Martin this week concerned his decision to bring Sawyer back as a member of IIT's trimmed faculty.

When asked why he decided to reappoint Sawyer after IIT had been accused of housing discrimination, Martin replied, "That's a difficult question to answer with an easy answer. The University's position had been, and I think it is, an honestly taken one, that there never had been a terminal position in the philosophy department and, for all practical purposes, there was never going to be one.

Martin looked at the controversy from an educational viewpoint. He can't build a quality educational program with a standard that there will never be tenure. That says that if he's going to hire new, young, energetic people to cycle through the program, and they'll never develop a sense of loyalty or attachment to the school because they're here for only a short time and then they're out," he said.

Martin continued along that line, saying, "All truly outstanding educational programs are rooted in the bonds of a strong tenured faculty. The sooner I acknowledged that, the sooner I acknowledged, was in philosophy, a subject in which IIT seeks excellence, how logically we should have some tenured professors."

The answer he decided on was "yes," Sawyer's background, and reputation were important factors in his decision, Martin stated.

As far as the former contention by IIT that they have no funds for tenure, Martin believes that it was a true statement. "However, in my opinion, I just say we're going to have to bite the bullet. If you're going to do anything, you might as well do it well."

The situation of the IIT's Board of Trustees is an analogous one as Martin sees it. He said, "The Board was unanimously recommendatory to the four faculty members, and whether the creation of a particular scheme or a new requirement is yet to be settled, as well as the 17,000,000 dollars in the nation's and its IIT's economy."

According to the office of the Dean of Graduates, the incident of minimum faculty compensation is twofold. Firstly, it compels the students and their advisors to feel concerned about curriculum evaluation and teaching. Secondly, it encourages the students to improve their qualifications, and accordingly, the teaching community available to them will be remarkable.

**SAFB Charter Close**

The future of the Student Activities Funding Board (SAFB) is in the hands of the Student Board members. Dr. Robert S. B. B. B., president of the board, will be meeting with the members to discuss the future of the SAFB.

**Beer Shows Head in Bog**

Today is the day when the Bog will be open to the public. The staff has been working hard to ensure that the Bog will be ready for the opening.

**Archy Dean Near**

The search for a Dean of the newly created College of Architecture, Planning, and Design is drawing to a close. Martin has indicated that he expects to complete the appointment within the next month.

**Grad Costs Up**

IIT's policy of granting financial aid, which allowed degree candidate and graduate students to register for one hour of credit in the evening division, has apparently been left as a tenor of the school's tuition rise. According to the office of the Dean of Graduates, the increase in tuition costs is due to the rising costs of instruction and the need to maintain a quality educational program.

**Beer Shows Head in Bog**

Today is the day that the Bog Brown, Director of the Library, and Tom Martin, president of this university, will open the Bog to the public.

Wrestlers Fold

The wrestling program at IIT officially collapsed this past Tuesday.

The program, which had been struggling all year, came to an uneventful end when IIT forfeited its match against St. Joseph's College. According to IIT Athletic Director Ed Ginos, the original squad of ten men decided to drop out, and eventually dropped to zero.

The final roster included five wrestlers preparing for the St. Joseph's meet were ineligible for academic reasons.

The first game this season was against Illinois, a team that had been scheduled to play IIT. "The meet was called off because of the weather, and the meet was declared a no-contest," said Ginos.

The loss of wrestling as a sport for IIT this year, according to Ginos, has forced the team to change its focus. "We're selling the idea of the three D's: Determination, Determination, and Discipline.

Appointments

Arthur H. Retzlaff, a 1952 graduate of IIT, was appointed to the post of IIT Director of Alumni Relations last month.

Alumni Association president, Edmund M. Burke, said that Retzlaff's appointment "marks the end of an era. Retzlafffooter 30 years of loyal service to IIT and the alumni association." IIT and Alumni Relations have been working closely together since the early 1960s, according to Retzlaff.

Robert H. Jarrell, business manager of IIT's Alaska Native Affairs program, has been appointed to the position of executive director of the Alaska Native Affairs program. According to Jarrell, the program's main goal is to provide educational opportunities for Alaska Native students.

Professor Norman B. Breyer, metallurgical and materials engineer, was appointed to the post of professor of materials engineering at the Illinois Institute of Technology. Breyer has been a member of the IIT faculty since 1970.

The first of these appointments was made on January 24, 1975.
The free Arts & Letters Boat in the Bag after registration last week went over well. Well enough, in fact, that there's going to be a sequel next year in the Bag. The boat, an example of the art of the boat, can be found in the basement of the HUB. It's all true, and you just might see your lab instructor there. Unless, of course, you're cutting class to go.

