Martin Meets Students

by Dan Velichek

On Friday, October 4, Dr. Martin met with twelve student leaders along with Dean Enos. It's new president, ITT's new president was introduced to members of ATS, PTT, ETC, WIT, CTA, UB, BSA, and the National Student Association. The next week, these student leaders met to plan an agenda and to argue knowledgeably about their overall academic environments. The most important discussion was held about Martin's main problems: his unfamiliarity with the campus and the. student's need for a more active involvement in the student organization's problems.

Donna Everson, ATS president, had this to say about him and his attitude: "I hope he will go out of his way to find out what the students want and what he can do to help them."

Dr. Martin said he was interested in what the students had to say and that he would try to make sure the students know that they have the power to do anything they want. But it seems that the power of student organizations is not too great. Despite this, he has been working hard to implement some changes.

IT Expert Looks
At Ford's "Economy"

by Sam West

Ford's President, Dr. Martin, revealed in a joint statement with the company and the student union, his program of stimulating the economic situation through a series of "self-helping" measures. Ford has done this by reducing the number of workers, increasing efficiency, and using public pressure to some extent of positive action. The average American, the President's plan seems straightforward and workable, but to many experts, Ford's "best idea" falls short. In his article, "The Ford Economy," Dr. Martin attempts to prove the value of the self-helping measures.

The President has proposed a 3 percent increase in price, a 5 percent increase in wages, and a 10 percent increase in productivity. He also wants to see some big changes, a 30 percent reduction in prices, and a 20 percent cut in wages. This is a very aggressive program, but it is necessary to meet the challenges of modern industrial society.

Dr. Martin: I feel that the people in this country have been misled. They think that the only way to solve our problems is to have more government intervention. But the biggest problem we have is not government intervention, it's lack of it. We need more free enterprise, more competition, more individual initiative.

UFW Movement Grows Here

IIT Student Activities Budgets Undecided...

The breakdown of the distribution proposed by Robert Bonfils, Dean of Students, at the extra funds is as follows:

<table>
<thead>
<tr>
<th>% of Original Budget</th>
<th>Proposed Distribution</th>
<th>% of Distribution</th>
</tr>
</thead>
<tbody>
<tr>
<td>ATS</td>
<td>61%</td>
<td>550</td>
</tr>
<tr>
<td>UIB</td>
<td>16%</td>
<td>500</td>
</tr>
<tr>
<td>CP</td>
<td>13%</td>
<td>450</td>
</tr>
<tr>
<td>CB</td>
<td>10%</td>
<td>400</td>
</tr>
</tbody>
</table>

With the anticipated new funds, there will be a total of $26,500 available for student activities. Of this amount, $3,120 will be used to cover deficits incurred last year. Thus the new funds really only come to a total of $23,380 more than was available last year.

The figures cited cannot be taken as exact amounts, however, because the exact amount of money available is still unknown, according to Bonfils. A special formulation is used to calculate the amount, and the results will not be known until the accounting information for September is available.

Trevor has used the issue, "responsible for overspending, dispensing money, and coordinating student organizations, more under the control of the students."

He admits that "it would become a fascinating place where nothing gets done, but at least the student body should be given a chance to see what they can do. That's the reason we are here, to gain experience from running and participating in the student activities."

**And Funding At Other Schools**

In an effort to find out how other colleges and universities are handled, I visited the offices of several higher learning institutions.

The important question is whether the tax payers are being made to pay for college students who are attending schools where they can be less responsible and accountable for their own financial support. In most cases, this is happening.

The University of Michigan is a prime example of this problem in comparing schools. The school newspaper, The Michigan Daily, gives the names of students who have large balances due to financial aid and other expenses.

Northwestern University funds student activities through a Student Activities Funding Board (SAFB). The Board gets its money through the office of the Vice President of Student Affairs, which supervises the money and will be available. The amount of funds made available depends upon how much money the school has left over from tuition funds after normal student expenses. For this year, the total organization requests totaled $120,000. But $80,000 was available.

The Student Activities Funding Board is composed of the president of the Student Forum, the student government, the chairman of the Activities Board, and representatives of other campus organizations. There is a total of 10 people on the Board. The Board gives money to the various organizations based on recommendations from the Board. Then each organization must recommend the amount of money they will spend on various activities.

**Air Force ROTC...The college scholarship program with sky-high benefits.**

Some people might need to be coaxed with more than a full college scholarship to enroll in the Air Force ROTC Program. But for those who are strong in both academic and personal qualities, the benefits are indeed sky-high.

