right?

Jazz Lab

The ITT Jazz Lab is a first-rate musical group which plays jazz and contemporary music. The lab is here to provide a musical outlet for ITT students, expand the learning experience, and serve the school.

All ITT students are eligible to join. If you can play an instrument and enjoy making music, get in touch with us. Don't let limited experience stop you—we can help train you if you think you need it.

The jazz lab is also looking for people who are not necessarily musical, but who are interested in doing things like recording or managing the group.

Anyone interested in joining the band should contact Neil Dunlap, ITT, Director of Music, by leaving a note for him at the Hub Director's Office.