Art Theft
A painting on display in the HUB entitled "Man on Wheel," by artist Frank Rohacsey, was stolen over the weekend. Valued by the artist at approximately $300, the painting was on display along the east wall of the HUB, adjacent to the TV lounge. The missing painting was part of the HUB's ongoing series of art displays including photographic paintings, and sculptures.

Rohacsey's work was to be on exhibition from January 10 to February 4.

According to Assistant HUB Director Bob Wagner, "It is an unfortunate thing that someone would steal the stuff that we hope will make this place a little nicer." Wagner stated that the HUB has insurance to cover the loss.

Pekost, Publicity
While these people are not all on the UB Board, they can tell you what's going on at UB.

At a press conference yesterday, Dr. Abraham, a UB Board member, said that "the Board is concerned about the quality of life in the UB community. We are putting up with low prestige, low standards of living, and better films than the "Ballerina.""

Dr. Abraham said that all of the planning will still take place at the conference. The formal plans will be announced at a later date.

Another Loose End Tied Up

On February 8, 1974, Technology News printed an editorial critical of IIT’s policies which effectively discriminated against women at Tech. The case of FAYE SAWYER vs IIT was the specific instance which brought the matter to the fore.

It is a year later and finally the Sawyer case has been resolved. Apparently, one of the most difficult things for an individual or institution to do is to admit having made a mistake. In the instance of Faye Sawyer, one of IIT’s most commonly agreed upon mistakes, the University, through the influence of President Martin has attempted to correct a four-year-old injustice.

Faye is back, and IIT has saved face. But only through the efforts of one man, its president, to turn the whole thing may appear as just another embarrassing problem left behind by his predecessor, another loose end to be tied up.

But to IIT, these sweeping changes, these miracles, if you will, are just something to marvel at. What can we do but stand speechless, awed by the power that must certainly be needed to move such mountains of accumulated problems?

Martin showed remarkable resources of “plain common sense” in his handling of Faye Sawyer’s problem. Sawyer, on the other hand, displayed none of the bitterness that one might expect from a woman who was fired the same year she received IIT’s “Excellence in Teaching Award.” And on top of this, she has forgone the $70,000 she might have had claim to—something no one could expect from a woman who fought for four years for her right to teach here.

Will it gain the soul to laud Doctors Sawyer and Martin for their humanity towards one another, it’s depressing to see the everyday lack of it elsewhere across campus as winter and hard times get harder. So get it while you can folks.

• Archy vs ID

Dear Editor

The third page article in Technology News of January 17, 1974 under the headline “3 Million To Go To Crown includes a reference to the availability of computer time here at the Computer Center. The article quotes the Finance Committee Report as saying: “... with 75 per cent of the available computer time going to commercial use, there is simply not enough time available for academic purposes.”

This quote implies that there is a significant computer time lost after commercial use to satisfy the needs of the IIT community. In fact, the machine is idle for hours every day. While much of this idle time occurs late at night, the machine is often idle for short periods during the day, and when not idle it often is not running with the full complement of mass active.

Although at times in the past we have experienced backing problems these have been of a temporary nature and can be attributed in part to the fact that additional equipment comes into “lumps.” It should be noted that both the academic and commercial users suffer from the same delays when backlogs are high. The 110C configuration has been enlarged many times in response to additional usage. Even in our presently light utilization situation additional equipment is on order to improve throughput and turn around, namely a second communications interface and faster disc drives. But even before these upgrades take place, under present load conditions, the school could double its present utilization without saturating the system. Thus there is computer time being “lost” forever at the present time, due to the lack of utilization. This time is certainly available and ready for use.

Sincerely,
Michael T. McNamara
Systems Manager

Now, full scale planning...
A live interview with [Dr. Thomas] Martin will be broadcast on WIRT Thursday, January 30 at 9 p.m. This interview marks the debut of Forum, a panel discussion program which will be aired every three weeks. Listeners will be able to phone in questions to Martin. In Martin will be interviewed by J. Michael Blake of Technology News, Bob Marlin, WIRT station manager, and Dave Brown.

Bob Marlin, instructor of economics, has recently been named to the faculty. He will be teaching courses in economics this semester and will be available to advise students in the field.

The programs with Martin and Brown will actually be heard in the studio. The phone-in sessions will be broadcast over the network to students interested in the series.

The programs will be broadcast on WIRT and will be available for replay on the network.

The programs with Martin and Brown will provide an opportunity for students to discuss issues of concern to them.

The programs with Martin and Brown will be broadcast on WIRT. The studio will be available to students interested in the series.