The Air Force ROTC offers a monthly allowance of $150.00 for non-majors and $250.00 for majors in their junior and senior year, if you are not on scholarship.

And flying lessons, if qualified, provided by a technology department of the Air Force ROTC. Contact Captain James F. Wilcoxson, 725 S. Federal, I.I.T., Chicago, II 60616.

**PUT IT ALL TOGETHER IN AIR FORCE ROTC**
Congress Shuffles Ford's Proposal

Richard Nixon is dead. Politically, if not physically. But, according to his critics, one of the things he left behind has been a burning desire for honesty and accountability in government.

Not that long ago—Ford, a knight of American people, comes on the scene. His problems? Not inflation in the bud. He appeared before a joint session of Congress to unveil his "battle strategy to whip inflation." Despite his fervor, critics have called his proposals "weak" and "poorly aimed." But the one point that he stressed in his speech—the one instance where he called for some measure of patriotism: not from the American public, but from Congress itself—was ignored.

If we may quote the President, "I will not play politics with America's future." Apparently Mr. Ford is willing to bite the bullet (he's not being re-elected in November) but the Congress, obviously, is not so willing.

Although it was not mentioned in the after speech wrap-ups (surprisingly enough) Mr. Ford's call for the five percent income tax surcharge was laughed at from here to Altona. What Congressman in his right mind would vote a tax of any kind, into law a month before elections?

This is where it all comes out. Congress, the protectors of the American people—the conquerors of Richard Nixon—are also looking out for their jobs. It's not that they care anything for inflation; it's that they know any votes. No, all they did was to laugh at the President of the United States or to pretend to vote an income tax surcharge as a stomach gas to be able to stand behind him. Why did they laugh? Because his speech was too weak. Because his proposals left too many loopholes. Nor. Because they wanted to keep their jobs. Someone said that is all: "But Richard Nixon was not voted in on one time. Now that we have killed the ogre, perhaps it's time we did a little house cleaning as well."

Bridgeport
To the Editor:

I read with astonishment the article, "New Bridgeport Shays White." I noted what appeared to me to be an insensitivity to the motivations and experiences of the general inhabitants of Bridgeport. To my knowledge, the people of Bridgeport are generally of mixed descent, "white," being the pale slave masters' term used to dehumanize their ancestors. You see, the people of Bridgeport are basically culturally deprived, being descendents of those who until recent times, had been subjected for many hundreds of years by Anglos and African influenced Muslim nations.

In this country, they were forced into ghettos, such as Bridgeport, by the establish- ment, to perform the most menial jobs for the lowest wages. In Chicago, one of the largest ghettos in the world, where the predominant ethnic ancestry is

The "Letters to the Editor" do not necessarily reflect or express the views of Technology News. The opinions contained therein reflect only those of the author and the veracity of information contained in such letters cannot be guaranteed by the newspaper.

Letters to the Editor are your way of letting the IT community know how you feel about any issue. Technology News encourages students, faculty, staff, alumni, and parents to send letters to the newspaper.

Letters should be typed in 12 characters per line, double-spaced. They should also be signed and must be accompanied by the author's name and phone number. Names will be withheld upon request. The deadline is at 1:00 p.m. Friday for publication. Letters are limited to 200 words.

This week's issue of Technology News is published and delivered every Friday to the offices of the various offices of Technology News.

To All IIT Students:

We are now accepting applications at the Association of American Railroads Technical Center (on the IIT campus) for several computer programmers. Applicants should have previous computer programming experience and a Mechanical, Civil, or Computer Science background and must not graduate before May 1975. Applicants should be willing to work part time (15 to 20 hours per week) during school and full time during school vacations. If interested please fill out an application form at the main lobby of the Association of American Railroads Technical Center, 3140 South Federal Street, Chicago, Illinois (on IIT campus).
Cost. From pg. 4.

According to Austin’s Chandler and Chuck Parry’s North Shore, no easy way to distinguish that where Bridgeport’s blacks are black on tray on 172 nayers, 171 lawyers, 170 doctors, 170 scientists, 170 elephants and 170 sheep, are unable to adjust their aspirations properly from their viewpoint of being victims. I would further suggest that seeing their Irish brothers and sisters—yes, many children in Boston being morosely translated by country charges, the vestiges of their dehumanization, is turning narrow the dangerous passageways of lower-class black “projects” by harassment from the dark, that they have no other way to compromise their frustrations.

Put simply, you can display to yourself the dilemma of these people. Perhaps federally subsidized wages, subsidized meals, and money for Bridgeport “youth groups” to avoid their squabbles from their squad, crime victim inhabited surroundings. Can you see that such a system in the book for hundreds of years of slavery?”

Voices of the oppressed, please extend one me one courtesy. Examine my name, you see. The name has once been used as a pedigree, as a weapon, I will never forgive you for my opinions with unsigned hate mail. As George Wallace learned a liberal will always fight for his death for his right to speak.

Name Withheld By Request?

Sports?

Tech News

what happened to sports at Tech this week? It seems that the school was so busy trying to get ready for the football game this week that there was a lack of concern for the student body. Tech Nites is a program that is supposed to reach all aspects of student life at Tech and although we can’t lead to anything good and bad are important they are the elimination of sports on campus.

Paul Lanzani

Sorry about that. Due to layout conflicts, last week’s sports page went adrift. To make up for any of the omissions, we have a special sports section in this issue—THN.

Radios

Herr Editor,

I was bent over my kitchen table, wrestling with a half-finished Health& 50-30 Ham Radio/Communications receiver, passionately singing the praises of Health&Heart engineers, who, in their wisdom, made the Outside Diameter of the Main Dial Drive shaft greater than the inside Diameter of the MOD shaft bushing.

Suddenly, somebody started screaming a tract of obsolescence, and before I could even screw the tachometer’s head off, I was slammed down on the table, splashing for cubes and orange juice all over the place.

Whirling away towards the living room, daydreaming, for a hot minute (is this a cheap imitation of Jack Brickhouse?), I thought my cook was done.

“Keep your slimy paws off me!” she screamed. “Inside these tubes, sheaths, silicon glass! Is that all you think about?”

“Frightened!” I muffled, reaching for the fridge to grab a cherry pie. “I should be a goddamn rhythm.”

Sometime later, I was standing at Carlberg, watching the sun set and reading Dan Vukelic’s article about being kicked and punched into bloody hunchback by a gang of Boy Good Democrats—then squeezed into styrofoam dishes, sealed with Saran Wrap, and said at the Jewel on 31st and Halsted. “We’re结束了. Ground Floor.”

I was off for the love of a well stocked bar, mad.

If it brought back ‘shut up’ memories. Cl -ing my eyes. I saw a meter labels “RPM.” The needle stallibled around the right. 33000... 40000... 50000. I squeezed my foot against the carpet, because I knew that when I tell the church people, my brain would overload, smel, and drip out of my ears.

Indeed. Sitting in the Tech news offices, staring at the ugly, barbed wire waves over Don’s eye, listening to his melancholy lecture on how NOT to have Fun on a Friday night.

Then, just a few hours later, bungalowed down at a table with some friends in the ABC Tap, one of the few places in Bridgeport where they don’t give a damn about the color of your skin or length of your hair. A ‘higger’ bar.

We had closed up the After, the Flood Coffeehouse, and gone over to ABC’s to have a drink. Into the fifth pitch of Hammon’s conversation centered on going to see some of the great black bluesmen. Howlin’ Wolf, Muddy Waters…

But not at a college concert, where the audience is mostly white. There’s an entirely different thing. We were arguing seriously about meeting them on their home turf, like the black clique on 46th street.

The atmosphere, the rap, the music, just HAS to be different. Like the dichotomy between alcohol and smoke, suburbs and the city, the arts and the city... The atmosphere, the rap, the music, just HAS to be different.

Anyway, concerns had to be made. But this is the only way to continue to exist—why would anybody bother asking? Maybe it was the happy mood, probably the beer (alcohol has a surly effect on my objectivity...). But I seemed logical at the time. (Watch out now, I’m jumping out on a limb.)

To go into a bar and order a beer is no big deal. Strangers are always wandering into bars—far from something better to do. But for a bunch of Kibbutz kids to crash a black club, to absorb and get off on the atmosphere created by the people there, and take a peak at the Real Blues (is it to invade something so intimate, so spiritual.

And I hope this wonder. The 50-30 is together and working fine. It’s one of the better newspapers you’ve got... except for the fixture mechanism. But even at its finest hour, the 50-30 can’t hold a light for the magazine Collins 753, which caused my radio operating table a couple of years back. I suppose I have known better than to sell—I mean, I don’t know the way you say it in America? Sampling the grass on the other side of the fence?