Glancy On Sport

Cont. From p. 4

board—those who will only do what we call a "telephone athlete"

He is also proud of the fact that many of his players make the Dean's List regularly, and that the team's GPA is 240 overall.

But is the basker that interests Glancy at the moment? "Six hundred and fifty people is the largest crowd so far at a Hawk basketball game," Glancy says, "and there are 20 people in the crowd that I wish I could see."

Glancy hopes to get something like that going for the game against the University of the Pacific on Monday night. The game is not a home game, but it will be a good one for the Hawks.

There is also a chance that Glancy will be able to use the Huskies, with whom his team has a good relationship, to help Glancy. Glancy hopes to use the Huskies to help Glancy.

All it ever needed was some money and a little help.

Fanta Can't Read

Dr. Paul E. Fanta, Professor of Chemistry here since 1969, recently authored an article in a medical periodical entitled "Fanta's Law of Prolific Disease." The seven-page article is written in collaboration with fourteen co-authors, and the latest issue of the Oregon Medical Journal includes it. The article has been reprinted in the Oregon Medical Journal and is currently available at the Oregon Medical Journal library. Written in English, the article is not fully readable in its current form.

Emmanuelle was never like this.

Emmanuelle is sensual, but she's elegant. Emmanuelle is fantasy, but she's real. But most important, she leaves you with a singular lack of guilt. And that's the clue to its overwhelming popularity.

"Gorgeous sexual couplings..."
**Christian Fellowship**

The 7th-8th Christian Fellowship in its thirtieth semester at IT will be held on Wednesday evening, March 10, at 8:00 p.m. in the IT auditorium. The event will feature a special guest speaker and musical performance.

**IIT Chavarim**

The ninth-10th IIT Chavarim is scheduled for Saturday, April 11, at 8:00 p.m. in the IT Multipurpose Room. The evening will include a special guest speaker and musical performance.

**Music Show**

In celebration of the three-year anniversary of the IIT Music Show, a special anniversary concert is planned for Saturday, April 11, at 8:00 p.m. in the IT Multipurpose Room. The concert will feature special guest performers and musical performances.

**AIEE Meets**

The American Institute of Electrical Engineers (AIEE) will host its monthly meeting on Tuesday, April 14, at 7:00 p.m. in the IT Engineering Building. The meeting will feature a special guest speaker and musical performance.

**Hermann Hall Art Exhibits**

The annual art exhibit in the Hermann Hall Atrium will feature works by local artists and students. The exhibit is open to the public and will run until Friday, April 17.

**Crafts and Mime Miniprograms**

The annual Craft and Mime Miniprograms will be held on Saturday, April 18, at 8:00 p.m. in the IT Auditorium. The event will feature a variety of artistic performances.

**Personals**

The annual Personals meet-up will be held on Monday, April 20, at 6:00 p.m. in the IT Student Center. The event will feature a variety of social and networking opportunities.

*The Union Board and CTA of IIT Present The Classic Comedy Series All-Time Fines in Historically All Shows $75*
I dedicate this book to all the great men and women of music, in particular to a true Christian—Danny Matthews—because he helped me to come to Christ. I want Christ to be my Lord and Saviour forever, and I safeguard that He is my Lord and Saviour forever.

In the summer of 1972, I was in a state of despair and depression. I was feeling like I had no purpose in life and was just going through the motions of everyday life. I was in a relationship that was not fulfilling me emotionally, and I was struggling with my faith. I had been going to church for a while, but I was not feeling the Lord's presence in my life.

One day, I decided to attend a church service at a local church. I was not sure what to expect, but I knew that I needed to do something to change my life. I attended the service, and I was immediately struck by the passion and energy of the worship leaders. They were singing songs of praise and worship, and I felt a sense of peace and joy that I had not felt in a long time.

After the service, I decided to stay and talk to some of the people who were there. I was surprised to find that they were just like me—people who were struggling with their faith and looking for a way to connect with God. They welcomed me with open arms, and I felt a sense of belonging.

From that day on, I attended church regularly and began to study the Bible on my own. I found a new purpose in life, and I was able to overcome the depression that had been haunting me. I am thankful for the church and the people who helped me find my way back to Christ.
Hawks Split

by Glenn Hoffman

Sophomore guard Willie Williams and freshman guard Billy Klein led the Hawks back into the win column with a 63-58 victory over华东师范大学 on Monday night, Jan. 21.

Leading 61-60 after Saturday's close first half, Tech forced the issue in the second frame, with a 12-0 run that made it 99-68. The Hawks led by as much as 26 points, with 14:30 left.

Veteran center Nick Ryan hit a...