I might just sell this damned Health&Heart and get another Collins... And I might go down to catch Muddy Water’s act this night. But then, once you’ve had a Collins receiver, you just can’t be satisfied with anything else.

And so to go...
from here-on-out

ATS Secretary resigns

From p. 3:

"Nothing can be done. We are helpless."

"The idea of the union is not the problem. The problem is that there are people who don't want to join.

Robert Smith, the local union leader, is under constant attack by the employers. The union is trying to negotiate a new contract, but the employers are not willing to bargain. They are demanding a 20% cut in wages and benefits.

The situation is critical. The union needs to take action to protect its members. We are working with the local chapter of the National Education Association to organize a city-wide strike. We will not give up until our demands are met.

Private Student Club

From p. 4:

"The students are divided. Some want to continue the status quo, while others want to work towards change."

"The union is trying to negotiate a new contract, but the employers are not willing to bargain. They are demanding a 20% cut in wages and benefits.

The students who have organized the boycott are determined to fight for their rights. They are organizing a city-wide strike and are calling on their fellow students to join them.

UFU to Boycott Hillman

From p. 5:

"The faculty and administration are not listening. They are trying to push through a new contract at all costs."

"The students are demanding a 20% cut in wages and benefits, but the employers are not willing to negotiate. They are determined to push through a new contract at all costs.

The students are not going to give up. They are organizing a city-wide strike and are calling on their fellow students to join them.

The light is fading. The sun is setting. We are running out of time."

The students are fighting for their rights. They are organizing a city-wide strike and are calling on their fellow students to join them. They are not going to give up. They are fighting for their future.

Hubble's nebulae are so beautiful that entire books have been written about them, but there is something more to be learned from the still-shocking readers, searching for the hidden treasures of higher truth among the countless and often amazing form-making totalities that fill the universe. In fact, not only have the most abstract, intellectual and unflagging reader, or even the most obtuse and skeptical, the smallest chance of finding out the real truth in the universe.

It is probable that the publishers' fault is that they have been too conservative, but the publishers' fault is that they have been too conservative. And the publishers' fault is that they have been too conservative. And the publishers' fault is that they have been too conservative.

Terry Gurn was in his car in the parking lot outside the Publishers Building, and he looked out the window at the crowd of people standing there. He could hear the sound of the traffic in the background, and he realized that he was late for his appointment. Terry Gurn was a successful author, and he knew that he had to be on time if he wanted to make a good impression on his publisher. He got out of his car and started walking towards the building, his mind racing with thoughts of what he was going to say to his editor. He knew that he had to be careful not to say anything that would upset the publisher, but at the same time, he wanted to make sure that his editor knew how much he cared about the book. Terry Gurn was determined to make his publisher proud, and he was willing to do whatever it took to achieve that goal.

The World was Will and Will's Wonders of the World technology. Terry Gurn was interested in the technology, but he was also concerned about the ethical implications of using it. He knew that he had to be careful not to use the technology in a way that would violate anyone's rights, and he was determined to use it for the benefit of all people. Terry Gurn was a responsible author, and he wanted to make sure that his work was used in the best possible way.

On the other hand, Terry Gurn was also aware of the challenges that come with writing a book. He knew that it was important to be patient and to take his time, even if it meant that the book would be delayed. Terry Gurn was a patient author, and he was willing to wait until he was ready to publish the book. He knew that the book was worth waiting for, and he was determined to make sure that it was the best book that it could be.

Technology News
by Bernie the Basque

The Packers are anything but, and don't quite have the talent to win a mediocrity game. RAMKHY L 9 AT MIAMI 1-0 AT WASHINGTON 1-0 The Redskins are having another "bubble" year in St. Louis, pound Denver, curl up against Cincinnati. This week they should be up again—and the Dolphins are turning-up to-lured in the defensive backfield and on the offensive line.

HELENING BY 3

NEW ENGLAND 1-0 AT NEW YORK JETS 1-0 Nobody has figured out what the Patriots are using for a defense—but then, nobody has the Dolphins were using for four years ago. Everyone knows what the Jets are using now, and it isn't enough. PATHWAYS BY 6.

SUNDAY NIGHTER AT DENVER 1-0 Last Sunday, in the second half against Kansas City, the season started for Denver. The Broncos regained a 2-1 deficit and won 17-14. Now that they've beaten the Chiefs, in Kansas City, they can rely on the Saints, who are just about helpless on the road. BRONCOS BY 7.

NEW YORK GIANTS 1-0 AT PHILADELPHIA 1-0 The Eagles bid for the NFC East title won't go much more than the Card's—but the Gints, oddly enough, haven't crumbled completely in any of their games.

EAGLES BY 1.

PITTSBURGH 1-0 AT KANSAS CITY 1-0 Even if the Packers' defense was a lot worse than the Chiefs, despite extreme age, should be able to frustrate the already-dilapidated Chiefs. With Joe Namath's return, the Pats will need to knock Kansas City out of the playoff race. The Chiefs are not quite good enough to qualify for the playoffs. RAMKHY BY 7.

SAN DIEGO 1-0 AT CLEVELAND 1-0 Are the Browns wise to re-sign the original owner of the franchise? Will the Browns fare any better than the Browns? It's a question with their problems apparent against the Rams, and they should look forward to the rest of the season. SF 1-0 AT MINNEAPOLIS 1-0 The Rams' defense, once a game-breaking strength, is giving them fits this year. And Tom Landry, a very good coach, has been a disaster this season.

DALLAS 1-0 AT LOS ANGELES 1-0 Not a whole lot to say about this game. Tarleton in Vegas and Enos in L.A. are the only ones.

SAN FRANCISCO 1-0 AT ST. LOUIS 1-0 The Rams, on an improved defense, are playing well these days. And Tom Landry, a very good coach, has been a disaster this season.

HOUSTON 1-0 AT MINNEAPOLIS 1-0 The Rams have a good defense, but they haven't been able to beat back the St. Louis Rams. The Rams are playing well these days. And Tom Landry, a very good coach, has been a disaster this season.

LOS ANGELES 1-0 VS GRIFFIN, in single place.

MILWAUKEE Still bided by the New England upset, the Rams might be more conservative now.

Soccer Wins

by Jerry McGrath

Last Saturday the IIT Soccer Team scored its first victory over a varsity squad by defeating Trinity Christian College 1-0 in a home game.

Both sides had difficulties generating any consistent attack. Each team had occasional scoring opportunities, but the first 45 minutes were largely dominated by the defense. Much of the half was consumed by long clearing kicks and long balls. All in all neither team was able to construct a goal-scoring opportunity. The match was evenly matched, with both teams having chances on goal.

For the IIT Hawks, the match was marred by the absence of Tony Hansen, Allan (Paddy) Kirkeby and Ken Persichelli. The visiting team included David Cheng, Ted Yang and George Telford. The game ended in a 1-0 victory for IIT.

At halftime Head Coach/Assistant Coach Steve Fager reminded the team about the short passing game and the breakdown play they had been using at practice.

The Hawks got the message. The rain slowed in the second half and the passing began to improve. Several times the Hawks pushed deep into Trinity territory, but the opponent's goalkeeper was alert to the challenge. The opportunity was taken when an indirect free-kick awarded to IIT when Trinity had two men back. The ball was deflected over the line by a Trinity player, and the IIT players continued to push for the goal.
Soccer Streak Stops

I.T’s first varsity soccer match was interrupted as the ball rolled into the stands. The two teams played to a stalemate on the field and the game was delayed due to the inclement weather. The match was cut short due to the rain and the game was played to a tie.

I.M. News

TOUCHBALL: The 1-M touchball season is progressing right along with the teams surging to the top in their respective leagues. In the Tuesday league, Nature’s Way took possession of the first place when they beat M.I. 36-12. The Winemaster Cowboys made a strong showing by batting Zoo B 3-0.

Thursday league action saw NORTIC take first place by soundly breathing Zoo A 3-0. In other action, TVHS crushed the Leper Colony 36-0.

I.T Winter Sports

Anyone interested in varsity basketball is invited to contact Coach Swanson in Keating Hall. Varsity full team has been a most successful endeavor. Many new team players have exhibited a great deal of potential, such as Vincenzo Kudler, John Digna, Jim Ricketts, and Rich Gourin. Also the venue appears to be worthy to work the form of last season. On Oct. 12 the team will participate in the NBA District 19 Tournament.

It’s a meeting of the minds... and bodies.

President Martin was at the establishment of the M.I. student government. The president was at the Student Affairs Office to mark the opening of the financial operations of the group of students. The group is making a request for a group of students from the WIT, Union Communications Board.
